**Bhavan**

**BHAVAN'S VIVEKANANDA COLLEGE OF  
SCIENCE, HUMANITIES AND COMMERCE**

**Sainikpuri, Secunderabad-500 094**

Autonomous      Accredited with 'A' Grade by NAAC

Workshop on

**“Basic cell culture techniques”**

29<sup>th</sup> - 31<sup>st</sup> October 2015

**Organized by**

**DEPARTMENT OF BIOCHEMISTRY**

In collaboration with

**NATIONAL INSTITUTE OF NUTRITION, Hyderabad.**

To,  
The Principal,  
Bhavan's Vivekananda College,  
Sainikpuri, Secunderabad.

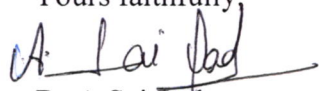

Respected Sir,

**Subject: Permission to organize workshop on "Basic cell culture techniques" in collaboration with NIN by Dept. of Biochemistry-reg:**

The Department of Biochemistry is planning to organize a workshop on "**Basic cell culture techniques**" for post graduate students of life sciences. The objective of this training programme is to expand the technical skills of the students in recent areas of cell culture and microscopy which have high practical importance. These techniques require sophisticated equipment and expertise. This kind of training and exposure will definitely help the students to face the interviews and improve their employment opportunities in the research laboratories and pharma companies. National Institute of Nutrition (NIN), Hyderabad, a premier institution under Indian Council of Medical research, a central government organization has extended its support to train the students in these techniques.

The duration of the programme will be for 3 days and the tentative dates for this training are planned as 13<sup>th</sup> -15<sup>th</sup> of October. The estimated cost for conducting this training programme is Rs.27,500/-which is for procuring chemicals and for technical support.

Thanking you,

Yours faithfully,  
  
Dr.A.Sai Padma  
Head, Dept. of Biochemistry,  
BVC.

Respected Sir,  
Respected Sir,

Bhavan's Vivekananda College of Science and Commerce (BVC), Sainikpuri, Secunderabad was established in 1993 and has been accredited with 'A' Grade in the year 2012. The college is granted autonomy status in the year 2015. The college offers life sciences courses with different combinations at UG level and Microbiology and Biochemistry at the PG level. The college regularly organizes workshops in advanced biochemical techniques in collaboration with research institutes and organizations in Hyderabad. This kind of exposure/ training would help the postgraduate students to enhance their technical skills and appear for competitive exams and increase their employment opportunities.

In this context, the Dept. of Biochemistry, BVC proposes to organize a workshop for the post-graduate students and we have approached Dr. V. Vijayalakshmi (Stem cell laboratory) to be our collaborator at National Institute of Nutrition (NIN). In this context, I request you to give us an appointment to discuss about the workshop.

Thanking you,  
Yours sincerely,

A.Sai Padma  
Head, Dept. of Biochemistry  
Bhavan's Vivekananda college,  
Sainikpuri, Secunderabad.
