MINUTES OF THE MEETING:

The points discussed as per the proposed agenda, are as below:

- **Categorization of papers as Employability, Skill Development, and Entrepreneurship:**

- It was discussed that EVS is an awareness course.
- It was recommended to have all 1st and 2nd semester papers to just be an introduction to the course while 3rd, 4th, 5th, 6th semesters could focus mainly on Employability or skill development or imparting Entrepreneur skills.
- Papers such as Operating Systems, GUI Programming with Java, DBMS, Grid Computing, Big Data, Software Testing, Data Warehousing and Data Mining, Cloud Computing, Advanced Java Programming constitute for Employability, Web Technologies Multimedia, Artificial Intelligence constitute for Skill Development and Business Intelligence constitute for Entrepreneur Skills.
- It was also recommended to have Advanced Excel under Big Data Analytics practical as it could help for skill development of the students.
- It was put forward to make Python as one of the core papers.

- **Suggestions for a Value Added Course:**

- Proposal to have value added courses on Data Science, Deep Learning, Machine Learning, R or SPSS was made by getting good personnel from the industry.
- The list of Industries, validated by the University could be taken to correspond for the appropriate value added course to be started.
- A proposal was also made to have a 1-week intensive workshop for either students or faculty preferably during summer vacation.

Suggestions made by Board members in detail:

Dr. P.V. Sudha:

- She suggested specifying weightage to be projected for all Disciplines (eg: AECC, GE and SEC etc), so that percentage will be balanced (total no of credits/ no of credits). Supporting her statement she said for example allotting 60% for Discipline Specific Courses and the remaining 40% for Electives. She suggested to cross verify these percentages with the university.
- She suggested adding the edition and publication of the textbook for FIT in Semester I.
- She suggested to keep latest edition prescribed book for IT-Hardware course of Semester II.
- In 'C' language she suggested to add more no. of reference books as suggested readings including Dennis Ritchie.
- She suggested to plan 16 weeks for the course where in 2 weeks will be covered for Internal exams.
- She suggested to introduce Software Engineering course instead of SALD in Semester III.
- She said its a good practice to include case studies even for programming languages to make the students understand the concepts better.
- She suggested redrafting the syllabus of OOP with Java as OOP's concepts are also covered under C++ in Semester II and add latest edition of C++ textbook by Balaguruswamy as a suggested reading.
- She recommended redrafting the complete syllabus of Organizations and Functions as per new book.
- She suggested shifting Mini Project from V Semester to IV Semester and evaluation to done in V Semester.
- She recommended introducing 'R' Programming as an SEC.
- She suggested including activities like Hackathon and Application Development as part of the BCA club activities.
- She suggested shifting of following subjects
 - Data Analysis from VI Semester to IV .
 - Discrete Mathematics from V Semester to III Semester
 - Software Testing from VI Semester to V Semester
 - Artificial Intelligence from IV Semester to V Semester
 - Advanced Java Programming from V Semester to IV Semester

Mr. K. Srinivas Chakravarthy:

- There should be equal weightage for all units in course, you could either have $14*4=56$ Hrs or $16*4=64$ Hrs. Will be appreciable for every paper.
- He suggested introducing Distributed Computing or Cloud Computing instead of Grid Computing.
- He suggested introducing Software Engineering course authored by Pankaj.
- He also suggested increasing the no. of programs in practical.

Mr. B. Santosh Kumar:

- He suggested including live tools under the Software Testing paper in the V Semester.
- He suggested adding all the latest technologies and versions as part of the syllabus so it would help all the Outgoing students during placements.

It is resolved to:

- a) Approve I and II Semester CBCS syllabus for the batch of students admitted in 2019-20 for BCA.
- b) Change the BCA Course template for II year students on par with other course structure of the college to maintain uniformity suggested by the Governing Body (With effect for the students admitted in the year 2018-19)
- c) Authorize the chairperson, BOS to appoint the examiner in consultation with the principal of the college, qualified examiner outside the approved panel in case of emergency. Such arrangements should how ever be reported to the BOS in the immediate meeting.
- d) Environmental Studies and Gender Sensitization courses consists of activities direct bearing on Skill Development
- e) Information System Theory and Applications consists of activities direct bearing on Employability.
- f) Organizations and Functions consists of activities direct bearing on Entrepreneurship / Employability.
- g) Programming in 'C', FIT, General English, Programming in C++, IT Hardware, Data Communication and Networking consists of activities direct bearing on Employability/Skill Development.

MINUTES OF MEETING (BCA)

1. Ms.K.V.B.Saraswathi, Head, Department of Computer Science started the meeting addressing and wishing the members of Board.
2. She also thanked the Professor from the University and the Industry Expert, for taking time out from their hectic schedule and making it convenient to come and attend the meeting and share their valuable thoughts.
3. She informed the BOS members about the completion of one batch of Non-CBCS successfully, i.e. 2015-2016, 2016-2017, 2017-2018.

Suggestions made by:

Dr. K. Shyamala

- She suggested adding the basics of Software Coding Standards in OOSD, preferably in the 4th unit.
- She suggested including programs on generic concepts rather than specific programs in Web Technologies practical.
- She enquired about the feedback of the Alumni students who got placed through our College regarding the syllabus being on par with the industry.
- She suggested motivating students to design applications that can be used by the college, like Online Feedback system for the students.
- She suggested including more electives for the students to choose from.
- She suggested changing the title of the Seminar-III as Project Seminar in the VI semester.
- She suggested including Artificial Intelligence instead of Grid Computing in the IV semester for the upcoming batch.
- She suggested removing question based sentences from the syllabus.
- She suggested making group activity as a part of project and taking feedback from the students for each module.
- She suggested to put forth a proposal from the college to the University to consider eligibility for BCA students of the Non-Mathematics at the intermediate level to pursue MCA.

Mr. Srinivas Jasti:

- He suggested making group activity as a part of project and taking feedback from the students for each student.
- He took feedback from a final year student, Mr.Vamsi regarding the syllabus.
- He suggested motivating students to design more mobile applications.
- He suggested including more electives by taking options from the students only as per their interest, however, to take acceptance from OU for the sizeable ratio for each paper if required.
- He suggested the projects to be executed using Cloud based system, rather than Client servers.
- He suggested including one topic on Data Privacy preferably in paper like Information Security, by taking a few concepts from Data Privacy Act.
- He suggested doing a Reverse Engineering to know which Universities offer the courses like Data Science at U.G level.

Ms. K.V.B Saraswathi Devi:

- She enquired about the certificate courses that can be offered for UG and PG students, especially about Robotics.
- She enquired on what could be the syllabus for Data Science, if it was included at the UG level.

Mr. G.Mahesh Kumar:

- He enquired about Employability and Higher Education opportunities for BCA students
- He also enquired whether BCA students from the Non-Mathematics background at the intermediate level could be eligible for MCA.

Mr. T. T. V Vamsi Krishna:

- When asked for his feedback, he said they have strong basics, however, it would be beneficial for them if basics of latest subjects like Data Science, Arduino were included.

It is resolved to:

- a) Approve the V and VI semester (CBCS) syllabus for BCA.
- b) To approve the BCA course template on par with other course structure of the college to maintain uniformity with effect for the students admitted in the year 2018-19.
- c) Authorize the chairperson, BOS to appoint the examiner in consultation with the Principal of the College, qualified examiner outside the approved panel in case of emergency and any such arrangements should however be reported to the BOS in the immediate meeting.

Osmania University, Hyd-500 007.

Head of the Department
Department of Computers
Bharatiya Vidya Bhavan's Vivekananda College
Sainikpuri, Secunderabad - 500 094.

- She also explained that we are running two different formats this year i.e., final years students are under Autonomous NON-CBCS and second years are under Autonomous CBCS and also the first years would join with Autonomous CBCS.

Suggestions made by Board members in detail:

Dr. K Shyamala:

- She suggested breaking up the total credits (140) even for SEC, AECC, CC, GE.
- She suggested including new technologies like ROBOTICS and also Cyber laws in SEC.
- She would mail any additional courses for electives and SEC to Mahesh Sir.
- She suggested including Scheduling Algorithms in Practical's as well in Operating Systems, in the III Sem.
- She also suggested including courses such as NSS, Outreach program and seminars and making them mandatory so as to engage the students for all the 36 hours per week. The result for these courses would be in terms of Pass or Fail. She also suggested that these courses are shown in the time table of the students.
- Gender Sensitization course to be included either in the III or IV Sem and made mandatory for the BCA (CBCS).
- Advanced topics to be added in the II Unit for Visual Basic, and also to change the name of the Course to Visual Programming.
- To categorize all the given courses as One core subject and 2 electives in V and VI Sem.
- Dr Shyamala also suggested that the Part-A in the theory should not have any choice in the exam pattern.
- She suggested that the Practical work should be given Concept wise rather than Week-wise and question-based.
- She suggested to change the subject name of Database Management Design to Database Management System.
- She suggested to include Operating System concepts in Operating System lab along with Shell Programming.

Mr.Sreenivas Jasti:

- Mr J Srinivas suggested giving more options for the students for Electives.
- He suggested mobile O.S related topics to be included in Operating Systems and also to include Practicals on System Calls
- He also suggested to include 1 or 2 practical questions related to My SQL in DBMD lab.
- Mr J Srinivas suggested the use of more number of Open Source Operating Systems by making the control security options for more compatibility.
- The title of E-Commerce course to be changed to technologies in E-Commerce.
- Cross platforms like IOS, Windows OS to be introduced in Mobile Application Development(V Sem).

CHAIRMAN

 Osmania University, Hyd-500 007.

Head of the Department
 Department of Computer
 Bharatiya Vidya Bhavan's Vivekananda College,
 Sainikpuri, Secunderabad - 500 094.

Mr.G.Vivek:

- Mr. G Vivek suggested either Web Technologies to be taught before E-Commerce or introduction for Web Technologies to be given in the 4th unit of E-Commerce.
- The elective labs to be made as Mini Project.
- Assignments based on DOTNET, scripting languages to be given in the V sem.

It is resolved to:

- a) Approve the II year CBCS syllabus for the batch of students admitted in 2016-17 and III year NON-CBCS syllabus for the batch of students admitted in 2015-16 in BCA I year.
- b) To take approval for III year CBCS syllabus for the batch of students admitted in 2016-17 in next BOS meeting.
- c) Authorize the chairperson, BOS to appoint the examiner in consultation with the principal of the college, qualified examiner outside the approved panel in case of emergency. Such arrangements should how ever be reported to the BOS in the immediate meeting.

After detailed discussion with HOD and concerned lecturers it was observed that some concepts are repeated in both theory and practical. The repeated topics were removed from theoretical concepts.

In DBMD and OS the repeated concepts were removed as mentioned above.

Appropriate changes were made in Mobile Application Development syllabus to match theory with practical.

GUI Programming was included with Data Structures to generate interest among students.

As part of CBCS, SEC(Skill Enhancement Course) was included in III and IV semester of BCA.

Keeping in view the above Skill Enhancement Course it was decided to include Information Technology Law (Cyber Laws) in III semester to enhance knowledge of student with respect to cyber crimes in the society. Visual Basic is included in IV semester to give students wider scope because it is user-friendly programming language.

The students will get a wider choice during their final year projects.

The meeting ended with Mrs.K.V.B.Saraswathi, Chairperson, Board of Studies, BVC, HOD, Computer Science, thanking each and every board member for spending their valuable time in the college for syllabus discussion.
