## REPORT ON 3-DAY CANVA WORKSHOP

The Fusion Tech club, under the Department of Computer Science had organized an intra college workshop on Canva from 2nd May 2023 to 4th May 2023 in the online mode through Microsoft Teams. It was a three days workshop conducted in two sessions per day from 9:30am to 11:00am and from 1:00pm to 2:30pm in respective days. The workshop aimed to provide practical knowledge and hands-on experience to create professional looking designs and graphics using Canva.

The workshop was promoted through Instagram using posters, promotional videos as well as class-to-class announcements done by PR team. A total of 290 participants had registered from various streams like B.Com, B.Sc.(Life Science), B.Sc.(Physical Science), B.A, B.B.A, BCA, M.B.A and M.Sc.

### Day 1

The First day of the workshop focused on designing posters using Canva. A total of 280 participants had attended the workshop. The session began with welcoming all the participants and the dignitaries, followed by appreciations and blessings by Dr. G. S. V. R. K. Choudary, Principal BVC, Mr. N. Bhaskar, Head, Department of Computer Science, Ms. K. V. B. Saraswathi Devi, Senior Faculty, Department of Computer Science, Mr. G. Mahesh Kumar, Co-ordinator, BCA and Fusion Tech, Ms S. Jaya Laxmi, In charge, Fusion Tech club assisted by Ms. N. Sharon Rosy, Faculty, Department of Computer Science.

*N. Bhaskar*

The resource persons for the day were Pushyaarag C, Adep Ajay and S. Siddharth, Students of BCA, Members of Fusion Tech club, who demonstrated about designing of posters in Canva by providing few practical examples.

After the teaching session, the participants participated enthusiastically in the hands-on practice session and also had their questions answered. Participants were also given assignments to complete, which helped them to apply the knowledge they had gained. Feedback forms were circulated through WhatsApp group.

## Day 2

The Second day of the workshop focused on developing presentations using Canva. A total of 260 participants had attended the workshop. The session began with a review of the previous day's event and an introduction to the day's agenda by Thouti Jyoshna and D. Abhinav Vardhan, Students of BCA, Members of Fusion Tech club.

The Resource Persons demonstrated about the various templates, transitions and animations that are used to create a professional presentation by providing few practical examples. The teaching session was followed by a question-and-answer session, during which the participants raised questions and also had them answered.

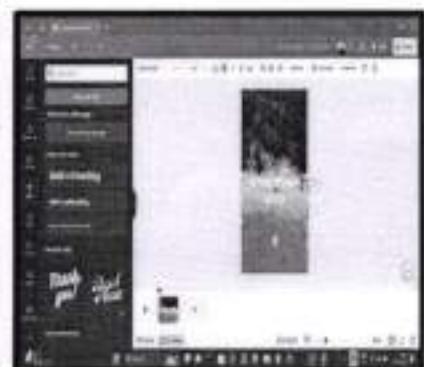

A short practice session was assigned to the participants where they had to create a presentation of 3-4 slides of their choice for better understanding of the topic. Participants were also given assignments to complete, which helped them to apply the knowledge they had gained.

N. Jyoshna

### Day 3

The Third day and final day of the workshop focused on video editing using Canva. A total of 286 participants had attended the workshop. The Resource person of the day, Adep Ajay, Student of BCA, Member of Fusion Tech club explained about the themes and fonts used for editing attractive videos, which was followed by editing professional live videos. After the teaching session, the participants questions were clarified by the resource person. Participants were also given assignments to complete, which helped them to apply the knowledge they had gained and Feedback was also collected by Google forms sent through WhatsApp group.

*A. J. Shukla*

The workshop ended with a valedictory session in which a video was played on glimpse of workshop to summarise the key learnings. The workshop report was presented by M. Lakshmi Harini, Student of BCA, Member of Fusion Tech club. This was followed by appreciations by Mr N. Bhaskar, Head, Department of Computer Science. The participants were then invited to share their feedback. The participants expressed their satisfaction with the workshop and appreciated the efforts by the organizers.

The posters created by various participants were displayed. The session ended with vote of thanks by Thouti Jyoshna, Student of BCA, Member of Fusion Tech club. The 3-day workshop was a success, with participants gaining valuable insights and practical knowledge on Canva.

Title of the Course: Summer Internship program on "PCB Design, Embedded Systems and Advanced IoT Applications"

Course duration: 1-5-2023 to 13-05-2023

Course hours: Minimum 2hrs daily for a total of 30 hrs.

No. of Beneficiaries: 9

Nature of Beneficiaries: BSc MECs IIyr

Department of Physics and Electronics in collaboration with NSIC Hyderabad organized a summer Internship program for BSc II yr. Electronics students from 1-5-2023 to 13-05-2023 (for 30 Hrs.). Nine students have participated and successfully completed the internship program.

PCB Designing is one of most emerging field in Electronics in today's era. PCB designers are key persons in research and development (R&D), electronics production units as well as in the PCB industry.

The Internship program was aimed to provide knowledge about simulation tool to test electronics & electrical circuits in OrCAD software environment to make physical PCB so that students can design their own projects. Nine students have participated and benefitted by this Internship program.

The expected outcome of this program is to gain relevant experience in PCB designing, skill based learning in embedded systems and IoT areas which provides self-employment opportunities for the students to have start-ups like PCB design and IoT solutions.

Following contents are covered in Internship program:

- Schematic Design
- Component Footprint Design
- Integrated Library Design
- PCB Design & Routing
- Etching of PCB
- Embedded systems programming
- sensor integration to various Micro controller boards
- Advanced IoT applications.

Mr. Bipin Godane, Technical manager, NSIC Hyderabad along with his team were the resource persons for the internship program and All the students responded that they have learned and had hands on experience in designing PCB and prototyping various IoT boards. They were very excited about participation in the internship program and requested for more such programs to gain the practical knowledge. The students were awarded course completion certificates upon successful submission of assignments.

## Workshop on Cell culturing Techniques

Department of Microbiology organized workshop on cell culturing techniques to MSc Microbiology final year students (37 participants) on 20<sup>th</sup> April, 2023 at Jeeva Biotech, Cherlapally, Hyderabad. 37 Students and 2 faculty Dr.K.Anuradha and Dr.Y.Aparna attended the workshop. The session started with a lecture on facilities available at the unit.

Dr.Uttam Kumar briefed about the Microbiology facility and demonstrated the Bio safety levels and containment facility in the lab emphasizing on the processing of sample received for analysis. Different equipment like HPLC,GC, Aflatoxin testing were demonstrated. Dr. Raju, Director of the company demonstrated cell culture techniques and maintenance techniques, growing of cells in DMEM media and Packaging of cells. Techniques demonstrated were Bacterial endotoxin test, Sterility testing, Air sampling by petriplate exposure, Cryopreservation techniques etc. The workshop ended at 4.30 pm with concluding remarks by director of company.

# Basics of Statistics Using R

15th February to 7th March, 2023

from 6:30 pm to 8:30 pm

**COURSE DURATION : 30 HOURS**

**FEES : RS 1000/-**

### About the Course:

The value added course on Applications of R will help participants to understand the various concepts in R and also able to do a real-time project in Statistics. Participants will get hands on training on R.

Target group: UG, PG Students, Research Scholars and Faculty members.

To,

The Principal,  
Bhavan's Vivekananda Degree College,  
Sainikpuri, Secunderabad

Respected Sir,

Sub: Permission to conduct a Value Added Course on "Basics of Statistics Using R" for UG and PG Students, Researchers and Faculty members under Cluster College Program.

The department of Mathematics and Statistics is planning to conduct Value Added Course on "Basics of Statistics Using R" for UG and PG Students, Researchers and Faculty members under Cluster College Program. This course is useful for placements and knowledge. In this regard we want to provide hands on training.

The details of program as follows,

Topic: Basics of Statistics Using R

Resource Persons:

1. Dr. V. Selva Kumar, Asst. Professor, Bhavan's Vivekananda Degree College
2. Dr. P. Rajini, Asst. Professor, Bhavan's Vivekananda Degree College
3. Dr. N. Chandan Babu, Asst. Professor, Bhavan's Vivekananda Degree College

Dates: 13/02/2023 to 03/03/2023

Time: 6:30pm to 8:30pm

Venue: Zoom Platform

Audience: UG and PG Students, Researchers and Faculty members

Registration fee: 1000/-

Participation certificate: On completion of course

We seek your permission for the conduct of the program.

Regards,

Yours faithfully,

**Value-Added Course in "Basics of Statistics Using R"**

Under Cluster College programme

**About the Course:**

The course will combine lectures on statistics and practical exercises, during which the participants will learn how to work with "R" language and environment for statistical computing and graphics. Using R Statistical analysis can be done on datasets related to agriculture, pharmaceutical etc.

**Course Objectives:**

- The main goal of this course is to update and complement the knowledge of students in applied statistics, preparing them to perform current statistical analysis supported by the software R.
- R can be used to perform simple and complex mathematical and statistical calculations on data objects of a wide variety. It can also perform such operations on large data sets.

**Course Outcomes:**

At the end of the course, the participants are expected to:

- choose the right method to summarize a dataset, graphically and numerically
- perform basic hypothesis tests on a dataset
- assess whether different variables are linked, using correlation and regression analysis
- Use the R statistical package to run statistical analyses and interpret their outcome

**Topics:**

- Introduction to R
- Data Visualisation and Basic Statistics
- Statistical Methods
- Statistical Testing
- Design of Experiments

**Target Participants:** UG and PG Students, Researchers, Faculty Members.

**Duration of the Course:** 30 hours

**Dates:** 13/02/2023 to 03/03/2023

**Time:** 6:30 pm to 8:30 pm

**Fees:** 1000/-

**Mode:** UPI Payment

No. of Hours: 30

**Course Objectives:**

- The main goal of this course is to update and complement the knowledge of students in applied statistics, preparing them to perform current statistical analysis supported by the software R.
- R can be used to perform simple and complex mathematical and statistical calculations on data objects of a wide variety. It can also perform such operations on large data sets.

**Module: 1 Introduction to R**

- Overview of R programming
- Downloading and Helping
- Help Menu
- Viewing Documentation
- Data Types
- Writing data
- Reading from CSV files
- General issues and applications of R

**Module: 2 Data Visualization and Basic Statistics**

- Creating Histogram and Box plot
- Creating Bar Charts
- Plotting with Base Graphics
- Computing Descriptive Statistics
- Generation of Random Variable

### Course Objective :

- The main goal of this course is to update and complement the knowledge of students in applied statistics, preparing them to perform current statistical analysis supported by the software R.
- R can be used to perform simple and complex mathematical and statistical calculations on data objects of a wide variety. It can also perform such operations on large data sets.

### Course Overview:

- Course Duration : 30 hrs
- Course Date: 15/02/2023 to 04/03/2023
- The course is offered to U.G and P.G students , Research Scholars and Faculty members.

### Course Outcomes:

At the end of the course, the participants are expected to:

CO1: Choose the right method to summarize a dataset, graphically and numerically

CO2: Perform basic hypothesis tests on a dataset

CO3: Assess whether different variables are linked, using correlation and regression analysis

CO4: Use the R statistical package to run statistical analyses and interpret their outcome

### Topics Covered:

#### Module: 1 Introduction to R

Overview of R programming, Downloading and Helping, Help Menu, Viewing Documentation, Data Types, writing data, Reading from CSV files, General issues and applications of R

#### Module: 2 Data Visualization and Basic Statistics

Creating Histogram and Box plot, Creating Bar Charts, Plotting with Base Graphics, Computing Descriptive Statistics, Generation of Random Variable

#### Module: 3 Statistical Methods

Fitting of Curves, Correlation Coefficients, Simple Linear Regression, Multiple Linear Regression, Logistic Regression

#### Module: 4 Statistical Tests using R

Large Sample tests: Mean, Proportion, Variances based on Single and Two sample observations

Small Sample tests: Mean (single sample and two sample observations), Variances (single sample observations), Variances (two sample observations), Chi-Square test for independence of attributes

**Module: 5 Design of Experiment using R**

ANOVA one-way Classification, ANOVA Two-way Classification

**Report:**

Value added course on R was organised by Department of Mathematics and Statistics under Cluster College Scheme from "15<sup>th</sup> February to 4<sup>th</sup> March 2023. This course was organised for to U.G and P.G students, Research Scholars and Faculty Members of different colleges under twin cities – Hyderabad and Secunderabad. Total 47 students enrolled for this course out of which no. of males are 10 and no. of females are 37

Dr. V. Selva Kumar, Dr. P. Rajini, Dr. N. Chandan Babu are the resource persons for this value-added course.

**Introduction to R, Visualization and Descriptive Statistics: (Day 1 to Day 6)**

Dr. N. Chandan Babu provided installation instructions for R as well as information on data categories and data frames. He provided clear examples for each idea while explaining scalars, vectors, matrices, and lists in data frames. He also demonstrated how to use r-Types programming's of Operators, which include assignment operators, relational operators, logical operators, and arithmetic operators. Each subject was thoroughly explained with an illustration. He then went on to discuss measures of central tendency, dispersion, diagrammatic representation.

**Probability Distributions, Statistical Tests & Design of Experiments (Day 7 to Day Day 12)**

Dr. P. Rajini continuing discussion of the subjects of probability distribution, hypothesis testing, and ANOVA. Binomial, Poisson, exponential, and normal distributions are all included in the category of probability distributions. For evaluating a hypothesis, both large samples (Mean, Proportion, Variances based on Single and Two Sample Observations), as well as small samples (Mean (Single Sample and Two Sample Observations), Variances (Single Sample Observations), and Chi-Square test for independence of characteristics), are included and ANOVA for one-way and two-way classification was also explained.

**Statistical Methods & Time Series Forecasting ( Day 13 to Day 15)**

Dr. V. Selvakumar interpreted statistical techniques such as correlation, simple linear regression, multiple linear regression, and logistic regression , Autoregressive Model , Moving Average Model, Autoregressive Moving Average Model and ARIMA Model for forecasting the stock price exchange .

The students found the course to be really helpful and have given positive feedbacks.

**Course Objectives:**

To understand and get trained in the basic processing and preservation techniques used in the food industries like dehydration, extension, pickling and analytical techniques like spectrophotometric analysis, HPLC and others.

**Syllabus:**

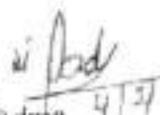

1. Potato dehydration and processing of pickle (salt curing).
2. Millet extruded snack and Popcorn preparation with the spice coating.
3. Preparation of tomato ketchup and Mixed fruit jam.
4. Preparation of RTS (Ready to Serve) beverage.
5. Analysis of moisture, brix, acidity and pH of food products.
6. Crude fibre, Colour and Texture analysis of extruded snacks.
7. Total plate count of yeasts and molds.
8. Spectrophotometric analysis of polyphenols.
9. HPLC analysis of  $\beta$ -carotene and Crude fat analysis by Soxhlet extraction.
10. Estimation of protein content and determination of total ash content.
11. Mixing of spice mix for pickles, bottling and packaging of food products.

**Course outcomes:**

At the end of the course students will be able to

Implement standard operating procedures and practices in food processing industries and organizations or get into self-employment by initiating startup.

Apply the knowledge gained on instrumentation of sophisticated equipments in large scale food processing industries and organizations in development of food products.

Report

Value Added Course

"Hands on cum Quality Control Training Programme on Food Processing and Preservation"  
CFTRI (Centre for Food Technology Research Institute), Habsiguda, Hyderabad.  
2022-23

13<sup>th</sup> to 16<sup>th</sup> of February, 2023.

The department of Biochemistry & Nutrition, Bhavan's Vivekananda College of Science, Humanities and Commerce has organized a four day value added course on "Hands on cum Quality Control Training Programme on Food Processing and Preservation" of 30 hours as a part of skill development in collaboration with CFTRI (Centre for Food Technology Research Institute), Habsiguda, Hyderabad.

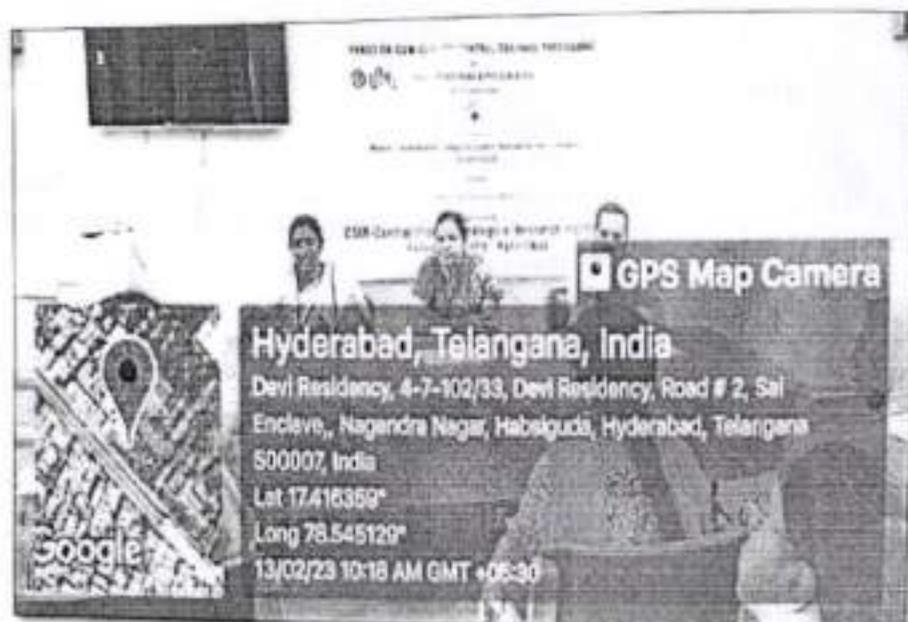

The value added course was scheduled from 13<sup>th</sup> to 16<sup>th</sup> of February, 2023 CFTRI, Habsiguda, Hyderabad from 10:00 am to 6:00 pm. A total of 14 MbNDC III year students have undergone the training session. Students had hands-on training in various food processing techniques like preparations of mango juice, tomato pickle, mixed fruit jam, tomato ketchup, dehydrated potato chips, kurkure, popcorn, and chocolate. Apart from this quality analysis of protein, fat, fibre, moisture and ash content of the products were also done.

On day 1, students had an introductory lecture by Dr. T. Jyothirmayi, Senior Principal Scientist & Head, Dr. S.V.N. Vijayendra, Senior Principal Scientist. Initial preparations of tomato pickle, dehydrated potato chips were done followed by a lecture on quality analysis of nutrients by Dr. Sreedhar, along with preparation of intruded snack kurkure from a combination of two millets and a pulse. The day ended with a chocolate preparation. On day 2, students continued with tomato pickle preparation and dehydrated potato chips. Tomato ketchup and mango juice preparation and bottling along with analysis of moisture and protein were continued. Microbial analysis for the presence of yeast and other microorganisms in the intruded snack kurkure was also done.

On day 3, preparation of mixed fruit jam, packing of dehydrated potato chips, analysis of polyphenols, fibre and ash were completed. It continued with a lecture by Mr. D. Madhusudhan Rao, Senior Technical Officer, on packaging of different food items. On day 4, final preparation of tomato pickle, pop corn preparation, packing of the prepared food items and labeling was done. The training was concluded with valedictory session. The day ended with question and answer session followed by feedback from the students and distribution of certificates to the students. Overall the training session was very enriching with good technical knowledge on various food preparations and their analysis.

**Value-Added Course: Basics in Bioinformatics**  
 Under Cluster College programme

No. of Credits: 2 credits

**About the Course:** The subject of bioinformatics involves the application of information technology to analyse data from biological samples. This knowledge further helps in diverse fields like drug design, crop improvement, evolutionary studies etc. The present value added course aims to explain and provide hands on training on the use of the basic genomic, transcriptomic, proteomic and drug design tools that can be used for the data analysis.

**Course Objectives:**

- Cob1:** To explain the use of databases and tools to analyse genes and proteins as well as drug designing
- Cob2:** To demonstrate the use of databases and methods in analysing gene and protein sequences and design of drugs

**Course Outcomes:**

At the end of the course, students will be able to:

- CO1:** Choose appropriate databases and tools for analysis of genes and proteins
- CO2:** Apply the bioinformatics tools to compare the DNA and protein sequences across species and design suitable drug molecules.

**Syllabus:**

**1. Theory (15 hrs)**

- 1. Introduction to biological databases (1h)
- 2. Content of DNA, RNA and protein databases (1h)
- 3. Genomics (Genome information and special features), Gene prediction (2hr)
- 4. DNA sequencing technologies (1hr)
- 5. Pair-wise and multiple sequence alignment (2hrs)
- 6. Phylogenetic Analysis (1hr)

## Report on the value added course in Basics of Bioinformatics under cluster college scheme

The Faculty of Life sciences organized a Value Added Course on "Basics of Bioinformatics" for UG and PG Students under Cluster College Program from 13<sup>th</sup> February, 2023 to 03<sup>rd</sup> March, 2023. The course started with a brief inaugural programme which was addressed by the Principal, Dr G.S.V.R.K.Chowdary, IQAC coordinator, Mrs. B.Niraimathi, Cluster College Coordinator, Dr.K.Suvarchala Rani and was well attended by the resource persons of the course, Dr.K.Anuradha, Dr.J.Sarada, Dr.Y.Aparna and Dr.S.Anju from the Department of Microbiology, Dr.B.Kalpna, Dr.S.Nagamanju, Dr.SushmaPatkar, and Ms.Metilda Rosalin from the Department of Genetics and Biotechnology, Dr.A.SaiPadma, Dr.S.Padma, Mrs.S.Varitha, and Dr.S.Manju Devi from Department of Biochemistry and Dr.L.Arunapriya from the Department of Chemistry and participants from colleges in twincities and other states. The course coordinators for the value added course were Dr.S.Padma from the Department of Biochemistry and Dr.Y.Aparna from the Department of Microbiology.

The main objective of the course was to provide hands on training on the use of the basic genomics, transcriptomics, proteomics and drug design databases and bioinformatic tools that can be used for the analysis of genes and proteins. The course curriculum covered topics ranging from sequence retrieval to drug designing by the resource persons. The modules were designed with Activity based learning and evaluation of learning outcomes were assessed at the end of each module by assignments. All the modules have interactive sessions where the students took active participation. A total of 38 participants including undergraduate, postgraduate students, research scholars and faculty members took active part in the course and submitted the activities assigned to them by the resource persons.

The course concluded with a valedictory session in which the participation certificates were distributed to the participants by the principal, IQAC coordinator, cluster college coordinator, course coordinators and the resource persons. All the participants gave an excellent feedback on the hands on training provided during the course and expressed their interest in exploring career in bioinformatics.

Bhavanotsav Events Organized Under Dept. of Computer Science 2022-2023

### Solvathon Report

Department of Computer Science has organized an event Solvathon which is a coding competition for newbie's, intermediate and advanced coders as a part of Bhavanotsav.

### Flyer

This event was conducted by 13 Student volunteers along with Ms. PadmaPriya, Assistant Professor and Mr. Venkata Narayana, Programmer in Department of Computer Science.

The event began at 12:30 P.M on Feb 9<sup>th</sup> 2023 in N21A, N21B and N21C Computer labs in Library block, Bhavan's Vivekananda College.

*N. P. Shetty*

Interesting coding questions were given to solve as part of this competition. Each team consists of 2 participants. This competition will build student vocabulary as a coder and also add a great value to student's resume.

Two first and two second prizes are awarded to the best participants and all the remaining participants will receive a participation certificate. **Total 13 teams** attended the competition. There are two rounds conducted in the competition.

### **Round 1:**

Try to run the given application in choice of your language (Python, Java) in command prompt, Solve the logical and Syntax errors in the Command line application.

The Following is a Task Management Application, the features include:

- 1) Able to View all the current tasks in a chronological order.
- 2) Able to append new tasks to the Task management system.
- 3) Mark tasks as done.

### **Round 2:**

Create an encryption and decryption function that takes a single string .The encryption function takes a single string converts it into a encrypted string .The encrypted string when given to the decryption function should return the original String .This can be done in any programming language.

## Report on Technophilia 2.0

Department of computer science with fusion tech club conducted a technical event called Technophilia 2.0 on 9<sup>th</sup> September 2023 at 12: 00 pm in room no 21 and 22 IT block. Total 72 students participated in 13 teams with size of 2/4/6 in each. The judge for the event was Ms. Vyshnavi Bussa, she is an alumni of our college, working as junior Site Reliability Engineer in Copart India technology centre.

The event was conducted in two phases to test the partnership of the team with logical and creative activities. The teams were divided into two half's to execute each phase. Master Mind and Logic IT were conducted to test the logical skills of the team. Where in the team had to crack the code in 30 minutes for the cases given to them. Under creative concern Teaser teller and Blind logic was conducted, where the students had to make graphical teaser on latest technologies within the given time. Blind coding assisted the participants to test the typing skills and focus strength by typing and executing a HTML code without the display on the monitor. The participants who were able to execute the HTML code properly were then given a C++ Question. They had to write the code on an A4 sheet and then type the code with their screens switched off. This helped the students to improve their focus as well as their technical knowledge on the subject.

The winners of the event were from BSC MSCS 1A, the Runner up's were from BSC MECS 3A and the 3<sup>rd</sup> prize winners were from BCA 1<sup>st</sup> Year.

### Winners of the event!!

1. Vardhini Paspunuti
2. Annamraj Hema shree

# SQUAD ON DUTY

The FusionTech Club under the Department of Computer Science, organized an inter-college Gaming event on 9th February 2023 named, "Squad On Duty". It was streamed through an online multiplayer battle royale game known as "Call Of Duty".

The event was conducted through the 'offline mode' in which students from various colleges took part. A total of 16 Team registrations (80 Students) were received with great enthusiasm. The registered participants were grouped into Squads of 5.

There were two tournaments sessions where each session consisted of 8

squads. The event was conducted via Rooms which were created by the Fusion Tech Team using Room Cards. Each room consisted of two squads. A total of 3 rounds namely league, quarter final and semi final matches were organized in each sessions. Raid, Standoff and Summit maps were used in these rounds. League match consisted of 8 squads from which 4 winning squads were qualified to the quarter finals. Two victorious squads from quarter finals were qualified to the semi finals from which one team was selected for the ultimate final round in each sessions. These selected squads were part of final match from which we got the first and second prize winners for the entire event.

## **The winners are:**

J Akshith, A Rampranav, Anit Biswas and Anirudh from bhavan's Vivekananda college and Karthik Pabba from Loyola college

## Report of Workshop on Embedded Systems for Robotics & IoT

The Department of Physics & Electronics, Bhavan's Vivekananda College organized a two day workshop on Embedded Systems for Robotics & IoT on 3<sup>rd</sup> and 4<sup>th</sup> February 2023. In this Two-day course, students have gained valuable hands-on experience.

Number of Students participated: 27 from BSc MECS/MPCS/MSCS

Resource Person: Mr. Bipin. S. Gondane

Siddhartha Technologies & Services,  
Secunderabad, Telangana.

Topics covered in the workshop:

Day 1:

1. Introduction to Embedded Systems, IoT & Robotics
2. Introduction to Arduino programing in IDE environment
3. Introduction to Raspberry pi Pico, ESP8266 & ESP32 boards
4. Programming with micro python.

The first day of the Workshop began with an introduction to embedded systems, IoT, ESP 8266 and ESP32 modules. The session was highly informative and it covered the programming with embedded devices. Mr. Bipin. S. Gondane demonstrated Arduino programming and sensor integration to various Micro controller units. The speaker has presented Short videos on how to develop various web applications for Internet of Things (IoT). Basics of Micro python and C language programming techniques required to work with IDE environment were discussed and few pre designed applications were demonstrated.

Day 2:

The second day of workshop began with hands on session, interfacing IoT development boards with various sensors and simultaneously programming was taught. By interfacing these sensors with Arduino few applications like robotic arm, RFID door lock systems were developed.

Outcomes of the workshop

Students gained knowledge on open source platforms (Open source Hardware and Software). Hands on training sessions enabled the students to acquire necessary skills to do projects in IoT & Robotics on their own. On the whole the workshop was educative on both theoretical and Practical aspects. The workshop was very helpful to all the aspiring students who would like to make career in embedded systems & IoT. Overall 27 students from BSC with MECs/MPCS /MSCS have attended and benefited from the workshop.

## ON THE MOVE

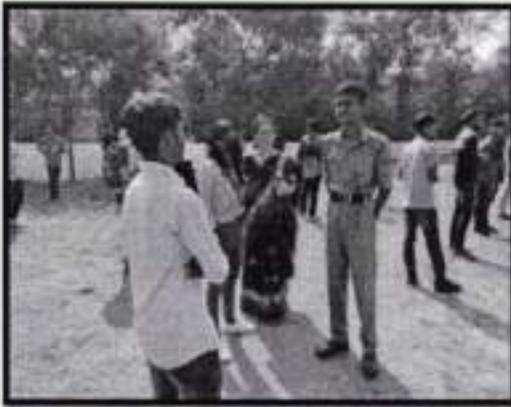

The Fusion Tech Club under the Department of Computer Science hosted an event named "ON THE MOVE" on January 21, 2023. The event was exclusively open for BCA of 1st, 2nd and 3rd years.

The event began with class-to-class announcements by the PR team, as well as registration links circulated among respective class groups. Interested students could register themselves for the same. A total of 48 participants have registered.

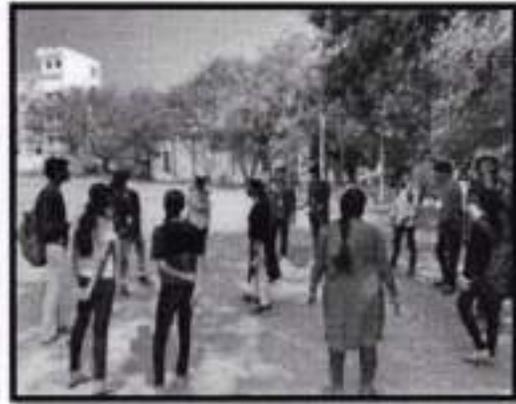

*N. D. Shukla*

Round1 – ***HEAR ME!!*** : This round was a team event, with 4 teams taking part. Each team consists of twelve individuals. In this round we had two cycles in which one cycle is, passing on a chit to the first person, the first person should whisper it to the second person and it passes on till the last person. The last person will say the sentence out loud which he/she guessed.

***Second cycle:*** From the first cycle 3 teams were qualified, in this cycle the participants were made to form a circle where they were given two lines of sentences to the first person which should be whispered to the corresponding person. The last person will say the sentence out loud which he/she guessed.

*N. P. Shukla*

Round2 – ***MAZE RUNNER*** : The final round included 1 team which qualified from round 1 . A maze was drawn on the ground, 3 participants had played at a time. There were questions in the form of mcq's for each turn, and the participant with the minimum time and maximum right responses was declared as the winner.

N. Bhatnagar

**Judge Ms. B. VIJETHA, Lecturer, Department of Computer Science, assessed the round and determined the winners after conducting a thorough analysis.**

**WINNERS :**

**The 1st Prize was bagged by:  
BAIROJU VISHAL (BCA-2SEM)**

**The 2nd prize was bagged by:  
B N KARTIK- (BCA-2SEM)**

A report on Guest Lecture

**Robotics, IoT and Artificial Intelligence**

held on 9<sup>th</sup> January 2023

Guest Speaker: Mr. M. Sravan Kumar

Target audience : Physical sciences IYr students

No. of beneficiaries : 30

Robotics is a field of study and engineering that deals with the design, construction, operation, and use of robots. A robot is a machine that is capable of carrying out a series of complex actions automatically, especially by being programmed by a computer. Robotics technology is used in a wide range of applications, including manufacturing, healthcare, education, and entertainment.

The speaker, Mr. M. Sravan Kumar, has explained different types of Robo's, communication methods used and how they will be programmed. He has demonstrated a Robo which their company has developed for medical application specifically in surgery to perform minimal invasive procedures.

## WORDLE

The Fusion Tech Club under the Department of Computer Science hosted an event named "WORDLE" on January 7, 2023. The event was exclusively open for BCA of 1st, 2nd and 3rd years.

The event began with class-to-class announcements by the PR team, as well as registration links circulated among respective class groups. Interested students could register themselves for the same. A total of 81 participants did register and actively participated.

**Round1 – Puzzle Guzzle** : This round was a team event, with 27 teams taking part. Each team consists of three individuals. With a 7-minute time limit, they had to complete a crossword puzzle given to them. Teams qualified for the next round by correctly solving the most clues within the allotted time.

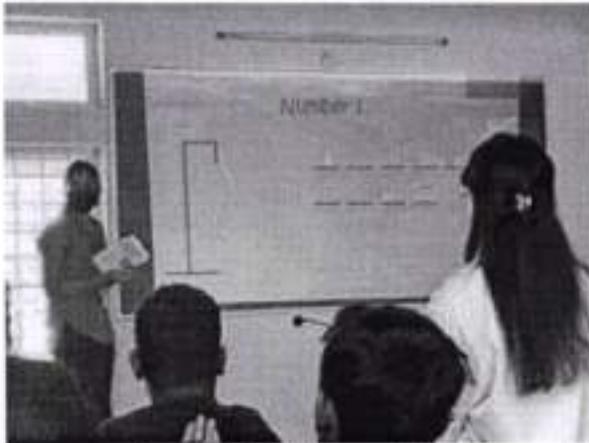

**Round2- Alphabet Pebble**: 16 teams from the first round qualified for this round. Here, Multiple options were given to the participants and they had to pick one of their choice and guess the word with the letters kept jumbled in bubbles in a time limit of 40-secs. The team with the most points at the end qualifies for the final round.

*N. I. Shukla*

**Round3- Spaceman:** 4 teams from the second round qualified to the final round. Here, The word to guess is represented by a row of dashes

representing each letter of the word. Each team had 6 chances to fill the dashes with the right letters.

*N. I. Shukla*

**WINNERS :**

The 1st Prize was bagged by:

Shashank Yadav (BCA-6SEM), Shaik Abdul Hadi (BCA-6SEM), Abhishek Kumar (BCA-6SEM).

The 2nd prize was bagged by:

Karan Singh (BCA-6SEM),  
Prerna Tunk (BCA-6SEM),  
Sharath Chandra (BCA-6SEM).

### REPORT ON MATLAB VALUE ADDED COURSE

The Department of Mathematics and Statistics conducted the value added course during 2<sup>nd</sup> Jan 2023 to 31<sup>st</sup> Jan 2023. Dr. Sateesh Kumar Associate Professor in Mathematics from KL University, Vijayawada was resource person. 31 students have registered and successfully completed the course.

The resource gave a lectures on MATLAB and its applications in the present field of Science and Technology .

The first day of the session was all about introducing the software MATLAB for beginners. Few sessions was for the participants to learn the basics of MATLAB and predefined MATLAB functions. Handling of arrays, Interpolation, 2d and 3d Plotting techniques were also taught. Concepts of linear algebra, data analysis using curve fitting toolbox, solving ordinary differential equations and Optimization techniques were discussed.

The participants induced a driving force to familiar themselves regarding such Mathematical solvers and software. The certificates of participation and feedback were given at the end of the program. The participants expressed their gratitude towards knowledge gained and indicated a happy learning experience at the end of the Course.

## HARDWARE HIVE

The Fusion Tech Club under the Department of Computer Science hosted an event named "HARDWARE HIVE" on December 24, 2022. The event was exclusively open for BCA of 1st, 2nd and 3rd years.

The event began with class-to-class announcements by the PR team, as well as registration links circulated among respective class groups.

Interested students could register themselves for the same. A total of 66 participants have registered.

N. P. Shrestha

Round1 – YOU CANT SEE ME! : This round was a team event, with 11 teams taking part. Each team consists of six individuals. Two members from each team had participated in the event in which one member was blind folded and the other noted down the component guessed by his/her teammate. The team that ends up with the most points advanced to the next round.

*N. Ishaan*

Round2 – VULCANE HEARING : This was a memory testing round. 6 teams were qualified from round 1 for this round. Two members from each team had represented their team. Sentences with hardware components had been told out loud. Once the hearing is done the participants had noted down the component names with 90-seconds of time restriction. Teams that recorded themaximum correct responses progressed to the final round.

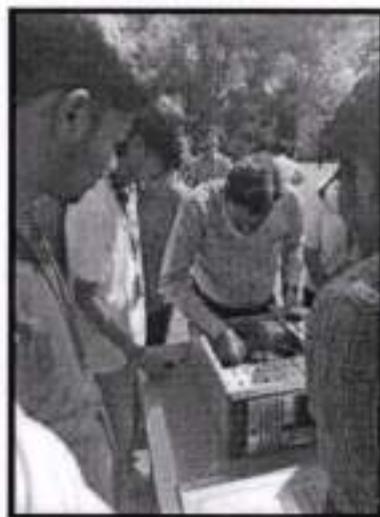

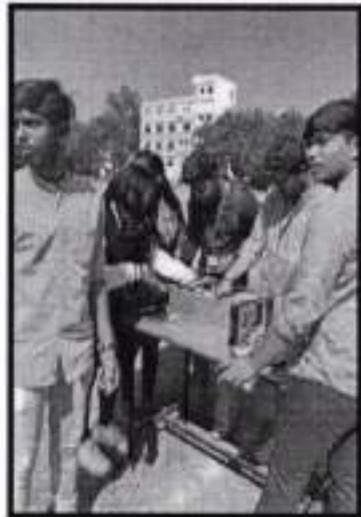

*N. Bhatnagar*

**Round3 – SCREW FIX :** The final round included 4 teams who had qualified from round 2 .One person from the team is given a chance to get 1 component at a time from the table which is placed at a distance. All the members coordinatively assembled the CPU with 15-minutes of time restriction.

**Judge Mr. K. SRINIVASA RAO, Lecturer, Department of Computer Science, assessed the round and determined the winners after conducting a thorough analysis.**

on

Guest lecture - Awareness on cybercrime.

Date 16.12.22

Time 9:50 A.M. - 10:40 A.M.

No. of Participants 39

A guest lecture was conducted for the students of BA II by the Department of Economics Faculty of Arts. T. Shruti, Chief Manager of SBI, Corporate Center, Mumbai, addressed the students on online banking and other online frauds. She gave the students insights on the rules and regulations to follow while doing online transactions and advised about the necessary do's and don'ts.

Students were advised not to use any transaction apps which are not approved by a bank. They could lead to frauds or other cyber crimes. In case of any online fraud, one can claim transaction insurance from the bank if the incident is reported within 30 days of occurring.

Some cybercrime helpline numbers and portals were also shared with the students, like 1930 (cybercrime helpline no.) and <https://cybercrime.gov.in> (cybercrime complaints portal). Overall, it was a very informative event. Students were able to learn useful details about online banking and cybercrime.

**5<sup>th</sup> to 9<sup>th</sup> December, 2022**

The Department of Biochemistry & Nutrition, Bhavan's Vivekananda College of Science, Humanities and Commerce has organized a five day Value Added Course on "Hands on training in Pharmaceutical Basics and Analytical techniques" as a part of skill development in collaboration with The Pharma Patashala, Miyapur, Hyderabad.

The value-added course was scheduled from 5<sup>th</sup> to 9<sup>th</sup> December, 2022 at the Pharma Patashala, Miyapur, Hyderabad. A total of 27 M.Sc. 2<sup>nd</sup> year Biochemistry [Semester 3] students has undergone the training sessions. Students had a hands-on training on sophisticated analytical equipment like HPLC [High Performance Liquid Chromatography], UV Vis Spectroscopy, Karl Fischer Titration, Disintegration apparatus, LOD [Loss on Drying]. Apart from these they also had live demonstration on Dissolution Apparatus, Friability, and various other equipment's.

On day 1, students had an introduction session by Dr. P.V.V Satyanarayana, Managing Director, The Pharma Patashala, on Pharmaceutical activities where the students were briefed about production of API [Active pharmaceutical ingredient] from the raw materials, till a complete formulated drug was produced and about the instruments that were available. Day 2, students had lecture on common standard abbreviations, which was mostly focused on standard terms used in pharmaceutical industry. Day 3, began with a lecture and practical exposure on Karl Fischer titration an instrument which is used to measure the water content of the drug and Loss on Drying.

Day 4, students had lecture on introduction, principle, instrumentation, data interpretation, software used and applications of HPLC and UV-Vis Spectroscopy. This Lecture was followed by a hands-on experience by students where they injected drugs like Ciprofloxacin and Metformin to find out the Retention Time of the drugs by HPLC. Day 5, students had a training session on UV-VIS spectroscopy which was followed by a theory session on Stability Testing of Pharmaceutical Products.

On day 1, students had an introduction session by Dr. P.V.V Satyanarayana, Dr. A. Sai Padma, Head, Department of Biochemistry & Nutrition, Bhavan's Vivekananda College of Science, Humanities and Commerce addressed the students and thanked the Pharma Patashala organization for extending their association in enhancing the interest among the students to start their career in research and pharmaceutical industries. Overall, the value added course had been very useful for students in learning various analytical techniques that are carried out in Pharma industries. The value-added course was concluded with question and answer session followed by distribution of certificates.

Day 4, students had lecture on introduction, principle, instrumentation, data interpretation, software used and applications of HPLC and UV-Vis Spectroscopy. This Lecture was followed by a hands-on experience by students where they injected drugs like Ciprofloxacin and Metformin to find out the Retention Time of the drugs by HPLC. Day 5, students had a training session on UV-VIS spectroscopy which was followed by a theory session on Stability Testing of Pharmaceutical Products.

Value Added Course on  
"Hands on Training in Pharmaceutical Basics and Analytical Techniques"  
In collaboration with The Pharma Patashala, Hyderabad  
05/12/2022 - 09/12/2022

**Course Objectives:**

To understand the basic procedures used in pharma industry and to train the students in analytical techniques like HPLC, Spectroscopy and others.

**Syllabus**

1. Overview of Pharma industry, various departments and their role and responsibilities.
2. Introduction to analytical instruments and their uses.
3. Important abbreviations which are used day to day in Pharma Industry.
4. Theory and Practical of Melting Point Apparatus.
5. Introduction to Chromatography, Theory and Practical of High Performance of Liquid Chromatography (HPLC).
6. Stability study of pharmaceutical products.
7. Theory and Practical's of Disintegration, Friability and Tablet Harness tests.
8. Introduction to Spectroscopy. Theory and Practical of FTIR.
9. Determination of water content by Karl Fisher titrator and KF Standardization.
10. Solubility as per USP and various products solubility testing.
11. Loss on Drying testing - theory and practical.

**Course outcomes:**

At the end of the course students will be able to  
Implement standard operating procedures and practices in pharma and other industries.  
Apply the knowledge gained on instrumentation of sophisticated equipments in large scale pharmaceutical and biotech industries in determining the quality of products.

1. Overview of Pharma industry, various departments and their role and responsibilities.

At the end of the course students will be able to  
Implement standard operating procedures and practices in pharma and other industries.  
Apply the knowledge gained on instrumentation of sophisticated equipments in large scale pharmaceutical and biotech industries in determining the quality of products.

**Report on Mushroom cultivation workshop (SEC)**

Department of Microbiology in collaboration with 'S' Mushroom Agri tech, Kukatpally organized a Two day workshop on "Mushroom cultivation" for M.Sc final year students on 2<sup>nd</sup> and 3<sup>rd</sup> December,2022. Dr.Y.Aparna, faculty accompanied 37 M.Sc final year students for the Two day workshop.

On 2<sup>nd</sup> December 2022, Resource person Dr K. Prasuna CEO of 'S' Mushroom Agri tech, briefed on her experience as entrepreneur and significance of Mushroom cultivation. The Lecture included the basic knowledge on structure and various stages in mushroom growth, environmental factors influencing their growth, farm design, budget for starting mushroom cultivation as small-scale industry and preservation and common diseases encountered during cultivation of mushrooms. The lecture also emphasized on growth of different types of mushrooms like White oyster, Pink Oyster, milky Mushroom and Button Mushroom. The second half of the day was on sterilizing the paddy straw using hydrated lime and the post sterilization processes involved. The day ended with drying of sterilized mushroom. Day two ie 3<sup>rd</sup> December 2022 started with hands on training initially by packing of Mushrooms in bags with spawn. Different types bed preparations also are demonstrated. The second half of the session focused on economics and logistics of mushroom cultivation. This workshop had provoked entrepreneurial skills and motivated students to think about start ups in this area.

VALUE ADDED COURSE (2022-23)

FINANCIAL MODELLING

REPORT- B.Com 3H1 , 3H2,3A1,3A2,3B,3C

**Duration:** 15 Days (30 hrs, Nov- Jan in two batches)

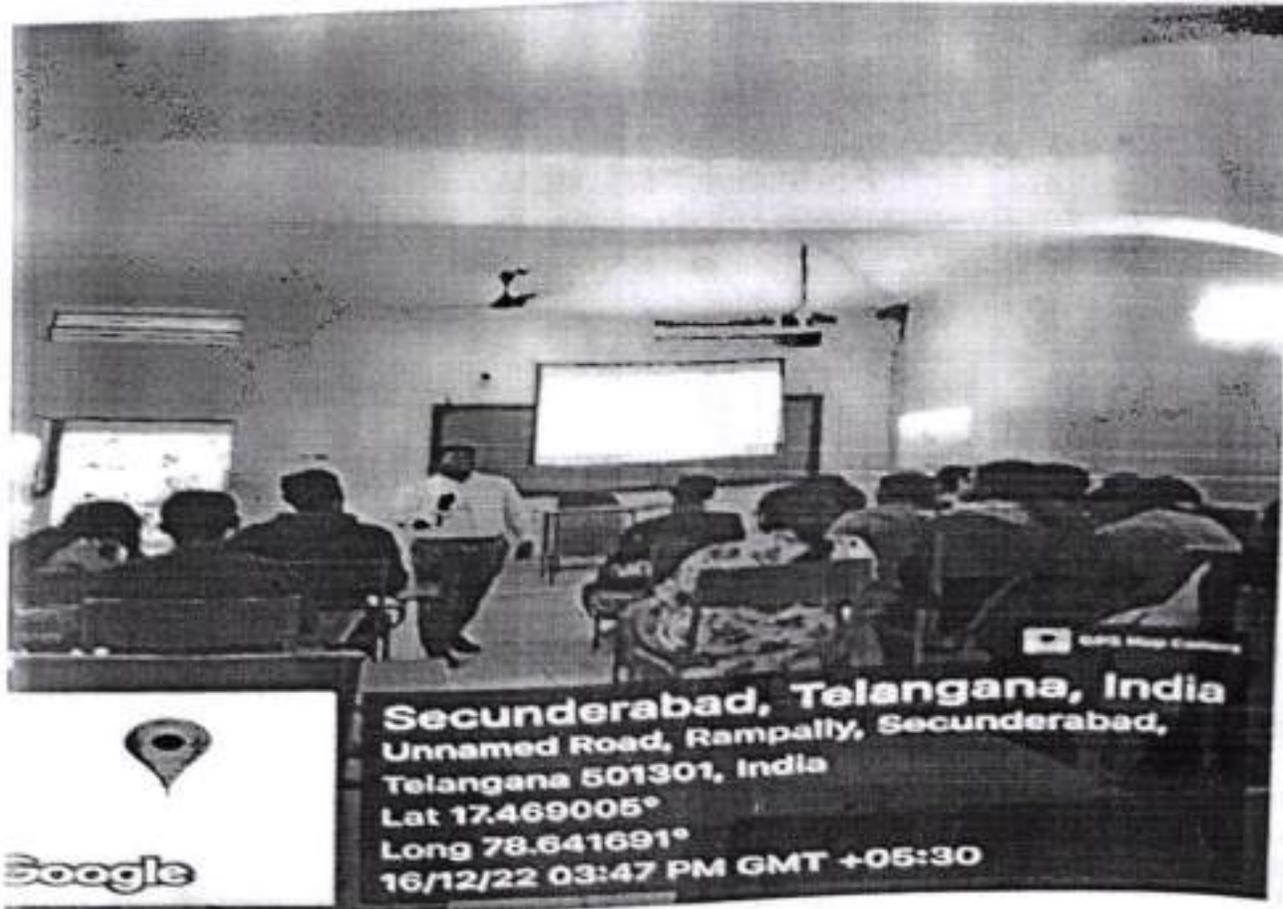

**Time:** 3:30 to 5:30p.m.

**Instructor:** CMA Mallikarjun Gupta , CA CMA Mukesh Phalor, CA B.Pavan Kumar

Department of Commerce, Bhavans Vivekananda College of Science, Humanities and Commerce in collaboration with World Trade Centre had conducted a Value-Added Course- Financial Modelling to all the third-year students of commerce stream. The instructor for the programme was CMA Mallikarjun Gupta. The duration of the course was for 15 days consisting of 2 hours per day totalling 30 hours. The course started with understanding how a business plan is prepared and what all contents should be included in a business plan. The students were illustrated with the example of setting up of a dairy unit and how the budget has to be prepared, how master data has to be prepared for a product being manufactured by a company. Excel was used for calculation of depreciation according to Companies Act and Income Tax Act. Students were also taught to interpret Profit and Loss a/c, Balance Sheet. They were trained in computation of income tax as per provisions, working capital interest, and cash flow statement with references and formulas in excel.

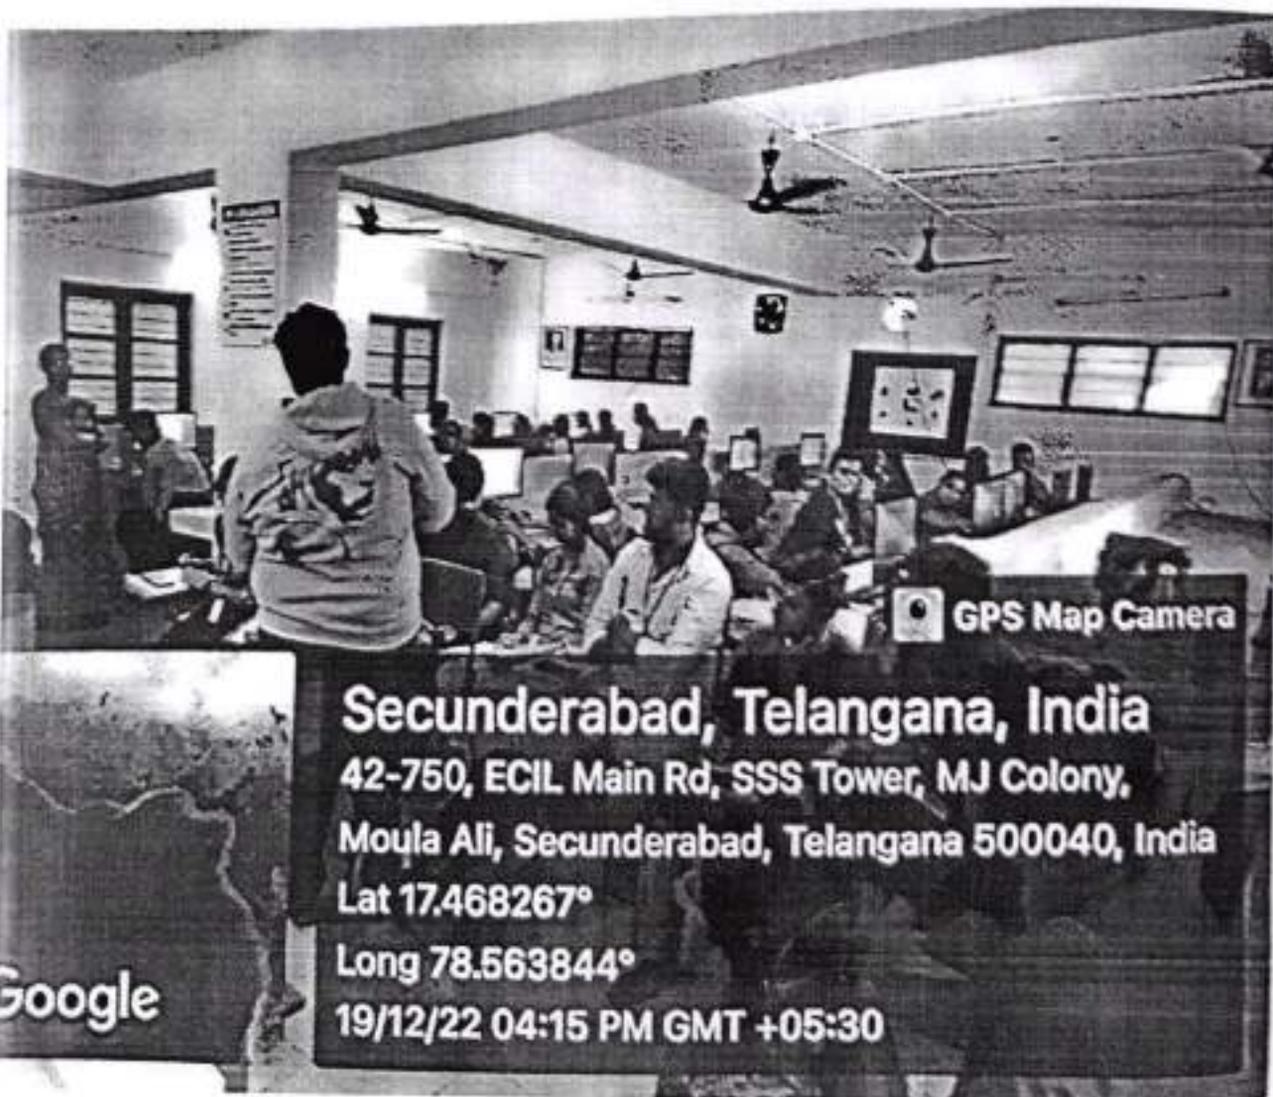

Students were satisfied and happy with the course as it added values to their knowledge and skills.

## BEST OUT OF WASTE 2.0

The FusionTech Club under the Department of Computer Science organized an offline team activity called "E-WASTE- TO- BEST", an Art and Craft

on 13th October 2022 as an Exhibition cum Competition.

It was an opportunity for the students to showcase their creative side in making the best out of the e-waste. There were around 14 students in 5 teams who participated from various streams.

Event started off by taking up the registrations of all the interested participants via Google forms circulated in their respective class groups. The aim of the exhibition was to re-purpose the e-waste into something useful and creative. The

Judge for the event was Dr I Rachana Kumari, Assistant Professor, Department of Biotechnology and Genetics who appreciated the efforts and creativity put in by the students in making their exhibits.

Workshop on ASP.NET MVC

### A Report

The department of Computer Science of Bhavan's Vivekananda College has organised an inter-collegiate workshop on ASP.NET MVC, under the Cluster College Programme on 10 December 2022 in the college.

Starting in the year 2021, the cluster system was implemented in nine autonomous degree colleges in Hyderabad. And Bhavan's Vivekananda College was selected under cluster college programme

The Cluster College Programme is integrated to multiply productivity, efficiency, optimisation of resources and better learning outcomes. The Principals of 10 autonomous colleges; Bhavan's Vivekananda College of Science, Humanities and Commerce, Sainikpuri, St Ann's College for Women, Mehdipatnam, Loyola Academy, Secunderabad, St Joseph's Degree & PG College, St Francis College for Women, RBVRR College, Narayanguda, King Koti, Nizam College, Government College for Women, Begumpet, Government City College and University College for Women, Koti entered into an agreement to commence activities under the Cluster Colleges programme, which includes exchange of faculty, researchers and students as well as opportunities for collaborative research projects and publications.

An MoU to this effect was signed by the 10 autonomous colleges in the presence of Navin Mittal, Commissioner of Collegiate Education, Professor R Limbadri, Chairman of Telangana State Council for Higher Education and Professor D Ravinder, Vice-Chancellor of Osmania University.

The Programme started at 11:00 am. Mrs. Sharon Rosy from the computer science department was the host of the workshop. The programme started with the Bhavan's prayer after which the host Mrs. Sharon Rosy welcomed all the participants and dignitaries to the workshop. There were a total of 102 participants out of which 36 students along with 2 faculty were from other colleges. Then the Principal and the Speaker were invited onto the dais with flower bouquets. The HOD of the Computer Science Department Mr N Bhaskar, welcomed all the participants and spoke a few words about the workshop. He briefed them about the objectives of the workshop. He also said that ASP.NET MVC is now very much needed in the field of computers.

N. Bhaskar

Later Mrs. K.V.B. Saraswathi, Sr. faculty of the Department of Computer Sciences addressed the gathering introducing the workshop and spoke about ASP.NET MVC. She spoke about the importance of ASP.NET MVC and its usage in the corporate world.

The Principal, BVC, Dr. GSVRK Choudhary was invited to address the gathering. He welcomed the speaker Mr. Sai Surya Prakash and all the participants and the faculty of BVC to the workshop. He thanked the speaker for having accepted the invitation and being there. He added that the Computer Science is the most fast changing field in today's world. He also congratulated the Computer Science Department and Dr. Suvarchala Rani, the Cluster College coordinator for organising the event.

Then the speaker Mr. Sai Surya Prashanth, an alumnus of BVC who had done his MSc. Computer Science from the college was introduced by the host Mrs. Sharon Rosy, and he addressed the gathering.

The first session started after the short break at 12:00 pm. The speaker Mr. Sai Surya Prashanth gave a session on the life cycle of ASP.NET after which he gave a session on how to create ASP.NET app on an MVC. He later gave a session showing a sample App and website.

After lunch it was time for the practical session and it began at 2:00 pm in the computer labs in the New Block. It was a Hands-on training session for the participants on how to connect to the database through ASP.NET. It was indeed a very enthusiastic participation from all the participants and a very fruitful workshop. The students thoroughly engaged themselves in the hands-on activity and learnt a lot. The session went on till 4:30 pm after which we had the valedictory session and the closing programme.

The workshop came to an end at 4:30 pm. Mr. N Bhaskar, Officiating Head, Department of Computer Sciences addressed all the participants thanking them for their active participation. After that, the time was given to the participants to share their feedback on the workshop where students from AV College, University College of sciences for women Koti and Bhavan's Vivekananda College expressed their views and gave their feedback of the workshop. They said that they had learnt a lot and that it was a very useful workshop. Then, the time was given to the resource person to express his views. He said that he was happy to come back as a resource person to the college he studied in and said that he was impressed with the kind of enthusiasm and interest the participants showed in the hands-on activity. He also thanked the management of Bhavan's for inviting him as the resource person.

It was then the time of the valedictory. All the participants were awarded with the certificates of participation. And lastly the programme ended with the vote of thanks by Mrs. Suvarchala Rani coordinator of Cluster College Programme. She thanked the management of BVC and also congratulated the Department of computer science for having successfully organising the event. She also thanked all the participants and specially the participants from other colleges for actively taking part. Last but not the least she thanked the resource person Mr. Sai Surya Prashant for having accepted the invitation and making the event successful. The workshop ended on a very positive and fruitful note.

# BRAINSTORM

The Fusion Tech Club under the Department of Computer Science in collaboration with NCC, NSS and YRC hosted an event named "BRAINSTORM" on October 11, 2022. The event was open for all the students of various streams.

The event began with class-to-class announcements done by PR team, as well as registration links circulated among respective class groups. Interested students registered themselves for the same. A total of 60 participants actively participated.

**Round1 - PEN AND PAPER ROUND:** This round was a team event, with 20 teams taking part. Each team consists of three individuals. The first round's rules stated that a total of 15 questions would be asked, with a 30-second time restriction for each. Teams that recorded the right responses within the allocated time progressed to the next round.

**Round 2- BUZZER ROUND:** This was a buzzer round. The first round's 10 qualifying teams participated in this round. Each of the two competing teams had a buzzer, and the team that presses the buzzer first is given the chance to respond to answer. The opposite side has the opportunity to answer the question when the correct one is missed. Three questions in all were posed to both teams. The team that ends up with the most points advances to the final round.

**Round3 - RAPID FIRE ROUND:** The final round included 5 teams who had qualified from round 2. There were 15 questions asked in this rapid-fire round, and the time allotted for each question was 5 seconds. Each team was again given a buzzer, and for each question they correctly answered, they received 5 points. Judges Ms. Lakshmi Vydehi and Ms. Divya Rekha, Lecturers, Department of Computer Science, completed a comprehensive judging and analysis for each round

## DOOR TO DOOR CAMPAIGN

The 3-day door-to-door campaign from **11<sup>th</sup> October till 14th October, 2022** was organized by the Fusion Tech Club of the Department of Computer Science in cooperation with NCC, NSS, and YRC in order to allow students, faculty members, and the community to easily dispose of their electronic trash in an environmentally acceptable way. To gather every type of e-waste that any household could have. A total of 60 students of NCC, NSS, YRC, BCA along with FusionTech heads actively volunteered and made their way from one door to the other in the community with great cooperation from the cooperative Society.

A large amount of e-waste, that typically comprised of old computer displays, motherboards, batteries, iPods, headsets, earphones, calculators, mobile phones, screen protectors, keyboards, cables, etc. was collected.

## AWARENESS SESSION

On **October 10, 2022**, a guest lecture was organized by the Fusion Tech Club of the Department of Computer Science in association with NCC, NSS, and YRC. **A total of 160 students** attended this session. Mrs. Niramathi, the Officiating Principal of Bhavan's Vivekananda College, gave the welcome note before the awareness session began. Followed by Mr. Bhaskar, Faculty Incharge, Department of Computer Science giving an introductory note about the topic.

The awareness session was then taken over by, Mr. Bharath Venugopal, Co-Founder , CBO, Envirokare Recycling Solutions, Hyderabad. He introduced his organisation to the students, as an institute that assists most of the leading multi national companies in attaining environmental friendly E-Waste/E-Asset disposal and management practices.

The main objective of this session was to help the students understand the harmful repercussions of irresponsible E waste disposal that the disorganized recycling of e-waste has on the environment and human health. He also stressed on the importance of RRR rule.

Lastly, students also posed questions to the Chief Guest during a Q&A session.  
The event concluded with an oath taking, followed by vote of thanks.

# GET SET PLAY!

The FusionTech Club under the Department of Computer Science organized an informal Sport theme activity called "Get Set Play!", Exclusively for all BCA students on 27 August 2022.

It was a sports-based team-building event that included games like Kho-Kho and Cricket. Registrations were taken on the day class announcements were done by the PR team, as well as on-the-spot registrations on the day of the event. A total of 74 students from all 3 years actively registered themselves.

The event began with cricket, where the students were split up into four teams (A, B, C, and D), each with ten players. A total of 3 matches were played in a knockout series, each comprising 8 overs.

The opening match was played between team A vs team C, followed by team B vs team D.

In the finals, the winners of the previous two games faced off against one another, i.e. (team C vs team D).

*N. Bhat*

Team C, captained by Krish Divyank of BCA 2nd year, stood as winners for Cricket.

The event was further followed by another sport called Kho-Kho. It had three teams (A, B, and C) each with 10–11 members. The standard match comprised 2 innings. There were 8 minutes in each inning, which included running and chasing. **Team A** won the first match, which was between **teams A vs team B**, and therefore earned qualification. **Team C** qualified for the second match between **team B vs team C**. The final match was conducted between **team A vs team C**.

*K. Divyank*

Team C led by Pavan Subhash of BCA 3rd year took the title of winners for Kho-Kho.

# 2nd Day of Induction

16TH AUG 2022    ROOM NO:- NZ18 LIBRARY BLOCK

### Speakers Of The Day

		
<b>MRS. B. NIRAIMATHI</b> OFFICIATING PRINCIPAL	<b>MR. N. SHANKAR</b> M.Sc. CS COORDINATOR	<b>MR. S. MAHESH</b> ASSISTANT PROFESSOR, BCA COORDINATOR

Followed by:  
**INTERACTIVE ACTIVITY**  
BY FUSION TECH CLUB FOR ENHANCING SKILLS LIKE TEAM BUILDING AND GROUP DISCUSSIONS

ORGANISED BY FUSIONTECH - THE BCA CLUB  
DEPARTMENT OF COMPUTER SCIENCE

The induction was conducted to welcome the freshers to Bhavan's family and introduce them to the BCA-programme and Fusion Tech Club.

The programme began with the welcome address by Mrs B Niraimathi, Officiating Principal, BVC who briefed to the students about the college and the environment.

*N. Shankar*

Also, Mr.N.Bhaskar, Officiating Head, Department of Computer Science spoke a few words to the students regarding the Department and the Course.

Lastly, Mr. G Mahesh Kumar, Assistant Professor, Department of Computer Science, Coordinator,BCA, gave a presentation with insights about the course and the activities conducted by the department.

Following this , there were some engaging activities for the freshers hosted by the Fusion Tech Club.

The first round was named '**Word Traffic**'. In this round a specific topic was given and the students were to build words related to it. The students were divided into 3 teams of 15 each with a time window of 5 seconds to answer. 27 students were qualified for round two.

*N. Bhaskar*

The second round was '**Enact or React**'. In this round 2 pictures were shown, where one picture was of a famous personality and the second picture was of a popular celebrity. The students either had to speak a few lines about the famous personality or enact like the popular celebrity. By the end of this round, 12 students qualified to the third round.

*N. I. Shukla*

The third round was called '**Shouting in silence**'. This round was played in pairs where one person put on headphones with music playing in his ears while the other had to say a text or a sentence which needs to be guessed correctly by the other person. All the 12 students were divided into 6 pairs. This round ended with a tie.

So the 4 students played a tie breaker round which was '**Draw me if you can**'. It was a simple pictorial round out of which one pair was declared the winner. All the students participated actively and enthusiastically in the event.

*N. B. Shukla*

The final winners of the Activity were as follows:

**1<sup>st</sup> Prize** : Jorndan & Aditya

**2<sup>nd</sup> Prize** : Siri Mallika & Shruthi

**3<sup>rd</sup> Prize** : Ram Pranav & Ashish

## Report on Hands training On PCR Workshop

One day workshop on Hands on Training was conducted on 16<sup>th</sup> June 2022 by Department of Microbiology for M.Sc Microbiology final year students (semester IV) in collaboration with Albot Technologies and AgamiGen Biologicals. Workshop was organized at Albot Technologies located at M2 Tech Hub, Near the Hindu Office, Genpact Road Habsiguda, Hyderabad. Dr. J. Sarada, senior faculty accompanied 9 M.Sc microbiology students for the workshop.

Dr. Vidya Sagar Malshetty, Senior scientist and workshop convener inaugurated the programme and briefed on the objectives of the training and programme schedule. This was followed by the Dr. Akash Kumar, trained professional with Industrial experience discussed the Principles of polymerase chain reaction (PCR), preparation of various PCR reagents required for the experiment. Students were provided with hands on training for setting up PCR amplification. This was followed by analysis of the amplification obtained after PCR reaction using Agarose

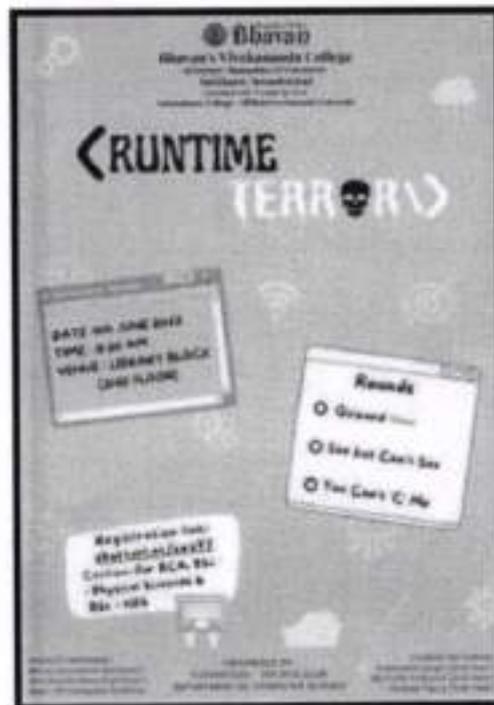

Gel electrophoresis. Students expressed their satisfaction during the feed back session and were given with participation certificate by Dr. Vidya Sagar Malshetty. This workshop gave students an opportunity to acquire skill in setting PCR.

## Runtime Terror

The Fusion Tech Club under the Department of Computer Science hosted an event named **"RUNTIME TERROR"** on **June 4 2022**, exclusively for BCA, BSc Physical Sciences, BSc-HDS of 1st, 2nd and 3rd years.

Class-to-class announcements in the above mentioned departments was made, and registration links were sent across to the various class groups.

On-the-spot registration was also available near the IT block on campus. A total of **135** people signed up for the event.

*N. Bhatnagar*

The competition consisted of three rounds.

**Round I- Quizzard:** It was an online mode Technical Quiz. It included technology-related questions to assess the participants' technical expertise. 135 participants took part in this round. They were given questions via Google forms, which they were required to fill and submit within a given time.

**Round II- "See but can't see":** This round had HTML code. 25 participants were qualified from round 1 for this round. The participants were required to turn off their computers and input the code displayed to them within a set time limit. Based on the number of errors, and the final output which also could be approximate, participants were shortlisted for round 3.

*N. I. Shukla*

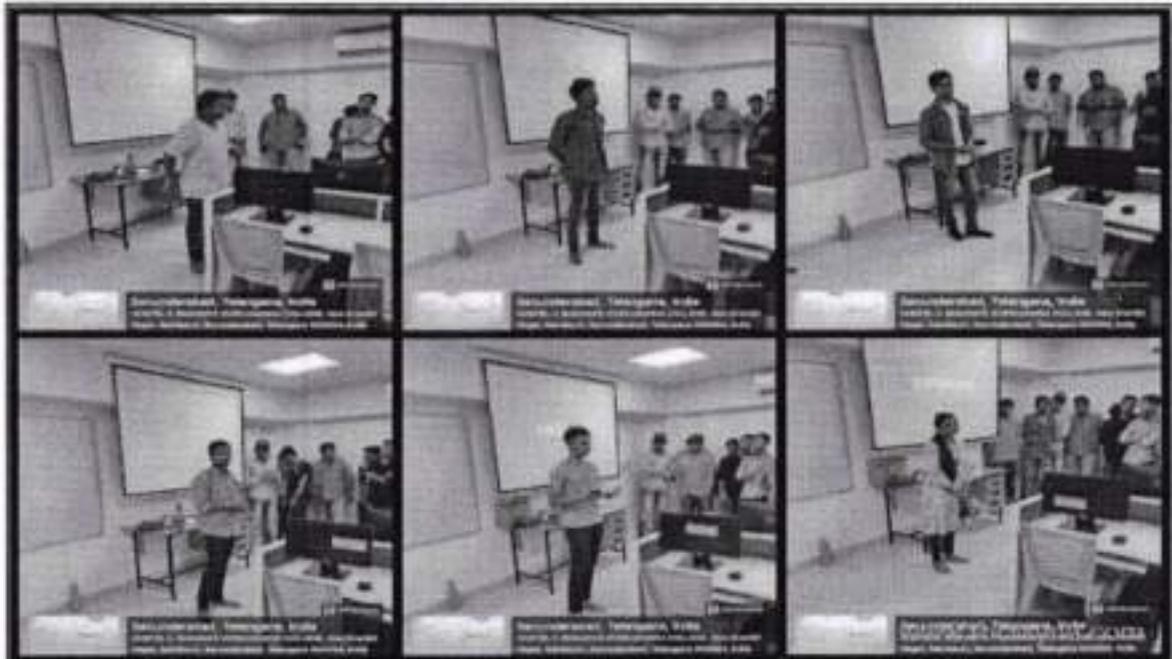

**Round III- "You Can't C Me":** This round began, with 18 participants qualifying from round two. It was based on C programming, and participants were shown the output of a program and had to type the code within a time limit while their screens are turned off.

N. I. Shukla

Judges Mr.Saumesh Routray and Ms.J.LakshmiVydehi, Lecturers, Department of computer Science , dd a comprehensive review for each round.

The event came to an end with the participant feedback session and a photographic session. The participants appreciated the activities conducted as part of this event where they could test their technical skills, and requested for more of such events to be conducted.

*N. P. Sharma*

The winners of Runtime Terror are:

B.Divya Padmavathi, a first-year BSc MSCs student bagged the 1<sup>st</sup> position.

Neeraja Goli, a second-year BSc HDs student bagged the 2nd position.

Anirudh Kumar, a third-year BSc MPCs student bagged the 3rd position.

# Technoverse

The Fusion Tech Club under the Department of Computer Science hosted an event named **"Technoverse" on September 3, 2022**. The event was exclusively open for BCA of 1st, 2nd and 3rd years.

The event began with class-to-class announcements by the PR team, as well as registration links were distributed to respective class groups. Interested students could register themselves for the same. A total of 69 registrations were received.

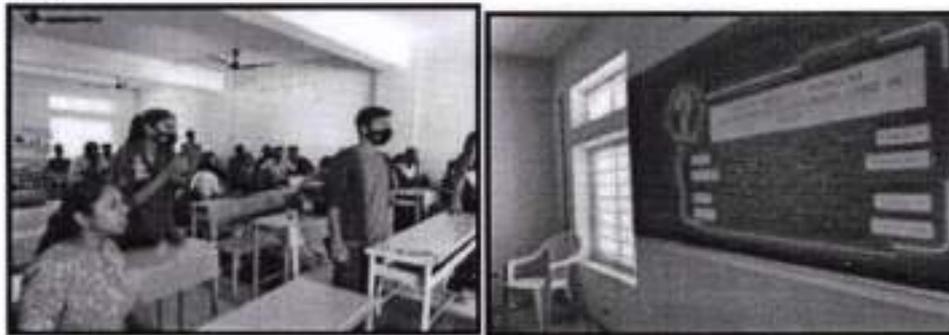

**Round1-Crossword:** There were 16 teams participating in this team-based round. Four students from each of the three years made up each team. With a 20-minute time limit, they had to complete a crossword puzzle given to them. Teams qualified for the next round by correctly solving the most clues within the allotted time.

*N. Bhatnagar*

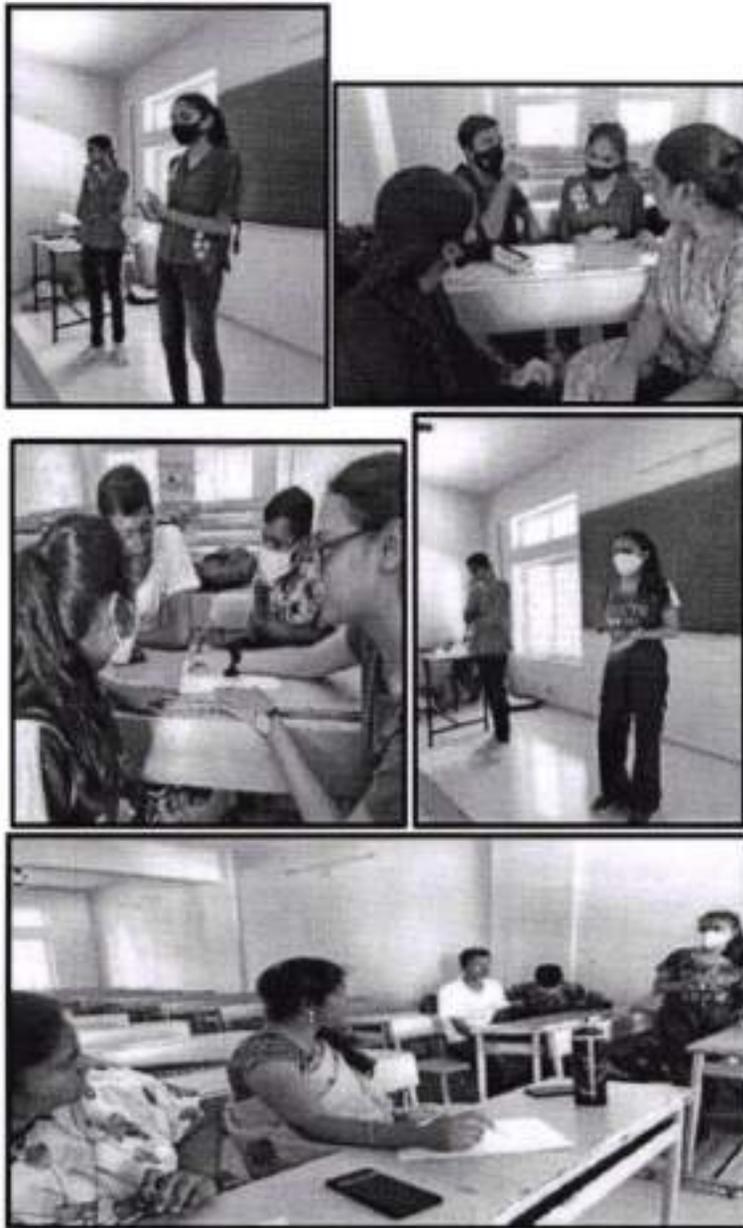

**Round2- Tech feud:** 8 teams from the first round qualified for this round, which was held. Here, 2 teams went against each other, trying to guess the most accurate response to the question asked within 1 minute. When the answer is missed the other team then gets the chance to take over the question. The team with the most points at the end qualifies for the final round.

**Round3-Debate:** 2 teams who had qualified from round 2 competed in the final round. This was a debate round when the two sides took turns arguing for and against various points of contention related to the specified topic. Both the teams were given five minutes to discuss the subject before the conclusion. Ms. N. Sharon Rosy and Ms. B. Divya Rekha, lecturers in the Department of Computer Science, assessed the round and determined the winners after conducting a thorough analysis.

*N. Sharon Rosy*

The winners were: P. Bhavana and Ramyatha from 1<sup>st</sup> year, Charukesh and Vivek from 2<sup>nd</sup> year.

The event came to a close with a photographic session.
