Hello Madam, thanks for inviting me to address your students. I was a but busy with work and could not respond, sorry about that.

I am available on 21st Dec by 10.00 or 11.00 am, please suggest if that is a good time to conduct the seminar with the students.

Here is an abstract, please suggest modifications:

Recent trends in corporate world place lesser importance to specific educational qualifications and more importance to how graduates are able to express their views. Often, very capable and intelligent graduates tend to fumble at interviews either due to lack of confidence or due to not knowing how to present themselves. Experience has shown that low confidence and nervousness can be easily overcome. All it requires is someone to encourage and help them overcome their challenges.

As part of this seminar, participants will get to introspect few historical and contemporary icons who have made things happen even when they faced multiple odds hindering their success. Students will also get exposed to tips and suggestions that will make them confident to pursue their dreams. The session will be completely interactive and students will form small cluster groups to solve simple case studies. This session will not guarantee any immediate changes, however it will ensure, the seeds of self confidence are planted and nourished as they move towards becoming successful individuals beyond their college days.

Usage of case studies, analyzing people and practices and knowing the formula for success will make them excited to pursue their dreams with confidence.

My Profile:

LRV Ramana, a.k.a. LRV is experienced in strategic consulting, solution sales & marketing, analyst briefings and grooming leadership. In his current role, he is responsible for designing, developing and implementing transformational solutions, building high performance leadership, sustaining revenue growth & driving strategic consulting with senior client stakeholders.
