It's a small but impactful change that individuals and communities can make towards a greener future. Rangers and Rovers actively participated by taking the initiatives to spread awareness about the harmful affects of plastic.

The volunteers conducted protest regarding the plastic bags as the plastic bags have an impactful effect on our environment. A single plastic bag can harm the environment and even it harms animals as they do eat all these plastic bags which reflects the health problem in animals and even humans it creates health diseases which result in death of the person . So we should avoid the plastic as much as we can and contribute to the environment.
