Guest Lecture on Introduction to Podcasting

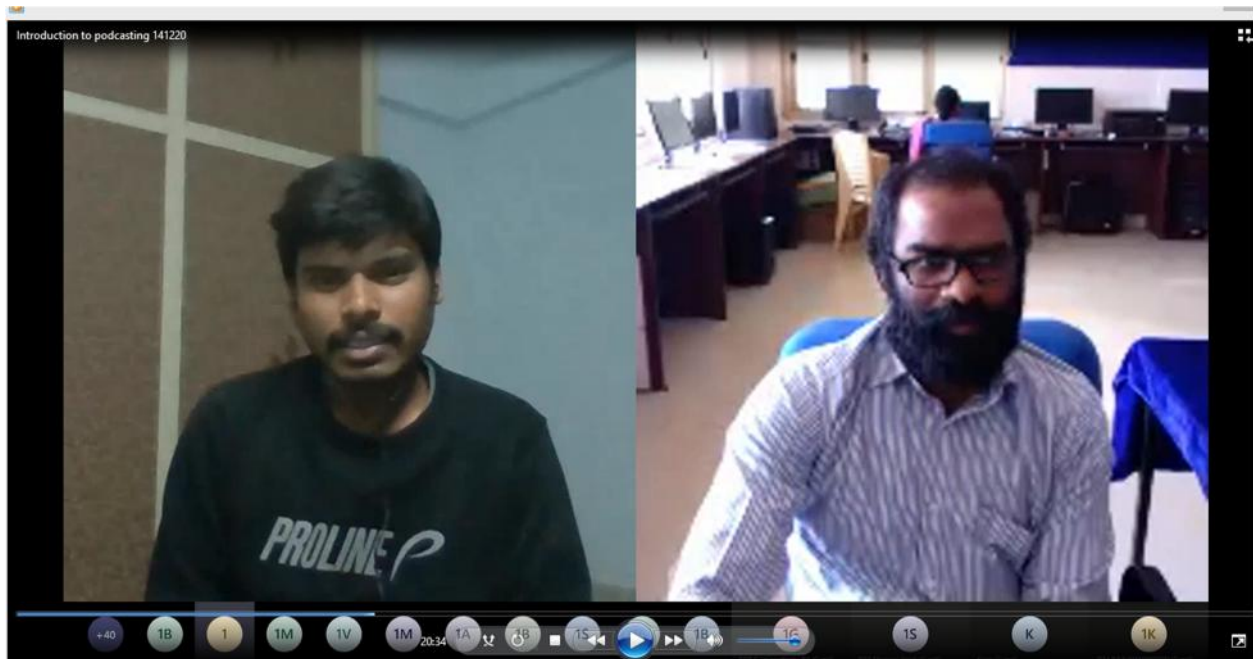

14th December, 2020

A guest lecture was conducted by the Department of Mass Communication, Faculty of Arts on the topic podcasts which has been trending recently. The resource person was Mr Srinivas Kondra, podcaster, Billion Twenty. Around 50 students participated in the lecture.

The lecture was very informative and all the students were content with the information given by the lecturer. He started the lecture with speaking about the origin of podcast, struggles of a podcaster , elements of a podcast and future of podcast in India . He said that podcast was originated in foreign countries and has become famous in India due to the pandemic. He also spoke about the advantages and disadvantages of producing a podcast.

There was also a discussion about conversational podcast which we generally listen to. In this podcasts, there will be a conversation between two or more people where they discuss about movie review, place or anything that interests public. He had presented some of his works including Visaranai, a tamil movie, which is about a judicial killings.

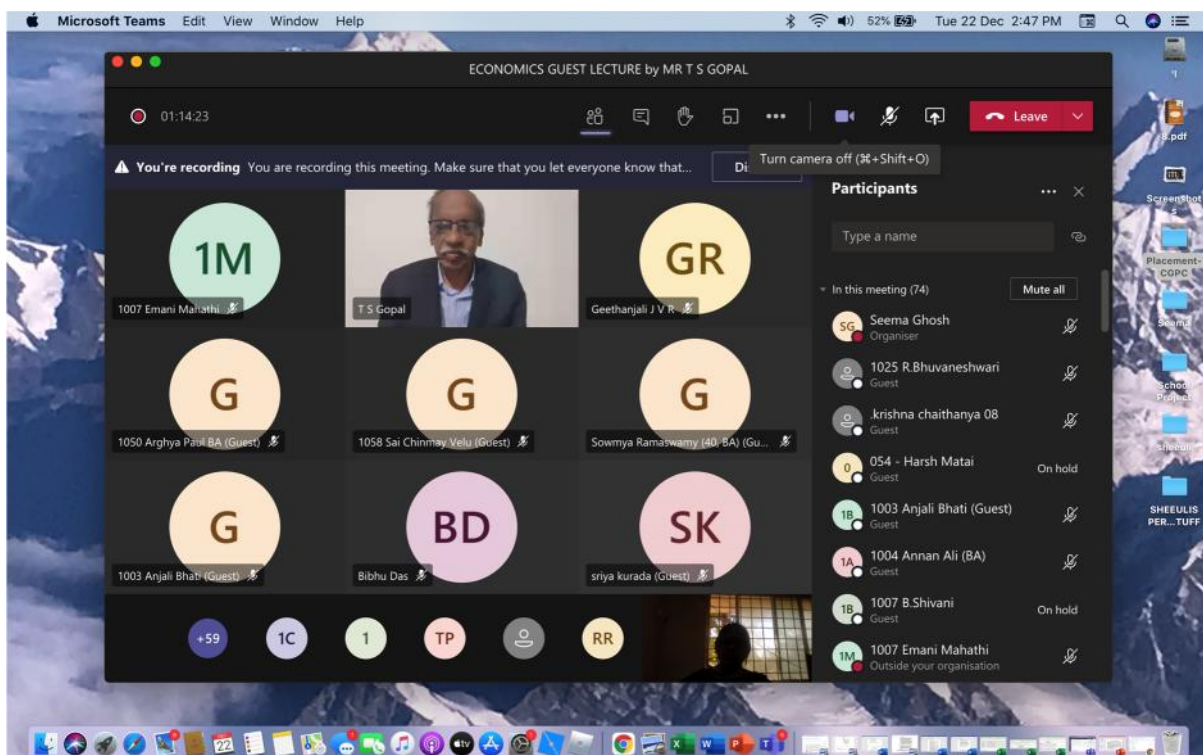

The lecture was ended with question and answer session.

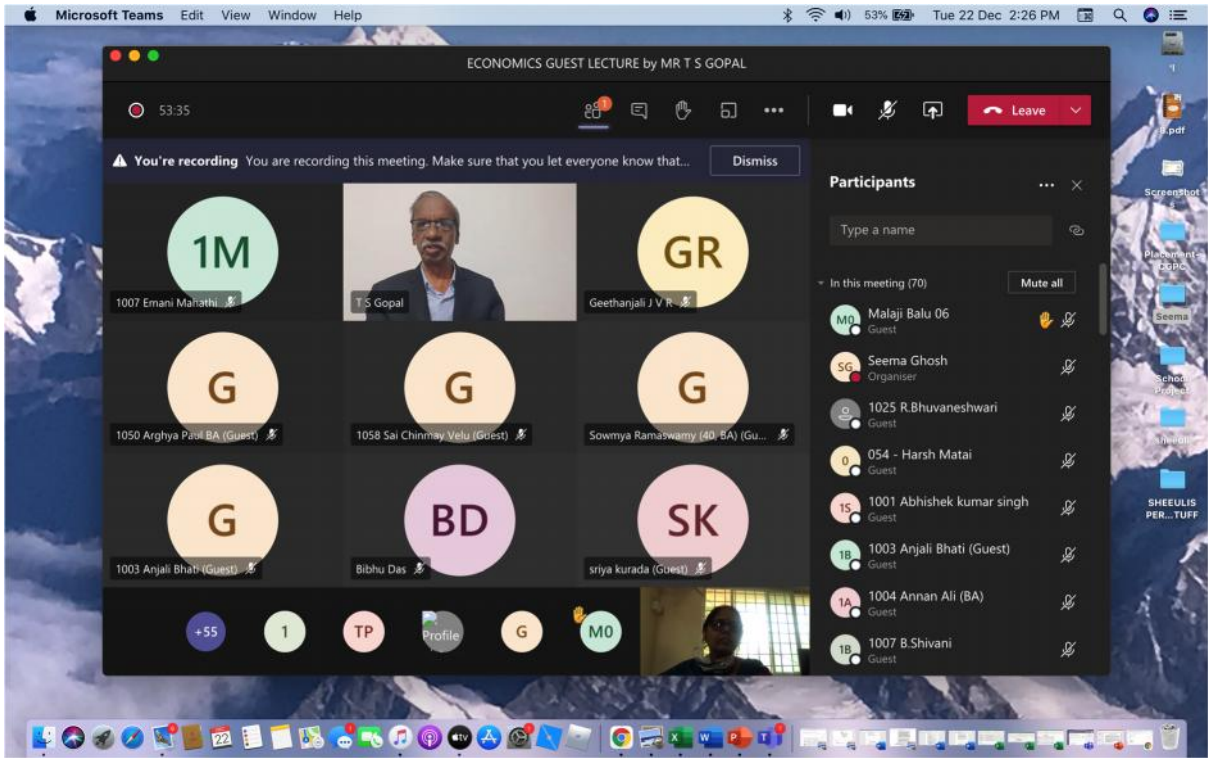

Report on the Guest Lecture Titled **Economics of Everyday Life**

The Guest lecture on “Economics of Everyday Life” was organized by the Department of Economics, Faculty of Arts, Bhavans Vivekananda College of Science, Humanities and Commerce on 22nd December 2020 at 2:00 pm. The guest speaker was Mr. T. S. Gopal, Honorary Secretary, Scientific Research Association for Economics and Finance(SRAEF), Chennai. The lecture was organized through online mode on Microsoft Teams Platform for the students of BA with 75 participants.

The session started off with introducing the simplicity yet complexity of the subject, followed by enlightening the attendees about the importance of economics in a household and in every individual’s life. The speaker mentioned that desire and hunger are two basic aspects of economics, mentioned and described the 3Es of management. He also brought into spotlight the importance of saving from as basic as usage of toothpaste and switching the lights and fans off to saving and reducing the usage of gas. The speaker quoted that when an individual does something to save money, it actually causes loss to another individual which might also result in depression. The speaker further elaborated on Economics of Essentials, Economics of Entertainment and Economics and Ethics. The speaker also focused on marketing strategies of the salesperson, psychological factors of an individual during purchase of commodities and also mentioned purchasing from roadside vendors. He majorly focused on planning a proper home budget while discussing it with the entire family after calculating the family income and expenditures. He also mentioned some brow raising ways of reducing the expenditure and introduced the viewers to a few ways of becoming more cost conscious. At the end, the speaker concluded by pinpointing the importance of savings and answering queries of the attendees. It was an illuminating session with very insightful thoughts and perspective of the speaker.

B.B.A ORIENTATION PROGRAMME- Report

On 21st June 2019, the Department of Management studies, conducted an induction programme for the 2019-22 batch of B.B.A students. The programme was conducted at the seminar hall in the MBA block at 9:30 am.

The Head of Department, Dr. N.S Chakravarthy, enlightened the students about the virtues of B.B.A program. Faculty of the department gave an overview on the subject matter of BBA program, examination pattern and other essential rules and regulations to a set of over freshmen.

The program was attended by two alumni Gavarav Baheti and Shreya Valluri of 2016- 19 batch.

Subsequently, the students were addressed by alumni of our B.B.A programme. who explained about the privileges of the very programme and their exquisite experience at Bhavans that led to a successful embarkment of their careers. Their motivational words really inspired the students to make the most out of the B.B.A programme that they would pursue and gain profound knowledge.

students of Abhyas- The Management Club organised various fun events and ice-breaking activities. The very first activity named '72 seconds' aimed at infusing communication and initiative among the students. The freshmen were asked to get familiarized with as many people as possible within a time frame of 72 seconds. The students were too absorbed getting to know each other, that they later on realized how they could have approached the faculty members or other students belonging to the Abhyas Club but didn't do so because of the lack of initiative from the other side. This activity focused on instilling out-of-the-box thinking into the students.

The students also enlightened the freshmen about the two management clubs, Abhyas and Samvridhhi through the means of a presentation. People were so fascinated by the idea of putting management concepts into practice through fun activities at Abhyas club and being updated with the business world through the Samvridhhi newsletter that a couple of them immediately expressed their will to join these student clubs of management department.

Balance The Balloon

This event was a fun activity organized by the 3rd and 2nd year students of Abhyas- the Management Club for the freshmen, who were divided into teams of 6-7 people. Each team was supposed to balance a balloon between a pair of students in a line and walk through an established runway where they were each asked to pick paper cups and form a pyramid out of it in the end consuming the least possible time. The activity aimed to infuse communication, coordination, stability, strategy development, time management, team work and many other concepts of management into the students.

While this fun activity was taking place, a few freshmen displayed their hidden talents by performing dance, yoga, singing and acting. The students communicated well and had a lot of fun.

Organizer's list:

<u>NAME</u>	<u>CLASS</u>
