REPORT ON VALEDICTORY CEREMONY OF FUSION TECH CLUB

Date: 17th March,2023

Timings: 11:00AM to 2:00PM

Venue: MBA Block, Seminar Hall (Room No:208)

The Fusion Tech club had its valedictory session for the academic year 2022-23 on 17th March, 2023. The Chief Guest for the event was Ms. Vaishnavi Malla, Alumni. The event began with the Bhavan's prayer and the dignitaries gracing the dais.

The Fusion Tech report was presented by Mr G Mahesh Kumar, BCA Co-ordinator and this was followed by Appreciations and blessings by officiating Head, Department of Computer Science Mr N Bhaskar and Principal BVC, Dr G S V R K Choudary and Ms K V B Saraswathi Devi, Senior Assistant Professor, Department of Computer Science. The Chief Guest Ms Vaishnavi Malla spoke on the importance of being a part of the Fusion Tech club and how she was benefited being a part of it.

The AVs of Fusion Tech club heads as a tribute given by various juniors and faculties were projected. Momentous and certificates was distributed to the heads.

Prizes were distributed for all the events conducted as part of the club for the academic year 2022-23. The current heads of the club were felicitated and the heads for the new academic year were announced by Ms Sharon Rosy, Lecturer, Department of Computer Science.

Mr. Shrinath Kulkarni, Student co-ordinator of the Fusion Tech club for the academic year 2022-23 was given a special appreciation award for his dedication and hard work to this club.

There were a few fun activities conducted for all the students and faculties.

The session was ended with vote of thanks by Ms S Jaya Laxmi, In charge, Fusion Tech club. The session came to an end with mixed feelings and was a memorable farewell on behalf of the Fusion Tech club for all the seniors. There were a greater number of participants who attended the event and made it a great success.

ONE -DAY REGIONAL SYMPOSIUM INFOSTAV 5.0 ON **"RECENT TECHNOLOGIES IN IT"**

DATE: 24/02/2023

VENUE: St. JOSEPH'S DEGREE
AND PG COLLEGE, KING KOTI

A one-day Regional Symposium - Infostav 5.0 on "**RECENT TECHNOLOGIES IN IT**" was organized by St. Joseph's Degree and PG College, King Koti. The event was organized in collaboration with Loyola Academy, Alwal, Government City College, Hyderabad and St.Pious X Degree & PG College, Nacharam. Purpose of workshop was to give insights on the latest technologies in the field of Information Technology. The Guest Speakers for the day were Ms. Kondapally Madhavi, Research Scholar, IIT-H, Mr. Maruthi Seshidhar Inukonda, Research Scholar, IIT-H, Ms. Piduguralla Manaswini, Research Scholar, IIT-H who delivered lectures on the recent technologies like CNN(Convolution Neural Network), Blockchain Technology, Cyber Forensic. In large number students from various colleges attended the workshop, amongst which students along with the faculty Mrs. Sreeprada, Asst. Professor of Bhavan's Vivekananda College of Science, Humanities & Commerce also attended the symposium to grasp knowledge on the technologies and also to get an idea about choosing the right career in the field of IT. The event was hosted to showcase the importance and career opportunities in IT by these key speakers for the day.

The event was inaugurated by lighting the lamp, in presence of the Guest speakers for the day, Mrs. Esther Ratna, Convenor, Mrs. M. Kiran Jyothi, HoD, Department of Computer Science and Mr. Sai Rama Krishna, Co-Convenor .

A motivational speech was given by Mrs. M. Kiran Jyothi, HoD, Department of Computer Science. The event began with the career guidance speech which was delivered by a Data Scientist from Microsoft, followed by Ms. Kondapally Madhavi, Research Scholar, IIT-H who explained the concepts of CNN a class of artificial neural network (ANN), how it was useful to analyze visual imagery, Mr. Maruthi Seshidhar Inukonda, Research Scholar, IIT-H who delivered an excellent lecture Cyber forensics, a process of extracting data as proof for a crime (that involves electronic devices) while following proper investigation rules to nab the culprit by presenting the evidence to the court. He explained how cyber forensics aims to maintain the thread of evidence and documentation to find out who did the crime digitally.

Around 1:30 pm, the participants were given snacks and after the break, Ms. Piduguralla Manaswini, Research Scholar, IIT-H Blockchain Technology, a method of recording information that makes it impossible or difficult for the system to be changed, hacked, or manipulated. She explained a blockchain is a distributed ledger that duplicates and distributes transactions across the network of computers participating in the blockchain.

The program was concluded with a briefing about the IT technologies and the PPT about them were shared with the students followed by a group picture with the speakers, Convenor, HoD and our students.

Solvathon Report

Department of Computer Science has organized an event Solvathon which is a coding competition for newbie's, intermediate and advanced coders as a part of Bhavanotsav.

Flyer

This event was conducted by 13 Student volunteers along with Ms. PadmaPriya, Assistant Professor and Mr. Venkata Narayana, Programmer in Department of Computer Science.

The event began at 12:30 P.M on Feb 9th 2023 in N21A, N21B and N21C Computer labs in Library block, Bhavan's Vivekananda College.

Interesting coding questions were given to solve as part of this competition. Each team consists of 2 participants. This competition will build student vocabulary as a coder and also add a great value to student's resume.

Two first and two second prizes are awarded to the best participants and all the remaining participants will receive a participation certificate. Total 13 teams attended the competition. There are two rounds conducted in the competition.

Round 1:

Try to run the given application in choice of your language (Python, Java) in command prompt, Solve the logical and Syntax errors in the Command line application.

The Following is a Task Management Application, the features include:

- 1) Able to View all the current tasks in a chronological order.
- 2) Able to append new tasks to the Task management system.
- 3) Mark tasks as done.

Round 2:

Create an encryption and decryption function that takes a single string .The encryption function takes a single string converts it into a encrypted string .The encrypted string when given to the decryption function should return the original String .This can be done in any programming language.

Winners of Solvathon:

Event Name: Solvathon					
TEAM NO	Name	Gender	Programme/Course	Name of the college	Prize
1	Shubham Singh	Male	B.Sc(HDS)-III Year	BVC	1st
	N Bhavana Reddy	Female	B.Sc(HDS)-III Year	BVC	
2	K Vikas	Male	M.Sc(CS)- II Year	BVC	2nd

CHARLES BABBAGE DAY CELEBRATIONS

ON

25th JANUARY 2023

Mr.K.RAJASEKHAR

ADVISER IT PCI,GOVT OF INDIA,Dy.,DIRECTOR GENERAL(RETD),NIC,MEITY,GOVT OF INDIA

ORGANIZED BY DEPARTMENT OF COMPUTER SCIENCE

PROGRAM SCHEDULE

-  10.00 a.m Inaugural Session and E-Magazine release
-  10.30 a.m Tea Break
-  10.45 a.m Speaker's Talk on 5G & 6G technologies
-  11.45 a.m project presentation's
-  12.00 noon Valedictory and prize distribution
-  12.30 p.m Vote of Thanks

Department of Computer Science of Bhavan's Vivekananda College, celebrated Charles Babbage Day on 25th January 2023, commemorating Charles Babbage's 231st Birthday in honor and respect for his dedication towards the development of computers.

The keynote speaker for the day was Mr. K. Rajasekhar, Advisor IT PCI, Govt of India, Dy. Director General (Retd.), NIC, MeitY, Govt of India, who graced the dais along with Vice Chairman Air Cmde.(Retd.) JLN Sastry VSM, Principal Dr.GSVRK Choudary, Mr.N.Bhaskar officiating Head of Computer Science department, Mrs.KVB Saraswathi, Senior Faculty of Computer Science.

The event began with lighting of the lamp and Bhavan's Prayer which is believed to be auspicious before beginning of the event. The Vice Chairman, Air Cmde.(Retd.) JLN Sastry, VSM showered his blessings and appreciated the department and the young minds. Principal, Dr.GSVRK Choudary has addressed the gathering with his encouraging words on this event. This was followed by the welcome speech and highlights of department activities by Mr.N.Bhaskar, officiating Head of Computer Science department. Mrs.KVB Saraswathi, Senior Faculty of Computer Science appreciated the students who published articles in various domains and encouraged them to take up more in future with the emerging technologies.

Mrs. K Padma Priya, Senior Faculty of Computer Science has briefed about the Charles Babbage day and the various projects that has been presented by the Students.

Powerpoint presentation on Charles Babbage was delivered by the 1st year students of BCA.

The Bhavanotsav 2023 teaser was launched in the MBA seminar hall by Vice Chairman Sir, Chief Guest, Principal Sir, Mr.N.Bhaskar (officiating Head of Computer Science department) and Mrs.KVB Saraswathi, (Senior Faculty of Computer Science). The event also marked the launch of the e-magazine on the occasion of Charles Babbage Day celebrations in the Computer Science department.

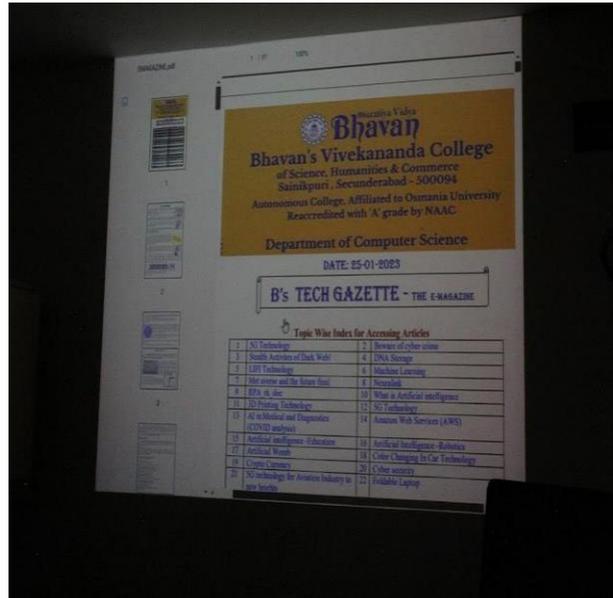

The Speaker Mr. K. Rajasekhar has delivered insights about 5G & 6G Network Technologies, applications and its challenges. The comparative study on 5G/6G technologies, Wireless Network cells, Functional Architecture of 6G, Key features for future 6G.

As a part of this event, our department conducted project presentation competitions on 18th & 19th January 2023 in various platforms like Android, Java, Python using ML, HTML, CSS, JavaScript, Node.JS, PHP, MySQL, Firebase, C & C++ using Graphics. A magnificent number of students from B.Sc (HDS) and BCA of 1st, 2nd & 3rd years have put-in their best efforts to complete their projects. There were a total of 41 teams and 102 participants.

Best projects were selected by department faculties - Mr. N Bhaskar, Mrs. KVB Saraswathi, Mr. K Srinivasa Rao, Mr. CHNV Mallikarjun, Mrs.S Jaya Lakshmi, Mr P Srinivasa, Mrs M. Amitha, Mrs. Sharon Rosy, Mrs. Vijetha, Mr. S Naveen Kumar, Mr. Jalaj Kumar Pandey, Mrs. K. Rajini and Ms.V Sreepada.

The Computer Science department recognized the efforts of senior students who conducted Android and C-graphics classes for students through online and offline methods. The students were awarded the best appreciation award "Techno-Ment" and appreciation letters for their skills and efforts. Pakki Venkata Teja of B.Sc. (HDS)-VI SEM and Sikinam Nithin Suhas of BCA- VI SEM received the "Techno-Ment" award and letters of appreciation. Pakki Venkata Tilak, E Aditya Charan of B.Sc. (HDS)-VI SEM received the "Computer-G" award and letters of appreciation. Varun Bukka and Hasan Ali of BCA-VI SEM received letters of appreciation for their sessions on Android applications.

Prize distribution: Based on different categories prize distribution was done.

The categories are:

1. Android Apps
2. Python using ML
3. Web Programming
4. Arduino projects
5. Graphics using C & C++

The students were appreciated and given prizes by Principal Dr. GSVRK Choudary, Mr. N.Bhaskar, officiating Head of Computer Science department and Mrs.KVB Saraswathi, Senior Faculty of Computer Science.

All categories together 19 students won 1st prize and 20 students won 2nd prize. Certificates were given for other students who have presented their projects in various platforms.

Vote of thanks was proposed by Mr. G. Mahesh Kumar, BCA Programme Coordinator.

An Outreach Programme was organized by Departments of Life Sciences and Physical Sciences of College on 17th December 2022. The main purpose of this event was to create Awareness regarding educational and technological advances in the current era. There were approximately 10 schools that attended this program. Such as:-

1. St. Ann's High School.
2. ZPHS Kapra.
3. Model Mission High School.
4. Little Pearls High School.
5. ZPHS old Alwal.
6. Bhavan's Vidhyalaya Sainikpuri.
7. Gaythri Vidhyalaya.
8. St. Thomas High School.
9. Senior Staff (Guest).
10. Lecturers.

As part of the Outreach Programme, there were 25 student volunteers from the Department of Computer Science who actively participated and the following events were organized

1. Throw and Guess.
2. Scratch Game Development.
3. Computer Hardware Exhibit

* Throw and Guess: -

In this game a ball should be rolled into one of the plastic glasses, wherein there exists a blurred logo of social media

The students need to guess the blurred logo.

From this event most of the students have actively participated and among them 10 students have won the game.

The coordinators of this event were: - Reema Kashmiri, Teja.

*Scratch Game Development:-

Scratch is a programming language that is perfect for making games, animations, and other visually rich programs. By using this software volunteers have created few gaming projects and also they have given a wonderful demonstration for beginners to develop simple games.

The examples of scratch engine software which were demonstrated were:-

1. Avatar Game.
2. Ping Pong Ball Game.

The students showed their interests and have actively participated in these events by being interactive and having their queries answered by the student volunteers.

It was very great learning experience for the school students to develop interest towards software programming.

The coordinator for this event was Mr Nithin Suhas.

*) Computer Hardware Exhibit:

A Computer Hardware Exhibit was also showcased as part of the Outreach Program Conducted by our college. The students from various schools who visited our college gained knowledge about different Computer Hardware and Software that are available today.

This event was coordinated by Mr. Shashank More under the guidance of Lecturers of the Department. The exhibit consisted of hardware components such as Motherboard, Power Supply Unit (SMPS), RAM, HDD and SSD Drives, CD-Drive, CPU, Graphic Cards and other components which are used in a Computer.

The volunteers had given a detailed overview to the students about the components and the importance of each component. They also showed the students assembling and disassembling of the system, which gave them a very good insight about how the inside of the CPU functions. The session was very informative and the students were very keen to learn. Even though it was a short session, all the points and topics useful and important for the students were covered.

Department of Computer Science

Workshop on ASP.NET MVC

A Report

The department of Computer Science of Bhavan's Vivekananda College has organised an inter-collegiate workshop on ASP.NET MVC, under the Cluster College Programme on 10 December 2022 in the college.

Starting in the year 2021, the cluster system was implemented in nine autonomous degree colleges in Hyderabad. And Bhavan's Vivekananda College was selected under cluster college programme

The Cluster College Programme is integrated to multiply productivity, efficiency, optimisation of resources and better learning outcomes. The Principals of 10 autonomous colleges; Bhavan's Vivekananda College of Science, Humanities and Commerce, Sainikpuri, St Ann's College for Women, Mehdiapatnam, Loyola Academy, Secunderabad, St Joseph's Degree & PG College, St Francis College for Women, RBVRR College, Narayanguda, King Koti, Nizam College, Government College for Women, Begumpet, Government City College and University College for Women, Koti entered into an agreement to commence activities under the Cluster Colleges programme, which includes exchange of faculty, researchers and students as well as opportunities for collaborative research projects and publications.

An MoU to this effect was signed by the 10 autonomous colleges in the presence of Navin Mittal, Commissioner of Collegiate Education, Professor R Limbadri, Chairman of Telangana State Council for Higher Education and Professor D Ravinder, Vice-Chancellor of Osmania University.

The Programme started at 11:00 am. Mrs, Sharon Rosy from the computer science department was the host of the workshop. The programme started with the Bhavan's prayer after which the host Mrs. Sharon Rosy welcomed all the participants and dignitaries to the workshop. There were a total of 102 participants out of which 36 students along with 2 faculty were from other colleges. Then the Principal and the Speaker were invited onto the dais with flower bouquets. The HOD of the Computer Science Department Mr N Bhaskar, welcomed all the participants and spoke a few words about the workshop. He briefed them about the objectives of the workshop. He also said that ASP.NET MVC is now very much needed in the field of computers.

Later Mrs. K.V.B. Saraswathi, Sr. faculty of the Department of Computer Sciences addressed the gathering introducing the workshop and spoke about ASP.NET MVC. She spoke about the importance of ASP.NET MVC and its usage in the corporate world.

The Principal, BVC, Dr. GSVRK Choudhary was invited to address the gathering. He welcomed the speaker Mr. Sai Surya Prakash and all the participants and the faculty of BVC to the workshop. He thanked the speaker for having accepted the invitation and being there. He added that the Computer Science is the most fast changing field in today's world. He also congratulated the Computer Science Department and Dr. Suvarchala Rani, the Cluster College coordinator for organising the event.

Then the speaker Mr. Sai Surya Prashanth, an alumnus of BVC who had done his MSc. Computer Science from the college was introduced by the host Mrs. Sharon Rosy, and he addressed the gathering.

The first session started after the short break at 12:00 pm. The speaker Mr. Sai Surya Prashanth gave a session on the life cycle of ASP.NET after which he gave a session on how to create ASP.NET app on an MVC. He later gave a session showing a sample App and website.

After lunch it was time for the practical session and it began at 2:00 pm in the computer labs in the New Block. It was a Hands-on training session for the participants on how to connect to the database through ASP.NET. It was indeed a very enthusiastic participation from all the participants and a very fruitful workshop. The students thoroughly engaged themselves in the hands-on activity and learnt a lot. The session went on till 4:30 pm after which we had the valedictory session and the closing programme.

The workshop came to an end at 4:30 pm. Mr. N Bhaskar, Officiating Head, Department of Computer Sciences addressed all the participants thanking them for their active participation. After that, the time was given to the participants to share their feedback on the workshop where students from AV College, University College of sciences for women Koti and Bhavan's Vivekananda College expressed their views and gave their feedback of the workshop. They said that they had learnt a lot and that it was a very useful workshop. Then, the time was given to the resource person to express his views. He said that he was happy to come back as a resource person to the college he studied in and said that he was impressed with the kind of enthusiasm and interest the participants showed in the hands-on activity. He also thanked the management of Bhavan's for inviting him as the resource person.

It was then the time of the valedictory. All the participants were awarded with the certificates of participation. And lastly the programme ended with the vote of thanks by Mrs. Suvarchala Rani coordinator of Cluster College Programme. She thanked the management of BVC and also congratulated the Department of computer science for having successfully organising the event. She also thanked all the participants and specially the participants from other colleges for actively taking part. Last but not the least she thanked the resource person Mr. Sai Surya Prashant for having accepted the invitation and making the event successful. The workshop ended on a very positive and fruitful note.

BHAVAN'S VIVEKANANDA COLLEGE

PHP with MySQL – VALUE ADDED COURSE

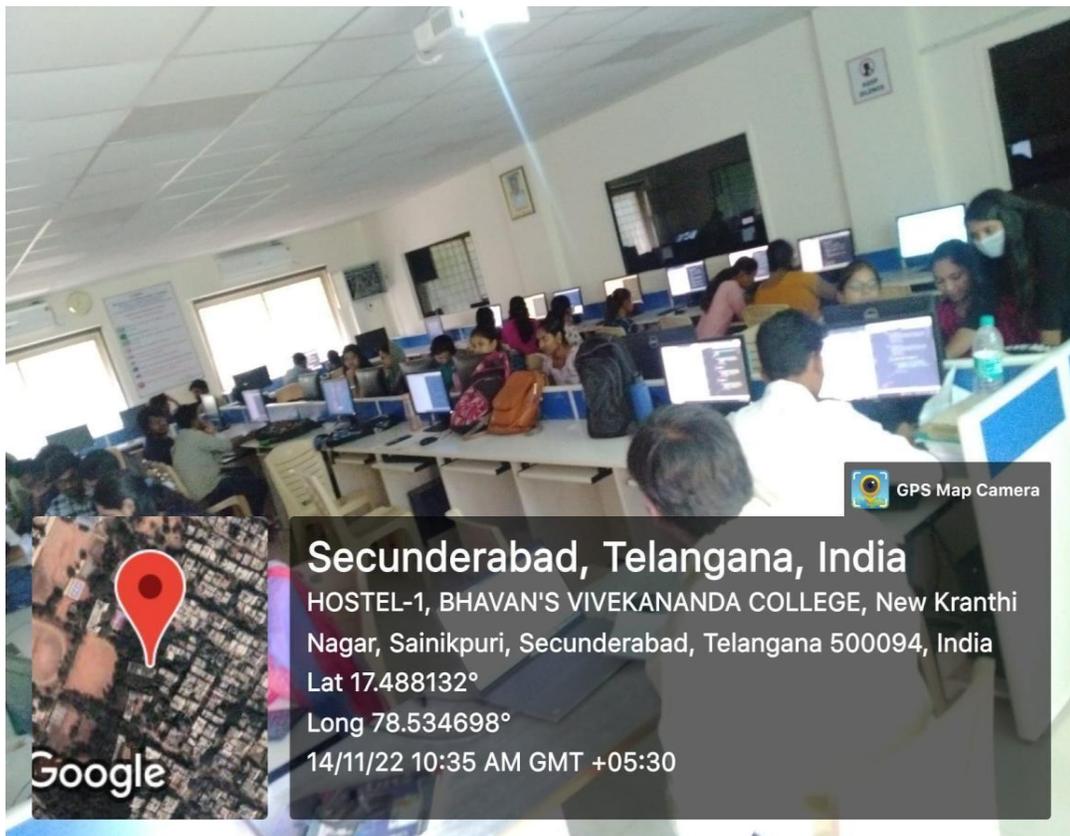

REPORT

Department of Computer Science organized a 30hrs value added course on “**PHP with MySQL**” for **M.Sc. (Computer Science) 3rd semester** students from 02nd November 2022 to 02nd December 2022. Timings are 08.30 am to 09.30 pm in Computer science Lab **N21B**.

A total of **42** students attended the course.

The Course Content were delivered and demonstrated by course instructors **Mr. S NAVEEN KUMAR**, Lecturer, Department of Computer Science.

The technical part (software installation, network connection) of the Value-Added Course was taken care by **Mr. L Narsing Rao**, programmer, dept. of computer science.

PHP with MySQL

Training Program

About the course:

PHP is a server-side scripting language that can be used for converting any website into a dynamic website and allow for dynamic behavioral functions in the website. PHP is a free open-source tool and is the preferred development option of most companies across the web. Benefits of PHP include being able to collect form data, generate dynamic page content, or send and receive cookies.

MySQL is a Relational Database Management System (RDBMS) that uses Structured Query Language (SQL). It is also free and open source and is commonly used with programs developed in PHP.

PHP MySQL course is designed to enable the students and basic beginners to build dynamic database driven web sites using PHP MySQL combination. PHP being a rich and task-specific language, this course covers the most important range of functions in depth and equips to develop the web application in full strength.

Duration: 5 week program (30 hour program)**Week 1: (hour 1 - hour 6)**

- 1. Introduction to web technology - Scripting languages**
- 2. HTML 5**
Introduction & History
- 3. HTML5 Form Elements**
HTML5 Form Attributes
- 4. CSS3-Introduction**
External, Internal & Inline Style sheets
- 5. Introduction to bootstrap**
- 6. JavaScript - Introduction - Syntax**

Week 2: (hour 7 – hour 12)

- 7. External & Internal**
- 8. JavaScript – Form Validation**
- 9. Regular Expressions- introduction - Syntax**
- 10. PHP basics**
- 11. XAMPP & WAMPP**
- 12. Echo & print**

Week 3: (hour 13 – hour 18)

- 13. Functions**
- 14. Arrays**
- 15. Sessions**
- 16. Cookies**
- 17. Error handling**
- 18. OOps concepts**

Week 4: (hour 19 – hour 24)

- 19. Classes and objects**
- 20. MySQL introduction**
- 21. MySQL Contents**
- 22. PHP MySQL Application Development**
- 23. PHP MySQL Application Development**
- 24. PHP MySQL Application Development**

Week 5: (hour 25 – hour 30)

- 25. PHP MySQL Application Development**
- 26. PHP MySQL Application Development**
- 27. PHP MySQL Application Development**
- 28. PHP MySQL Application Development**
- 29. PHP MySQL Application Development**
- 30. PHP MySQL Application Development**

Report on Certificate Course Graphic Design

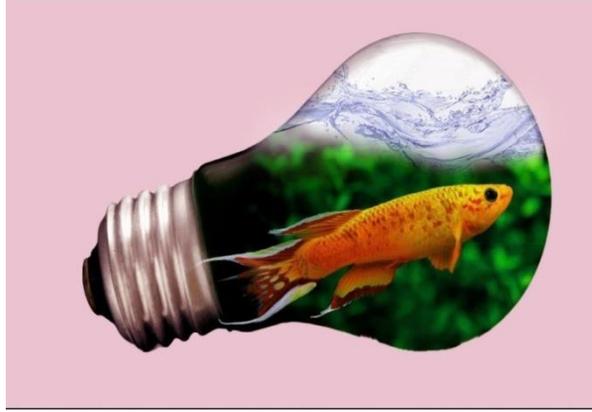

Considering the need and demand of digital creativity, Department of Computer science in collaboration with certificate course committee of the college conducted *Graphic Designing Course*. The course started from 19th September 2022 to 21st October 2022. For a period of two months scheduling 2 classes per day with the duration of 1hr each. A total of 30 hr training on photo editing tools, such as Adobe Photoshop and Illustrator were provided with practical and theoretical sections. A total of 40 students registered out of which 22 students enrolled for the course. Editing Background images, collage of photographs, double exposure images, retouch and filtering, commercial ads creation were some of the concepts explained and implemented with live examples. The course emphasized on creation of logo, vector graphics for web application, poster making and other digital media. Students were given opportunity to design official posters and certificates for various college events, to encourage their talent.

The session was handled by S.Jayalaxmi, R.Manohar faculty department of computer science Bhavan's Vivekananda college.

2nd Day of Induction

16TH AUG 2022 ROOM NO:- N218 LIBRARY BLOCK

Speakers Of The Day

 MRS. B. NIRAIMATHI (OFFICIATING PRINCIPAL)	 MR. N. BHASKAR (M. SC/CSI COORDINATOR)	 MR. G. MAHESH (ASSISTANT PROFESSOR, BCA COORDINATOR)
---	---	--

Followed By :
INTERACTIVE ACTIVITY
(BY FUSION TECH CLUB FOR ENHANCING SKILLS LIKE TEAM BUILDING AND GROUP DISCUSSIONS)

ORGANISED BY FUSIONTECH - THE BCA CLUB
DEPARTMENT OF COMPUTER SCIENCE

The induction was conducted to welcome the freshers to Bhavan's family and introduce them to the BCA-programme and Fusion Tech Club.

The programme began with the welcome address by Mrs B Niraimathi, Officiating Principal, BVC who briefed to the students about the college and the environment.

Also, Mr.N.Bhaskar, Officiating Head, Department of Computer Science spoke a few words to the students regarding the Department and the Course.

Lastly, Mr. G Mahesh Kumar, Assistant Professor, Department of Computer Science, Coordinator,BCA, gave a presentation with insights about the course and the activities conducted by the department.

Following this , there were some engaging activities for the freshers hosted by the Fusion Tech Club.

The first round was named '**Word Traffic**'. In this round a specific topic was given and the students were to build words related to it. The students were divided into 3 teams of 15 each with a time window of 5 seconds to answer. 27 students were qualified for round two.

The second round was '**Enact or React**'. In this round 2 pictures were shown, where one picture was of a famous personality and the second picture was of a popular celebrity. The students either had to speak a few lines about the famous personality or enact like the popular celebrity. By the end of this round, 12 students qualified to the third round.

The third round was called '**Shouting in silence**'. This round was played in pairs where one person put on headphones with music playing in his ears while the other had to say a text or a sentence which needs to be guessed correctly by the other person. All the 12 students were divided into 6 pairs. This round ended with a tie.

So ,the 4 students played a tie breaker round which was '**Draw me if you can**'. It was a simple pictonary round out of which one pair was declared the winner. All the students participated actively and enthusiastically in the event.

The final winners of the Activity were as follows:

1st Prize : Jorndan & Aditya

2nd Prize : Siri Mallika & Shruthi

3rd Prize : Ram Pranav & Ashish

CHARLES BABBAGE DAY-2021-2022

On 16th March 2022, The Fusion Tech club under the Department of Computer Science of Bhavan's Vivekananda College, celebrated Charles Babbage Day, in physical mode, commemorating Charles Babbage's 230th Birthday, in honor and respect for his dedication towards the development of computers.

The keynote speaker for the day was Prof. S Jeelani, Director, Center for Distance and Virtual Learning (CDVL), University of Hyderabad, who graced the dais along with Vice Chairman Air Cmde.(Retd.) J L N Sastry VSM, Principal Prof. Y Ashok, and Mrs. KVB Saraswathi, Head, Dept of Computer Science.

The event began with lighting of the lamp and Bhavans Prayer which is believed to be auspicious before beginning of any event. This was followed by the welcome speech by Mrs. KVB Saraswathi, Head, Department of Computer Science. Vice Chairman, Air Cmde.(Retd) JLNSastry VSM showered his blessings and appreciation towards the department, followed by Principal, Prof . Y Ashok giving his welcome address. Next we had a short power point presentation on Charles Babbage given by the 1st year students of BSC HDS.

Prof. S Jeelani, Director (CDVL), the guest speaker of the day , spoke on "Future Science and Information Technology". His speech was really enlightening as he gave insights on innovations in Science and Technology.

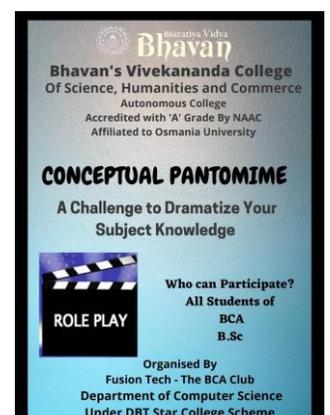

Fusion Tech Club Organized an inter collegiate event known as "Technophilia" - Where technology meets obsession & Big Brains. The event was conducted in 'online mode' in which various students from different streams of different colleges took part in the competition. A total of 320 registrations were received. The event was conducted in 3 rounds.

Round I: Choose "IT" right! Received a total of 255 participants.
 Round II: A total of 122 were qualified for the 2nd round.
 Round III: Winners of round III were G.Rajesh Kumar from Little Flower Degree College, Cyril Francis from Loyola Academy Degree and PG college and S.Hema Saritha from Bhavan's Vivekananda College.

An intra-Collegiate Event was also organized known as "Conceptual Pantomime". In which students of BCA and BSC of 1st,2nd and 3rd years took part in teams.

A total of 18 teams participated in round-I and 7 teams were selected for round-II.

The winners were Keerthana and team from B.Sc. MPCs-3A bagged the 1st prize and G Rithika Reddy and team from Bsc MECs-3B bagged the 2nd prize.

A report on the day's events was addressed to the audience. The session was followed by project presentations done by the students of B.Sc. and BCA on various platforms such as C programming, Android, PHP, Python, C Graphics, HTML and CSS. There were about 41 projects presented by the students in total-21 projects under Android,Php,Python , 13 projects under C Graphics and C Programming and 7 projects using HTML and CSS. A Total of 21 projects were presented and 150 participants attended the Charles Babbage day-2021.

Moving on further with the event, Role Play and Technical Quiz(Simple Minds) was conducted by Fusion Tech Club. In which 8-9 teams from BCA and B.Sc. participated along with faculty's active involvement. This was followed by the felicitation of Fusion Tech heads 2021 ,as they were awarded with a token of appreciation. Next, we had prize distribution for Role play and Project Presentations by Principal Prof. Y Ashok, Mrs. KVB Saraswathi giving away the mementos to all winners.

The Fusion Tech heads for the academic year 2021-22 were felicitated for their exemplary contribution for the club. We also had the selections of the heads for the upcoming academic year, 2022-23.

The event concluded with the vote of thanks proposed by Mr. N. Bhaskar, Asst Prof, Dept. of Computer Science.

INTERNATIONAL WEBINAR ON CLOUD ARCHITECTURE IN SOFTWARE ENGINEERING

Date: 14st March 2022
Timings: 9:45am – 11:00 am
Venue: ONLINE(Microsoft Teams)
VIP's: Mrs. K V B Saraswathi , Head of the Department of Computer Science
Speaker: Mr. Nanda Kodimyala.
(Sr.Manager,Data Engineering, NCR CORP, Atlanta, USA)

BHAVAN'S VIVEKANANDA COLLEGE

A Guest Lecture along with Hands-on session, on Cloud Architecture in Software Engineering, was organised by Department of Computer Science from 9:45am to 11:00am on 14th March, 2022. Around **95** students including faculty of Computer Science Department attended the session. The session began with Mrs. Saraswathi, Head, Department of Computer Science, giving a brief introduction to Cloud under Software Engineering and welcomed the speaker.

TOPICS COVERED :

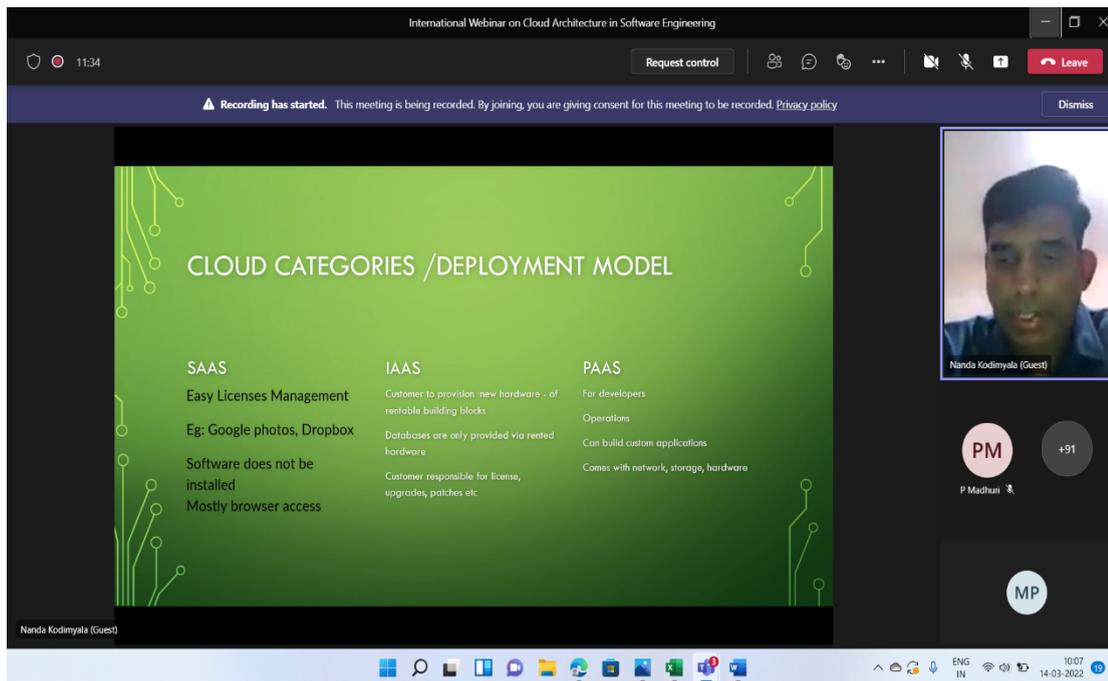

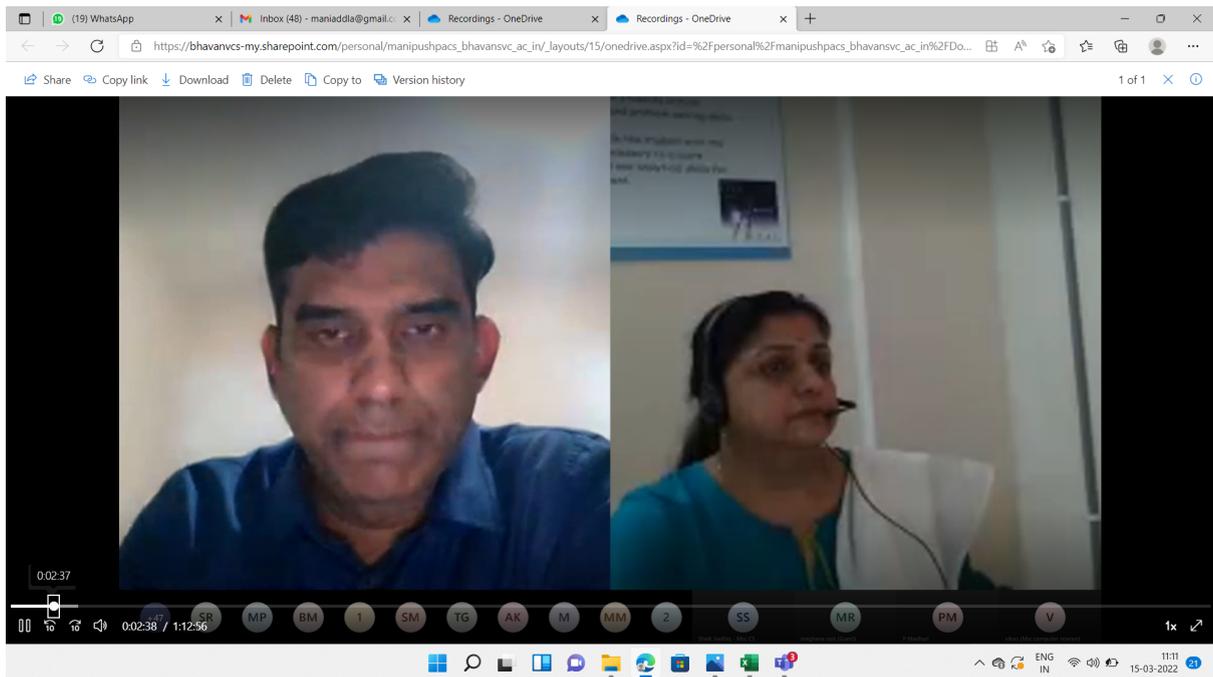

The speaker focussed mainly on

- What Cloud Architecture is?
- What is Cloud and its importance and characteristics.
- Cloud Categories and deployment model.
 - SAAS
 - IAAS
 - PAAS
- Explained differences between Windows Server platform and Windows Azure along with Real time scenarios.
- Detail explanation of Key Providers of Cloud, like Azure, Amazon (AWS), Google Cloud Provider (GCP), Oracle Cloud.
- Key factors of architecture like Availability, scalability, storage, virtual network, security were explained with flow diagrams, and by the giving real time scenarios of speakers work place, NCR corp, Atlanta.
- Creating a storage account was shown practically by Speaker.
- Questions were asked on the concerned topic by students and faculty and guest lecturer answered them all with patience.

VOTE OF THANKS:

Vote of thanks was given by Mr. Bhaskar, Assistant Professor, Department of Computer Science. He thanked the speaker, Mr.Nanda Kodimyala, for sharing his knowledge on Cloud architecture in Software Engineering and helping students understand the real time scenarios through his current project. He specially thanked resource person for taking his time and effort out in conducting the webinar in spite of being from a different time zone.

REPORT ON NATIONAL SCIENCE DAY- 2022

National Science Day was celebrated by the Physical Sciences and Life Sciences Faculty of Bhavan's Vivekananda College of Science Humanities and Commerce, to mark the discovery of the Raman effect by Indian physicist Sir C. V. Raman on 28 February 1928, for which Sir C.V. Raman was awarded the Nobel Prize in Physics in 1930.

The theme of National Science Day 2022 is 'Integrated Approach in Science and Technology for a Sustainable Future'.

The session began with the welcome note by Dr. Anuradha, Coordinator, National Science and Head, Dept. of Micro-Biology, BVC. This was followed by the welcome address by Air Cmde. J L N Sastry Garu, Vice- Chairman, Bharatiya Vidya Bhavan, Sainikpuri Kendra and Dr Y Ashok, Principal, BVC, who were the Chief Invitees for the session.

The keynote speaker for the Inaugural Session was

Dr.P. D Babu, Centre Director, UGC-DAE Consortium for Scientific Research, Mumbai Centre. Dr P.D Babu spoke about Atomic Energy, Role of Neutrons, structure of a Nuclear Power Reactor, which was really very informative.

The Inaugural session was followed by the Technical Session, by Prof M V Ramana Murthy Garu, Former Professor, Computer Science, Osmania University and Presently working as a Professor and Head, Dept, of M & H, MGIT, Hyderabad. This session began with the welcome address given by Mrs K V B Saraswathi Devi, Head, Dept. of Computer Science.

Prof M V Ramana Murthy Garu, focused on IoT in Real-Time how is it going to effect the future. He had also focused on how IoT works, the current status and future prospect of IoT, Challenges of IoT, Future of IoT and the Various Real-Time applications of IoT. The lecture delivered by Prof M V Ramana Murthy Garu, gave an insight as to what the future technology is going to be about.

This session concluded with the vote of thanks, by Mr N Bhaskar, Assistant Professor, Bhavan's Vivekananda College. Around 90 students including Faculty from the Dept. of Computer Science had participated in the session.

The third session was Poster Presentations which was conducted online related to the theme specified for National Science Day- 2022, that is Integrated Approach of Science and Technology for a Sustainable Future.

The judge for the event was Dr Hemalatha, Assistant Professor and former HOD Dept. of Computer Science University College for Women, Hyderabad.

There were around 21 teams which actively participated in the Poster Presentation Competition both from UG and PG.

There were around 56 students who participated in the Poster Presentation event.

The Poster Presentation winners in UG and PG

Processes in Divide and Conquer

➤ Divide

The first and foremost process for solving any problem using Divide and Conquer paradigm. As suggested by the name it's function is just to divide the problem into sub-problem which in turn if are more complex then are again divided into more sub-parts. Basically, if we consider for example binary search (an example of Divide and Conquer approach) the given list is broken (under some specified consider defined by its algorithm and user input) into single elements among which then the element to search is compared and the user gets a prompt whether the element is in the list.

➤ Conquer

This process is referred to as 'Conquer' because this process is what which performs the basic operation of a defined algorithm like sort in cases of various sorts, finds the element to be searched in case of binary search, multiplying of the numbers in Karatsuba Algorithm and etc. But almost among algorithms at least the most basic ones that we study mostly are considered to be solved in this part since the divide part breaks them into single elements which can be simply solved.

➤ Merge

This is the last process of the 'Divide' and 'Conquer' approach whose function is to recursively rebuild the original problem but what we get now is the solution to that problem. In merge procedure, the solved elements of the 'Conquer' are recursively merged together like the way they divided in the first step i.e. 'Divide'.

Agenda of Presentation

- What is Internet of Things?
- How IoT Works?
- Current Status & Future Prospect of IoT
- Knowledge Management – From Data to Wisdom
- IoT Challenges
- The Future of IoT
- The Potential of IoT
- Technological Challenges of IoT
- IoT Application

REPORT

INTERNATIONAL WEBINAR ON AGILE DEVELOPMENT

Date: 21st February 2022
Timings: 9:45am – 11:00 am
Venue: ONLINE(Microsoft Teams)
VIP's: Mrs. K V B Saraswathi , Head of the Department of Computer Science
Speaker: Mr. Varun Pulimati
(Sr. Full Stack BI Developer, Cognisoft Tech, LLC, New Jersey)

The poster features the college logo at the top, followed by the event title in a dark blue banner. Below this is the speaker's profile picture and name. The bottom section is a dark blue banner with the organizing department's name, and a footer with contact information and a Teams link.

A Guest Lecture along with Hands-on session, on Agile Development, was organised by Department of Computer Science from 9:30am to 11:00am on 21st Feb, 2022. Around **60** students and faculty of Computer Science Department attended the session. The session was started by Mrs. Saraswathi, Head, Department of Computer Science, she gave a brief introduction to Agile Development under Software Engineering and welcomed the speaker.

TOPICS COVERED :

The speaker focussed majorly on what is Agile, along with briefing about the differences between

1. Waterfall Model and Agile Development: Waterfall methodology predates [agile](#) by almost 30 years as it was one of the prominent methodologies used for project management in the 70's and it followed a linear structure that required working in phases with lots of preplanning and well-defined steps. Agile uses short bursts of design – development-test-deploy that is adaptable to changing situations. The principle is to incrementally and iteratively create products. The flexibility stemming from this approach allows teams to develop projects faster and more in line with customers' changing expectations.

2. Agility and the Cost of Change: A well-designed agile process “flattens” the cost of change curve , allowing a software team to accommodate changes late in a software project without dramatic cost and time impact. ... (Design and Construction activities are interleaved) , Delivers multiple 'software increments'!

3. Involvement in Team Planning : Mr. Varun explained the team structure and team planning. The five levels of team planning in agile were discussed, i.e. product vision, product roadmap, release plan, sprint plan, and daily commitment

4. Tool set for the Agile Process : Various tool set for agile process were discussed, like Agile Manager will push stories and tasks directly to these tools so developers can keep track directly from their favorite IDE.

Active Collab. ...

JIRA Agile. ...

Agile Bench. ...

Pivotal Tracker. ...

Telerik TeamPulse. ...

VersionOne. ...

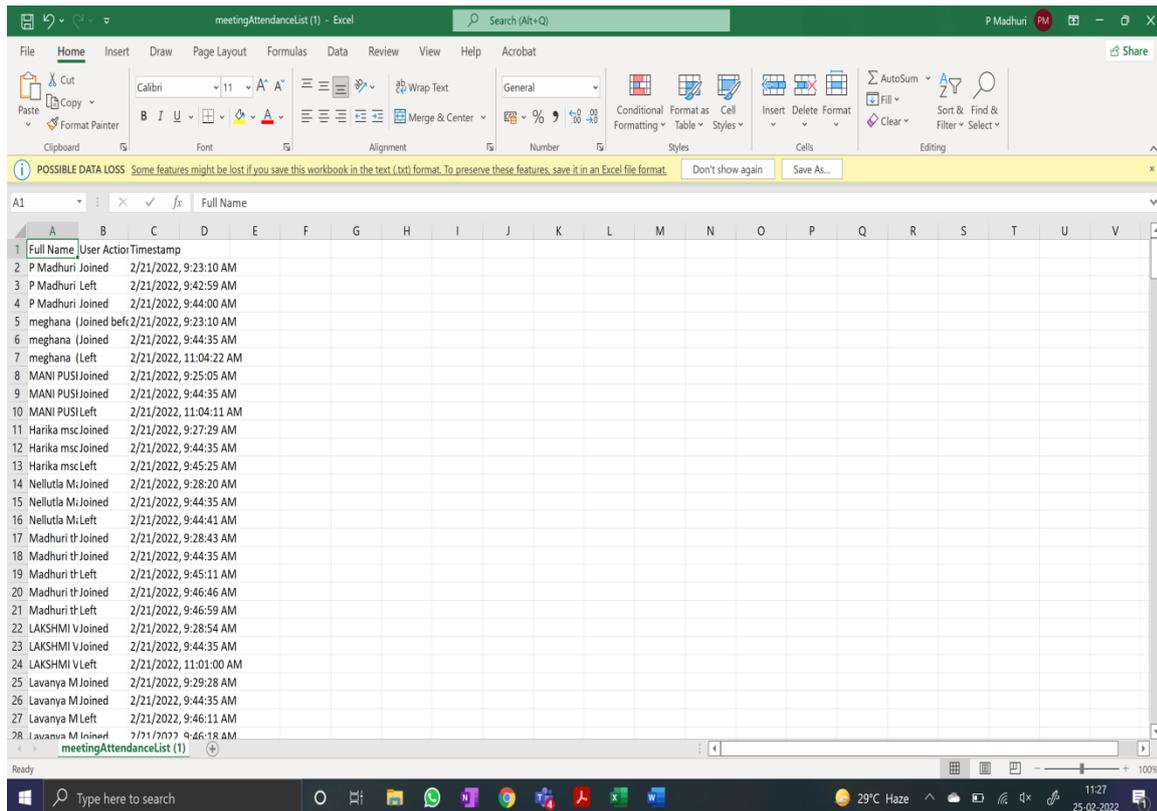

Planbox. ...

LeanKit.

5. Agile in Real time Projects: Mr Varun also spoke about his current project at **Cognisoft technologies**, and the agile process they are following to development of the project, that helped the students understand the real time implementation and importance of Agile.

VOTE OF THANKS:

Vote of thanks was given by Mr. Bhaskar, Assistant Professor, Department of Computer Science. He thanked the speaker, Mr. Varun Pulimati, for sharing his knowledge on Agile Development and helping students understand the real time scenarios through his current project. He specially thanked resource person for taking his time and effort out in conducting the webinar in spite of being from a different time zone.

Value-Added Course on Python and Raspberry pi by Pantech Solutions Pvt. Ltd

PANTECH SOLUTIONS
Technology Beyond the Dreams

18th - 23rd February, 2022

**Resource Person
Mr. Kalyan Kumar**

Senior Project Engineer, DSP, Pantech Solutions Pvt. Ltd

**Organized by
Department of Computer Science
Under DBT-Star College Scheme**

Report

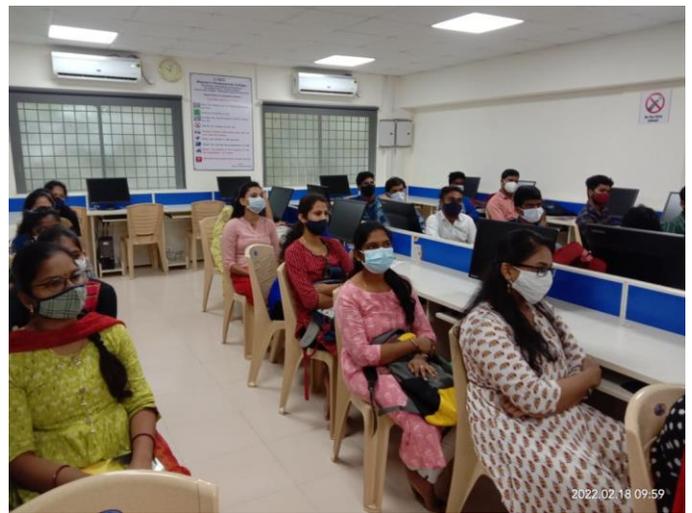

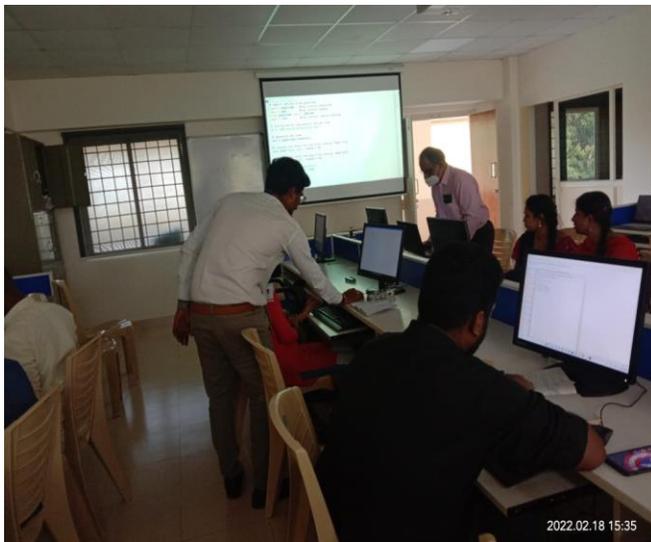

Department of Computer Science organized a 30hrs value added course on "IoT with RASPBERRY PI using Python" for M.Sc. (Computer Science) 3rd semester students from 18th February 2022 to 23rd February, Timing 9.30 am to 4.30 pm in Computer science Lab N21C. A total of 39 students and 10 faculties attended the course.

The course was organized in collaboration with Pantech E-Learning solutions Hyderabad. The topics were delivered and demonstrated by course instructors Mr. K KALYAN KUMAR, and Mr.GANESH from Pantech E-Learning solutions.

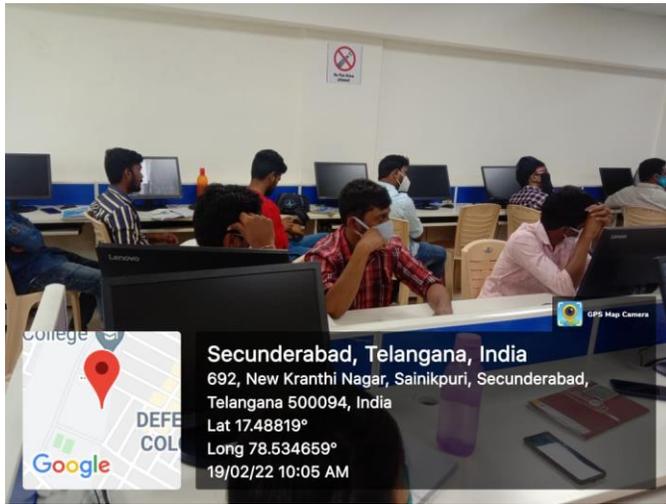

The brief summary of the course is given below:

Day /Date	Theory/Concept	Practical implementation
18 th Feb 2022	Basics of python programming and example programs	Generation and detection of QR code and CAPCHA generation
19 th Feb 2022	Introduction IoT and its applications, Raspberry PI connectivity and Operating system installation.	LED connectivity and experimented on traffic signal application using python coding
21 st Feb 2022	Sensor connectivity and coding for each sensor using raspberry pi and python.	Experimented object identification, fire identification and gas detection implemented these using buzzer and LED signals.
22 nd Feb 2022	IoT cloud connectivity using thing speak cloud. Account and channel creation. Explored Free SMS services.	Generating and storing sensor data in cloud. Analyzing and generating report. Generating and sending bulk SMS using python coding.
23 rd Feb 2022	Picture identification, Video capturing and Frame detection, Open CV generation.	Face identification, and analysis single or multiple images using python code.

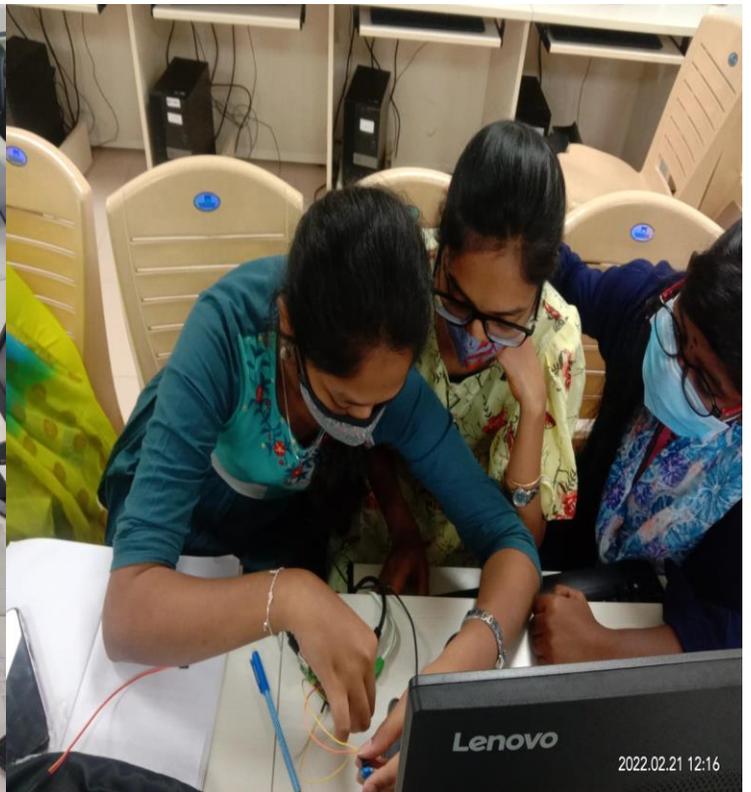

**Day 1: 18th Feb 2022 Introduction to Python
And QR code Generation and Detection**

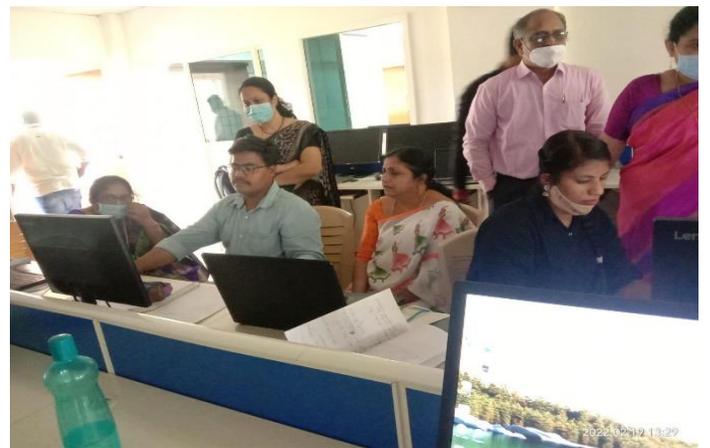

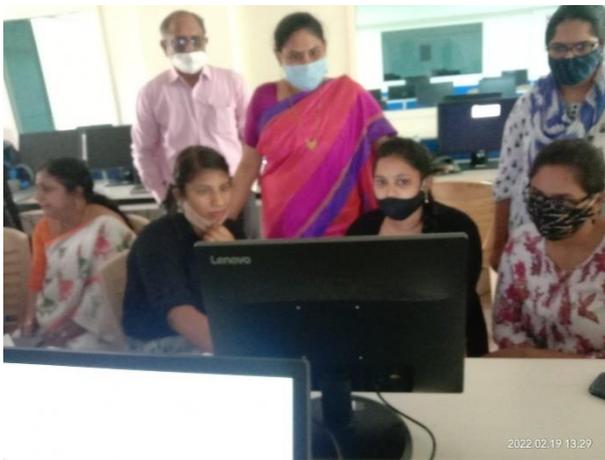

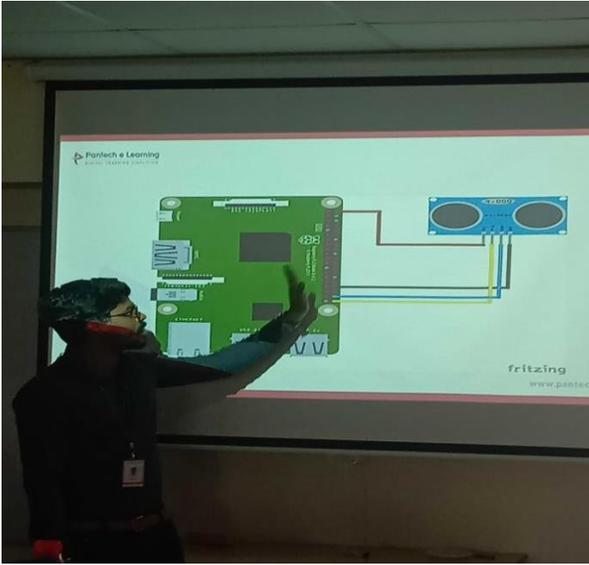

Day 2 : 19th Feb 2022 Introduction IoT and its applications and Raspberry Pi Practical applications

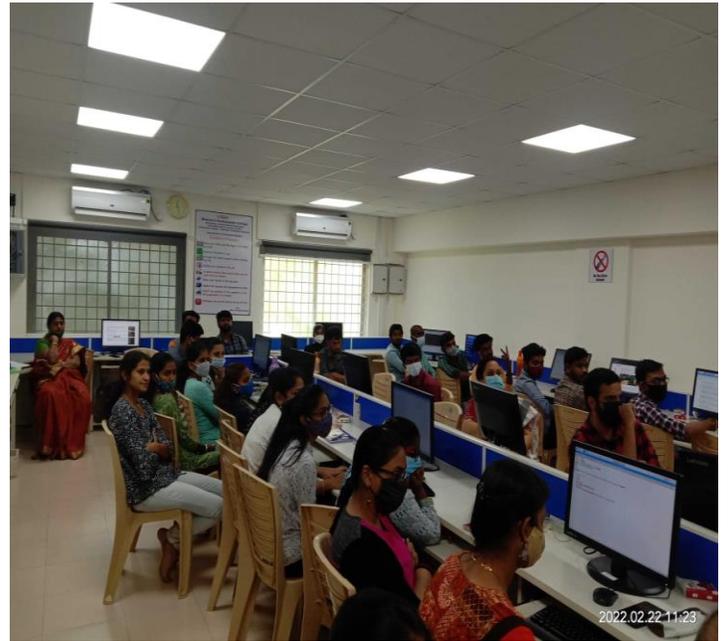

Day 3 : 21st Feb 2022 Sensor connectivity and coding for LED and Buzzer applications.

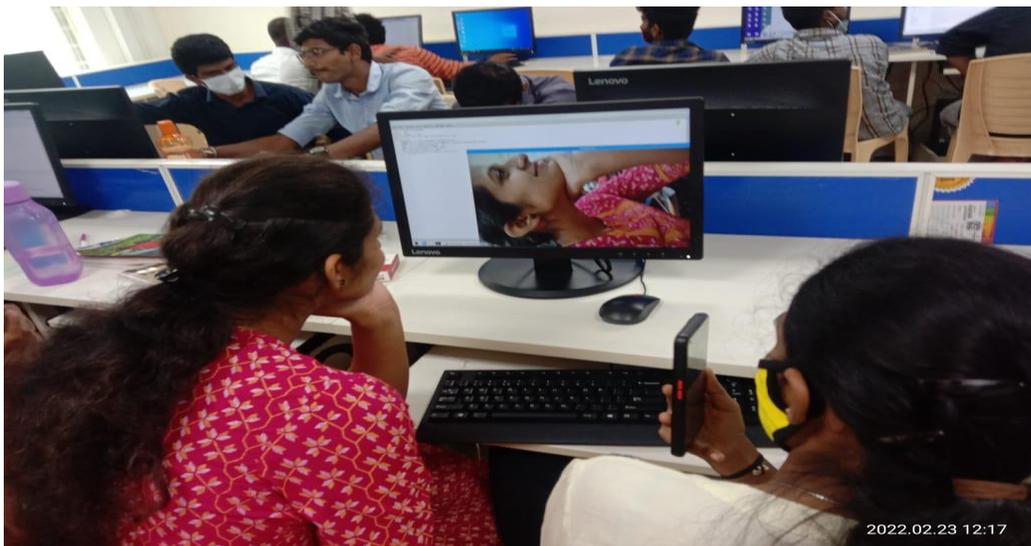

**Day 4 :22nd Feb 2022 IoT Cloud connectivity
using Thingspeak Sending bulk SMS using coding.**

Day 5: 23rd Feb 2022 Picture identification, Video capturing and Frame detection, Open CV generation

Certificate Distribution

2 Day Guest Lecture on Android for Mobile APP Development January 2022

Date: 24th and 25th January, 2022 Timings: 5:30PM
Venue: ONLINE(Microsoft Teams)
VIP's: Mrs. K V B Saraswathi Devi , Head, Department of Computer Science
Speaker: Ms. K. Jaya Lakshmi Naga Malleswari
(Alumni(B.Sc(MECS), Bhavan's Vivekananda College),
Pursuing MBA, CBIT

Platform 
Microsoft Teams

 **Bhavan's Vivekananda College**
of Science, Humanities & Commerce
Sainikpuri, Secunderabad - 500094
Autonomous College, Affiliated to Osmania University
Accredited with 'A' grade by NAAC

2 Day Guest Lecture on
“Android for Mobile APP Development”
24th & 25th January, 2022 at 5:30 pm

Speaker
Ms. K.JAYA LAKSHMI NAGA MALLESWARI
Alumni, Bhavan's Vivekananda College
Pursuing MBA, Chaitanya Bharathi Institute of Technology

Organized by
Department of Computer Science
Under DBT - Star College Scheme

Summary of DAY 1:

The topics covered on Day 1 were:

- Introduction to Android
- History of Android
- Various Versions of Android
- Features of Android
- Differences between each Android version
- Android Studio- Platform used for Android Development
- Setup Procedure of Android Development.
- Various activities performed on Android Studio

Feedback about Android Guest Lecture:

- 107221861004 BCA 1st year A really very nice and interesting session learned about various tools in Android studio
- 107221546038 BSc (Data Science) 1st year Thanks to jayalaxmi maam for explaining complete user interface
- 32 B.Com 1st year "good"
- 40 BCA 1st year It was a very good session all the doubts were cleared.
- 107221474045 BSc (MECs-A) 1st year good ..! i come to know about android and its android versions etc...
- 15 B.Com 1st year Very useful mam....and we are so....much lucky that we have such great opportunity to learn from you senior's..... We try our best to grasp your teaching.....
- 42 BCA 1st year excellent guest lecture very much informative looking forward for more classes
- 94 BSc (MPCs-B) 1st year Today's class was fantastic. I've learned a lot about the Android Studio. The explanation was extraordinary, words are not enough for it.
- 107221861020 BCA 1st year "configuration of project structure of android studio two major file in android setup run build of an app"
- 31 BCA 1st year Practical session
- 107221474020 BSc (MECs-A) 1st year Brief note about how to use android studio and also some applications
- 107221474088 BSc (MECs-B) 1st year How to download emulator android stored
- 74 BSc (MPCs-B) 1st year Now I have an idea about android

REPORT ON

GUEST LECTURE(WEBINAR)
“CAREER OPPORTUNITIES AT U.G AND TERTIARY-LEVEL”

Date: 17-12-2021

Department of Computer Science had organized a Guest Lecture (Webinar) on “**CAREER OPPORTUNITIES AT U.G AND TERTIARY-LEVEL**” through online mode under **DBT-Star College Scheme**, on 17th December 2021 for B.Sc and BCA Final year students.

The Resource Person invited for the session was **Ms. Sushma Uday Singumahanthi, Senior HR Manager Capgemini INDIA**, Hyderabad, Telangana.

The Webinar started at 3:00 p.m. with the welcome address given by Mr. N. Bhaskar, Assistant Professor, Department of Computer Science. Ms. Siddhini student from BCA III Yr, read the profile of Sushma Uday and welcomed her for the session.

The Session was taken over by Ms. Sushma Uday, she started with the present Career Opportunities for Computer Science graduates and what kind of jobs are available for them at present scenario and also how to believe in themselves, how to build self-confidence to get the placement in IT Industry & other fields also.

Ms. Sushma Uday enhanced on how important it is to choose appropriate career option and Higher studies in today’s world. She also motivated students to upgrade themselves on latest trends, and provided them good information about how can a student lead the roadway to research side as one of the career opportunities.

She highlighted on different types of questions placed to students like their Strength, Weakness, Student’s Goal etc. She also highlighted on different methods like Star Interview approach in facing Interviews (Situation, Task, Action and Result) for Jobs.

The session was very interactive. Ms. Sushma Uday made it a point that every student responds and interact by a placing question on the topic.

Career Opportunities & importance of Interview Skills

Sushma Uday Mahanthy

https://www.youtube.com/watch?v=9Y5Ue_m19EY&t=7s

Next slide

Career Opportunities for Computer science graduates

Web Data Analyst	Mobile Learning Designer	Game Designer	Game Animator
Blockchain Developer	Software Developer	Computer Network Architect	Computer Systems Analyst
Business Development	Business Development	Business Development	Business Development

In today's world, it is more important than ever to know your career options that is what you want to do next ... higher studies... or if you choose to work you will definitely need to have strong interviewing skills. The most common reason for this is that college graduation rates are increasing and you will be leaving your college with more competition. If you fail at your interview or fail to make a good impression it could cost you an opportunity. 16 yrs of Experience in small/medium/ large types of set up. An Kuchipudi Artiste and a mother of 2 . Before we start an interesting video for all of you. Hear it....

TYPES OF QUESTIONS

Test your intention

i. Why are you interested in the role?
ii. What interests you about the company?
iii. What interests you about this Career?

Motivational

Test your Knowledge Skill and Attitude

i. Can you give me an example of when you had to solve a problem?
ii. Describe a time when you had to explain something complex in simple terms?
iii. Give me an example of a time you have worked in a team? What was your role?

Competency

Test your Subject

i. How much reuse do you get out of the code that you develop, and how?
ii. Which do you prefer; service oriented or batch oriented solutions?

Technical

Competencies can be defined as "what you CAN do"

i. What are you good at?
ii. What do you learn quickly?
iii. What did you find easiest to learn at school or university?
iv. What subjects do you most enjoy studying?
v. What things give you energy?

Strength based

Request control

Leave

Answering questions Various approaches:

- Top down Start with the main point you want to get across and then expand with some detail.
- Number your points For example 'I have three points to make'

STAR Useful for competency based questions
(Remember the question and what you are trying to demonstrate!)

Structure

- Situation: give a context by describing the situation
- Task: what was your goal?
- Action: tell the interviewer your specific actions – this should be the biggest part of your answer
- Result: shows yourself in a good light, even if the overall project was not a success

STAR INTERVIEW METHOD

S Situation
Describe the context

T Task
Provide details on your responsibilities

A Action
Demonstrate how you responded or took charge

R Result
Explain the impact you made or the lessons you learned

Management Consulted

Singamshankh, Susmita

A Report on 5 Day Workshop on PHP with MYSQL 29th November to 3rd December 2021

Department of Computer Science had organized 5 Day Workshop on PHP with MYSQL through online mode under **DBT- Star College Scheme**, from 29th November to 3rd December 2021 for B.Sc and BCA II and III year students.

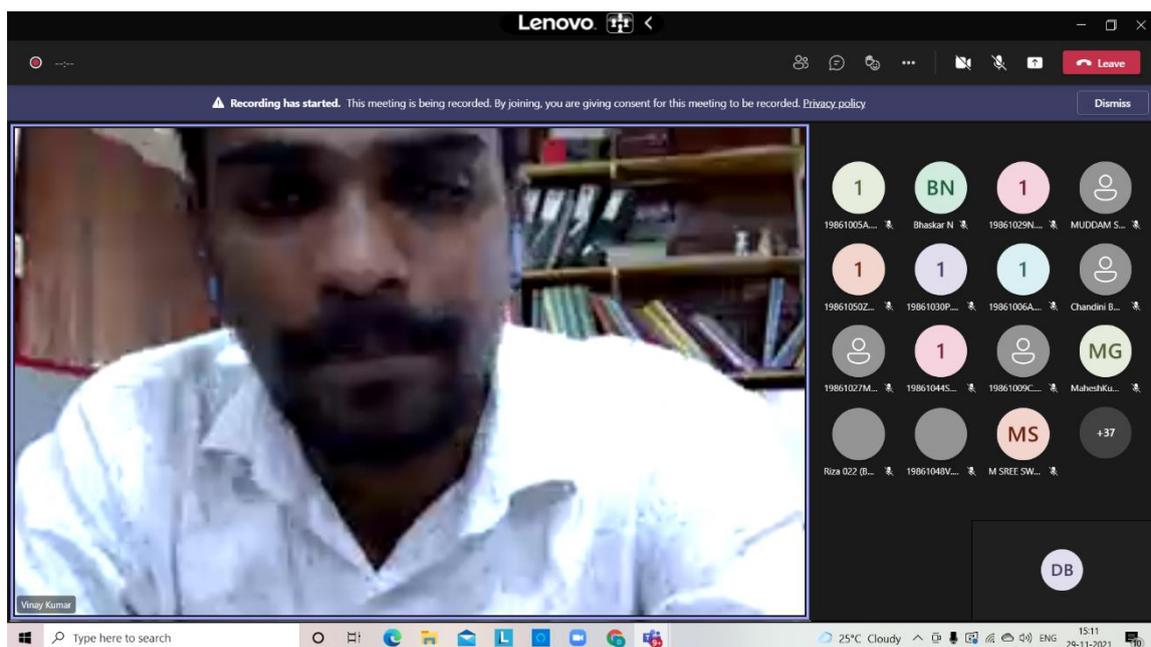

The Resource person invited for the session was, Mr.S Vinay Kumar Chary Program Officer - IT Watershed Support Services and Activities Network Nagole, Hyderabad, Telangana.

The workshop started at 3:00 p.m with the welcome address given by Mr.N.Bhaskar, Lecturer, Department of Computer Science welcomed him as Alumini of Bhavan's Vivekananda College. The session was taken over by Mr.Vinay Kumar , he briefed about day wise schedule for 5 Day workshop and gave introduction about PHP and MY SQL There were a total of 100 participants including faculty and students of various streams for the Workshop.

The five-day schedule:

Day 1:

He explained about necessary tools needed to install and explained how to setup visual studio code practically and also highlighted the points on project implementation basing on these tools.

Day 2:

Day 2 Session started with MYSQL Mr. S Vinay Kumar explain creating Database and table in SQL and assigning datatypes to the variables using the software and practically showed students to execute queries

He explained queries on DDL commands like CREATE, ALTER, DROP ETC. Showed how to implement Filters like WHERE, AND, OR.

Mr. Vinay Kumar explained about types of JOINS like INNER JOIN, RIGHT JOIN, LEFT JOIN and practically executed queries on joins.

The screenshot displays a Zoom meeting window. The main content is a slide titled "Course Index" for "Day 2 MYSQL - Setting up Database". The slide lists the following topics:

- Creating a Database
- Data Definition Languages (DDL) Commands eg: CREATE, ALTER, DROP
- Data Manipulation Language (DML) Commands eg: SELECT, INSERT, UPDATE and DELETE
- JOINS eg: INNER JOIN, LEFT JOIN, RIGHT JOIN.
- FILTERS- eg: WHERE, AND, OR.

The meeting interface includes a top bar with "Recording has started" and a "Dismiss" button. A participant list on the right shows several users, including Vinay Kumar (V.K.), Bhaskar N, Pradeep P, SUDABATH, and Chandini B. The Windows taskbar at the bottom shows the time as 3:16 PM on 29-Nov-21.

Day 4:

Day 4 of Workshop started with how to build a project. Mr. Vinay just briefed about the previous day topics and started session by explaining how to create Folder structure and create pages in the Folder .

He created live Database and showed clearly how to connect the Databases in PHP. He has taken live example of “Register Database” explained how to register and Login formalities.

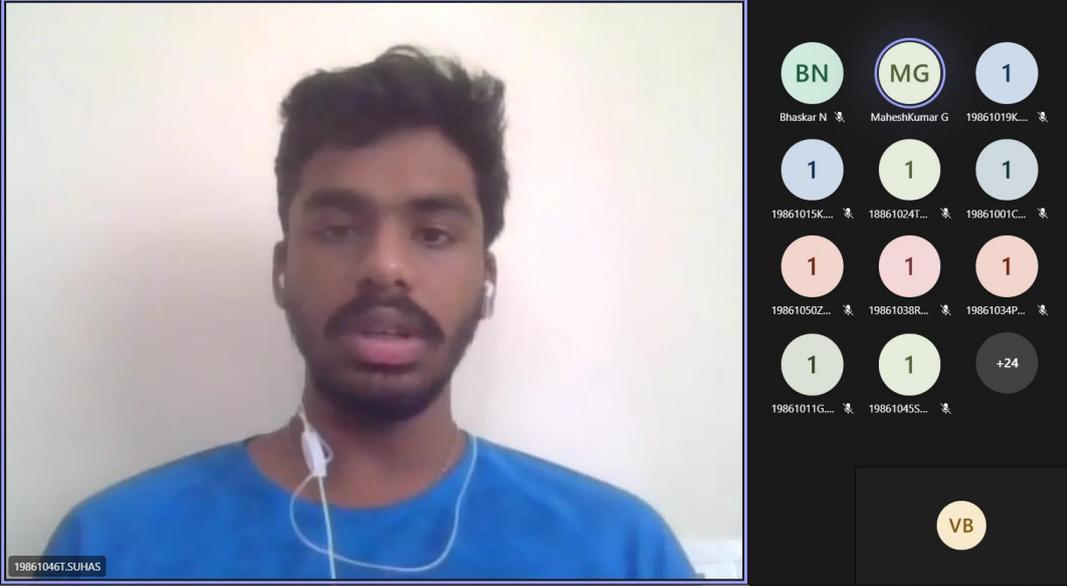

The session was very informative and students asked many doubts in creating Database and connecting it.

Report on International Webinar on “Ethical Hacking”

An International Webinar on “Ethical Hacking” was conducted by the Department of Computer Science, under the DBT Star College scheme, on 26th November, 2021.

The speaker for the Webinar was Mr. Srinivasrao Kotipalli, who works for Global Bank in Singapore as a Senior Cyber Security Manager. He is also an Offensive Security Certified Professional (OSCP) and Offensive Security Certified Expert (OSCE). Mr. N. Bhaskar, Lecturer, Department of Computer Science, welcomed the guest speaker.

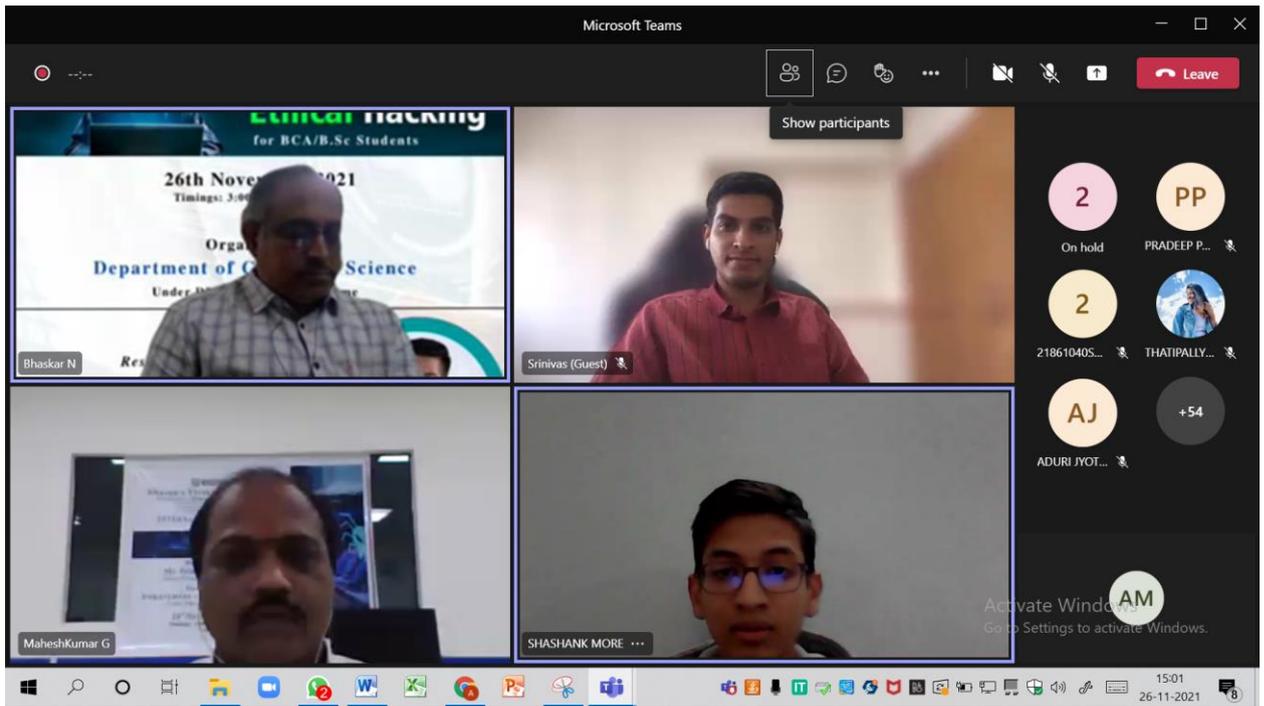

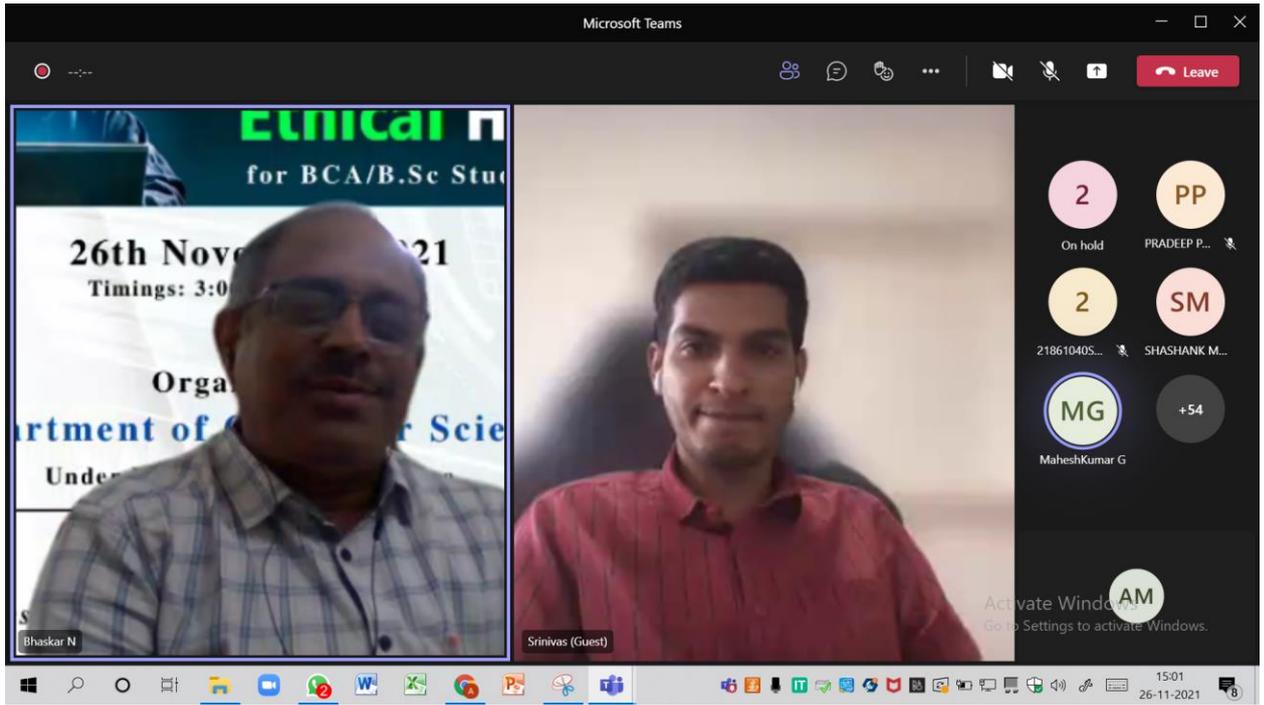

He focused on various topics related to Ethical hacking and Information Security.

Mr. Srinivas highlighted on the need for Security and what Hacking is. He also focused on how Web Application Security is provided.

He also briefed to the students as to who are the different types of Hackers and what do they do, like Black Hat Hackers, White Hat Hackers, Grey Hat Hackers, Hacktivists, Script Kiddies.

He also ran a sample Hacking Code and showed the minimal instructions that are executed for the data to be stolen.

Mr Srinivas also educated the students about ‘Careers in Information Security’ – He also mentioned the various roles in the industry in the field of Information Security such as - Penetration Testing (Ethical Hacking), Red Team, Yellow Teams, Digital Forensics, Security Operations Center, Security Architects, Bug Bounties, Security Blogging, Security Training-Online and Offline, Freelancing etc.

There were around 60 students who actively participated and interacted in the webinar. They also had their queries related to Ethical Hacking, clarified from the speaker. The session concluded with Mr. G Mahesh Kumar, Asst Professor, Dept. of Computer Science, proposing the Vote of Thanks.

Report on E-WASTE DRIVE

The Department of Computer Science had initiated an “E-WASTE DRIVE” organized by the Fusion Tech Club under DBT-Star College Scheme from 1st November 2021 within the college to encourage and spread awareness among the students to collect, deposit and extend their support towards responsible e-waste disposal. The Green Campus Programme Cell, in collaboration with FusionTech, NCC, Abhyas Club, VOICE club and the greENERGY club of the college had organized Waste Management Week, from 8th Nov, 2021 - 12th Nov, 2021. This event was organized as part of the MoU signed with Envirokare Recycling Solutions Private Limited, a Telangana State Pollution Control Board certified organisation.

Bhavan's Vivekananda College

Accredited with 'A' Grade by NAAC
Autonomous College - Affiliated to Osmania University

FusionTech Club presents
E-WASTE DRIVE

*"E-Rase your E-Waste,
Modern Technology owes an
apology to the ecology"*

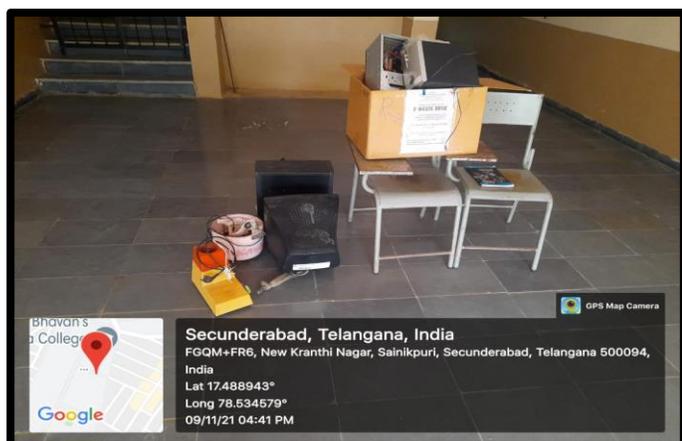

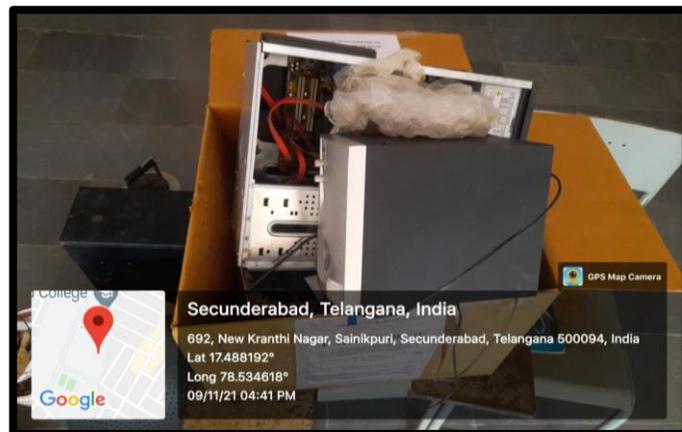

An opportunity to donate all your
E-WASTE

Note: The E-Waste collected will be
sent for recycling

Date: Starts from November 1st, 2021.
Place: LIBRARY BLOCK
(Beside N3 and in the second floor, near N22A).

Organized by
Department of Computer Science

There were various events organized as part of this Awareness programme. An internal campaign within the college was organized on 8th Nov, 2021, physically and on social media. A Door to Door campaign in the Defence Colony society on 9th of November 2021 was taken up. Students from the Fusion Tech Club along with 150 NCC Cadets and other clubs had participated in spreading awareness about proper waste and E-waste disposal in the society. As part of the campaign there was a lot of E-waste collected from the society like discarded Television, Computer(CRT) Monitors, Motherboards, Battery cells, iPods, Headset/Earphones, Calculators, Cellular Phones, Screen Guards, Keyboards, Mice, Cables, Compact Discs (CDs), DVDs etc.

AWARENESS RALLY

On 11th November 2021, the FusionTech Club along with NCC and Abhyas Club organized an “WASTE MANAGEMENT AWARENESS RALLY”. BCA II and III Year students along with more than 150 NCC Cadets, faculty members took active part in the rally. The E-waste awareness rally began from the college till Neredmet at 3:00PM displaying banners and shouting slogans, spreading awareness about environmental hazards of E-waste.

Organized by
Department of Computer Science

On 12th November 2021, The FusionTech Club organized **"E-WASTE- TO- BEST"**, an **Art and Craft Exhibition cum Competition**, which gave an opportunity for the students to showcase their creative side in making the best out of the e-waste. The aim of the exhibition was to re-purpose the e-waste into something new. The judge for the event was Dr K V Padmaja, an Agri-Envrionmental Scientist, who appreciated the efforts and creativity put in by the students in making their exhibits/models.

Winners for the event were decided by the Judge and were felicitated by mementoes on the valedictory.

There were around 24 students in 12 teams who participated from various streams.

The NCC unit of the college had volunteered in contributing for the E-Waste drive from their respective houses. A total of around 150 items were collected from them.

E-Waste from the college was collected with around 46 CRT Written-Off monitors, old unused SMPS, Keyboard, Mice, Routers, LAN Cards, RAM etc.,.

Envirokare Recycling Solutions Private Limited was approached, as agreed upon as per the MoU, to dispose off the collected E-Waste under the guidance of Mr. Naresh Raj, the concerned Incharge for the Hyderabad Unit.

A total of around 500Kgs of E-Waste was donated to the organization from the college on 4th of January, 2022.

The list of items collected and donated is mentioned in the Excel sheet attached.

Certificate of Disposal

This certificate is hereby issued to BHAVAN'S VIVEKANANDA COLLEGE (Dept of Computer Science)
The material received was processed according to all applicable Local State and Pollution Control guidelines and in an environmentally controlled way. This also confirms to the guidelines of the E- Waste (Management & Handling Rules, 2016) issued by Ministry of Environment & Forest and Central Pollution Control Board.

Material was destroyed / recovered / refurbished / converted to raw materials in useful form in our recycling process.

Ref : Pickup Date :
Issue date: 4th Jan, 2022
Total Pickup Quantity :-

SL. NO.	MATERIAL DESCRIPTION	WEIGHT (KG)
1.	E- WASTE	500

Total Weight of the material was = Five Hundred kilograms only.

Report on Cyber Security Webinar – 6th November, 2021

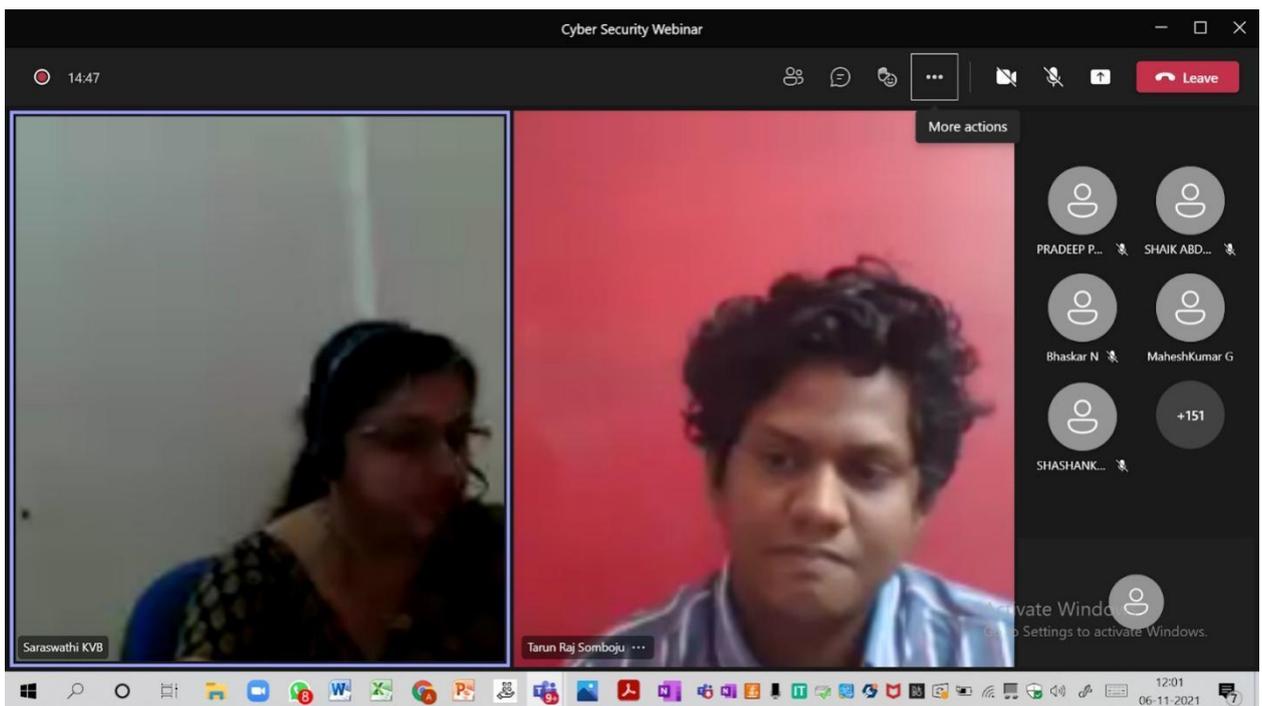

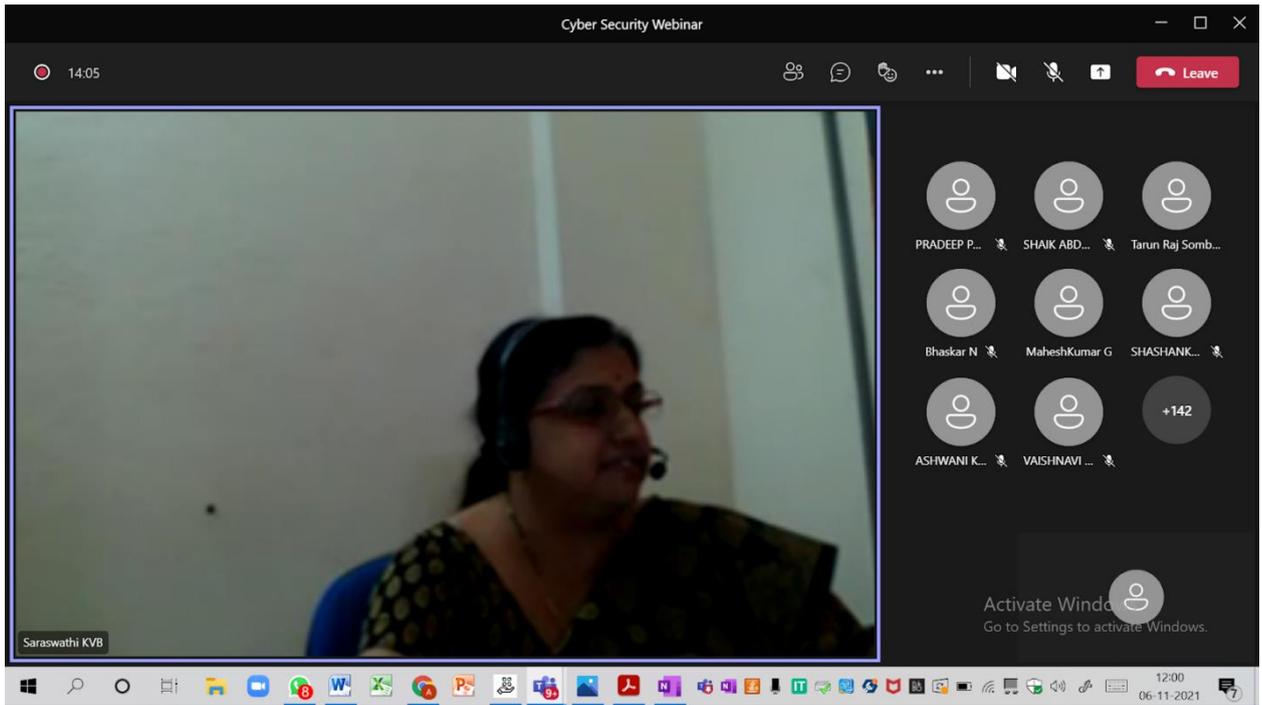

A webinar on **Cyber Security** was organized by the department of Computer Science under the DBT- Star College Scheme, on the 6th November, 2021. The speakers invited for the session was Mr S Tarun Raj, Senior Security Analyst, Stefanini India Pvt. Ltd., Hyderabad, and Mr N Prithvi Raj, Senior Security Analyst, Stefanini India Pvt. Ltd., Hyderabad. Mr S Tarun Raj is also the alumni of the BCA programme from our college.

The webinar began at 12:00 p.m. with the welcome address given by Mrs KVB Saraswathi, Head, Department of Computer Science. The session was taken over by Mr. Prithvi Raj and Mr Tarun Raj who started with stating the need of the Internet in the modern era, Importance of Cyber Security, the top 10 OWASP (Open Web Applications Security Project). They also highlighted on the types of threats to security, causes of phishing, differences between surface web, dark web, deep web etc. The session also included a local demo of how phishing is done.

The session was very informative and knowledgeable with students interacting with the speakers and clarifying questions on what kind of courses and certifications would help them pursue a better career in the field of Cyber Security.

The session concluded with the vote of thanks proposed by Mr. G Mahesh Kumar, Assistant Professor, Department of Computer Science and BCA Programme Coordinator, thanking the speakers and the audience for their active participation. There were a total of 205 participants including faculty and students of various streams for the webinar.

Department of Computer Science had organized a webinar on “Service Management and ServiceNow” under DBT-Star College Scheme on 30-OCT-2021 from 3:00 P.M. to 4:30 P.M. for both BSC & BCA students.

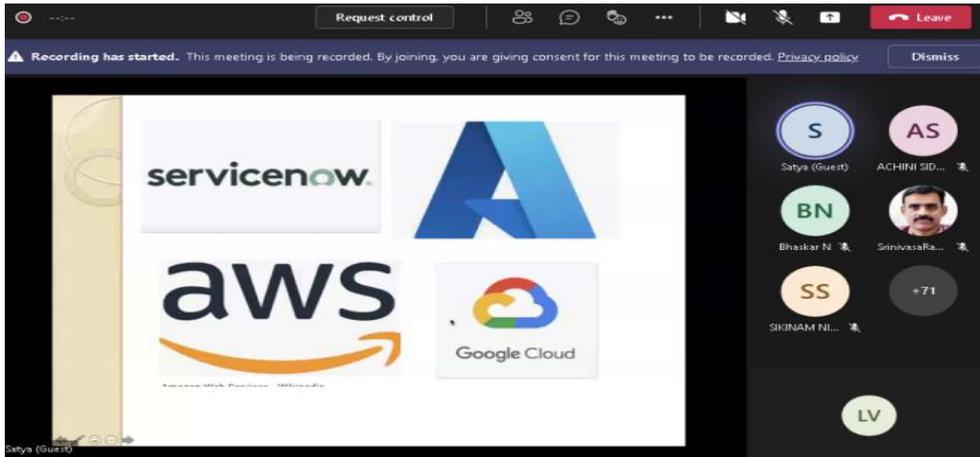

Total number of participants: 78.

Resource person: Mr.Y. SATYA KIRAN KUMAR
(Vice President, ITSM and Cloud Computing, Deutsche Bank.)

The topics covered were:

Service Management and ServiceNow: -

Service Now –is a service that is a support for the Organizations to use the AWS, Azure, Google Cloud.

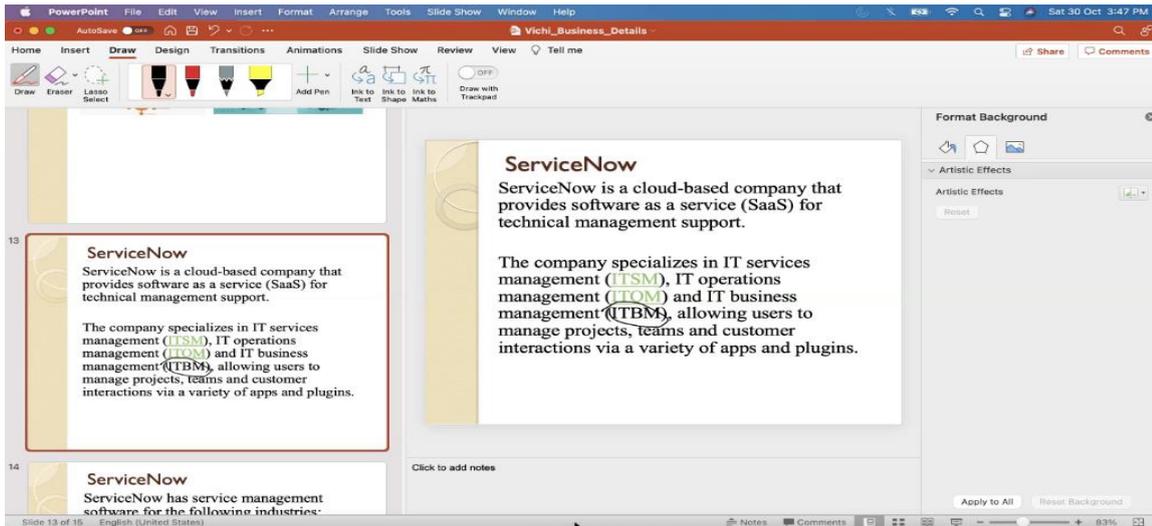

Services can be as a – Infrastructure as a service
Platform as a Service
Software as a Service
Service as a Service

It is a company which provide with the IT service management.

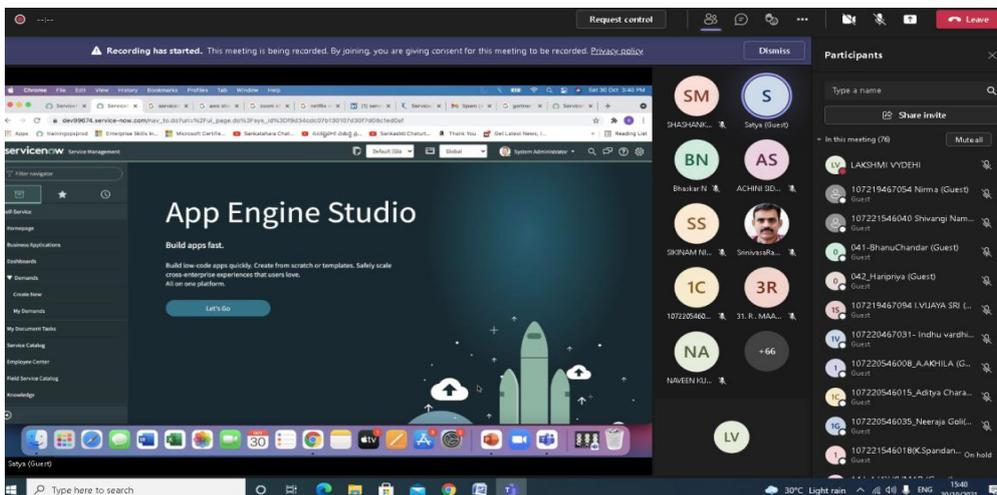

It is an Application Software.

It executes on Cloud; no Downloading or Running time required

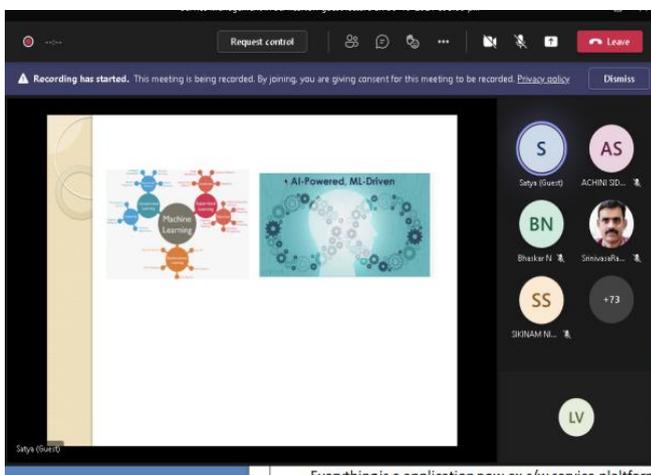

It is a Paid service. They provide us with the URL with which we can use directly.

It is a ready to use software.

It uses AI, ML for developing applications, to integrate machines with other products.

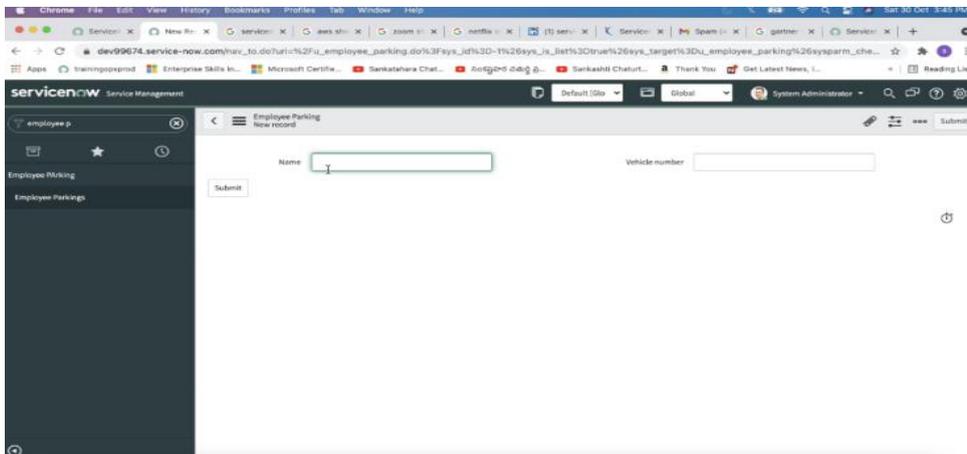

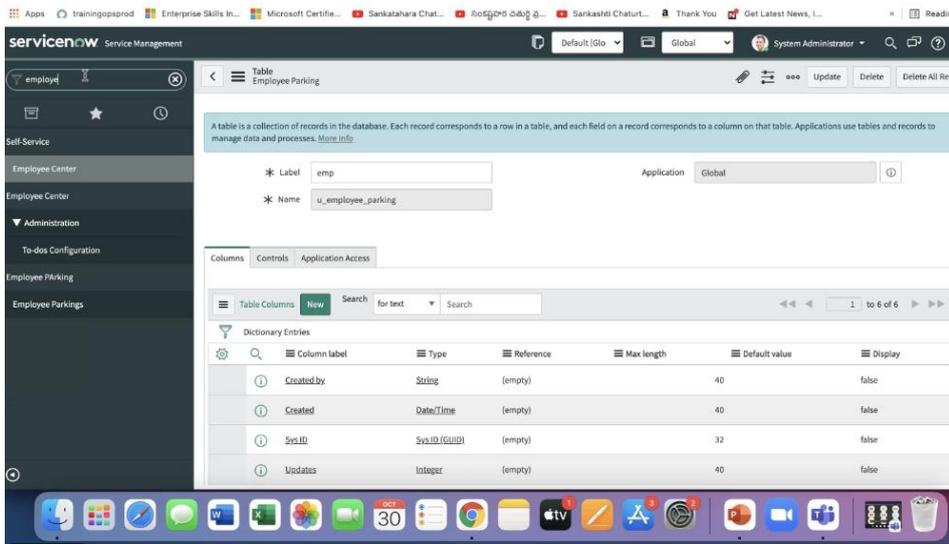

Ex: Build a machine in AWS, Google Cloud, FB,Whats App.

It allows the company to use their Applications.ex-Incidents

We can create our own customised Application on their platform.

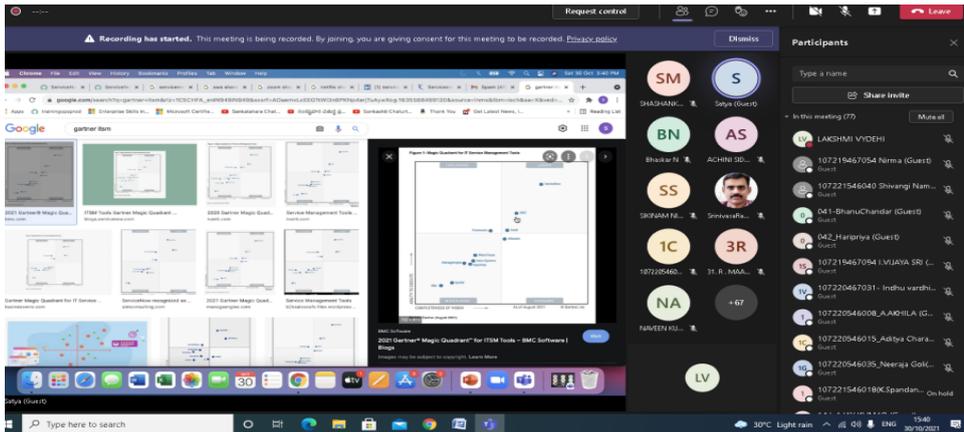

It is not only restricted to IT; but also it does Non -IT related services ex-Employee Parking

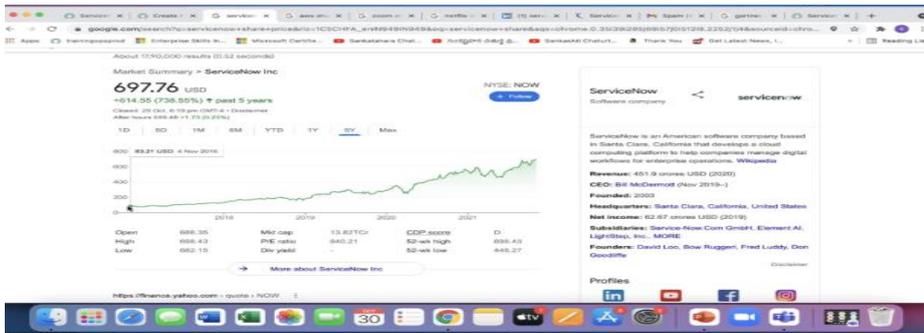

It also has free Application support for users.

- Software Ranking Company:-Gartner ITSM

- Growth of ServiceNow in 2021:

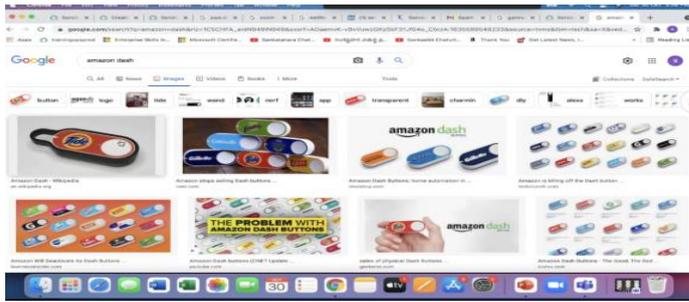

- Security:

It has its own credentials to login. Any Unauthorized user we can get a SMS, email –to Administrator.

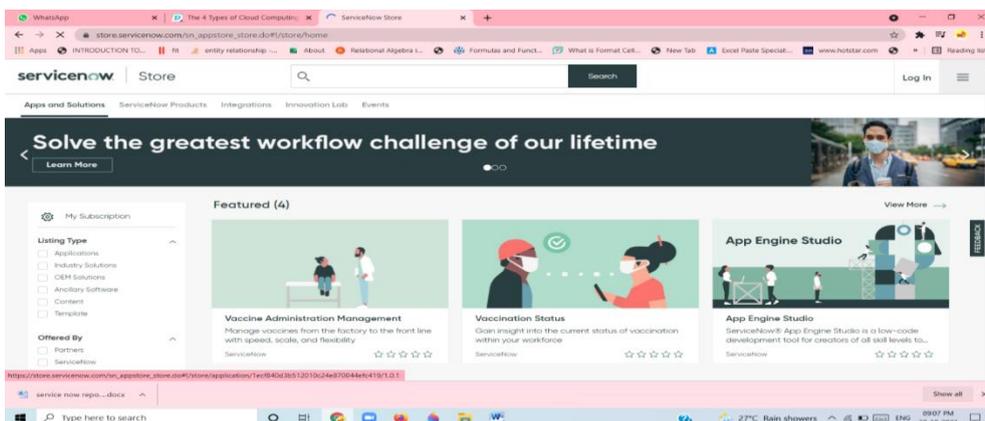

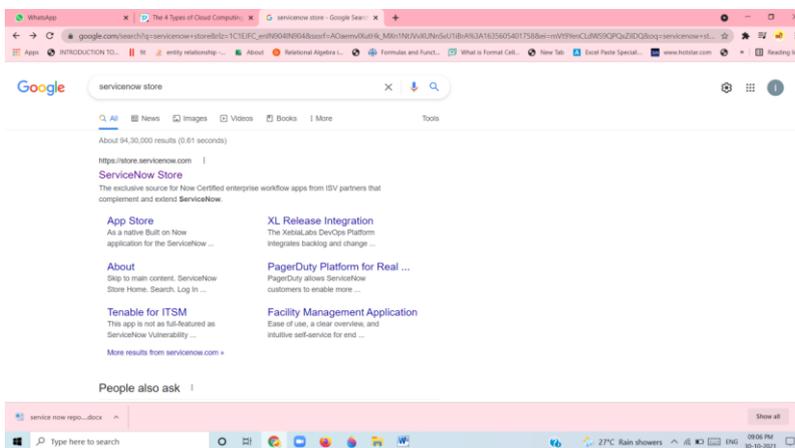

- Maintenance:

It uses ML, AI for the products and in case of technical issues they will contact the technical department.

Ex:-Amazon Dash:-it will help to raise a complaint by pressing the button to the Technical team.

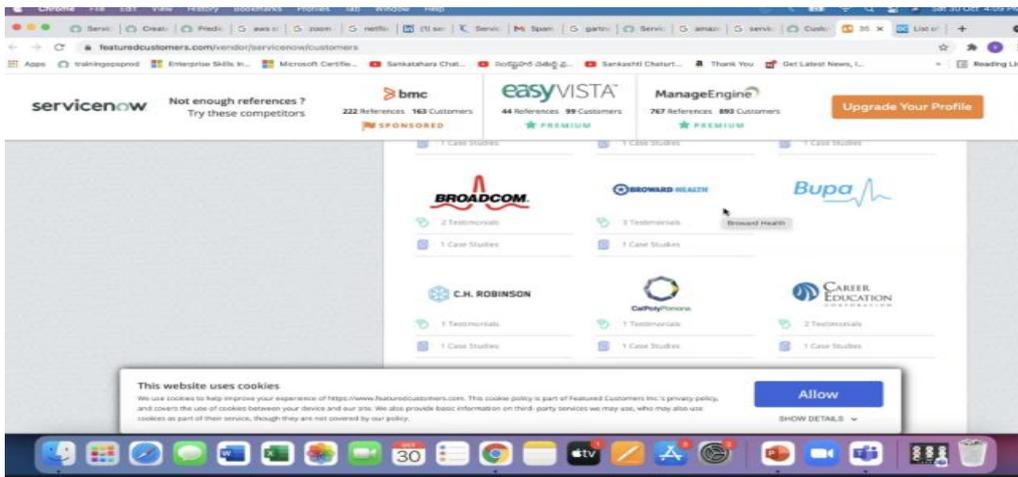

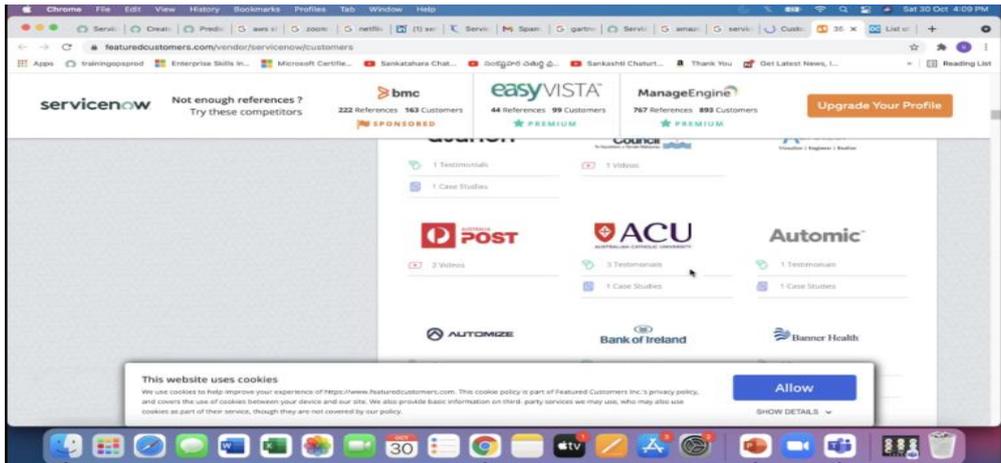

It also has its own store service Now store.

It is a one centralized application using which we can interact with any other application.

Ex:-McDonalds has been built on Service Now platform.

Companies using ServiceNow Globally

Requirement for Freshers:-

1.Tools& Technologies for Service Now

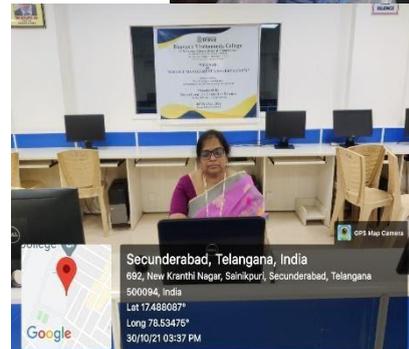

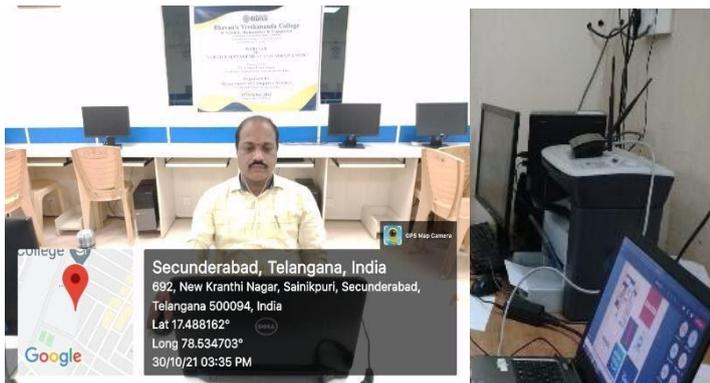

- 1.How to use the tools and product management Apps
- 2.Cloud Computing.
- 3.BackEnd –Web technologies,jscrip,css,html ,Angular
- 4.DB
5. How to navigate & use the product worldwide.(Understanding the tools where and when to use the tool)

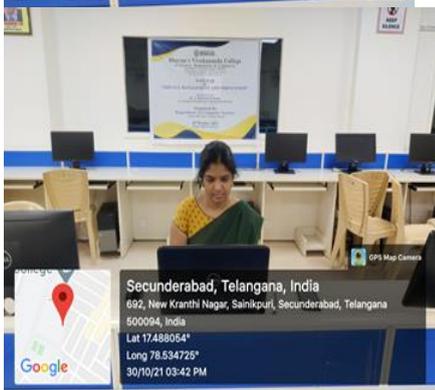

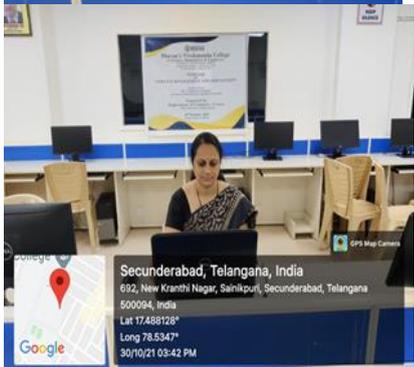

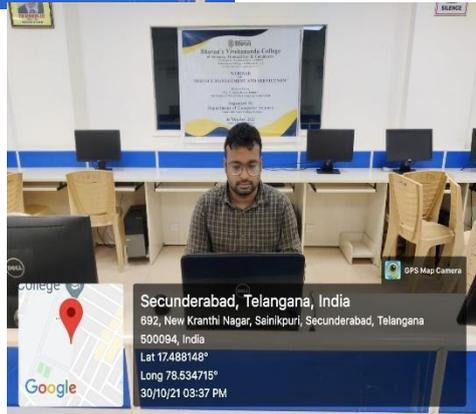

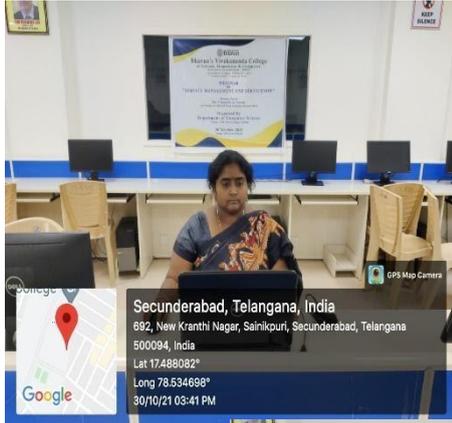

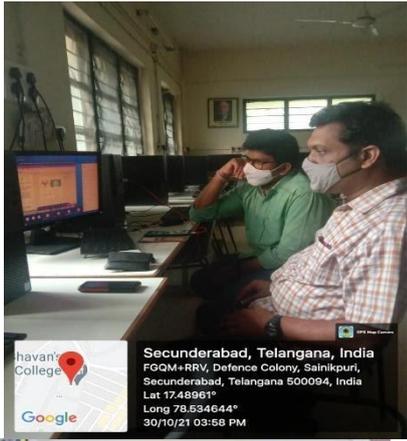

Min 3-6 months Knowledge will help for better job Opportunities

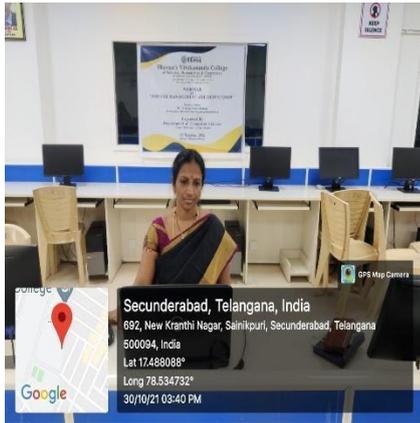

2.Domain Knowledge:-

Basic Domain Knowledge-ie their roles and responsibilities.

Vote of Thanks given by :-Mr.N.Bhaskar (Lecturer in Computer Science Department)

Webinar was very informative and received very positive feedback from students.

Report on 2 Day Webinar on
” Real –Time Applications on Digital Image Processing
and Network Security Applications
Using Deep Learning Tools with Matlab”
4th &5th October, 2021
(Under DBT-Star College Scheme)

The Department of Computer Science organized a **2 Day Webinar on ” Real –Time Applications on Digital Image Processing and Network Security Applications Using Deep Learning Tools with Matlab”** on 4th &5th October, 2021 online, through ZOOM platform

Day 1(4.10.2021)- Report

Mrs K Padma Priya, Lecturer, Department of Computer Science, welcomed Mrs K.V.B. Saraswathi, Head, Dept of Computer Science, guests and all the participants. She briefed on the purpose of the webinar, thanked DBT STAR College Scheme for permitting and organizing various Seminars/ FDP /Conferences and wished the gathering a happy learning experience.

Mrs K. V. B.Saraswathi, welcomed the attendees and briefed on the topics to be covered in the 2 day Webinar and shared that there were 206 people who registered for the webinar.

Mr N Bhaskar, Lecturer, Department of Computer Science introduced the speaker for the webinar **Mr. K. Kalyan Kumar, Senior project Engineer, DSP, Pantech Solutions Pvt. Ltd, Hyderabad.**

Describing various types of Images, types, formats of image, he gave a comprehensive explanation on Image Processing Techniques

Lecture Outline In This Session

- ▶ IMAGE
- ▶ TYPES OF IMAGES
- ▶ IMAGE FILE FORMATS
- ▶ LAB SESSION PROCESS

Way of image processing

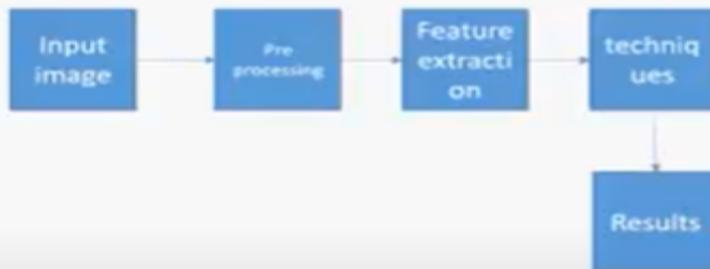

Image Processing Technologies

- Recognition
- Segmentation
- Enhancement
- Classification
- Image Retrieval
- Noise Removal
- Steganography
- Watermarking
- Fusion
- Edge Detection

Image Processing Application

- Computer Vision
- Object Recognition
- Face Recognition
- Number Plate Recognition
- Lane Departure Warning
- Automatic Parking
- Driver Monitoring System
- Forensic
- Documents retrieval
- Forward Collision Warning
- Traffic Sign Recognition
- Medical & Bio-Medical
- Transmission & Storage
- Secret Communications
- Copyright Protection
- Video Surveillance
- Film industry

The second session was on MatLab, taken by Mr. **K. Kalyan Kumar**. He comprehensively explained about Matlab and mentioned the tools, windows available in it.

Introduction

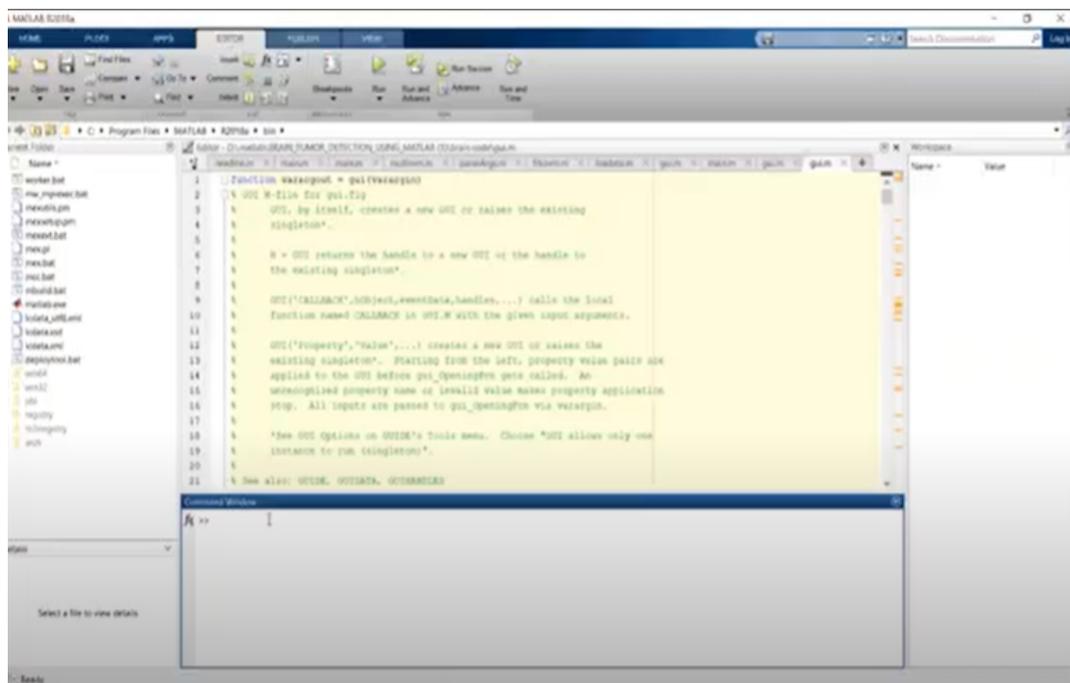

- Matlab → Matrix laboratory
- Developed by Cleve Moler in 1970s as a teaching tool
- High performance language for technical computing
- Typical uses are, numerical computation
- Data analysis ,plotting and visualization
- Graphical user interface building
- Algorithm development and modelling

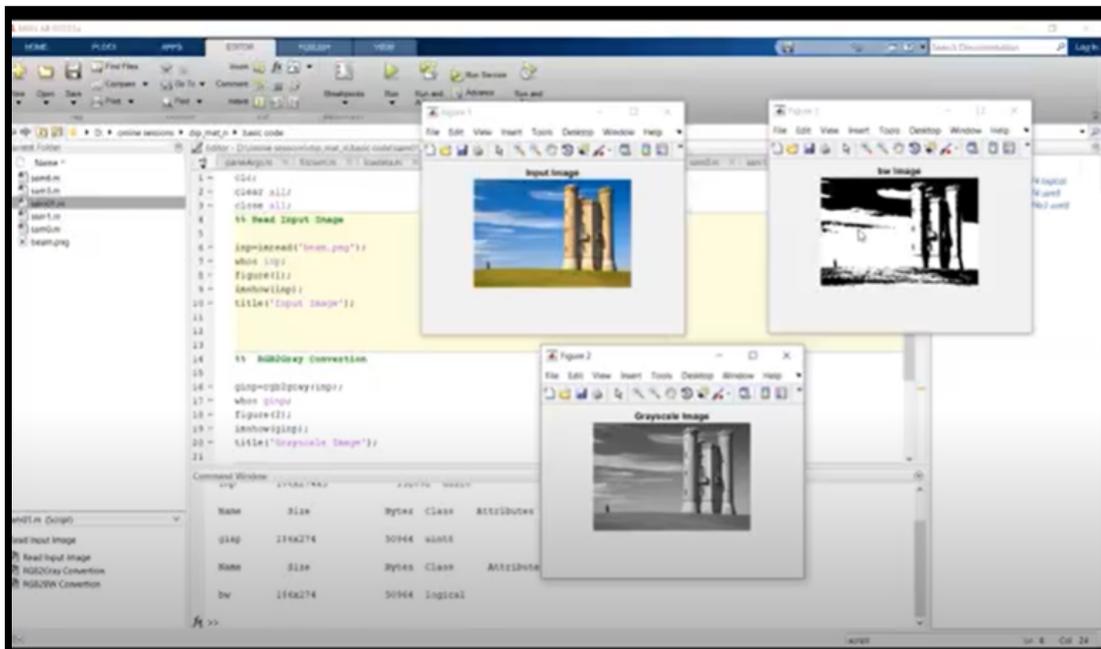

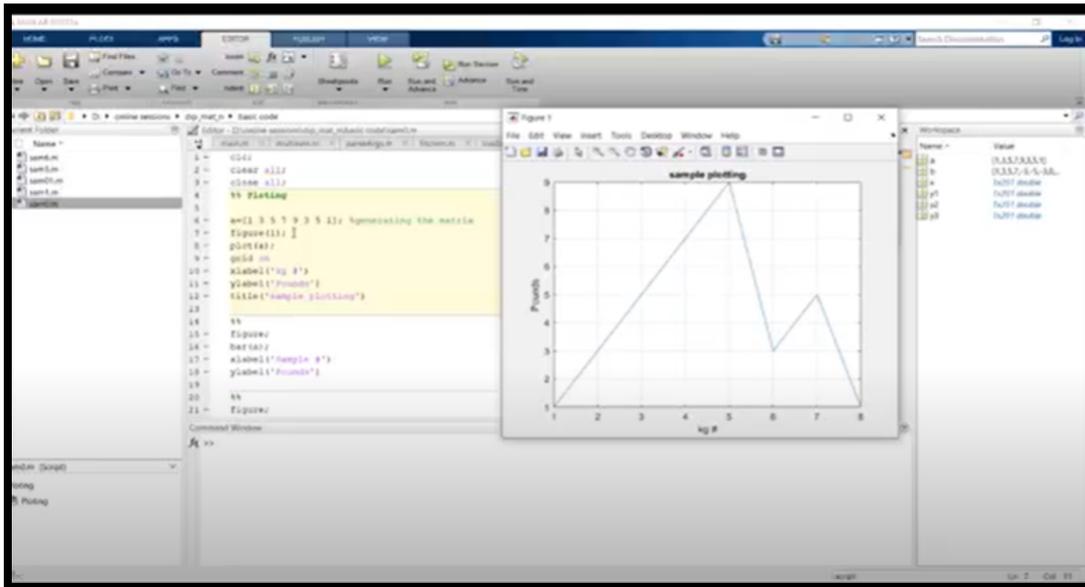

Some Toolboxes

- Image Processing
- Communication
- Neural Network
- Financial derivatives
- Power Electronics and power systems
- Control system
- Fuzzy logic

Matlab Window

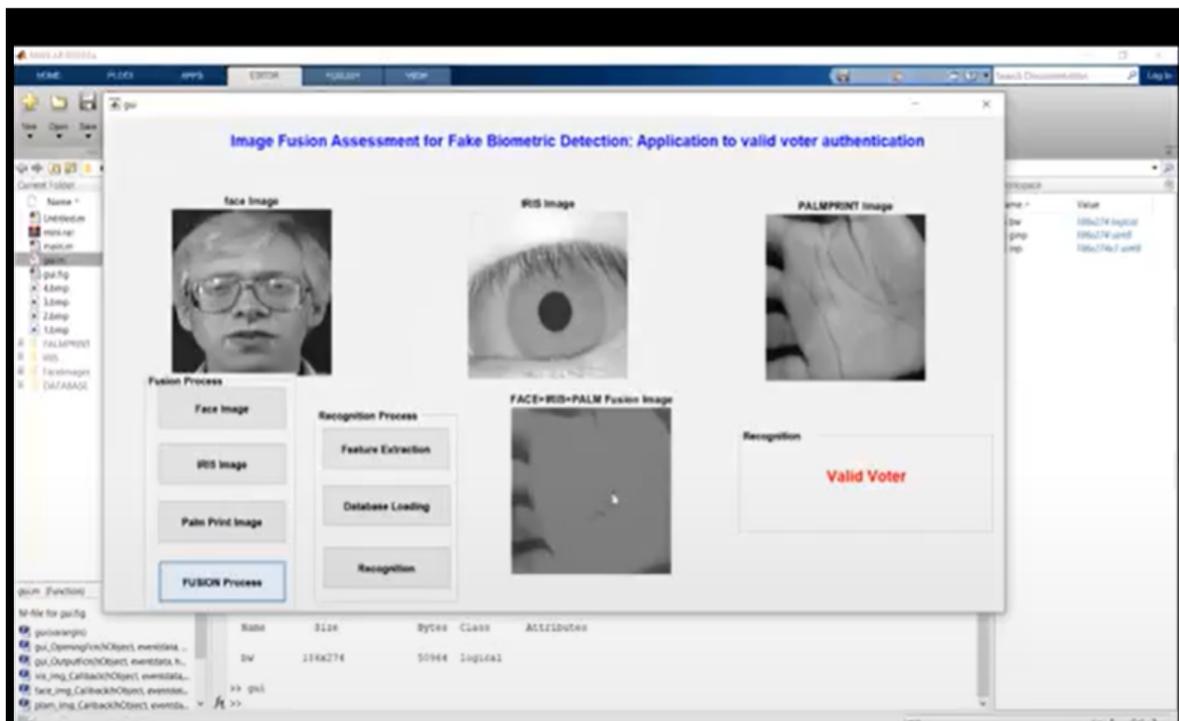

Application on

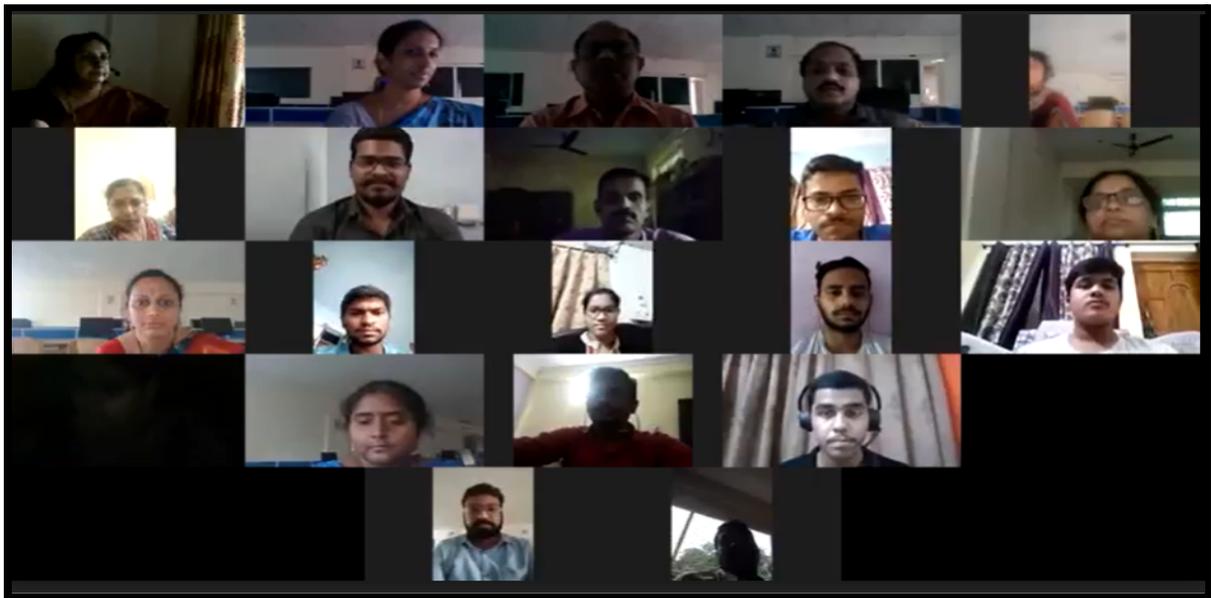

Image Quality Assessment for Fake Biometric Detection: Application to Iris, Fingerprint, and Face Recognition

He also briefed on a few Future extraction Image processing technologies such as recognition, segmentation, enhancement, classification, fusion and noise removal, Black and white conversion images.

Mrs S Jayalakshmi, Lecturer, Department of Computer Science summarised the day and thanked Mr. K. Kalyan Kumar, Mrs K.V.B. Saraswathi and all the participants of the webinar.

Day 2(5.10.2021)- Report

Day 2 began with Mrs. S Jayalakshmi, introducing the speaker Mr. K. Kalyan Kumar, Senior project Engineer, DSP, Pantech Solutions Pvt. Ltd, Hyderabad, He spoke on “**Steganography**”.

Pantech e Learning
DIGITAL LEARNING SIMPLIFIED

Application on steganography

He mentioned various Segmentation techniques, wavelet transformations, Applications of Steganography, Protection of data

Screenshots

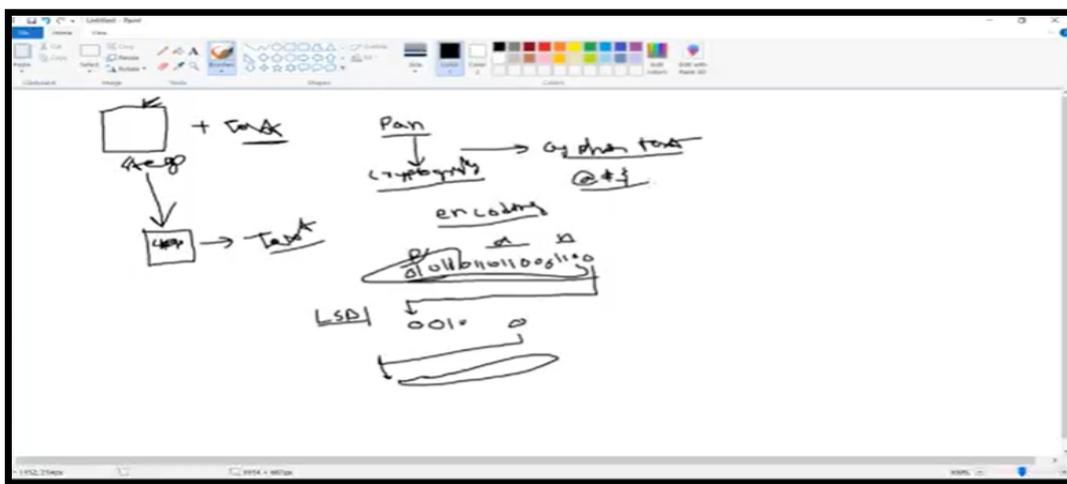

Pantech e Learning
DIGITAL LEARNING CHALLENGES

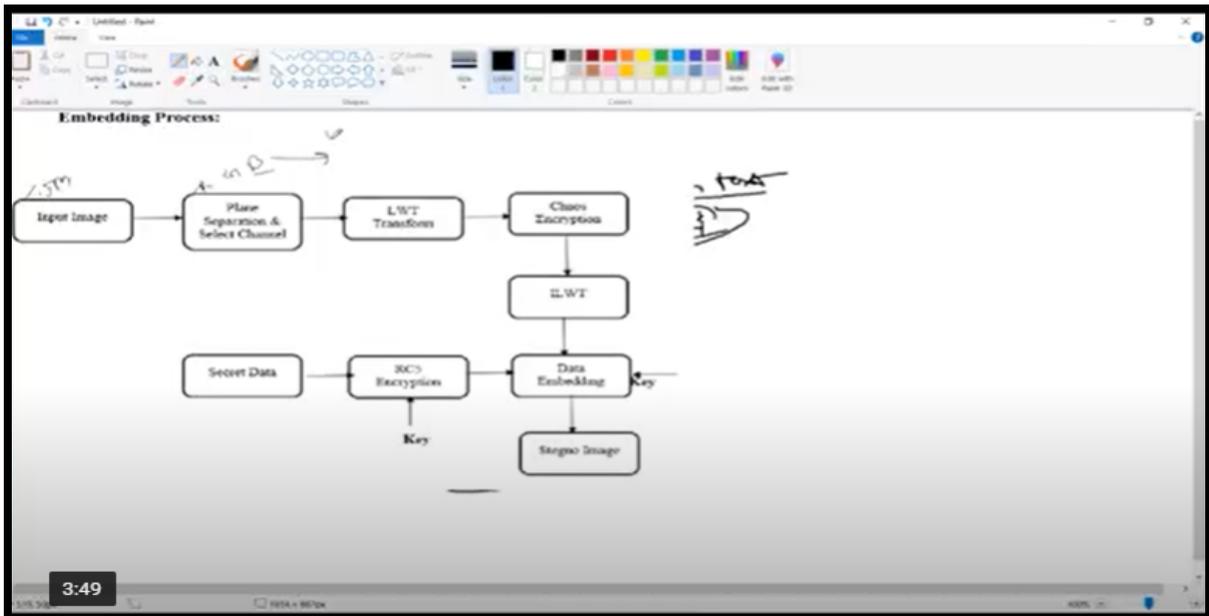

Concept

An enhancement of data protection system for secret communication using reserve room in encrypted images based on texture analysis with lifting wavelet is proposed here.

The wavelet will decompose the image into four frequency sub bands namely LL, LH, HL and HH. These coefficients are then utilized in the encoder for removing the redundancies.

Valedictory Session:

Mrs. K Padma Priya hosted the valedictory session. Mrs. K.V.B Saraswathi presented a report on 2 Day Webinar on ” **Real –Time Applications on Digital Image Processing and Network Security Applications Using Deep Learning Tools with Matlab**”

Mr. N Bhaskar, proposed vote of thanks for Day 2 of the Webinar and thanked Sri Air Cmdr. (Retd) JLN Sastry VSM, Vice Chairman, Bharatiya Vidya Bhavan Sainikpuri Kendra, Prof Y Ashok, Principal BVC, Mrs. B Niraimathi Vice Principal BVC and Mrs. K.V. B. Saraswathi Head Dept of Computer Science.

He expressed his gratitude to the eminent speaker , **Mr. K. Kalyan Kumar, Senior project Engineer, DSP, Pantech Solutions Pvt. Ltd, Hyderabad, for taking the sessions.**

Closing the session, he thanked Mr. Sridhar, Office Superintendent, BVC, for all the support.

Report on 5 Day Faculty Development Programme

on Machine Learning and Deep Learning

From 27.09.21 to 1.10.2021

(Under DBT-Star College Scheme)

The Department of Computer Science organized a 5 day FDP on "Machine Learning and Deep Learning", under DBT- Star College Scheme from 27.09.21 to 1.10.2021, online through Microsoft Teams.

Day 1 - 27.09.2021- Report

Mrs K Padma Priya, Lecturer, Department of Computer Science, welcomed Prof Y Ashok, Principal BVC, Mrs B Niraimathi, Vice Principal, Mrs KVB Saraswathi Head Dept of Computer Science, all the guests and participants.

Mrs K. V. B. Saraswathi, Head Dept of Computer Science, gave the welcome address and briefed on the topics to be covered in the 5Day FDP.

Prof Y Ashok, addressed the gathering and appreciated the Department in organizing the FDP. He mentioned that Computer Science is a dynamic subject and modernizing of knowledge is essential. He also said that the faculty needs to update themselves in recent trends in the field of Computer Science. He thanked DBT STAR College Scheme for permitting and organizing various Seminars/ FDP /Conferences. He wished the gathering a happy learning experience.

Mrs K Padma Priya, introduced Dr K Venugopal, Resource person for Day 1. He took a session on “Overview of Machine Learning Paradigms”,

Describing various data arrangement and retrieval methods, he gave a comprehensive explanation on supervised and unsupervised learning with real time examples. Focusing on clustering algorithms, he elaborated on Decision trees and K- means clustering techniques and their implementation methods.

The session was concluded by Mrs S Jayalakshmi, Lecturer, Department of Computer Science. She extended thanks to the guests and participants for attending Day 1 FDP program.

The total number of Participants for the day were 69.

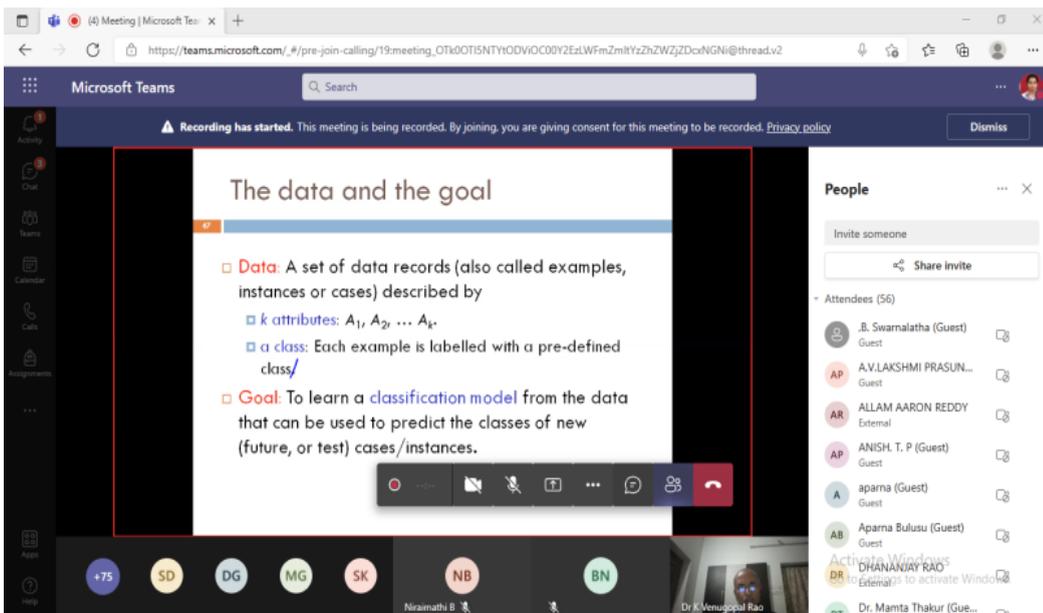

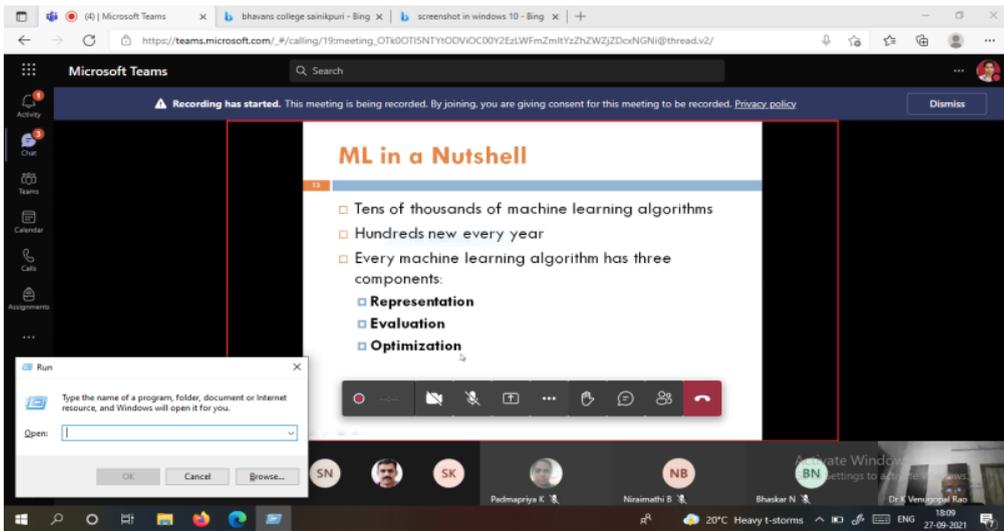

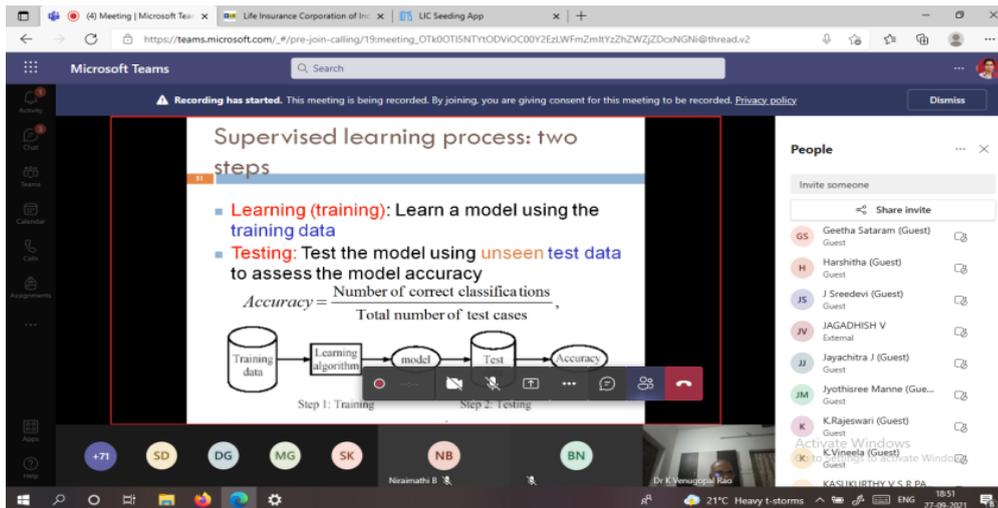

Welcome Address by
by Mrs K V B Saraswathi

Address by Prof Y Ashok , Principal
BVC

Head , Dept of Computer Science

Day 2 Report-28.09.2021

Day 2- Session -1-Report

Day 2 of the FDP had begun with Mrs. S Jayalakshmi introducing Dr. Sesham Anand, Professor of Computer Science and Engineering at Maturi Venkata Subba Rao (MVSR) Engineering College, the Speaker for the session -1. He spoke on “Learning using Multi-Layer Perception Architectures.

He elucidated on Introduction to AI, Components of AI, Neural networks-Biological NEURON – FUNCTIONING, the net input for neuron various Neural network architectures, activation function etc.

The screenshot shows a Microsoft Teams meeting window. The main content is a slide with the following text:

What is Learning?

- Machine Learning:
 - Study of algorithms that improve their performance P at some task T with experience E
 - A well-defined learning task: $\langle P, T, E \rangle$

The slide is numbered '6' in the bottom right corner. The Teams interface shows a search bar, navigation icons on the left, and a bottom bar with participant avatars and a system tray at the bottom.

The screenshot shows a Microsoft Teams meeting window displaying a hierarchical diagram of Machine Learning. The diagram is structured as follows:

- Machine learning** (Root)
 - Supervised**
 - Regression
 - Linear
 - Polynomial
 - Decision Tree
 - Random forest
 - Classification**
 - KNN
 - Trees
 - Logistic Regression
 - Naive-Bayes
 - SVM
- Unsupervised**
 - Clustering
 - SVD
 - PCA
 - K-means
 - Association analysis
 - Apriori
 - FP-Growth
 - Hidden Markov Model
- Reinforcement**

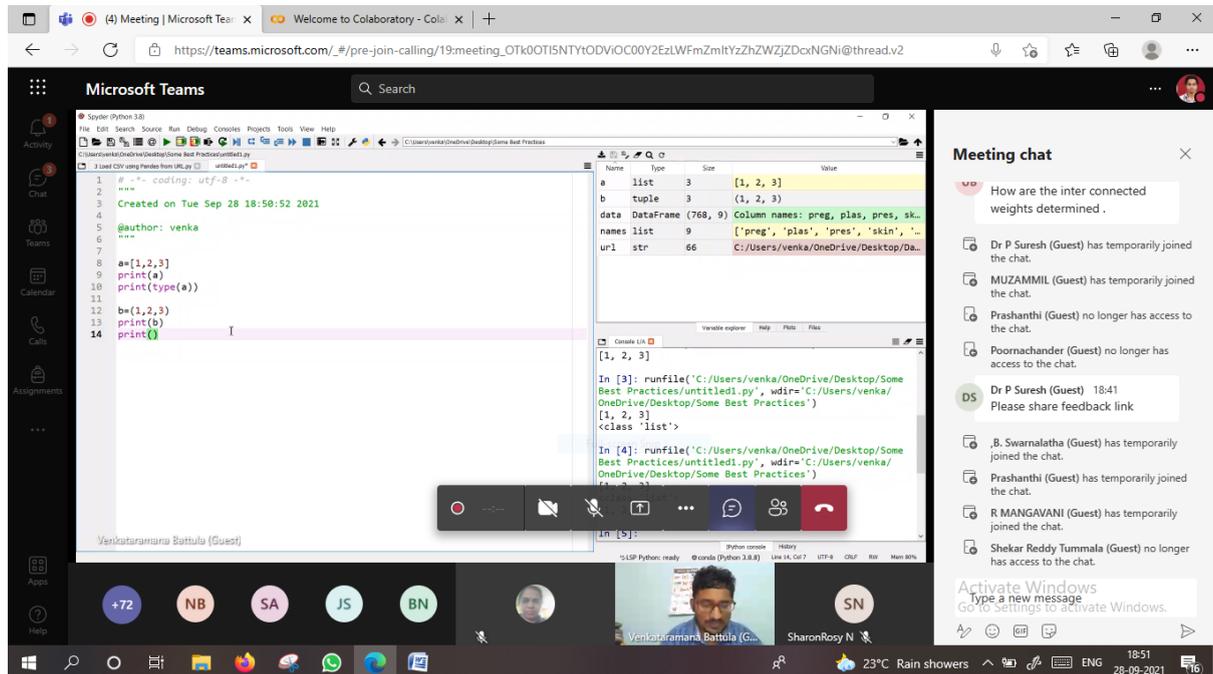

Additional labels in the diagram include 'Continuous' next to Clustering and 'Categorical' next to Association analysis. The slide is numbered '7' in the bottom right corner. The Teams interface and system tray are visible at the bottom.

Day 2- Session-II Report

Mrs S Jayalakshmi, then introduced the resource person Mr. B Venkata Ramana, Assistant professor, CSE dept from MVSR Engineering College.

He took a session on Anaconda Introduction—Spyder, difference between list and tuple, Different methods to load datasets, and Preprocessing techniques-

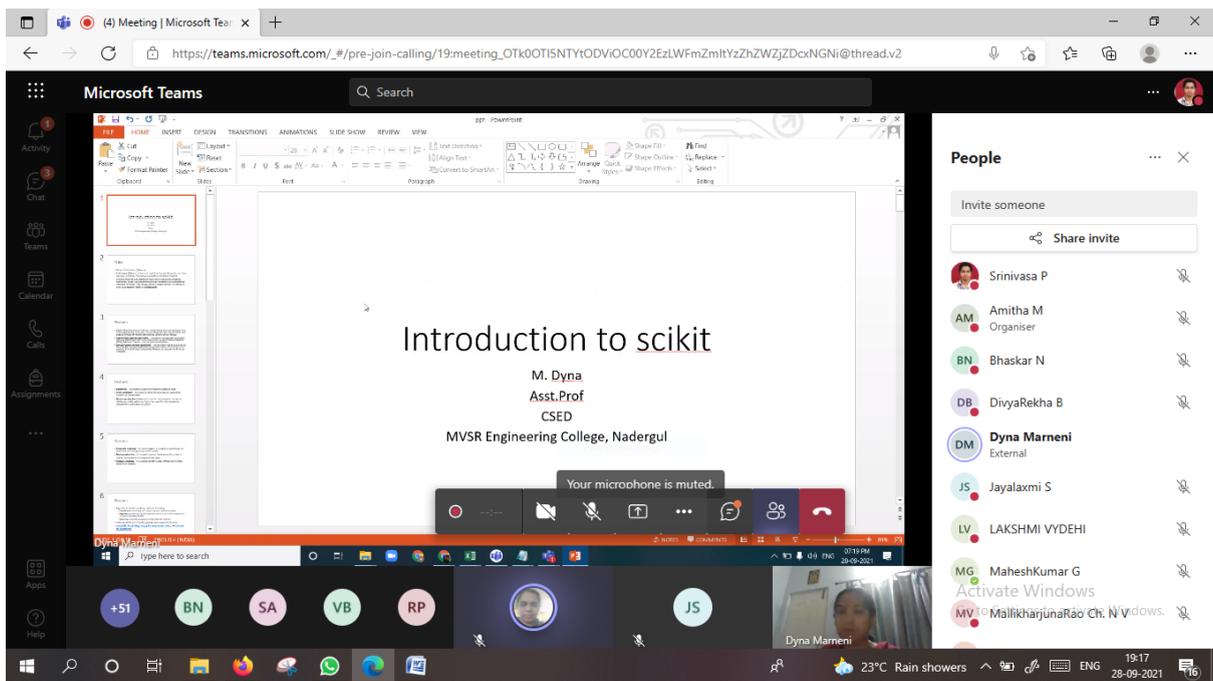

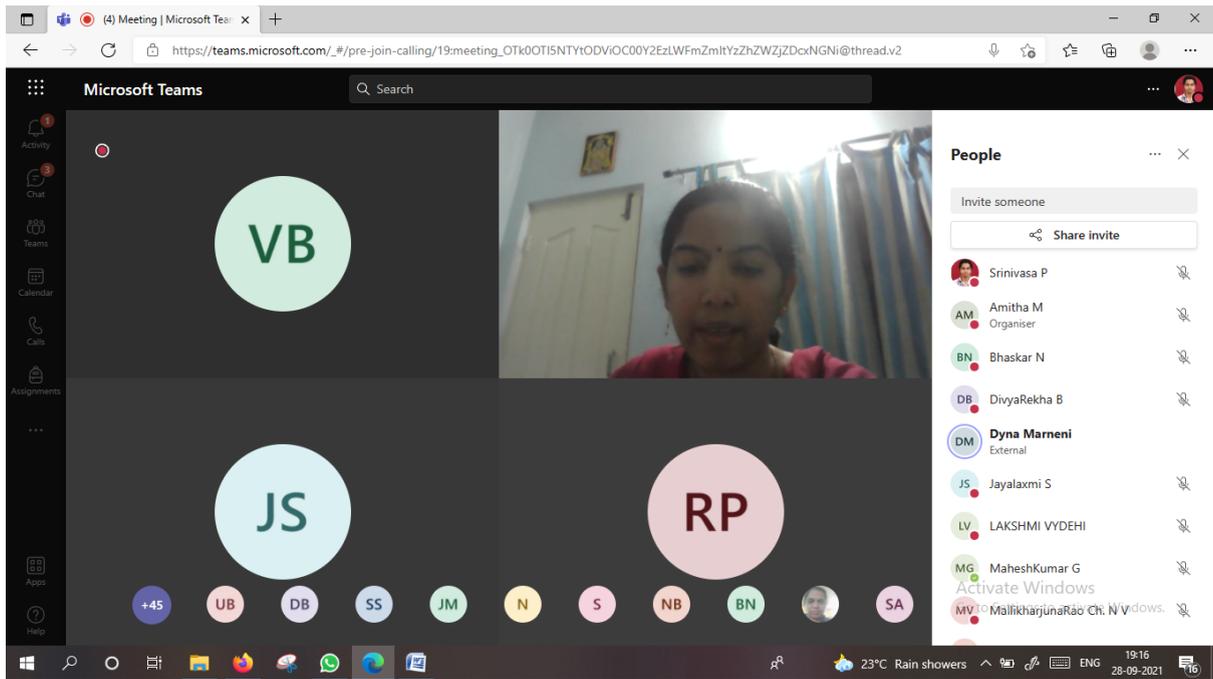

such as normalization(min-max normalization, standard scalar, z-score normalization).

Day - 2: Session III

Mrs S Jayalaxmi, Lecturer, later introduced Ms M Dyna Balaraj, Asst. Professor, Department of CSE from MVSR Engineering College, the resource person for the 3rd session. She took a session on "Introduction to Supervised Learning using Scikit-Learn". She elaborated on

- Classification and regression practical APPLICATIONS
- Introduction to Scikit
- How to measure the performance – absolute error, mean square error, root mean square error
- Basic steps need to be followed when applying any algorithm
- Performance metrics --Confusion matrix, accuracy score calculations—classification algorithm (decision tree)

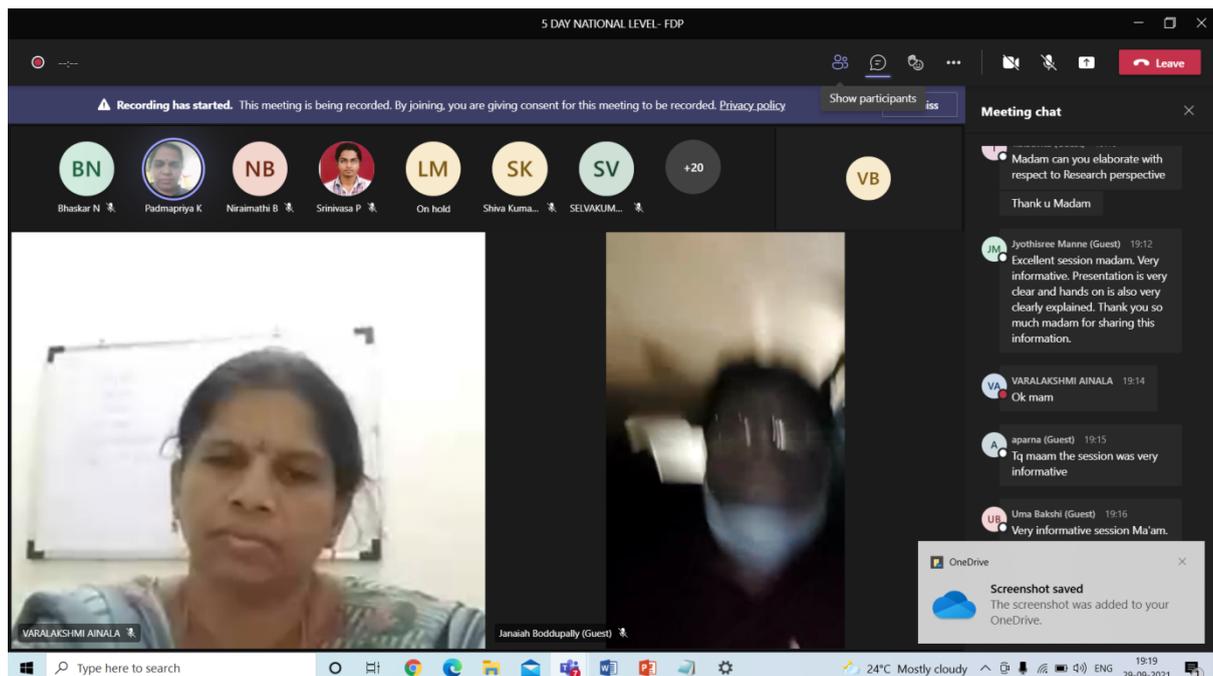

Mrs Padma Priya , wrapped the session by thanking the speakers. Total number of Participants for the day were 76.

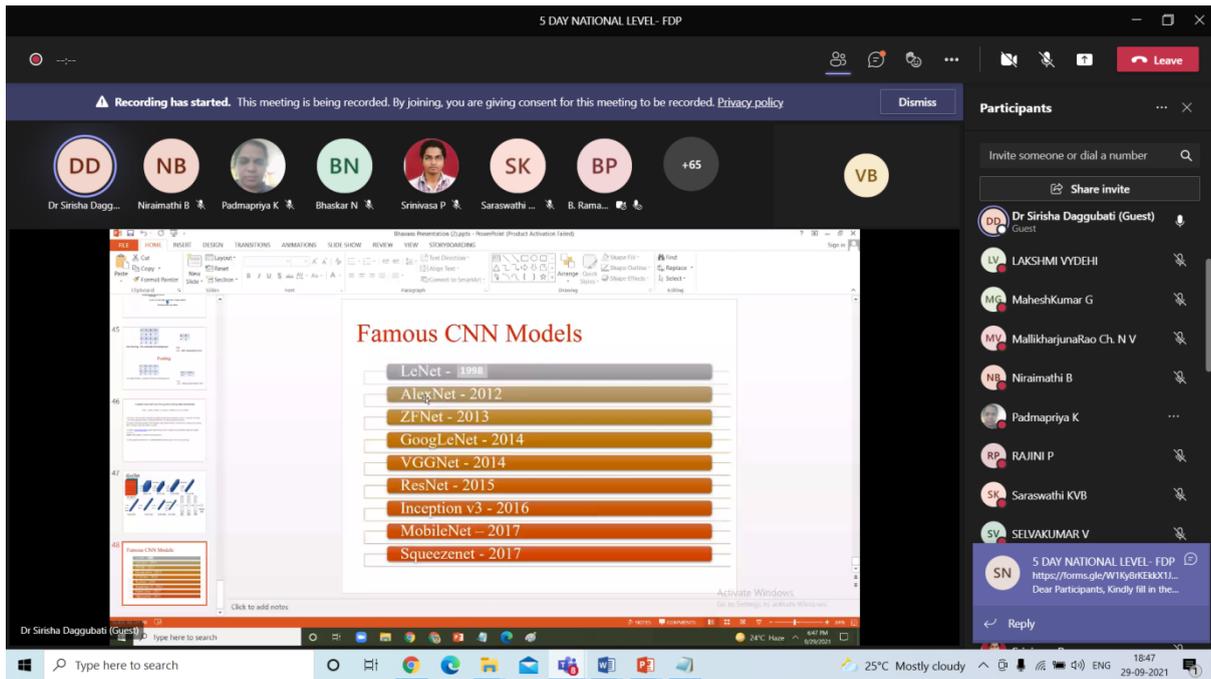

Day 3(29.09.2021)- Report

Mrs K Padma Priya, introduced Dr. Sirisha Daggubati Assistant Professor in the Department of Computer Science Engineering -MVSR Engineering College, resource person for the day. She took a session on **Feature Learning using Convolution Neural Networks (CNNs)” including**

- Traditional ANN--- Disadvantage(Flatten an image)
- Image—definition and types of images and pixel size of each type
- CNN– Definition (Input is an image – apply filters on input image—feature map(output)
- Types of filters
- Operations of CNN---- Stride, Padding, pooling(optional), sub sampling(optional)
- LeNet---- was first CNN, LeNet-5 CNN made up of 7 Layers
- Famous CNN Models– LeNet, AlexNet, ZFNet, GoogleNet.....

She also took a practical session on Print image, resizing image, rewriting an image, generate grayscale image(conversion), Generate Dimensions of an image, Generate Binary image and binary inverse image, Dilation image and Crop image using OPEN CV Module.

Mrs Padma Priya, ended the session by thanking the speakers and participants. Total number of Participants for the day were 81.

Day 4 –(30.10.2021)-Session 1-Report

Mrs K Padma Priya, introduced the resource person- Dr. B. Sandhya Assistant Professor in the Department of Computer Science Engineering -MVSR Engineering College. She took a session on “**Transfer Learning using Deep CNNs**”

She explained Data representation Methods, CNN architecture, Feature Conversions, various learning methods and Examples on CIFAR10 , and OXFORD datasets

Day 4 –(30.10.2021)-Session 2-Report

Mrs K Padma Priya, later introduced the resource person Mrs B. Kalpana Reddy, Assistant Professor in the Department of Computer Science Engineering -MVSR Engineering College. She took a session on **“Introduction to KEROS”** including

- List of compilation techniques available
- Create sequential model and set the parameters
- Various loss function to evaluate the performance of the model
- Procedure to compile the model
- Live execution of CNN model

Mrs. Padma Priya, concluded the session for the day by thanking the speakers and participants. The total number of participants for the day were 69.

Day -5(1.10.2021) Session -I Report

Mrs S Jayalakshmi, introduced Ms. Haritha Damarla Assistant Professor in the Department of Computer Science Engineering -MVSR Engineering College, speaker for the day

She took a ‘Hands on’ session on using Keras with Tensorflow backend on Google colab”,

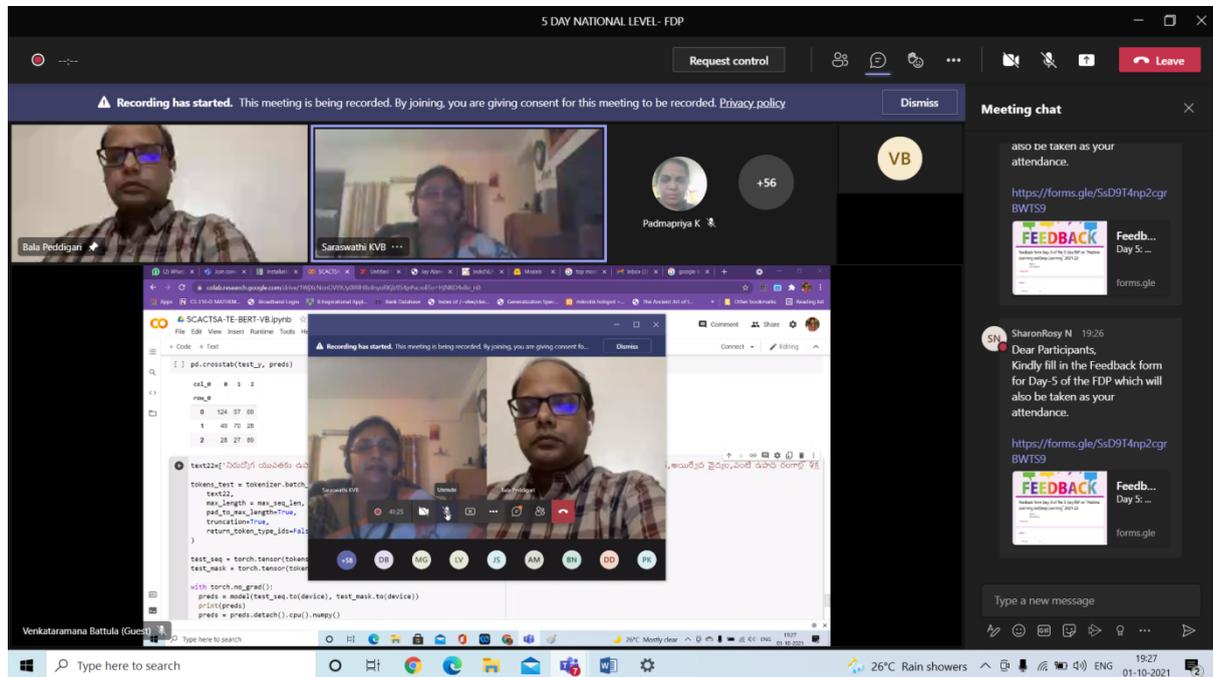

Day -5(1.10.2021) Session -II Report

Mrs S Jayalaxmi later introduced the resource person Mr. B Venkata Ramana, Assistant Professor, CSE dept, MVSR Engineering College. He took a ‘hands on’ session on IndicNLP. The number of participants for the day were 69.

Valedictory Session:

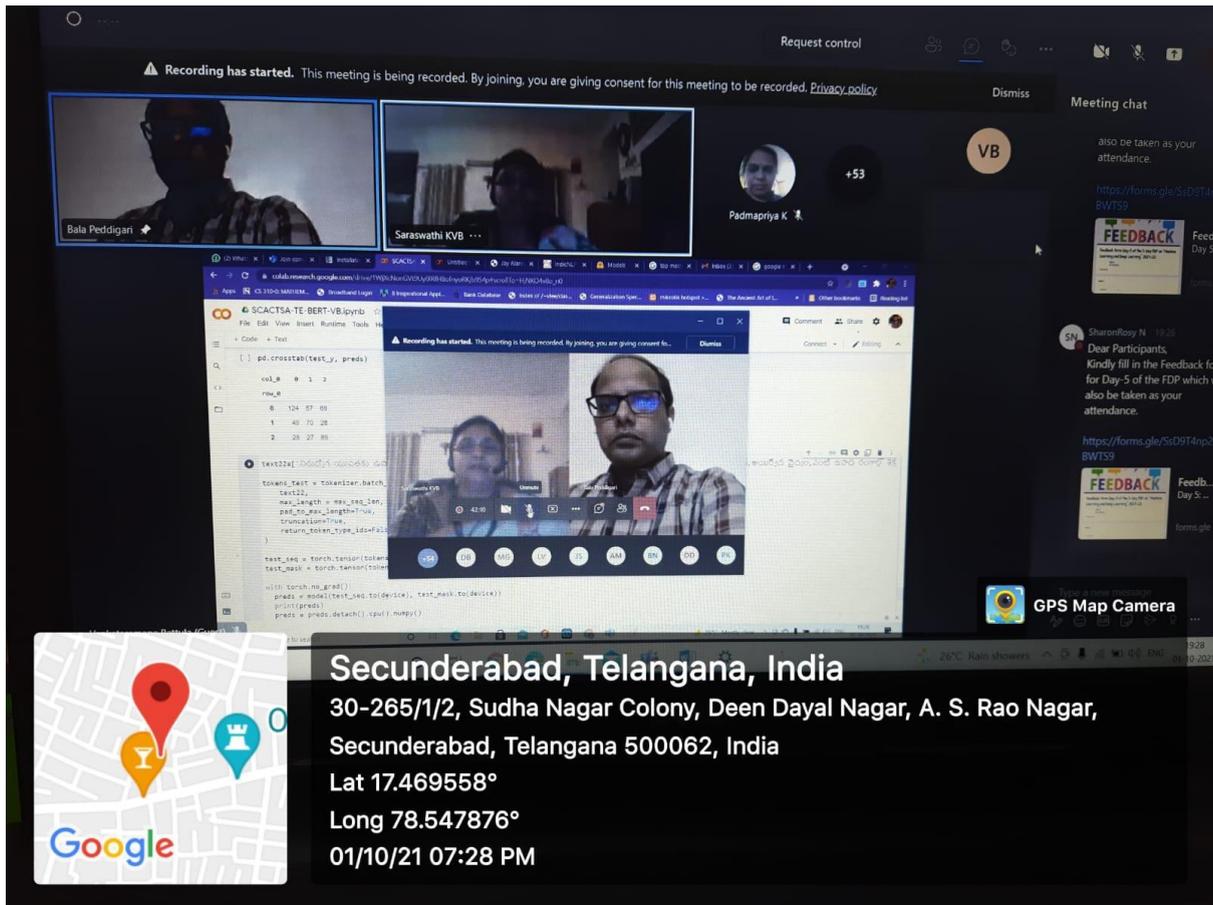

Mrs. K Padma Priya hosted the valedictory session. Mr Bala Prasad P, Chairman –CSI Hyderabad Chapter was guest for the valedictory session.

Mrs. K.V.B Saraswathi Head, Dept. Of Computer Science, presented the report on 5 Day Faculty Development Programme on “Machine learning and Deep learning.”

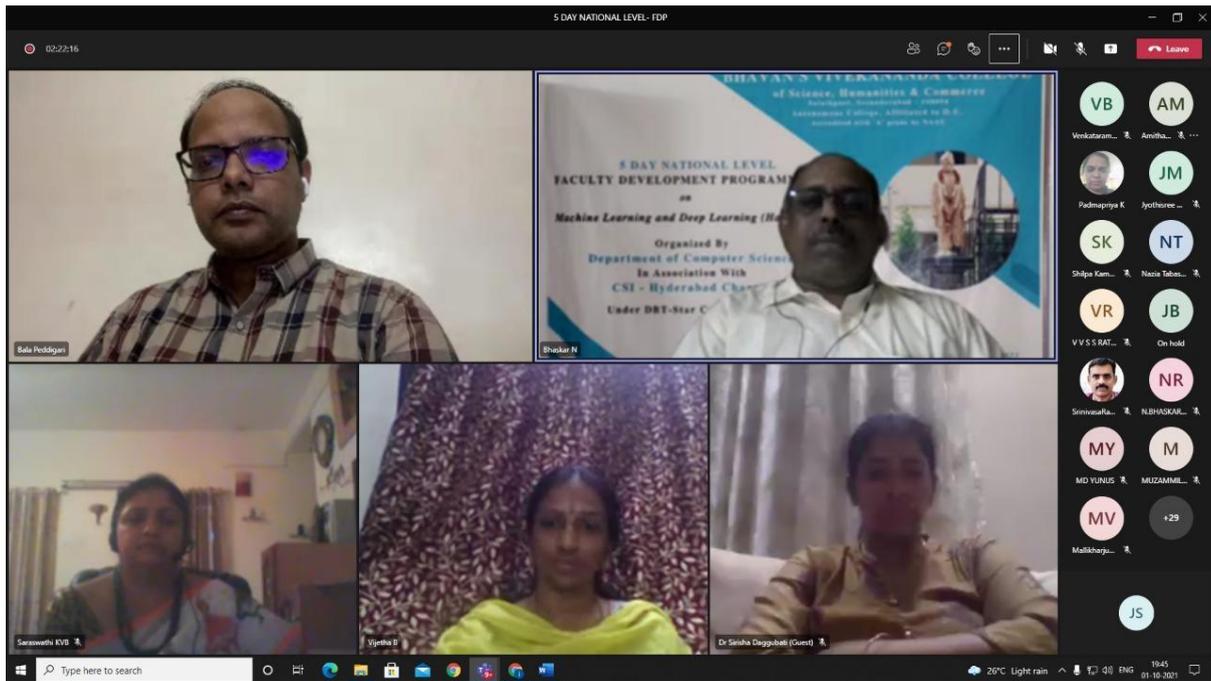

Mrs. K Padma Priya, then introduced V Mr. Bala Prasad P, Chairman –CSI Hyderabad Chapter, who was the chief guest for the valedictory session.

He appreciated the department for organizing an FDP program on “Machine learning and Deep learning”. He stressed on the importance of these topics in the present era of Computers.

Secunderabad, Telangana, India

Organised by
Department of Computer Science

A 5-day Induction programme was conducted by the Department of Computer Science for the I year students of BCA programme, from September 16, 2021 to September 21, 2021. As part of this Induction programme, the first 2 days were a general introduction to students regarding the college, the various cells and different activities taken up as part of these cells within the college.

An exclusive induction programme was organised for the I year students of BCA students on Day-3, i.e 18th September, 2021 at 11:00 a.m. through Microsoft Teams Platform (online mode). The programme began with Bhavan's Prayer.

The Chief Guest for the programme was Prof. Y. Ashok, Principal, Bhavan's Vivekananda College, Sainikpuri. Addressing the students on this occasion, he explained the importance of computer applications in the real world scenarios especially during the COVID-19 pandemic. He alleged that the computer subjects are very dynamic i.e., the new softwares, hardware, programming languages evolve daily and few of them are outdated also. So, he asked the students to upgrade their knowledge and skills accordingly to compete with the real world. He wished the best for students.

Mrs. KVB Saraswathi Devi, Head, Department of Computer Science addressed the students explaining about the college Ranking such as NAAC and NIRF, the industry expectations from the undergraduate students, improvising and upgrading of skills, placement opportunities and wished the students a good luck.

Mr. G Mahesh Kumar, Coordinator, BCA Programme, welcomed the students for joining this programme. He briefed about the departmental activities such as Guest Lectures, Outreach Programmes, Charles Babbage Day Celebrations, Gyan Tarangini Vyakhyaana Mala, National Science Day, National Seminar, International Conference, Value-Added Courses, Workshops, Webinars and Faculty Development Programmes. He highlighted BCA Programme Outcomes and Programme Specific Outcomes. He briefed and motivated the students about the top 10 Osmania University Ranks secured by their seniors earlier. He informed about the staff of the computer science department and wished the students the best.

A Live interview was organized by the BCA III year students with the alumni students Mr. Bharat Jain, Anchor, who completed his BCA from the college in the year 2012 and Mr. S Tarun Raj, Senior Cyber Security Analyst, Stefanini India Pvt. Ltd., in the year 2015. The Host for the event was Mr P Siddharth, from BCA IIIyr. Both alumni shared their college as well as work experiences and motivated the BCA I year students to improve their skills on par with the industry expectations.

BCA I Semester faculty for the academic year 2021-22, Mr. K Srinivasa Rao, Lecturer, Dept. of Computer Science, Mrs. K Padma Priya, Lecturer, Dept. of Computer Science, Mrs. Lakshmi Vydehi, Lecturer, Dept. of Computer Science, Mrs. Krishnaveni, Lecturer, Dept. of Mathematics & Statistics, Mrs. S Usha Rani, Lecturer, Dept. of Languages, introduced themselves on this occasion.

Mrs. S. Jayalaxmi, FusionTech Club Incharge, gave an introduction note about FusionTech Club inception and activities and wished all the best for students. Ms. Rhesa, student of BCA III year has presented Fusiontech Club activities from the inception and motivated the BCA I year students to be a part of it and to carry the legacy of the club for further years.

The image shows two screenshots from a Zoom meeting recording. The top screenshot displays a presentation slide for Principal Prof. Y. Ashok. The slide includes a video thumbnail of the principal and a list of his academic and professional achievements. The bottom screenshot shows a presentation slide for Mrs. KVB Saraswathi, Head of the Department of Computer Science, with a video thumbnail of her speaking at a podium and a list of her academic positions.

Principal Prof. Y. Ashok

Prof. Y. Ashok, is one of the founder staff members of Bhavan's Vivekananda College. He obtained his master's degree in Commerce from Andhra University in 1983. He was awarded Ph. D by Osmania University in Business Management.

Principal Prof. Y Ashok is a member of the following Government / University Bodies :

- +Member, Academic Senate of Osmania University,
- +Member, Council of Affiliated Colleges, Osmania University,
- +Member, Faculty of Commerce , Osmania University (2018-20),
- +Former Member Board of Studies, Department of Commerce, Osmania University (2013-15)
- +Principal Prof. Y Ashok, has been awarded the IPA BEST COMMERCE FACULTY AWARD at IPA SANMAN on 18th December, 2014.
- +Former Member, TS-ICET Committee in 2015.

Organized by
Department of Computer Science

Day 4 induction program for the I year under Creative Art and culture category was conducted on 20th September 2021.

Online Induction Programme for the BCA and BSc(HDS) 1st year students was organised by the Fusion Tech club under the supervision of Event Incharge Ms. Jayalaxmi lecturer in Department of Computer Science. A total of 90 students participated in the programme on Microsoft Teams platform.

Event was divided into 3 modules with different activities as :

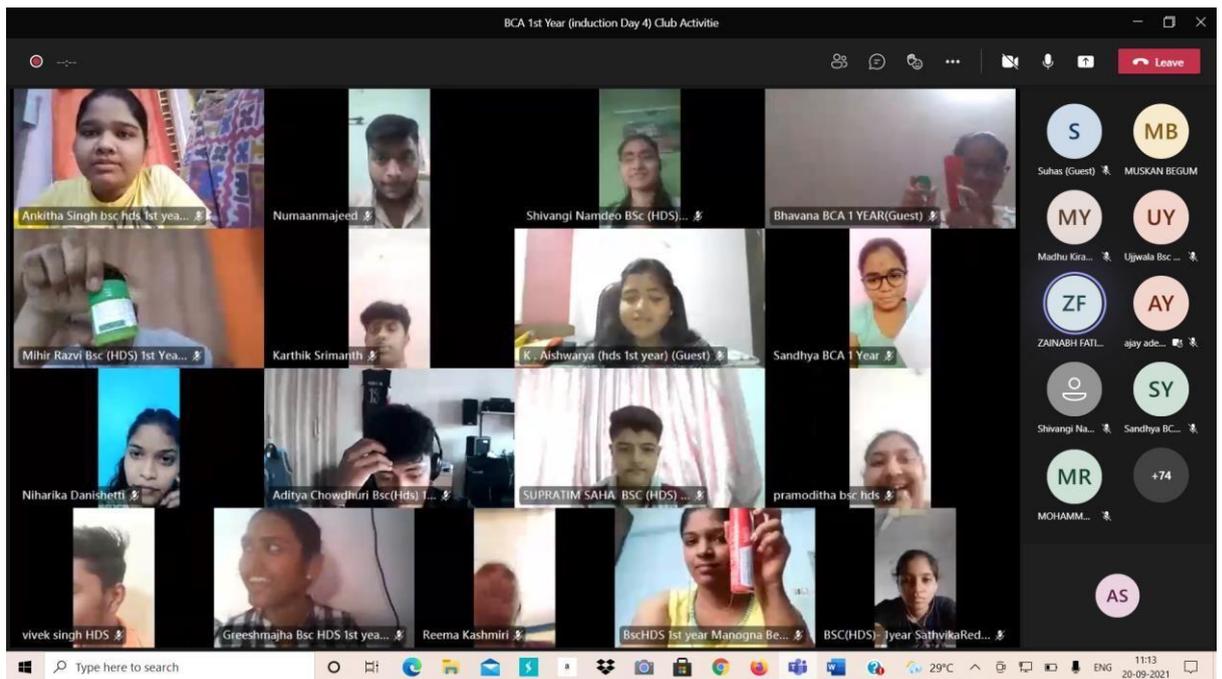

1. Filmy
Dunia
2. Scavenger hunt
3. Grid IT

- The first activity Filmy Dunia was an activity where students had to guess the song or movie by seeing the picture/emoji presented.

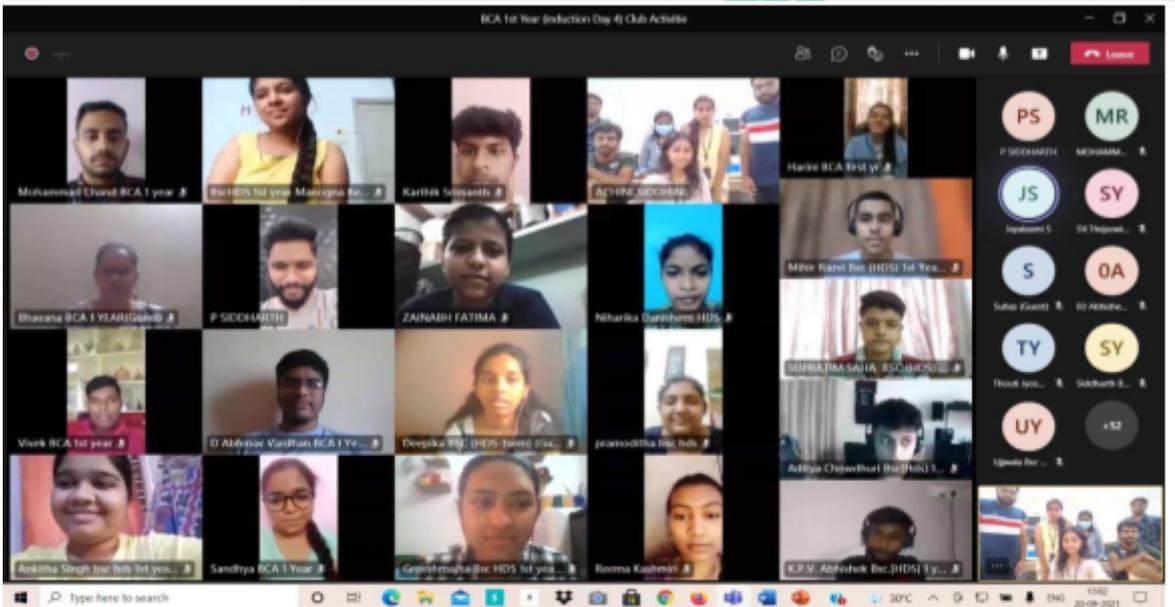

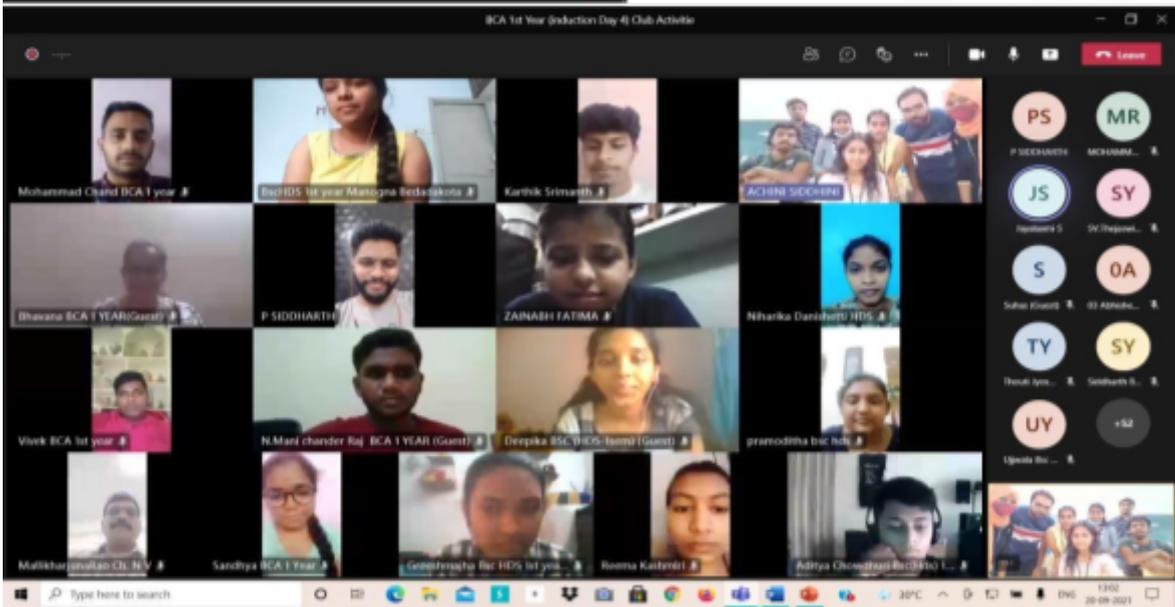

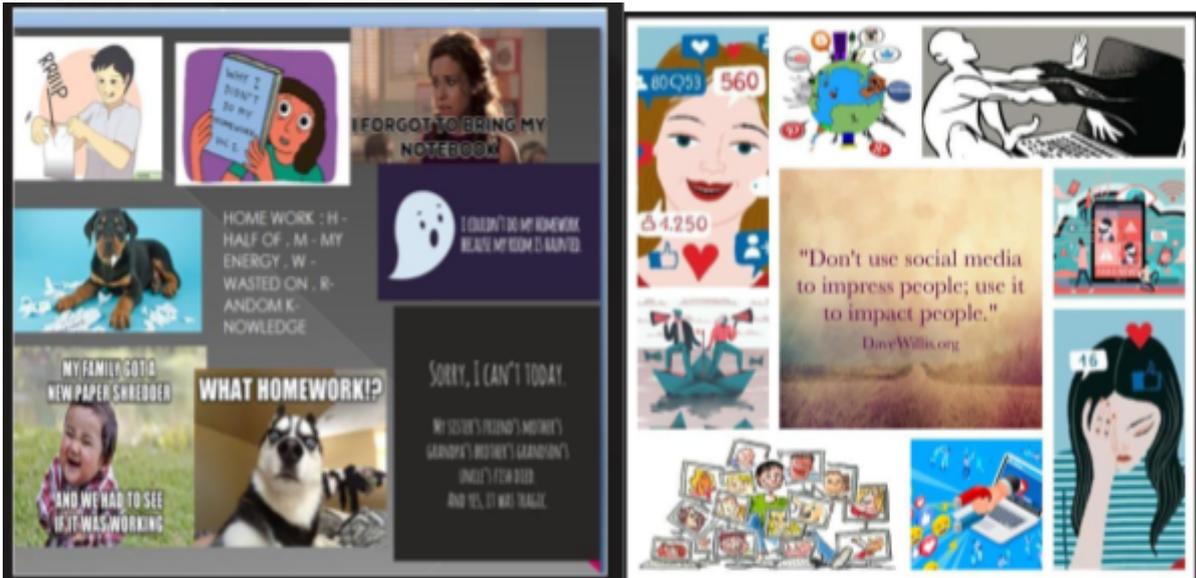

- The second activity was Scavenger Hunt, in this activity students were asked to switch on their video and they were asked to get few items asked by host and show with in a time limit and whoever got the item first were the appreciated.

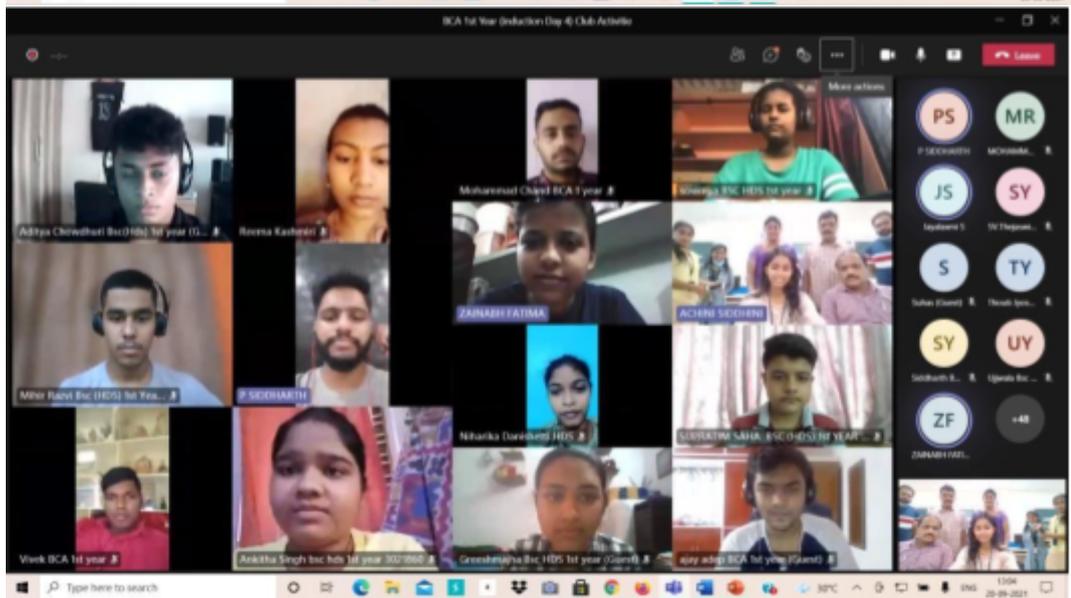

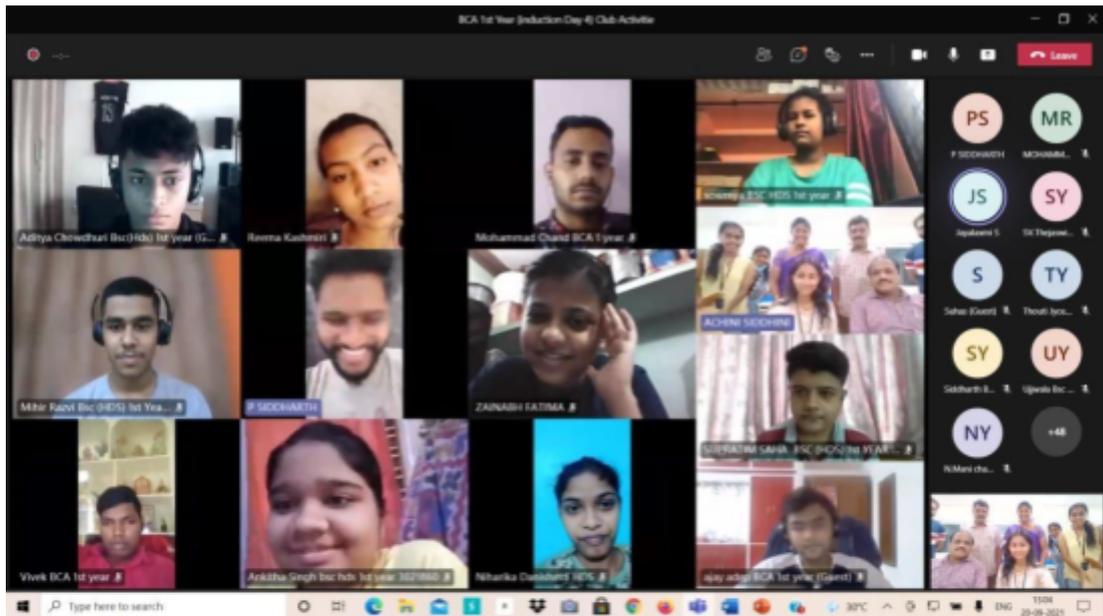

- The last activity was Grid-IT, in this activity they were given few topics from which the students had to select one topic and make a collage/poster relating the topic. Students were divided into rooms, there were 5 rooms. Each room had a fusion tech head for guiding and there were 5 posters in total.
- The winners were declared by polling.

- The event ended with taking the student feedback and reviews given by the students

**Outcome Based Education & Literary activities
conducted during
BCA I year 5- day Induction programme 2021-22:**

As part of the 5-Day Induction programme for the students of I year, a session on Outcome Based Education and Literary activities were scheduled on Day-5 of the Induction programme, i.e., on September 21, 2021.

Induction programme - DAY 5

Outcome Based Education

Time: 10:00 a.m. – 11:30 a.m.

Mr. G Mahesh Kumar, Coordinator, BCA Programme, explained about the BCA Programme Outcomes and BCA Programme Specific Outcomes.

Mr.K Srinivasa Rao, Lecturer, Department of Computer Science, explained the Course Objectives and Outcomes of Digital Principles. Mrs. K Padma Priya, Lecturer, Department of Computer Science, explained the Course Objectives and Outcomes of Programming in 'C'. Mrs. Lakshmi Vydehi, Lecturer, Department of Computer Science, explained the Course Objectives and Outcomes of Introduction to Web Technology. Mrs. Krishnaveni, Lecturer, Department of Computer Science, explained the Course Objectives and Outcomes of Mathematical Foundations of Computer Science. Mrs. S Usha Rani, Lecturer in English, Department of Languages, explained Course Objectives and Outcomes of Effective Communication.

The screenshot shows a meeting recording window titled "BCA | YEAR INDUCTION PROGRAMME - DAY 5-20210921_100623-Meeting Recording". The main content is a PDF document titled "BCA" with the following "Program Outcomes":

- PO1 Knowledge:** Acquire knowledge in computer application theory, algorithm principles, mathematical foundations and statistical analysis in the design and modelling of computer based systems.
- PO2 Problem Solving:** Analyze and apply latest technologies to solve problems in the areas of computer applications.
- PO3 Skills:** Apply programming, technical and professional skills to become a software entrepreneur.
- PO4 Adaptability:** Adapt to the fast changing world of information technology needs.
- PO5 Communication:** Communicate effectively on problems, issues and solutions with community and with society at large, such as being able to comprehend and write effective reports and design documentation, make clear instructions.
- PO6 Ethics & Environment:** Apply ethical principles and commit to

The document is viewed in a browser window with a right-hand sidebar for PDF conversion options, including "Export PDF", "Adobe Export PDF", "Select PDF File", "Convert to", "Document Language", "Convert", "Edit PDF", and "Create PDF". The Windows taskbar at the bottom shows the time as 10:27 on 21/09/2021 and several application icons.

 Sainikpuri, Secunderabad – 500094
 (Accredited with 'A' grade by NAAC)
 Autonomous College - Affiliated to Osmania University
B.C.A SEM 1 DISCRETE MATHEMATICS
 Mathematical Foundations of Computer Science

Course Objectives: Students acquire knowledge of basic Mathematics to their computer related applications.

Objectives :To familiarize the students with concepts of propositions, logic, truth tables and Set theory

Outcomes :The students would learn the concepts of logics and be familiarized with set theory

UNIT- I

Fundamentals of Logic: Basic Connectives and Truth Tables, Logical Equivalence, Logical Implication, Use of Quantifiers, Definitions and the Proof of Theorems.

Set Theory: Set and Subsets, Set Operations, and the Laws of Set theory, Counting and Venn Diagrams.

Properties of the Integers: The well – ordering principle, Recursive Definitions, Division Algorithms, Fundamental theorem of Arithmetic.

Literary activities

Time : 11:30 a.m. – 12:30 a.m.

Organiser : S. Usha Rani, Lecturer in English, Department of Languages

Time: 11:30 a.m. – 11:35 a.m.

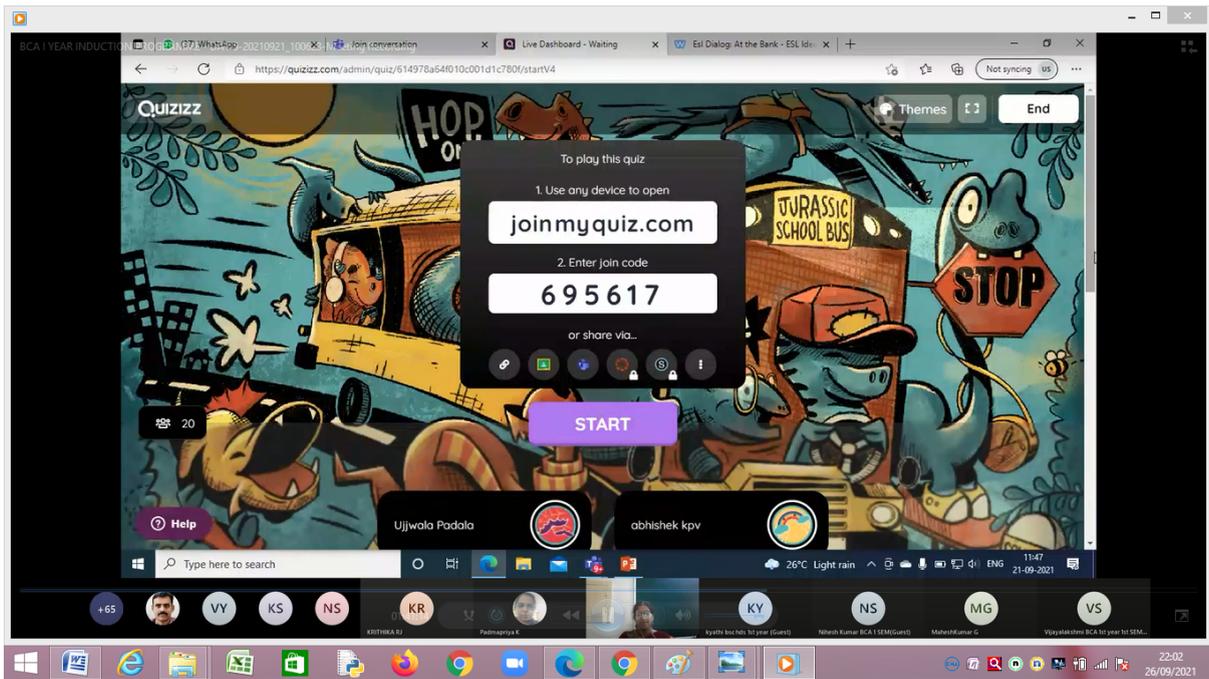

Introduction

The introduction focused on discussing the significance of English language and establishing relevance. Information was provided to the students regarding the opportunities the college offers in the form of Literary Club, Vibha – the college magazine and Languages Day to promote their creativity and flair for the languages.

Time : 11:35 a.m. -11:55 a.m.

Activity 1 : Vocabulary quiz

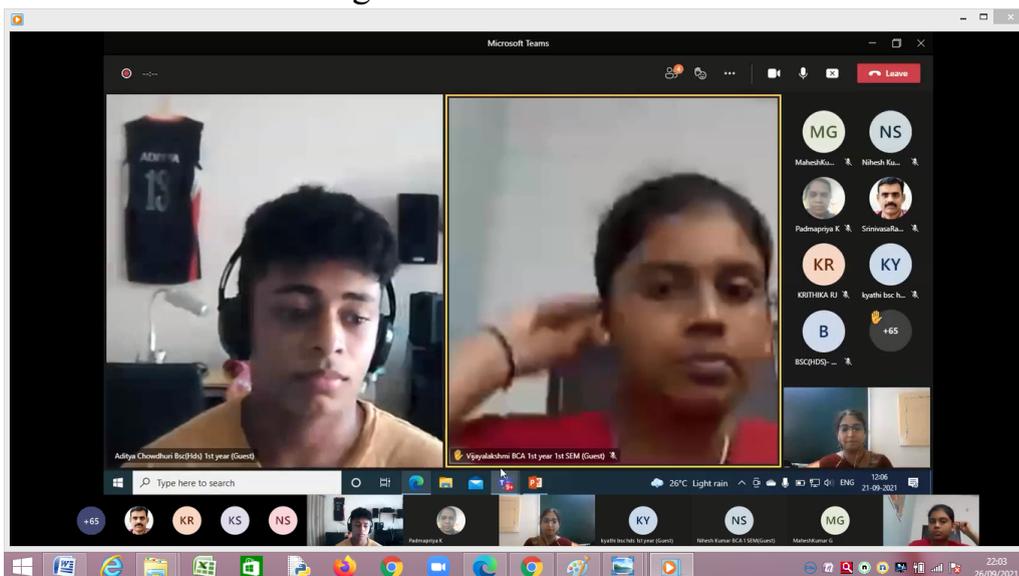

The first activity was a vocabulary quiz conducted using 'Quizziz', an education-based platform. It was chosen to ensure maximum participation and also to serve as an ice-breaking activity. Students actively participated in the self-paced quiz. While enjoying the gamified quiz, they could also test their word power.

Time : 11:55 a.m. – 12:15 p.m.

Activity 2 : Role Play

Scripts for some conversations were shared on the screen and students were asked to volunteer to enact the roles in the scripts. Students enthusiastically paired up with their peers and enacted the roles, trying their best to use the right pronunciation and intonation. The idea was to encourage them to practice the correct usage of language through various situational dialogues, and to motivate them for further learning.

Time : 12:15 a.m. – 12:30 p.m.
Activity 3 : Just a Minute (JAM)

Students were challenged to speak for a minute on common topics, without deviation, repetition and hesitation. The challenge was accepted and sincere efforts were made to continue speaking relevantly for 60 seconds. The activity was to build confidence, promote interest towards learning English, demonstrate the importance of spontaneity and prepare them for impromptu speeches.

Skill Enhancement Course

Analyzing Data for Business Growth using Advanced Excel and Power Bi

Under DBT Star College Scheme

The Department of Computer Science has organized Skill Enhancement Course on the topic “**Analyzing Data for Business Growth using Advanced Excel and Power Bi**” under DBT Star College Scheme for BCA II, BCA III, B.SC(HDS) II, B.Sc(Computer Science) III year Students and Faculty of our college, scheduled from 6th September, 2021 to 25th September, 2021(30 hrs).

The resource person was Mr. Alok Singh, Head, Business Development, Impact Education of India. The SEC was conducted through online platform i.e., FCC(Free Conference Call) everyday from 5:30PM under the guidance of Mrs. KVB. Saraswathi Devi (Head, Department of Computer Science) and Course Incharge Mrs. S.Jayalaxmi(Lecturer, Department of Computer Science) for 15days.

A total of 126 students and faculty registered, for the course out of which 100 students, 4 faculty have participated during the course from different locations using online mode.

Platform
Free of cost

Course Incharge: S.Jayalaxmi

The session has started with the importance of "**Analyzing Data for Business Growth using Advanced Excel and Power Bi**". The topics which were covered under Advanced Excel for the first six days i.e., from 6th September, 2021 to 15th September, 2021 were: (6,7,8,13,14,15 September)

- Introduction to Data Driven Decision Making
- Fundamental of Excel

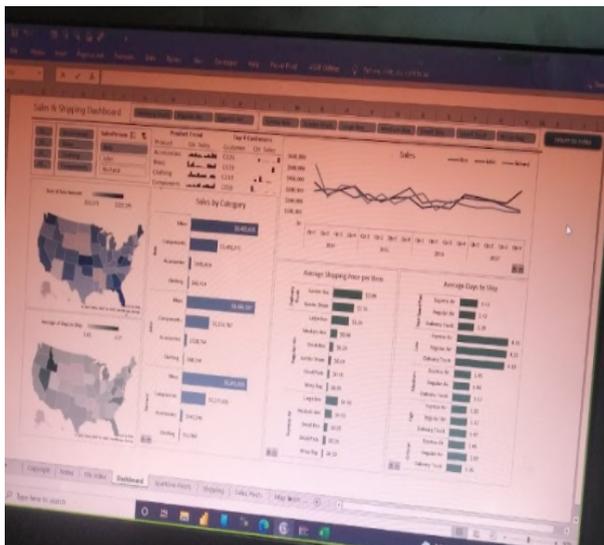

- Mathematical Functions
- Financial Functions- PMT,PPMT,IPMT,PV,FV
- Financial Functions- EMI calculator, Sensitivity Analysis
- Data Validation , Consolidate
- Logical Functions- if, and, or, not, lookup, vlookup, hlookup
- Logical Functions- sumif, sumifs, countif, countifs, identification of GAP & Duplicate
- What-if-Analysis - Goal Seek, Scenario Management, Data Table
- Statistical Functions- Descriptive Statistics, Histogram, Moving Average, Rank & Percentile
- Dashboard Creation with Pivot Table, Pivot Charts

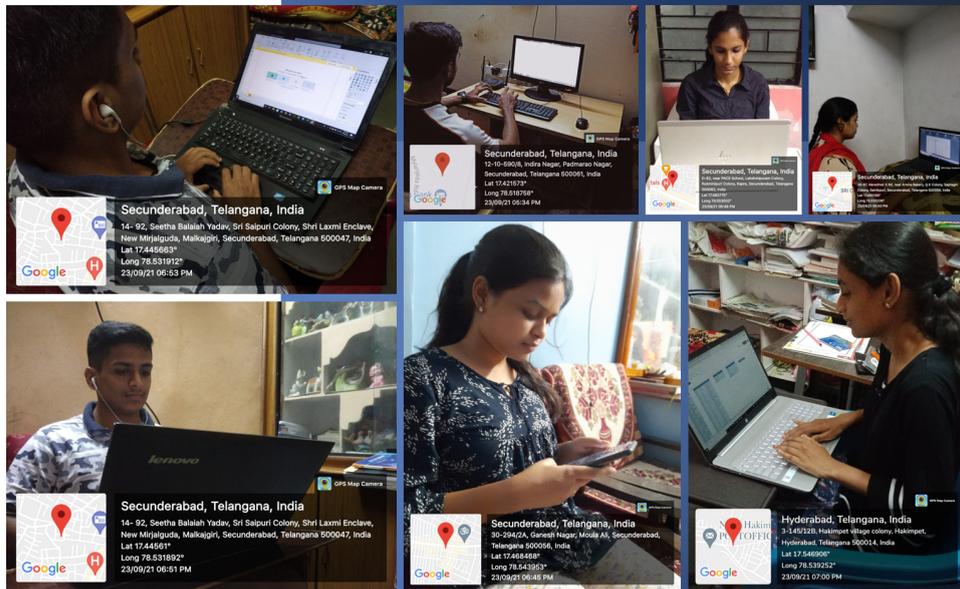

Power Bi course was started from 16th September, 2021 to 22nd September, 2021. The topics which were covered during those five days were: (16,17,20,21,22 September)

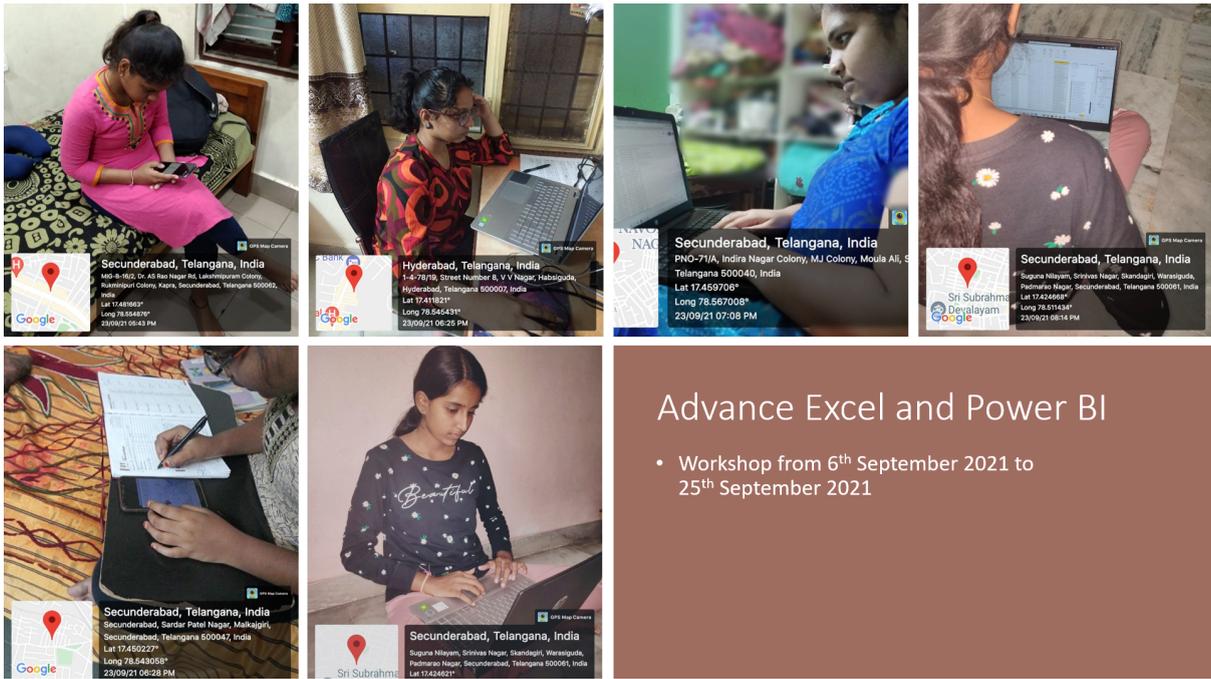

- Power Excel Tool- Power Pivot,Power Query,Power Map
- Into to Business Intelligence Tool- Microsoft Power BI
- Data Visualisation & Analysis- using Power BI

Data Visualization Dashboard and Tableau were taught from 23rd September, 2021 to 25th September, 2021. The topics covered for these three days were:(23,24,25 September)

- Data Visualisation - using Tableau
- Data Analysis- using Tableau

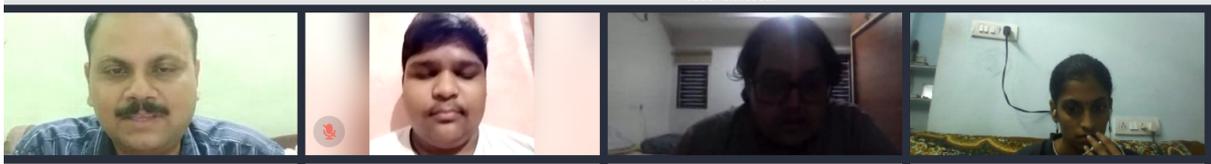

Advance Excel and Power BI

- Workshop from 6th September 2021 to 25th September 2021

The participants were very interactive during the session and all the queries were clarified during the course by Mr. Alok Singh (Resource person). Certificates were issued to all the participants after the completion of the course on “Analyzing Data for Business Growth using Advanced Excel and Power Bi”.

There was a Guest Lecture, by Mr Sourav Yadav, organized for the students learning and developing projects on Android Application. 33 students have attended this lecture.

Mr. Sourav Yadav completed his BSc in MECs from Bhavan's Vivekananda College, and is currently pursuing B.Ed.

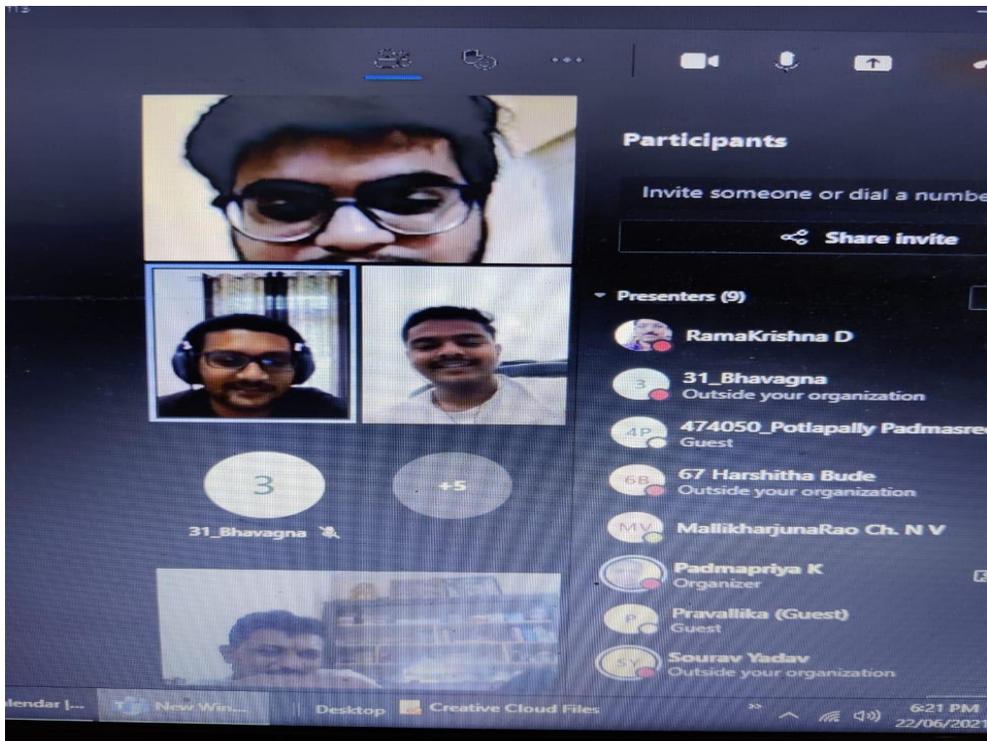

He is good at MS Office, Operating systems, Android and different programming languages such as C, C++, Python, Java. He is also aware of Flutter.

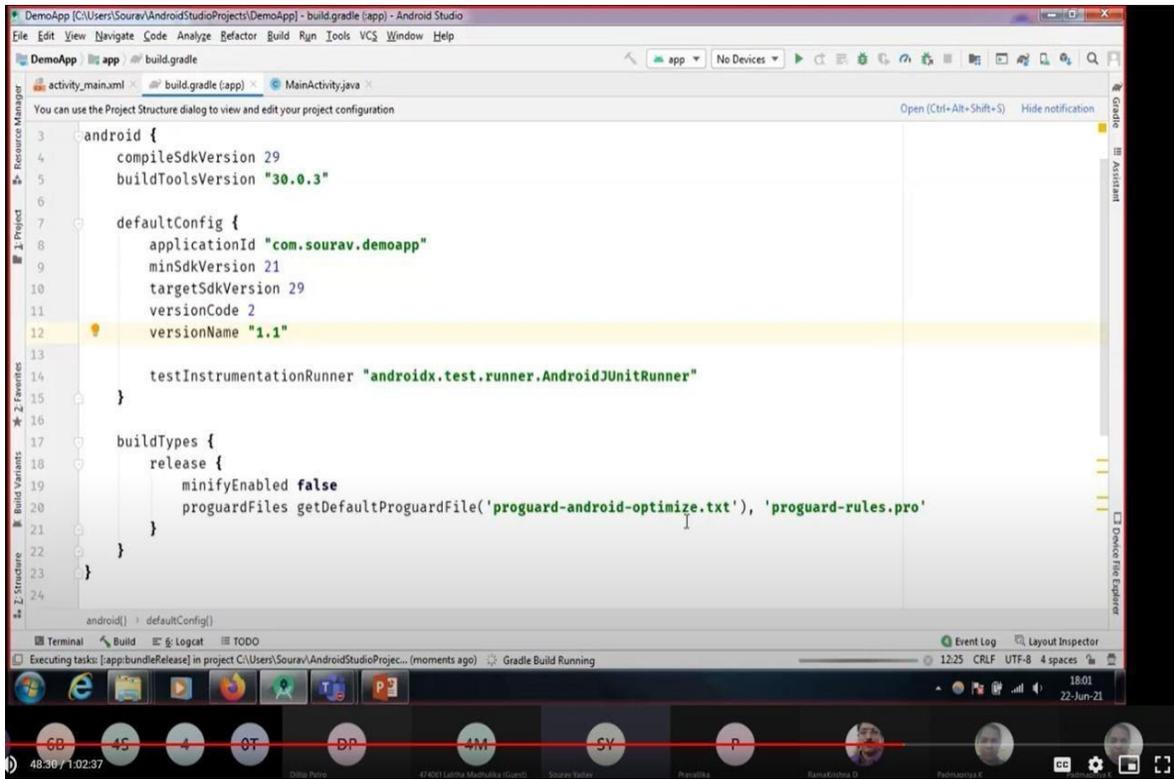

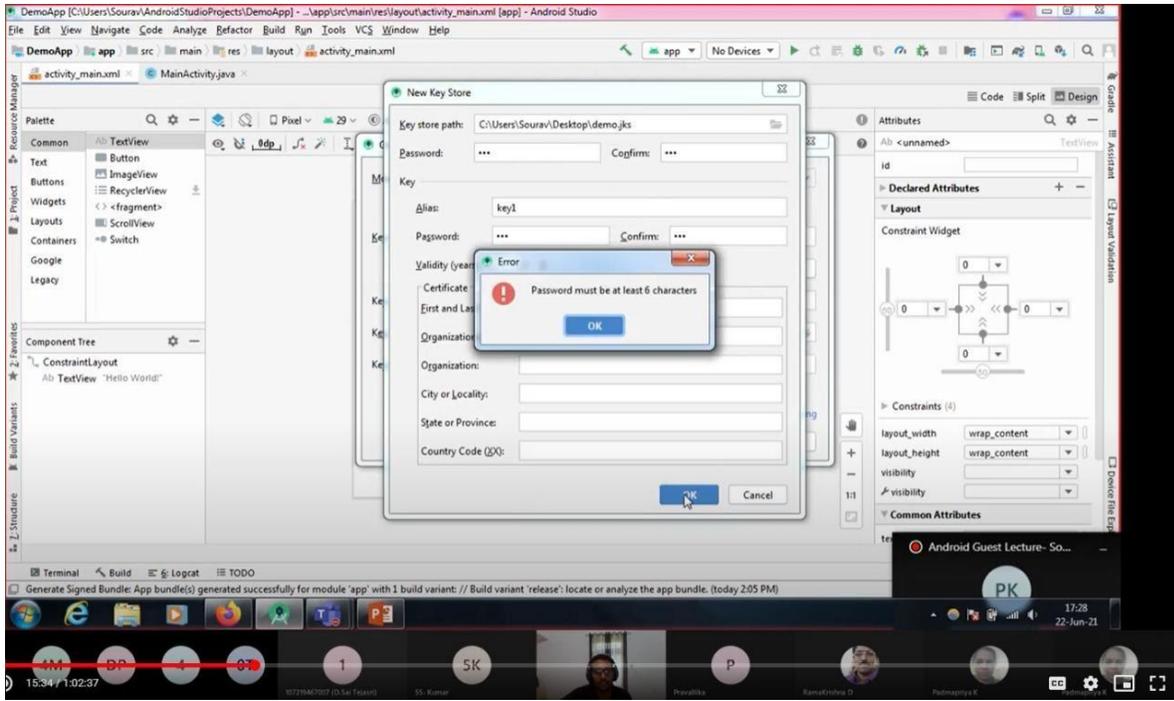

He has developed 2 apps CamIT and CallX while his graduation in the college among which CamIT is an App uploaded on play store.

Cam IT is used to create, edit and modify documents which includes features like pdf encryption - decryption, pdf compress, conversion from Images to pdf, pdf to images, add or remove pages to/from a pdf, change order of pages in a pdf, rotate pages of a pdf, add watermark, merge multiple pdfs, split pdf, extract text from pdf.

His other app, CallX includes features like auto call answering, call recording, and call blocking.

His session focused on how to upload a real-time app into the play store which was very informative and helpful. He also briefed the students the importance of developing such projects and how would they benefit them in the future. He cleared all the questions raised by the students at the end of the session, very patiently.

The image shows a screenshot of the Google Play Console interface for an application named "DemoApp". The browser address bar shows the URL: <https://play.google.com/console/u/0/developers/9084160685929693972/app/4972426208816718249/app-dashboard?timespan=thirtyf>. The page title is "Dashboard | DemoApp".

The interface includes a left-hand navigation menu with the following items:

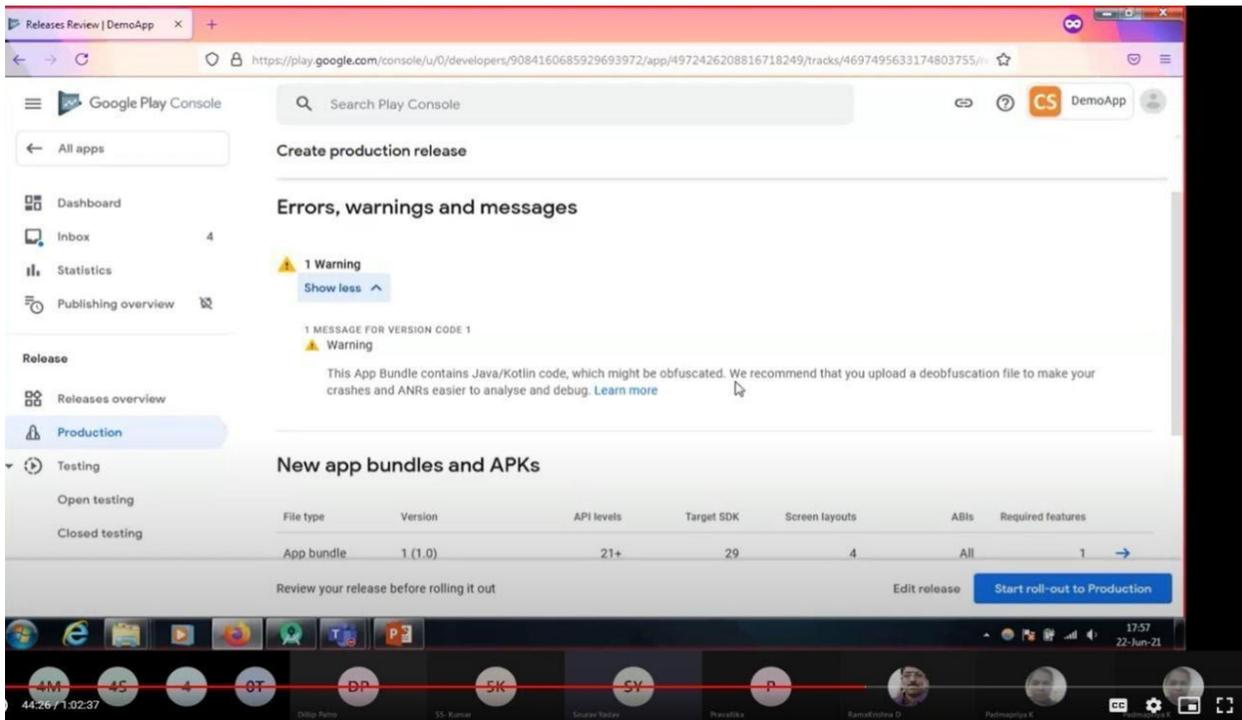

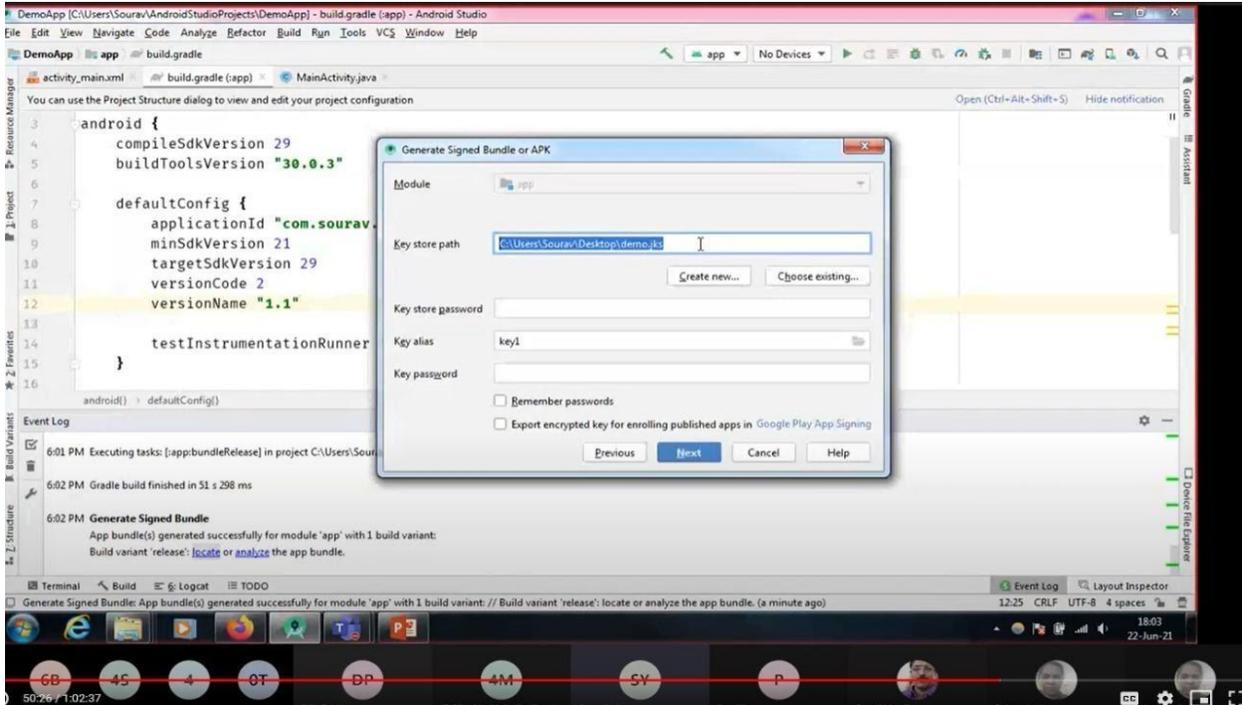

- All apps
- Dashboard (selected)
- Inbox (4)
- Statistics
- Publishing overview
- Release
 - Releases overview
 - Production
 - Testing
 - Open testing
 - Closed testing
 - Internal testing
 - Pre-registration

We're experiencing longer than usual review times

The bottom of the screenshot shows a Windows taskbar with various application icons and a system tray displaying the time 17:47 and date 22-Jun-21. Below the taskbar is a Zoom meeting control bar with several icons: a timer showing 34:24 / 1:02:37, a mute icon with a red slash, a video icon with a red slash, a chat icon with a red slash, a screen share icon with a red slash, a 'P' icon, and several participant icons.

Report

Arduino with Real Time Examples

There was a Guest Lecture on 8th June and 9th June 2021 (timings:5PM to 6PM), by Mr K.Abhilash and G.Ganesh from M.Sc(CS) IV SEM, organized for the students learning on Arduino with real-time examples. Students are enhancing their knowledge by attending this type of lectures.

129 students have attended this lecture.

They covered topics:

1st day(8th June 2021)

What is Arduino? History of Arduino, what can the Arduino do? Advantages, About Arduino hardware, about sensors, about shields, About Arduino software, Installation and program uploading steps, Different types of Arduino boards? which one is to be used? Simple example

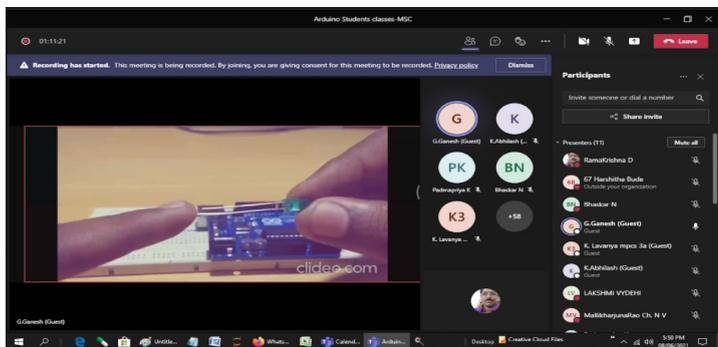

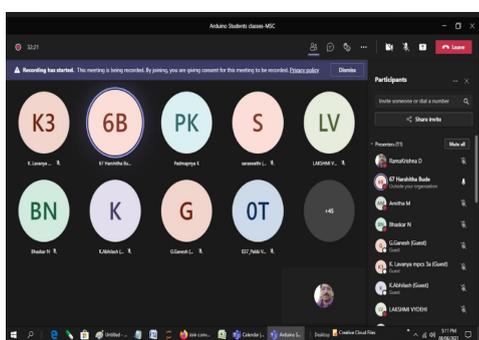

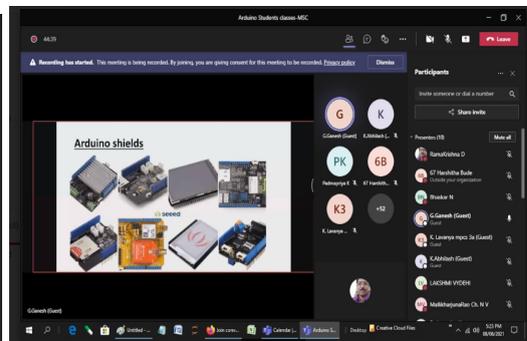

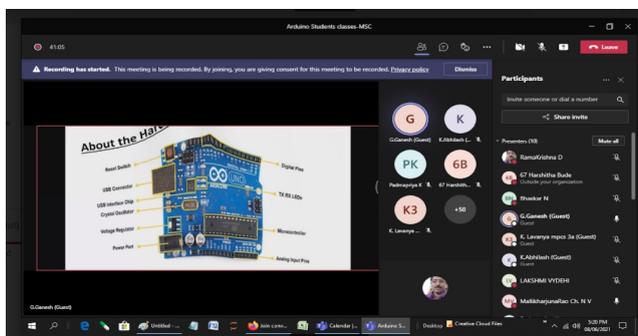

2nd day(9th June 2021)

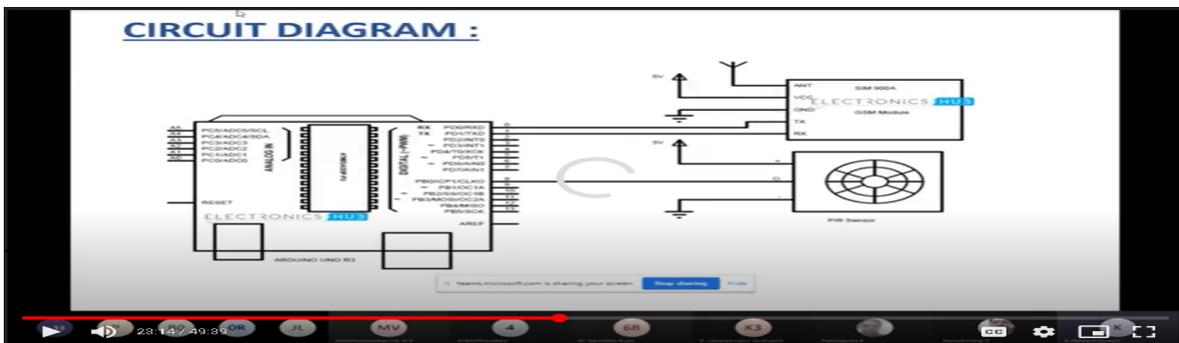

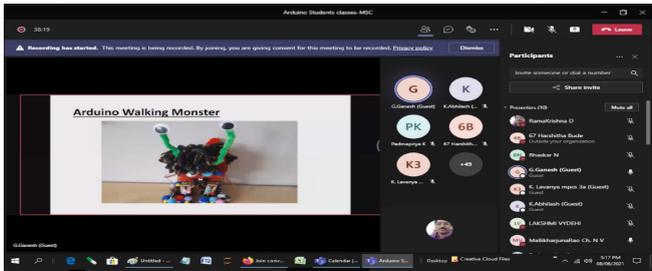

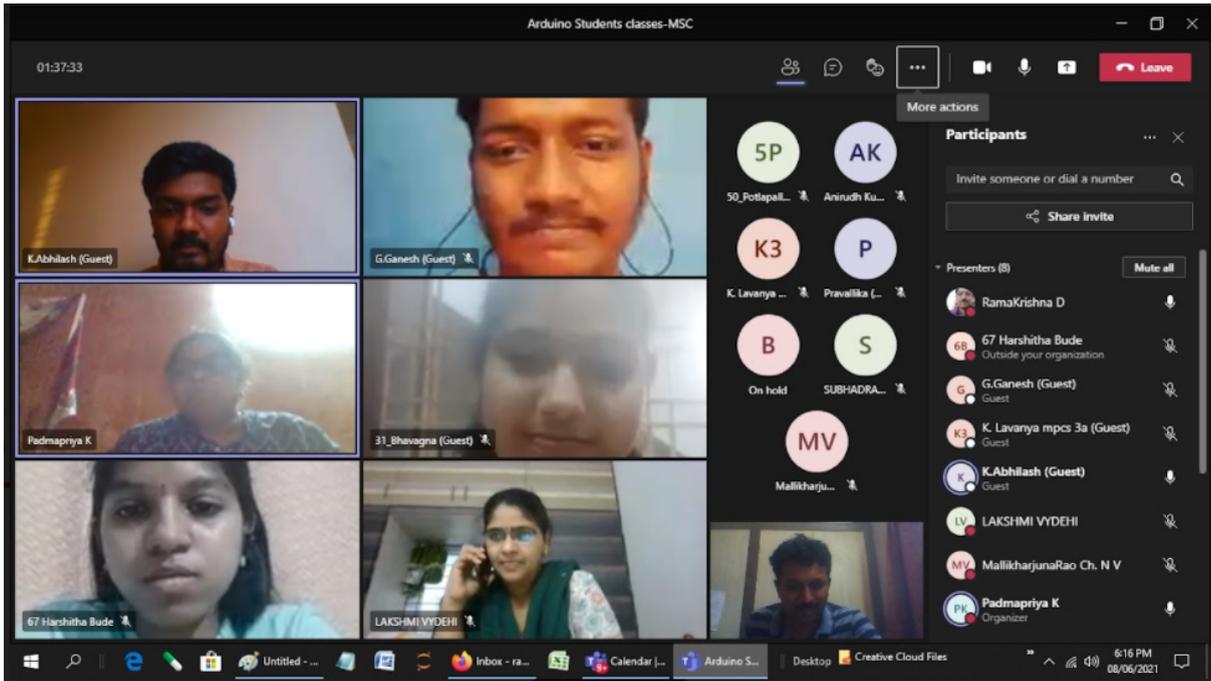

Connection of Bluetooth, sensor HC05 with Arduino and mobile| Voice commands,

Home security by using gsm module, Car locking system using alcohol detector in Arduino

REPORT ON

GUEST LECTURE(WEBINAR)
“CAREER OPPORTUNITIES AT U.G AND TERTIARY-LEVEL”

Date: 17-12-2021

Department of Computer Science had organized a Guest Lecture (Webinar) on “**CAREER OPPORTUNITIES AT U.G AND TERTIARY-LEVEL**” through online mode under **DBT-Star College Scheme**, on 17th December 2021 for B.Sc and BCA Final year students.

The Resource Person invited for the session was **Ms. Sushma Uday Singumahanthi, Senior HR Manager Capgemini INDIA**, Hyderabad, Telangana.

The Webinar started at 3:00 p.m. with the welcome address given by Mr. N. Bhaskar, Assistant Professor, Department of Computer Science. Ms. Siddhini student from BCA III Yr, read the profile of Sushma Uday and welcomed her for the session.

The Session was taken over by Ms. Sushma Uday, she started with the present Career Opportunities for Computer Science graduates and what kind of jobs are available for them at present scenario and also how to believe in themselves, how to build self-confidence to get the placement in IT Industry & other fields also.

Ms. Sushma Uday enhanced on how important it is to choose appropriate career option and Higher studies in today’s world. She also motivated students to upgrade themselves on latest trends, and provided them good information about how can a student lead the roadway to research side as one of the career opportunities.

She highlighted on different types of questions placed to students like their Strength, Weakness, Student’s Goal etc. She also highlighted on different methods like Star Interview approach in facing Interviews (Situation, Task, Action and Result) for Jobs.

The session was very interactive. Ms. Sushma Uday made it a point that every student responds and interact by a placing question on the topic.

Career Opportunities for Computer science graduates

Web Data Analyst	Web Data Learning Engineer	Cloud Scientist	Cloud Architect
Blockchain Developer	Software Developer	Computer Network Architect	Computer Systems Analyst
Information Security Analyst	Software Engineer	Software Engineer	Software Engineer

In today's world, it is more important than ever to know your career options that is what you want to do next ... higher studies... or if you choose to work you will definitely need to have strong interviewing skills. The most common reason for this is that college graduation rates are increasing and you will be leaving your college with more competition. If you fail at your interview or fail to make a good impression it could cost you an opportunity. 16 yrs of Experience in small/medium/ large types of set up. An Kuchipudi Artiste and a mother of 2 . Before we start an interesting video for all of you. Hear it....

TYPES OF QUESTIONS

Test your intention

- i. Why are you interested in the role?
- ii. What interests you about the company?
- iii. What interests you about this Career?

Motivational

Test your Knowledge Skill and Attitude",

- i. Can you give me an example of when you had to solve a problem?
- ii. Describe a time when you had to explain something complex in simple terms?
- iii. Give me an example of a time you have worked in a team? What was your role?

Competency

Test your Subject

- i. How much reuse do you get out of the code that you develop, and how?
- ii. Which do you prefer; service oriented or batch oriented solutions?

Technical

Competencies can be defined as "what you CAN do",

- i. What are you good at?
- ii. What do you learn quickly?
- iii. What did you find easiest to learn at school or university?
- iv. What subjects do you most enjoy studying?
- v. What things give you energy?

Strength based

Leave

Answering questions Various approaches:

- Top down Start with the main point you want to get across and then expand with some detail.
- Number your points For example 'I have three points to make'

STAR Useful for competency based questions
(Remember the question and what you are trying to demonstrate!)

Structure

- **Situation:** give a context by describing the situation
- **Task:** what was your goal?
- **Action:** tell the interviewer your specific actions – this should be the biggest part of your answer
- **Result:** shows yourself in a good light, even if the overall project was not a success

STAR INTERVIEW METHOD

S Situation
Describe the context

T Task
Provide details on your responsibilities

A Action
Demonstrate how you responded or took charge

R Result
Explain the impact you made or the lessons you learned

Management Consulted

Most Common Questions

- Tell me about Yourself
- What are your Strengths and weaknesses
- Why should we hire you?
- Where do you see yourself in the next few years?
- What is your Salary Expectation?

Session ended with vote of thanks given by Ms. Divya Rekha, Assistant Professor, Department of Computer Science. There were total **60** participants for the Webinar.

Students gave very good feedback about the session and suggested for more such sessions in future which can be useful for their Career Growth.

A Report on 5 Day Workshop on PHP with MYSQL 29th November to 3rd December 2021

Department of Computer Science had organized 5 Day Workshop on PHP with MYSQL through online mode under **DBT- Star College Scheme**, from 29th November to 3rd December 2021 for B.Sc and BCA II and III year students.

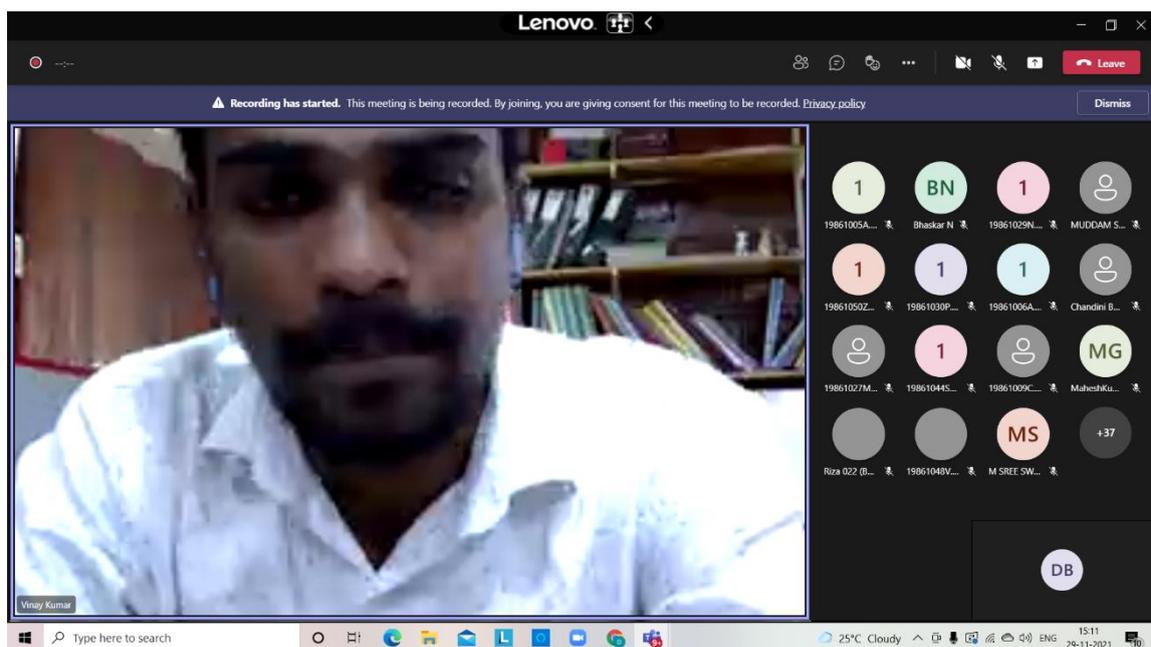

The Resource person invited for the session was, Mr.S Vinay Kumar Chary Program Officer - IT Watershed Support Services and Activities Network Nagole, Hyderabad, Telangana.

The workshop started at 3:00 p.m with the welcome address given by Mr.N.Bhaskar, Lecturer, Department of Computer Science welcomed him as Alumini of Bhavan's Vivekananda College. The session was taken over by Mr.Vinay Kumar , he briefed about day wise schedule for 5 Day workshop and gave introduction about PHP and MY SQL There were a total of 100 participants including faculty and students of various streams for the Workshop.

The five-day schedule:

Day 1:

He explained about necessary tools needed to install and explained how to setup visual studio code practically and also highlighted the points on project implementation basing on these tools.

Day 2:

Day 2 Session started with MYSQL Mr. S Vinay Kumar explain creating Database and table in SQL and assigning datatypes to the variables using the software and practically showed students to execute queries

He explained queries on DDL commands like CREATE, ALTER, DROP ETC. Showed how to implement Filters like WHERE, AND, OR.

Mr. Vinay Kumar explained about types of JOINS like INNER JOIN, RIGHT JOIN, LEFT JOIN and practically executed queries on joins.

The screenshot displays a Zoom meeting window. At the top, the title bar reads "Lenovo". Below it, a notification states "Recording has started. This meeting is being recorded. By joining, you are giving consent for this meeting to be recorded. Privacy policy". The main content area shows a slide titled "Course Index" with the following text:

Day 2 MYSQL - Setting up Database

- Creating a Database
- Data Definition Languages (DDL) Commands eg: CREATE, ALTER, DROP
- Data Manipulation Language (DML) Commands eg: SELECT, INSERT, UPDATE and DELETE
- JOINS eg: INNER JOIN , LEFT JOIN, RIGHT JOIN.
- FILTERS- eg: WHERE , AND, OR.

On the right side of the meeting window, a list of participants is visible, including Bhaskar N, Pradeep P., Vinay Kumar, and Chandini B. The bottom of the window shows the Windows taskbar with the search bar, taskbar icons, and system tray information (25°C Cloudy, 3:16 PM, 29-Nov-21).

Report on International Webinar on “Ethical Hacking”

An International Webinar on “Ethical Hacking” was conducted by the Department of Computer Science, under the DBT Star College scheme, on 26th November, 2021.

The speaker for the Webinar was Mr. Srinivasrao Kotipalli, who works for Global Bank in Singapore as a Senior Cyber Security Manager. He is also an Offensive Security Certified Professional (OSCP) and Offensive Security Certified Expert (OSCE). Mr. N. Bhaskar, Lecturer, Department of Computer Science, welcomed the guest speaker.

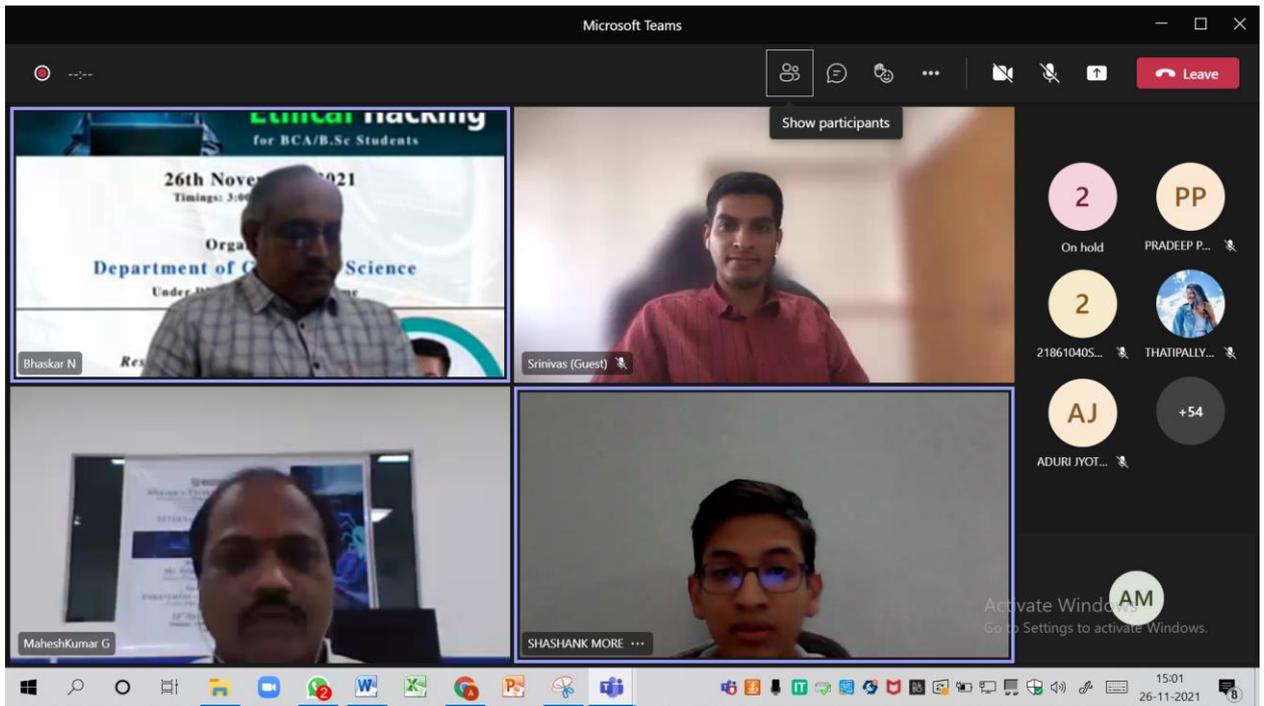

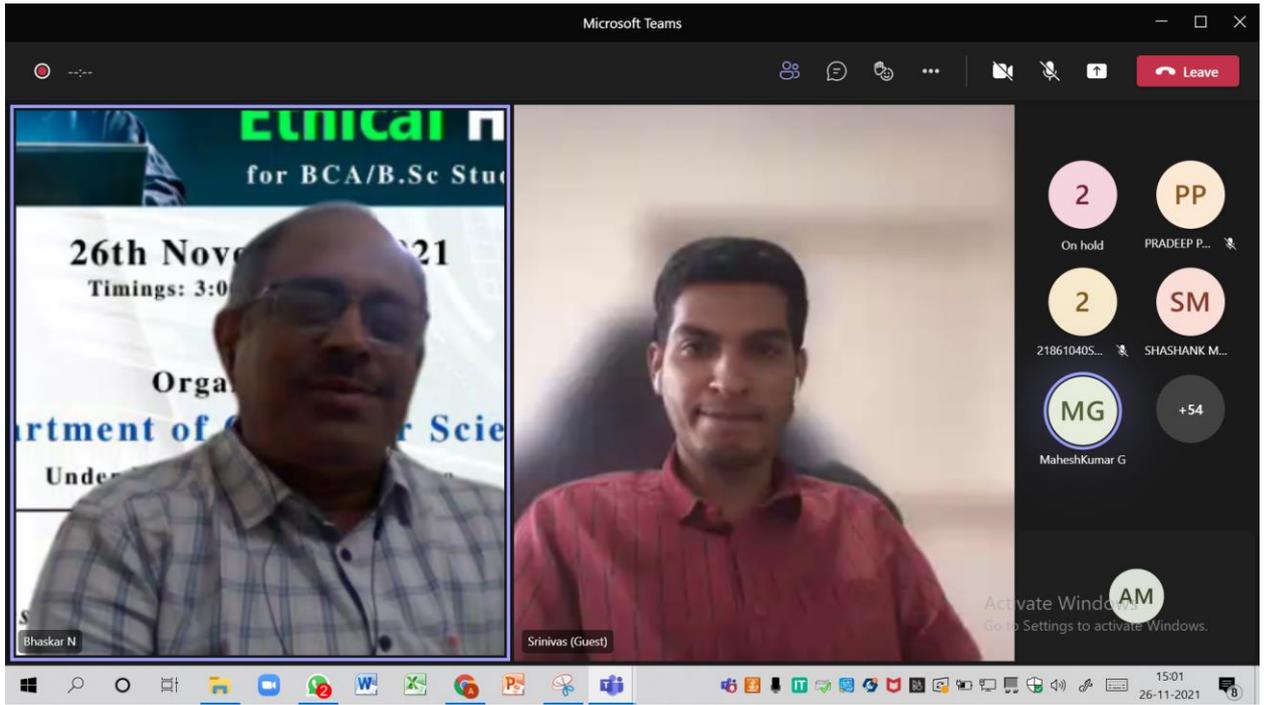

He focused on various topics related to Ethical hacking and Information Security.

Mr. Srinivas highlighted on the need for Security and what Hacking is. He also focused on how Web Application Security is provided.

He also briefed to the students as to who are the different types of Hackers and what do they do, like Black Hat Hackers, White Hat Hackers, Grey Hat Hackers, Hacktivists, Script Kiddies.

He also ran a sample Hacking Code and showed the minimal instructions that are executed for the data to be stolen.

Mr Srinivas also educated the students about ‘Careers in Information Security’ – He also mentioned the various roles in the industry in the field of Information Security such as - Penetration Testing (Ethical Hacking), Red Team, Yellow Teams, Digital Forensics, Security Operations Center, Security Architects, Bug Bounties, Security Blogging, Security Training-Online and Offline, Freelancing etc.

There were around 60 students who actively participated and interacted in the webinar. They also had their queries related to Ethical Hacking, clarified from the speaker. The session concluded with Mr. G Mahesh Kumar, Asst Professor, Dept. of Computer Science, proposing the Vote of Thanks.

REPORT ON E-WASTE DRIVE

The Department of Computer Science had initiated an “E-WASTE DRIVE” organized by the Fusion Tech Club under DBT-Star College Scheme from 1st November 2021 within the college to encourage and spread awareness among the students to collect, deposit and extend their support towards responsible e-waste disposal. The Green Campus Programme Cell, in collaboration with FusionTech, NCC, Abhyas Club, VOICE club and the greNergy club of the college had organized

Waste Management Week, from 8th Nov, 2021 - 12th Nov, 2021.

There were various events organized as part of this Awareness programme. An internal campaign within the college was organized on 8th Nov, 2021, physically and on social media. A Door to Door campaign in the Defence Colony society on 9th of November 2021 was taken up. Students from the Fusion Tech Club along with 150 NCC Cadets and other clubs had participated in spreading awareness about proper waste and E-waste disposal in the society. As part of the campaign there was a lot of E-waste collected from the society like discarded Television, Computer(CRT) Monitors, Motherboards, Battery cells, iPods, Headset/Earphones, Calculators, Cellular Phones, Screen Guards, Keyboards, Mice, Cables, Compact Discs (CDs), DVDs etc.

FusionTech Club presents
E-WASTE DRIVE

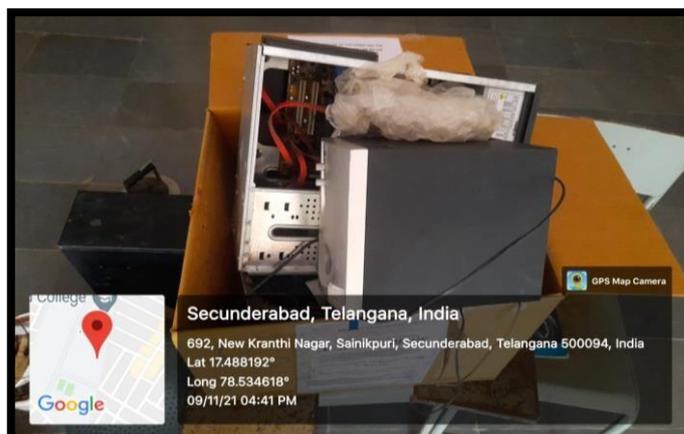

*"E-Rase your E-Waste,
Modern Technology owes an
apology to the ecology"*

An opportunity to donate all your
E-WASTE

Note: The E-Waste collected will be
sent for recycling

Date: Starts from November 1st, 2021.
Place: LIBRARY BLOCK
(Beside N3 and in the second floor, near N22A).

Organized by
Department of Computer Science

AWARENESS RALLY

On 11th November 2021, the FusionTech Club along with NCC and Abhyas Club organized an “**WASTE MANAGEMENT AWARENESS RALLY**”. BCA II and III Year students along with more than 150 NCC Cadets, faculty members took active part in the rally. The E-waste awareness rally began from the college till Neredmet at 3:00PM displaying banners and shouting slogans, spreading awareness about environmental hazards of E-waste.

FusionTech Club presents
E-WASTE TO BEST

**" Creativity is making
marvelous out of the discarded "**

*An Opportunity to showcase your
creative side to make best out of the
"E-WASTE"*

Team Size : 2-4 (Inter-Departmental)
Venue : Science Quadrangle
Date : 12th November, 2021
Time : 2:30 pm to 3:30 pm

FOR FURTHER QUERIES
Contact: 9989440261, 9052648821

*Organized by
Department of Computer Science*

On 12th November 2021, The FusionTech Club organized “**E-WASTE- TO- BEST**”, an **Art and Craft Exhibition cum Competition**, which gave an opportunity for the students to showcase their creative side in making the best out of the e-waste. The aim of the exhibition was to re-purpose the e-waste into something new. The judge for the event was Dr K V Padmaja, an Agri-Environmental Scientist, who appreciated the efforts and creativity put in by the students in making their exhibits/models.

Winners for the event were decided by the Judge and were felicitated by mementoes on the valedictory.

There were around 26 students in 12 teams who participated from various streams.

AWARENESS RALLY

On 11th November 2021, the FusionTech Club along with NCC and Abhyas Club organized an “WASTE MANAGEMENT AWARENESS RALLY”. BCA II and III Year students along with more than 150 NCC Cadets, faculty members took active part in the rally. The E-waste awareness rally began from the college till Neredmet at 3:00PM displaying banners and shouting slogans, spreading awareness about environmental hazards of E-waste.

Report on Cyber Security Webinar – 6th November, 2021

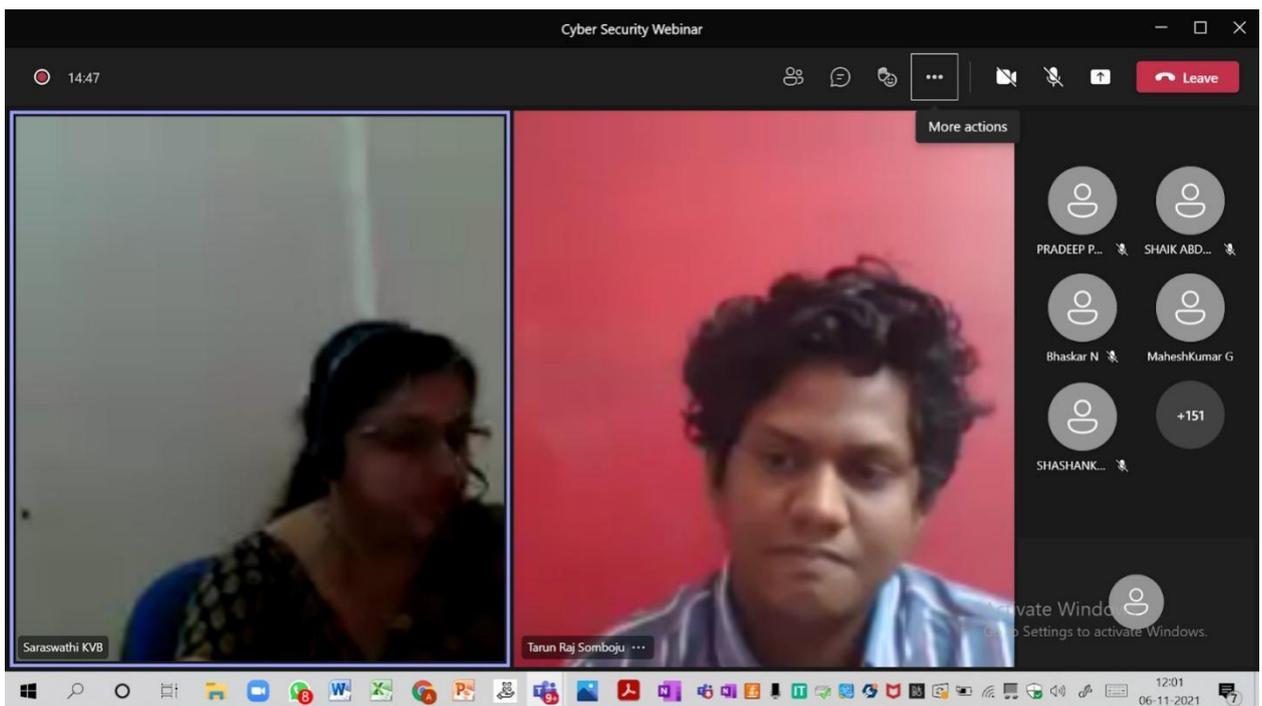

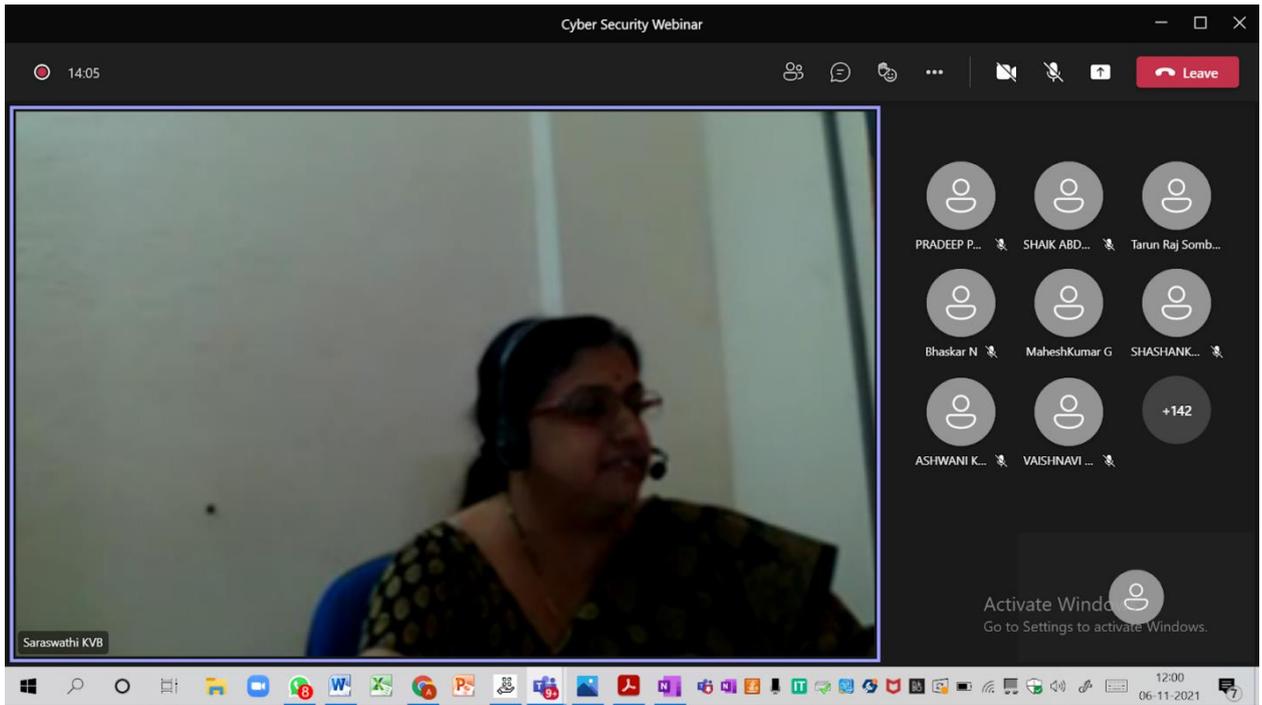

A webinar on **Cyber Security** was organized by the department of Computer Science under the DBT- Star College Scheme, on the 6th November, 2021. The speakers invited for the session was Mr S Tarun Raj, Senior Security Analyst, Stefanini India Pvt. Ltd., Hyderabad, and Mr N Prithvi Raj, Senior Security Analyst, Stefanini India Pvt. Ltd., Hyderabad. Mr S Tarun Raj is also the alumni of the BCA programme from our college.

The webinar began at 12:00 p.m. with the welcome address given by Mrs KVB Saraswathi, Head, Department of Computer Science. The session was taken over by Mr. Prithvi Raj and Mr Tarun Raj who started with stating the need of the Internet in the modern era, Importance of Cyber Security, the top 10 OWASP (Open Web Applications Security Project). They also highlighted on the types of threats to security, causes of phishing, differences between surface web, dark web, deep web etc. The session also included a local demo of how phishing is done.

The session was very informative and knowledgeable with students interacting with the speakers and clarifying questions on what kind of courses and certifications would help them pursue a better career in the field of Cyber Security.

The session concluded with the vote of thanks proposed by Mr. G Mahesh Kumar, Assistant Professor, Department of Computer Science and BCA Programme Coordinator, thanking the speakers and the audience for their active participation. There were a total of 205 participants including faculty and students of various streams for the webinar.

 [Platform Teams: Click here](#)

Department of Computer Science had organized a webinar on "Service Management and ServiceNow" under DBT-Star College Scheme on 30-OCT-2021 from 3:00 P.M. to 4:30 P.M. for both BSC & BCA students.

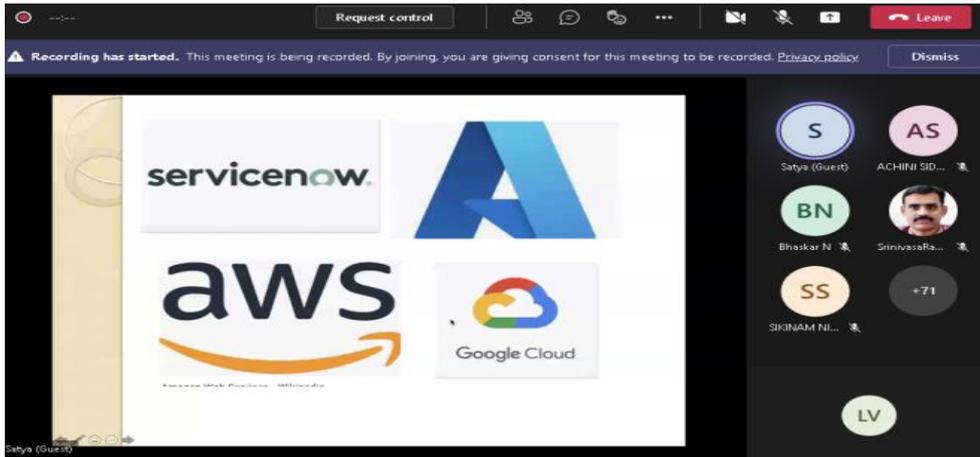

Total number of participants: 78.

Resource person: Mr.Y. SATYA KIRAN KUMAR
(Vice President, ITSM and Cloud Computing, Deutsche Bank.)

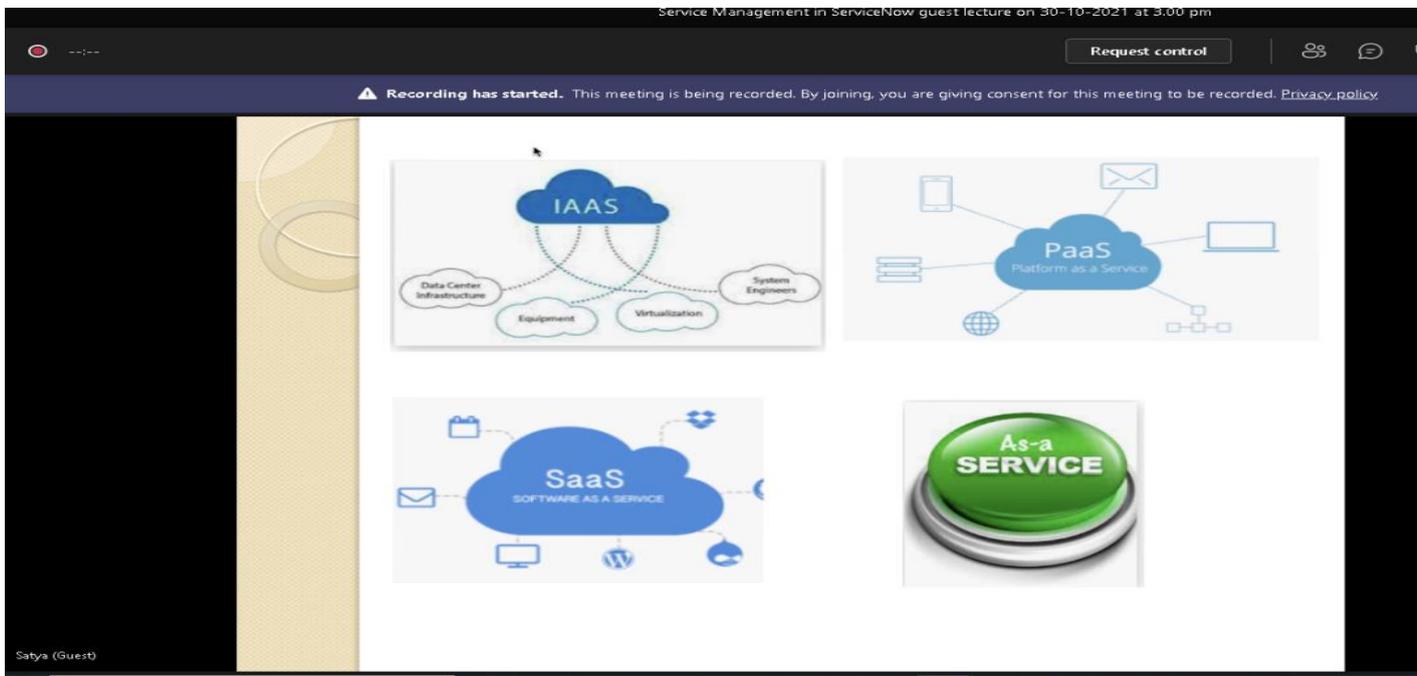

The topics covered were:

Service Management and ServiceNow: -

Service Now –is a service that is a support for the Organizations to use the AWS, Azure, Google Cloud.

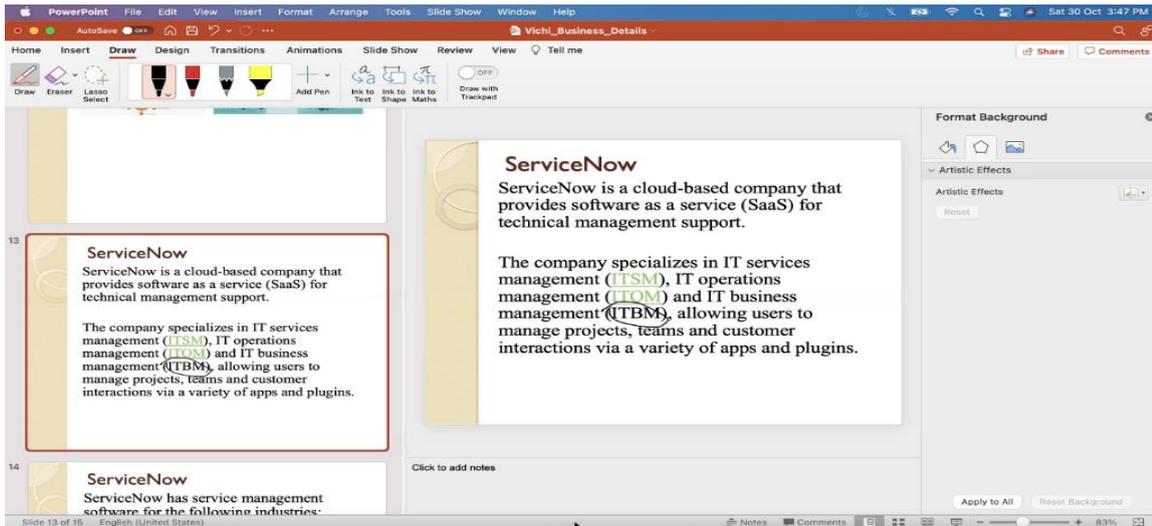

Services can be as a – Infrastructure as a service
Platform as a Service
Software as a Service
Service as a Service

It is a company which provide with the IT service management.

It is an Application Software.

It executes on Cloud; no Downloading or Running time required

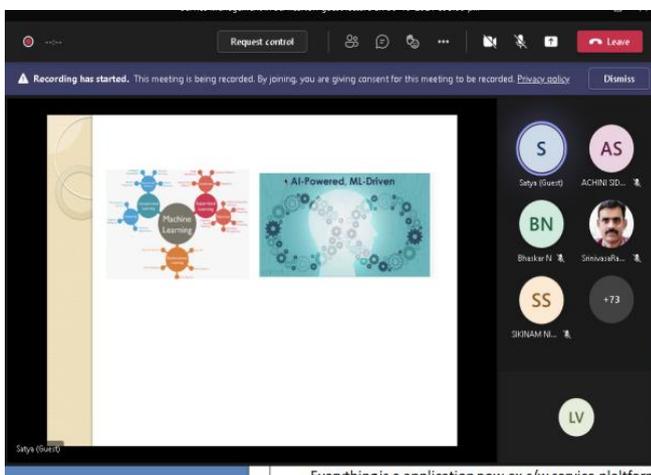

It is a Paid service. They provide us with the URL with which we can use directly.

It is a ready to use software.

It uses AI, ML for developing applications, to integrate machines with other products.

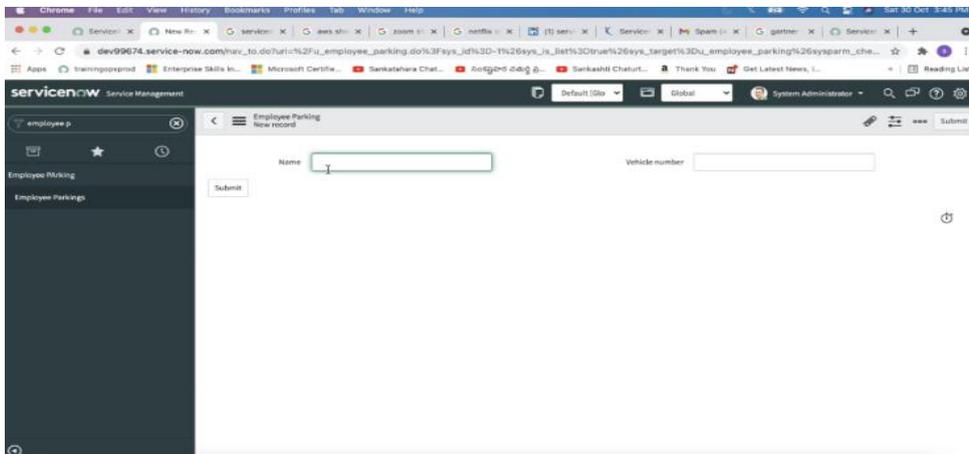

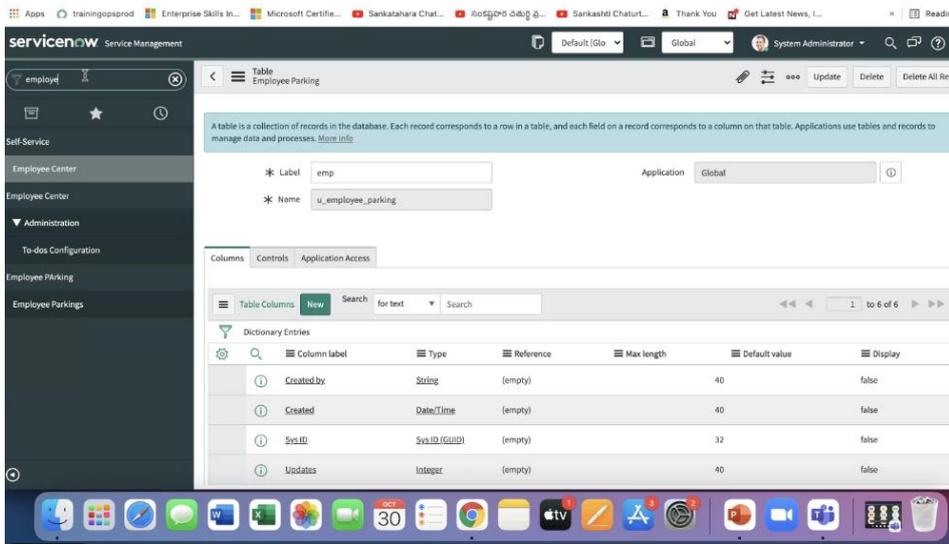

Ex: Build a machine in AWS, Google Cloud, FB,Whats App.

It allows the company to use their Applications.ex-Incidents

We can create our own customised Application on their platform.

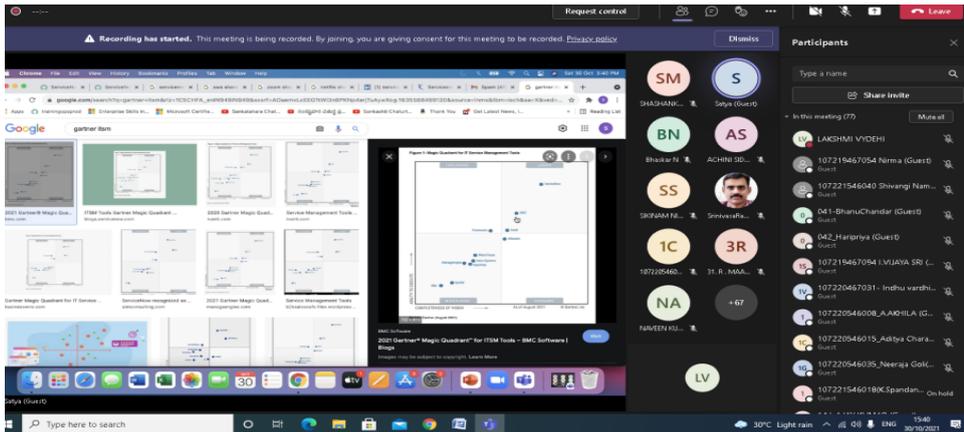

It is not only restricted to IT; but also it does Non -IT related services ex-Employee Parking

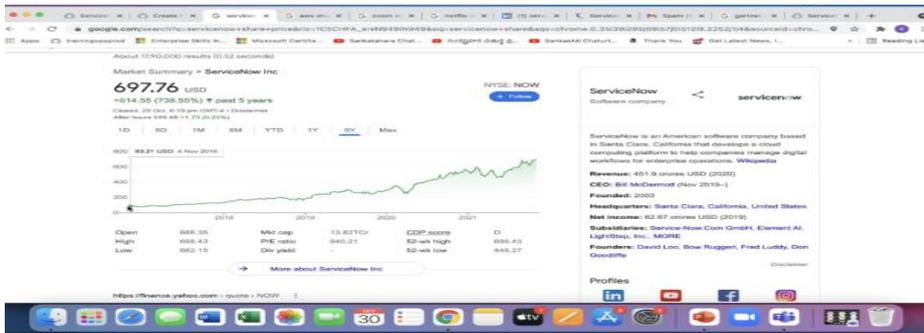

It also has free Application support for users.

- Software Ranking Company:-Gartner ITSM

- Growth of ServiceNow in 2021:

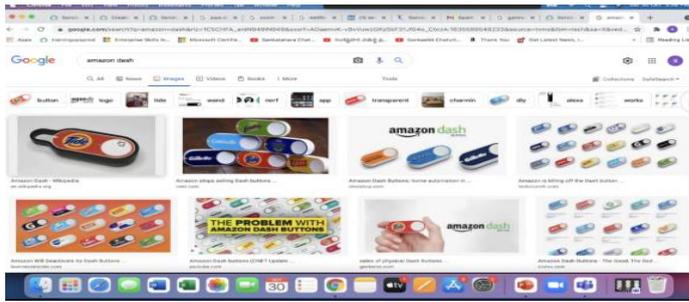

- Security:

It has its own credentials to login. Any Unauthorized user we can get a SMS, email –to Administrator.

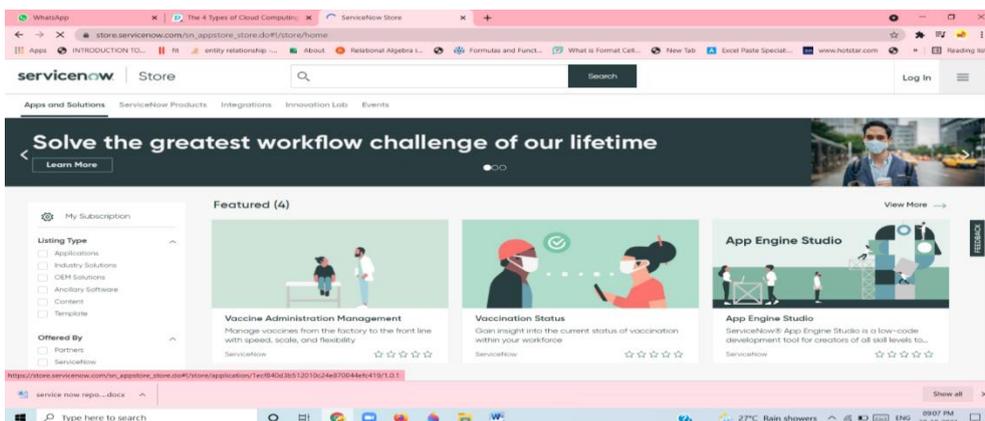

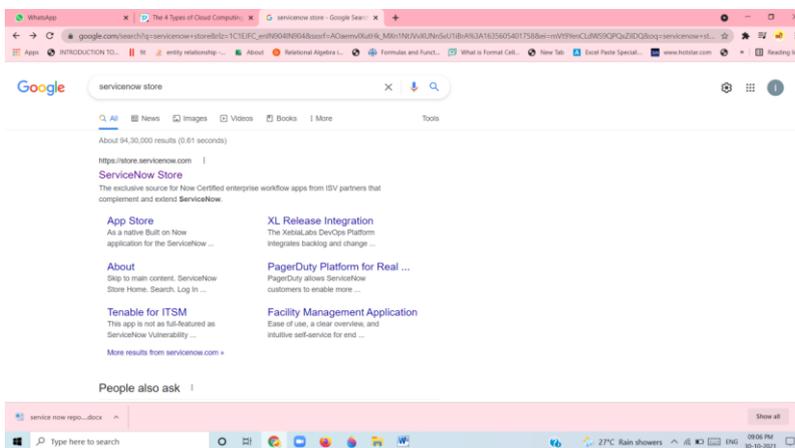

- Maintenance:

It uses ML, AI for the products and in case of technical issues they will contact the technical department.

Ex:-Amazon Dash:-it will help to raise a complaint by pressing the button to the Technical team.

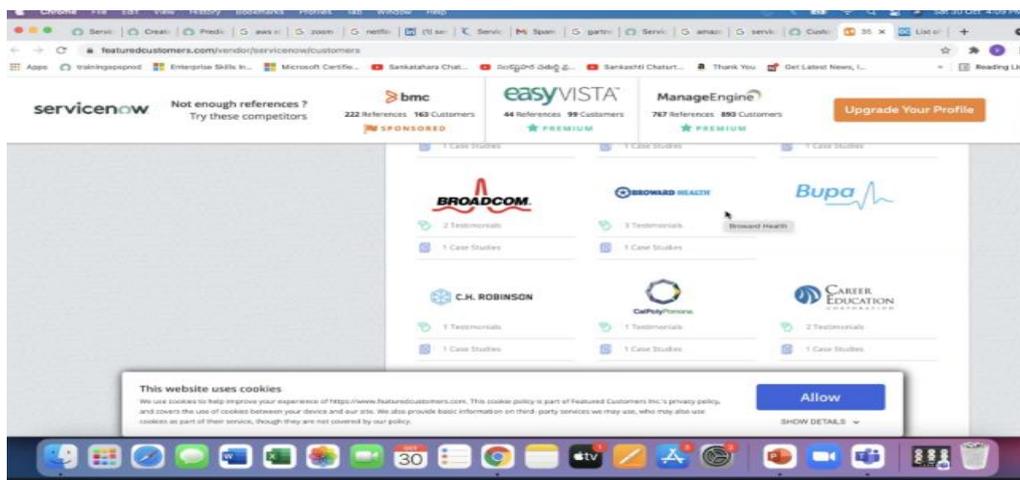

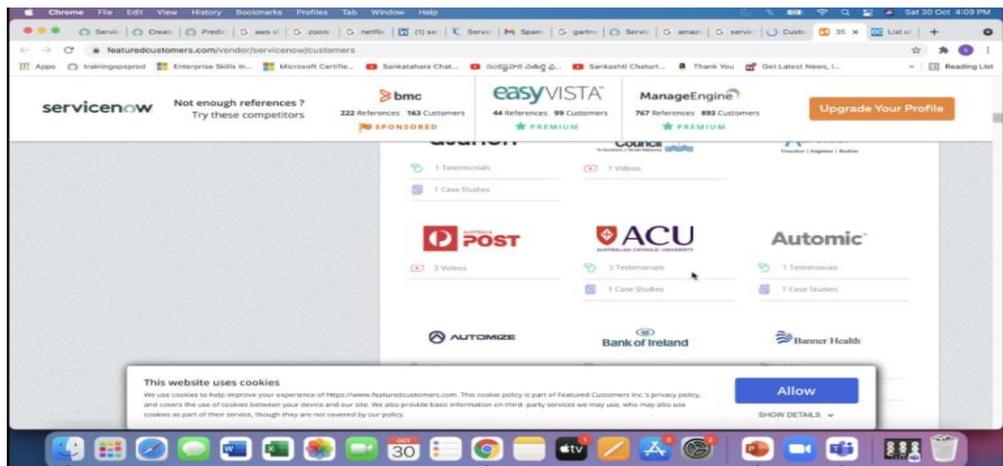

It also has its own store service Now store.

It is a one centralized application using which we can interact with any other application.

Ex:-McDonalds has been built on Service Now platform.

Companies using ServiceNow Globally

Requirement for Freshers:-

1.Tools& Technologies for Service Now

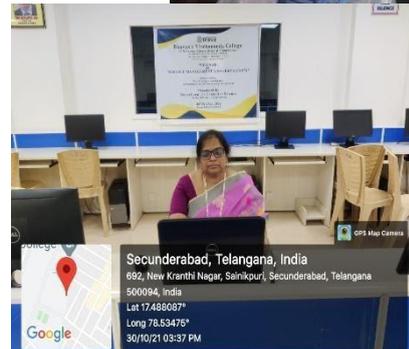

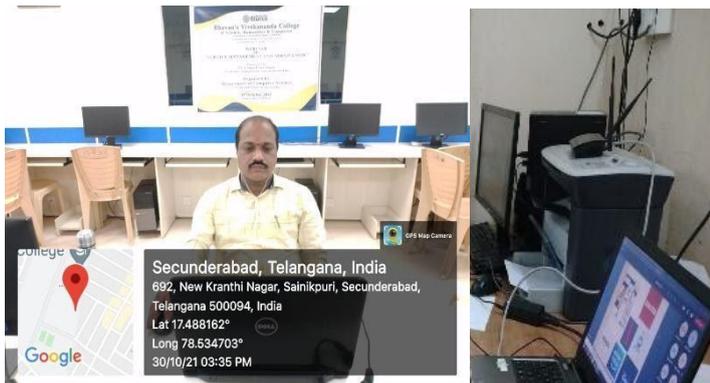

- 1.How to use the tools and product management Apps
- 2.Cloud Computing.
- 3.BackEnd –Web technologies,jscript,css,html ,Angular
- 4.DB
5. How to navigate & use the product worldwide.(Understanding the tools where and when to use the tool)

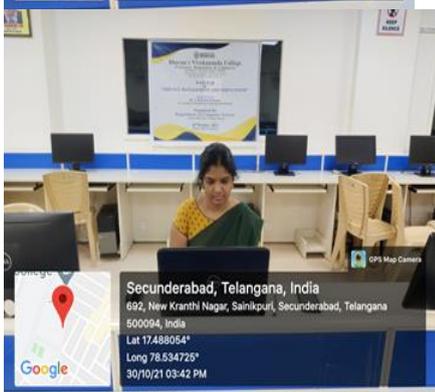

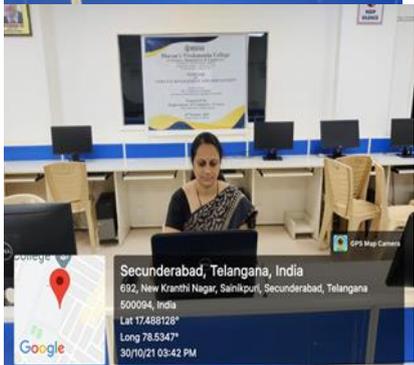

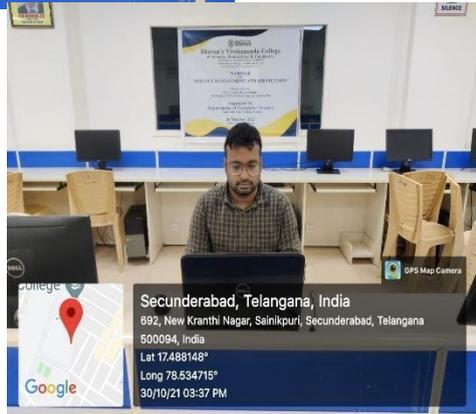

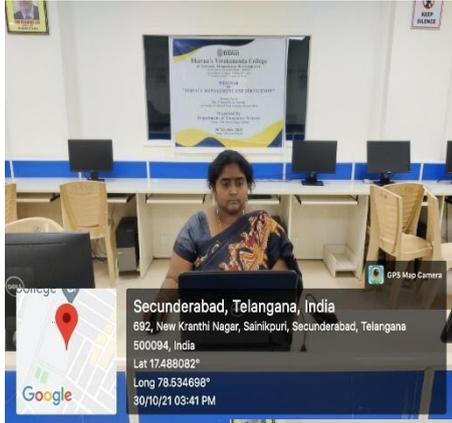

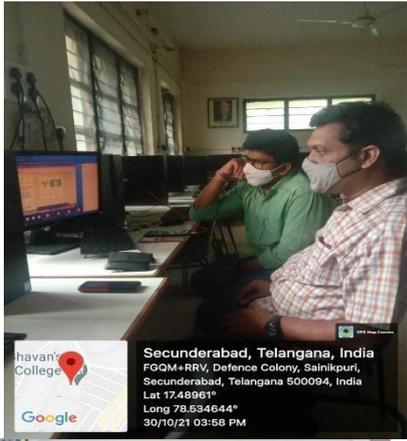

Min 3-6 months Knowledge will help for better job Opportunities

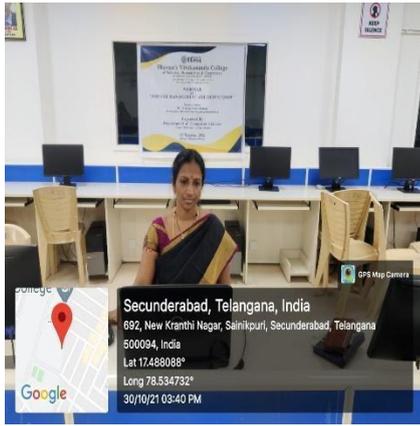

2.Domain Knowledge:-

Basic Domain Knowledge-ie their roles and responsibilities.

Vote of Thanks given by :-Mr.N.Bhaskar (Lecturer in Computer Science Department)

Webinar was very informative and received very positive feedback from students.

Report on 2 Day Webinar on
” Real –Time Applications on Digital Image Processing
and Network Security Applications
Using Deep Learning Tools with Matlab”
4th &5th October, 2021
(Under DBT-Star College Scheme)

The Department of Computer Science organized a **2 Day Webinar on ” Real –Time Applications on Digital Image Processing and Network Security Applications Using Deep Learning Tools with Matlab”** on 4th &5th October, 2021 online, through ZOOM platform

Day 1(4.10.2021)- Report

Mrs K Padma Priya, Lecturer, Department of Computer Science, welcomed Mrs K.V.B. Saraswathi, Head, Dept of Computer Science, guests and all the participants. She briefed on the purpose of the webinar, thanked DBT STAR College Scheme for permitting and organizing various Seminars/ FDP /Conferences and wished the gathering a happy learning experience.

Mrs K. V. B.Saraswathi, welcomed the attendees and briefed on the topics to be covered in the 2 day Webinar and shared that there were 206 people who registered for the webinar.

Mr N Bhaskar, Lecturer, Department of Computer Science introduced the speaker for the webinar **Mr. K. Kalyan Kumar, Senior project Engineer, DSP, Pantech Solutions Pvt. Ltd, Hyderabad.**

Describing various types of Images, types, formats of image, he gave a comprehensive explanation on Image Processing Techniques

Lecture Outline In This Session

- ▶ IMAGE
- ▶ TYPES OF IMAGES
- ▶ IMAGE FILE FORMATS
- ▶ LAB SESSION PROCESS

Way of image processing

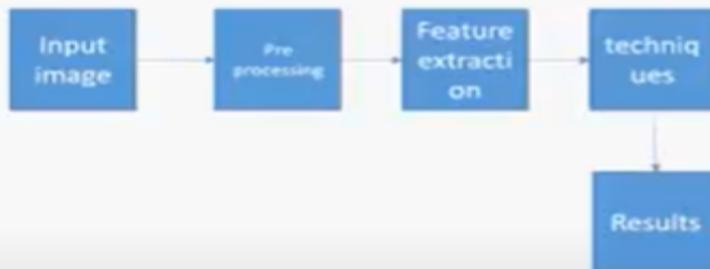

Image Processing Technologies

- Recognition
- Segmentation
- Enhancement
- Classification
- Image Retrieval
- Noise Removal
- Steganography
- Watermarking
- Fusion
- Edge Detection

Image Processing Application

- ▶ Computer Vision
- ▶ Object Recognition
- ▶ Face Recognition
- ▶ Number Plate Recognition
- ▶ Lane Departure Warning
- ▶ Automatic Parking
- ▶ Driver Monitoring System
- ▶ Forensic
- ▶ Documents retrieval
- ▶ Forward Collision Warning
- ▶ Traffic Sign Recognition
- ▶ Medical & Bio-Medical
- ▶ Transmission & Storage
- ▶ Secret Communications
- ▶ Copyright Protection
- ▶ Video Surveillance
- ▶ Film industry

The second session was on MatLab, taken by Mr. **K. Kalyan Kumar**. He comprehensively explained about Matlab and mentioned the tools, windows available in it.

Introduction

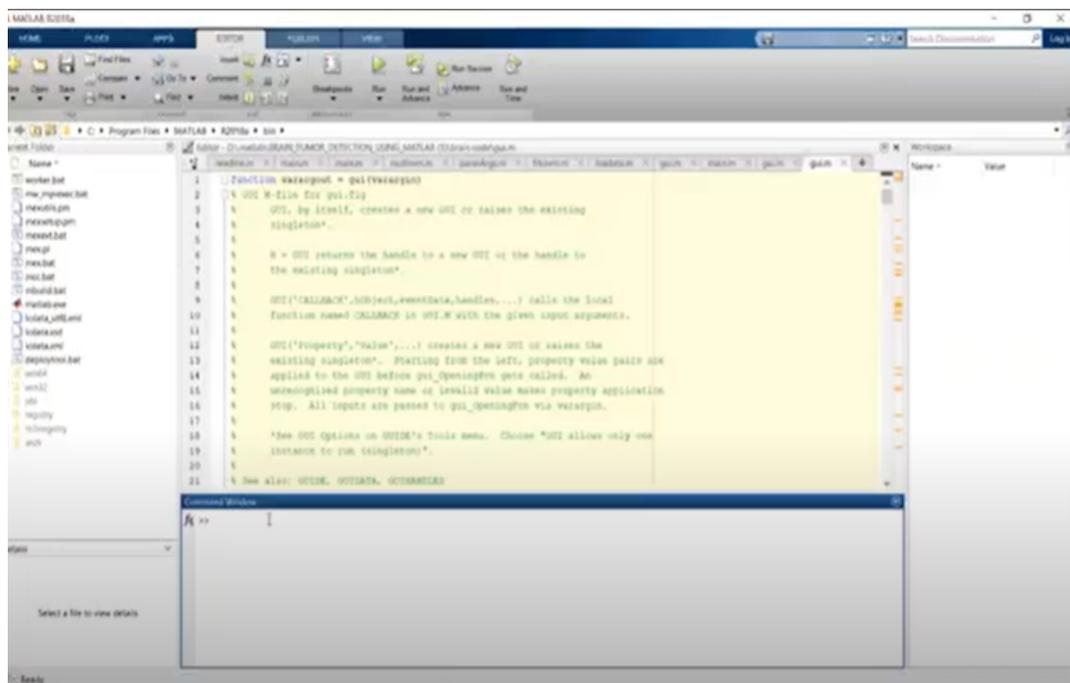

- ▶ Matlab → Matrix laboratory
- ▶ Developed by Cleve Moler in 1970s as a teaching tool
- ▶ High performance language for technical computing
- ▶ Typical uses are, numerical computation
- ▶ Data analysis ,plotting and visualization
- ▶ Graphical user interface building
- ▶ Algorithm development and modelling

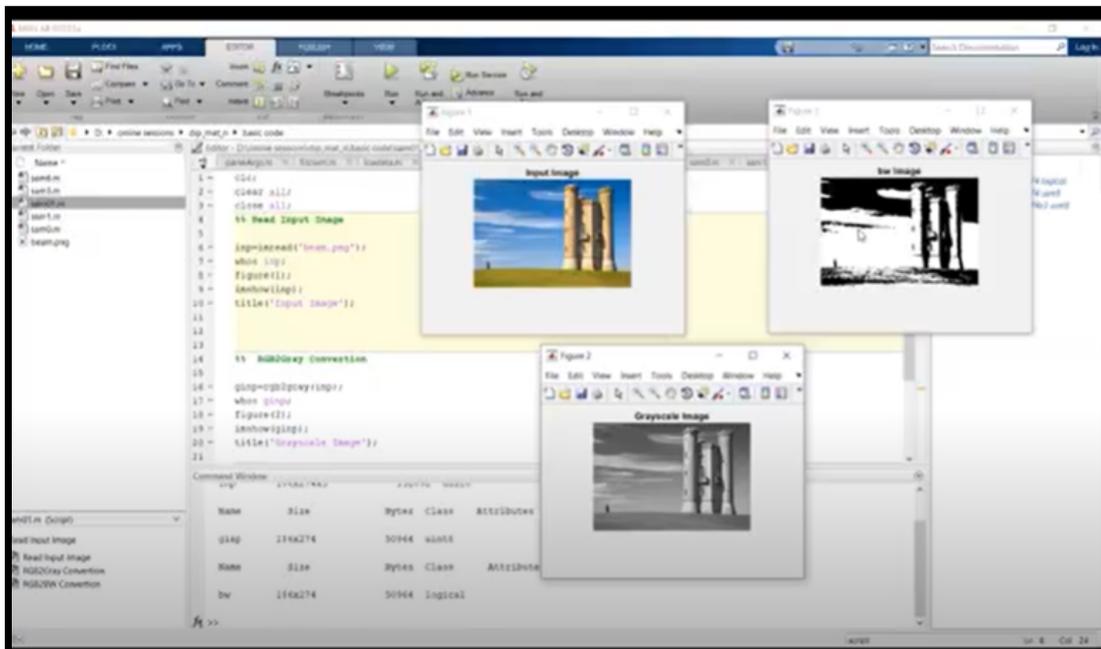

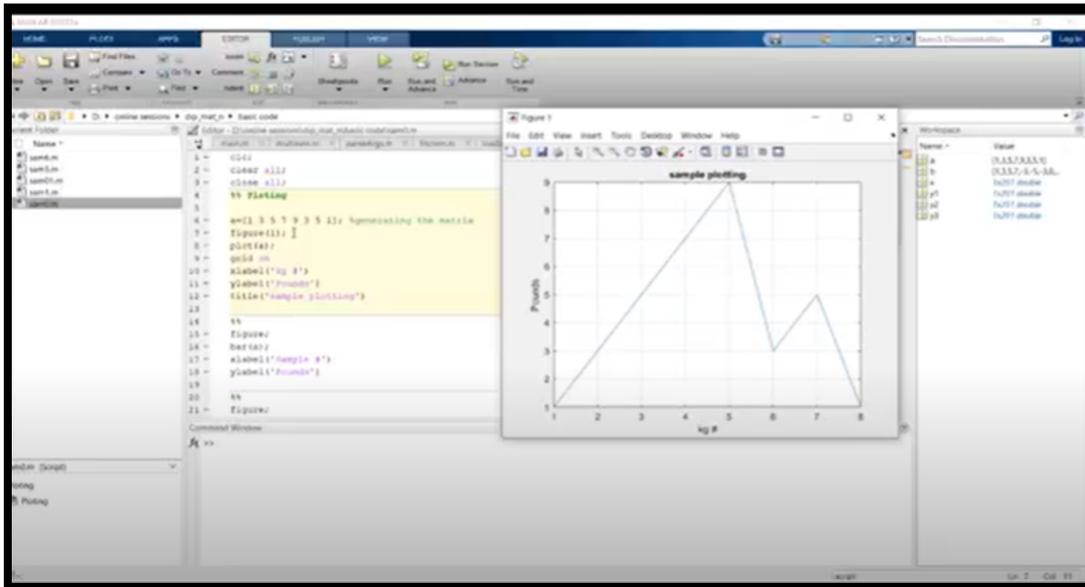

Some Toolboxes

- Image Processing
- Communication
- Neural Network
- Financial derivatives
- Power Electronics and power systems
- Control system
- Fuzzy logic

Matlab Window

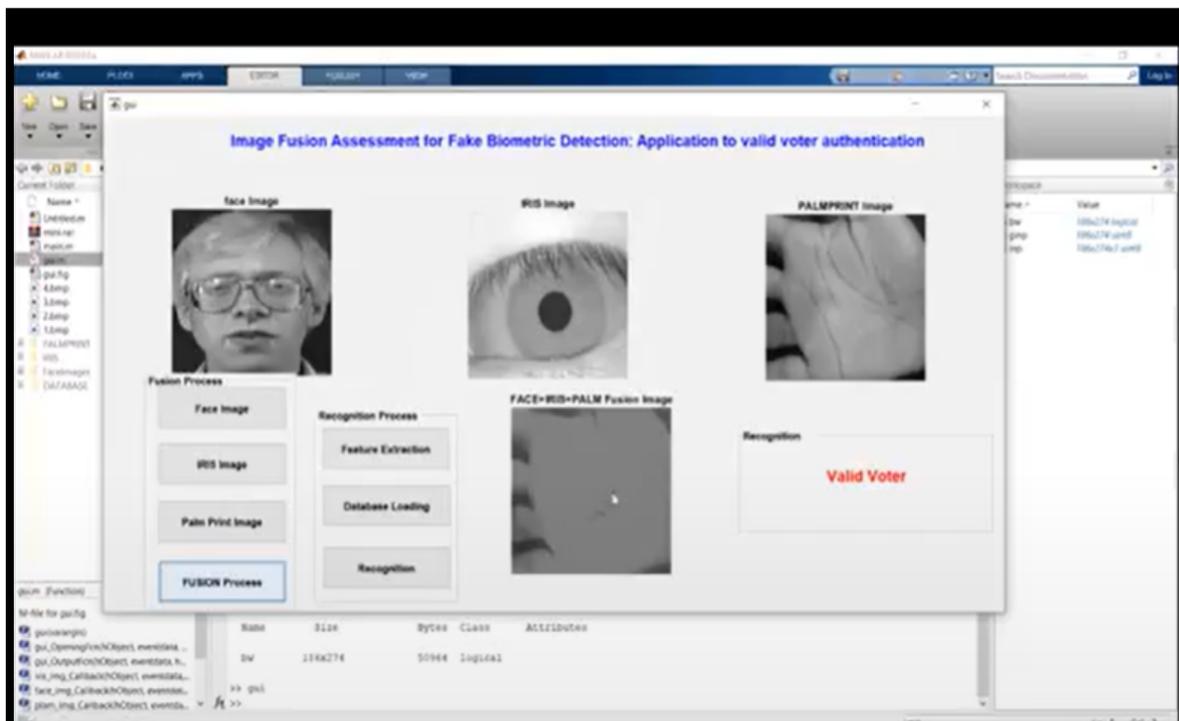

Application on

Image Quality Assessment for Fake Biometric Detection: Application to Iris, Fingerprint, and Face Recognition

He also briefed on a few Future extraction Image processing technologies such as recognition, segmentation, enhancement, classification, fusion and noise removal, Black and white conversion images.

Mrs S Jayalakshmi, Lecturer, Department of Computer Science summarised the day and thanked Mr. K. Kalyan Kumar, Mrs K.V.B. Saraswathi and all the participants of the webinar.

Day 2(5.10.2021)- Report

Day 2 began with Mrs. S Jayalakshmi, introducing the speaker Mr. K. Kalyan Kumar, Senior project Engineer, DSP, Pantech Solutions Pvt. Ltd, Hyderabad, He spoke on “**Steganography**”.

Pantech e Learning

Pantech e Learning
DIGITAL LEARNING CHALLENGES

Concept

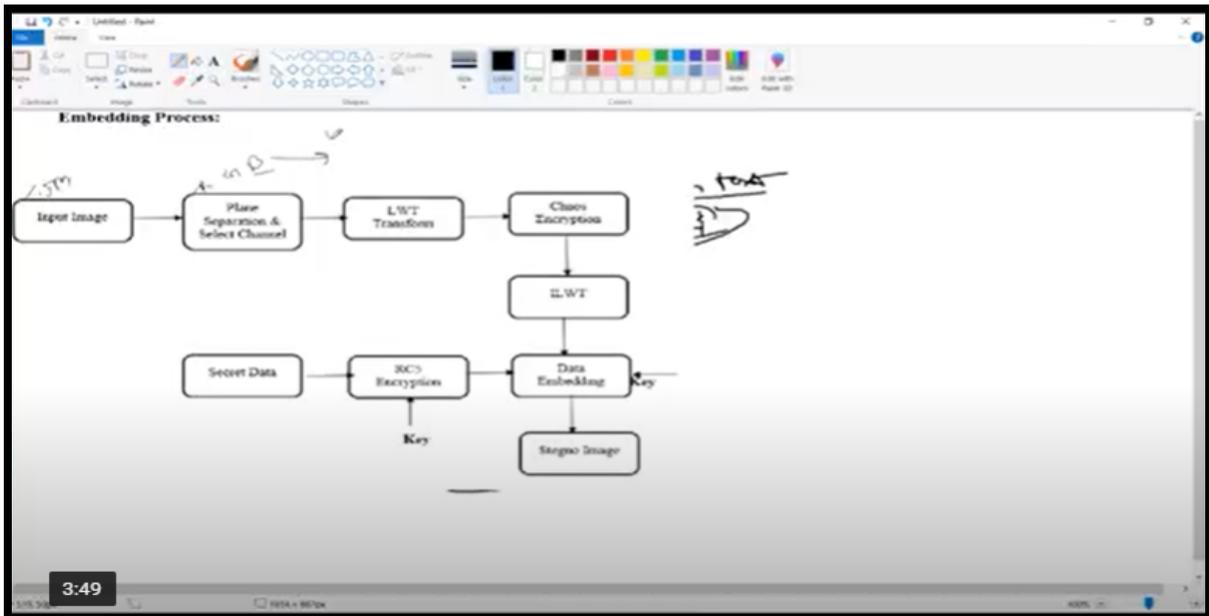

An enhancement of data protection system for secret communication using reserve room in encrypted images based on texture analysis with lifting wavelet is proposed here.

The wavelet will decompose the image into four frequency sub bands namely LL, LH, HL and HH. These coefficients are then utilized in the encoder for removing the redundancies.

Valedictory Session:

Mrs. K Padma Priya hosted the valedictory session. Mrs. K.V.B Saraswathi presented a report on 2 Day Webinar on ” **Real –Time Applications on Digital Image Processing and Network Security Applications Using Deep Learning Tools with Matlab**”

Mr. N Bhaskar, proposed vote of thanks for Day 2 of the Webinar and thanked Sri Air Cmdr. (Retd) JLN Sastry VSM, Vice Chairman, Bharatiya Vidya Bhavan Sainikpuri Kendra, Prof Y Ashok, Principal BVC, Mrs. B Niraimathi Vice Principal BVC and Mrs. K.V. B. Saraswathi Head Dept of Computer Science.

He expressed his gratitude to the eminent speaker , **Mr. K. Kalyan Kumar, Senior project Engineer, DSP, Pantech Solutions Pvt. Ltd, Hyderabad, for taking the sessions.**

Closing the session, he thanked Mr. Sridhar, Office Superintendent, BVC, for all the support.

Department of Computer Science

Report on 5 Day Faculty Development Programme

on Machine Learning and Deep Learning

From 27.09.21 to 1.10.2021

(Under DBT-Star College Scheme)

The Department of Computer Science organized a 5 day FDP on "Machine Learning and Deep Learning", under DBT- Star College Scheme from 27.09.21 to 1.10.2021, online through Microsoft Teams.

Day 1 - 27.09.2021- Report

Mrs K Padma Priya, Lecturer, Department of Computer Science, welcomed Prof Y Ashok, Principal BVC, Mrs B Niraimathi, Vice Principal, Mrs KVB Saraswathi Head Dept of Computer Science, all the guests and participants.

Mrs K. V. B. Saraswathi, Head Dept of Computer Science, gave the welcome address and briefed on the topics to be covered in the 5Day FDP.

Prof Y Ashok, addressed the gathering and appreciated the Department in organizing the FDP. He mentioned that Computer Science is a dynamic subject and modernizing of knowledge is essential. He also said that the faculty needs to update themselves in recent trends in the field of Computer Science. He thanked DBT STAR College Scheme for permitting and organizing various Seminars/ FDP /Conferences. He wished the gathering a happy learning experience.

Mrs K Padma Priya, introduced Dr K Venugopal, Resource person for Day 1. He took a session on “Overview of Machine Learning Paradigms”,

Describing various data arrangement and retrieval methods, he gave a comprehensive explanation on supervised and unsupervised learning with real time examples. Focusing on clustering algorithms, he elaborated on Decision trees and K- means clustering techniques and their implementation methods.

The session was concluded by Mrs S Jayalakshmi, Lecturer, Department of Computer Science. She extended thanks to the guests and participants for attending Day 1 FDP program.

The total number of Participants for the day were 69.

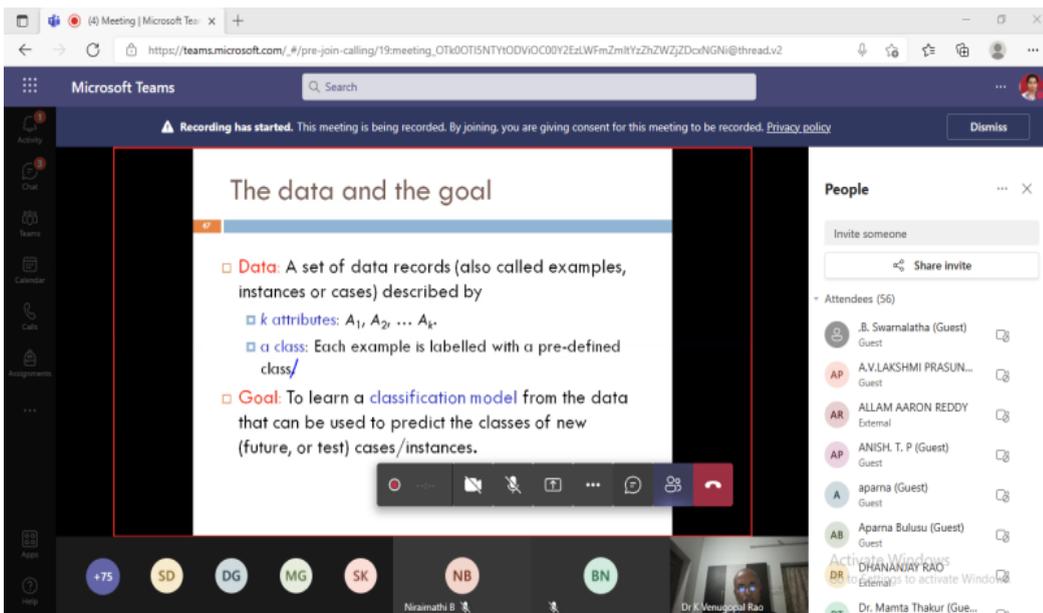

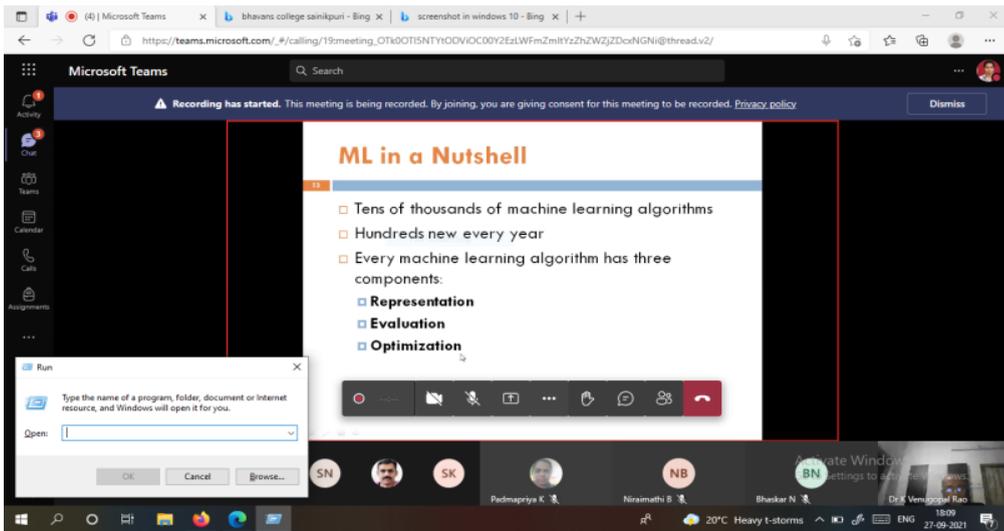

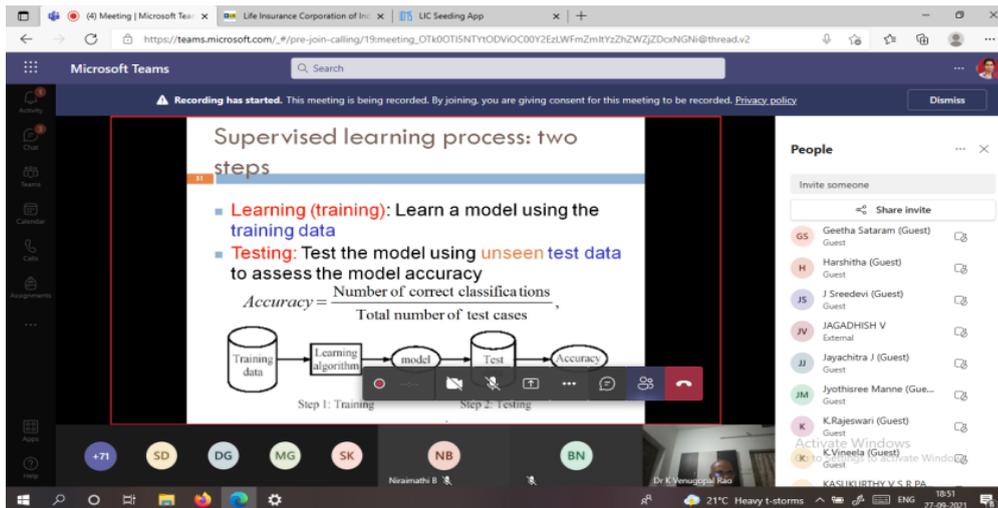

Welcome Address by
by Mrs K V B Saraswathi

Address by Prof Y Ashok , Principal
BVC

Head , Dept of Computer Science

Day 2 Report-28.09.2021

Day 2- Session -1-Report

Day 2 of the FDP had begun with Mrs. S Jayalakshmi introducing Dr. Sesham Anand, Professor of Computer Science and Engineering at Maturi Venkata Subba Rao (MVSR) Engineering College, the Speaker for the session -1. He spoke on “Learning using Multi-Layer Perception Architectures.

He elucidated on Introduction to AI, Components of AI, Neural networks-Biological NEURON – FUNCTIONING, the net input for neuron various Neural network architectures, activation function etc.

The screenshot shows a Microsoft Teams meeting window. The main content is a slide with the following text:

What is Learning?

- Machine Learning:
Study of algorithms that improve their performance P at some task T with experience E

A well-defined learning task: $\langle P, T, E \rangle$

The slide is displayed in a presentation mode within the Teams interface. The bottom of the screen shows the Windows taskbar with various application icons and system information like the date (28-09-2021) and time (17:39).

The screenshot shows a Microsoft Teams meeting window displaying a hierarchical diagram of Machine Learning. The diagram is structured as follows:

- Machine learning** (Root)
 - Supervised**
 - Regression
 - Linear
 - Polynomial
 - Decision Tree
 - Random forest
 - Classification**
 - KNN
 - Trees
 - Logistic Regression
 - Naive-Bayes
 - SVM
- Unsupervised**
 - Clustering
 - SVD
 - PCA
 - K-means
 - Association analysis
 - Apriori
 - FP-Growth
 - Hidden Markov Model
- Reinforcement**

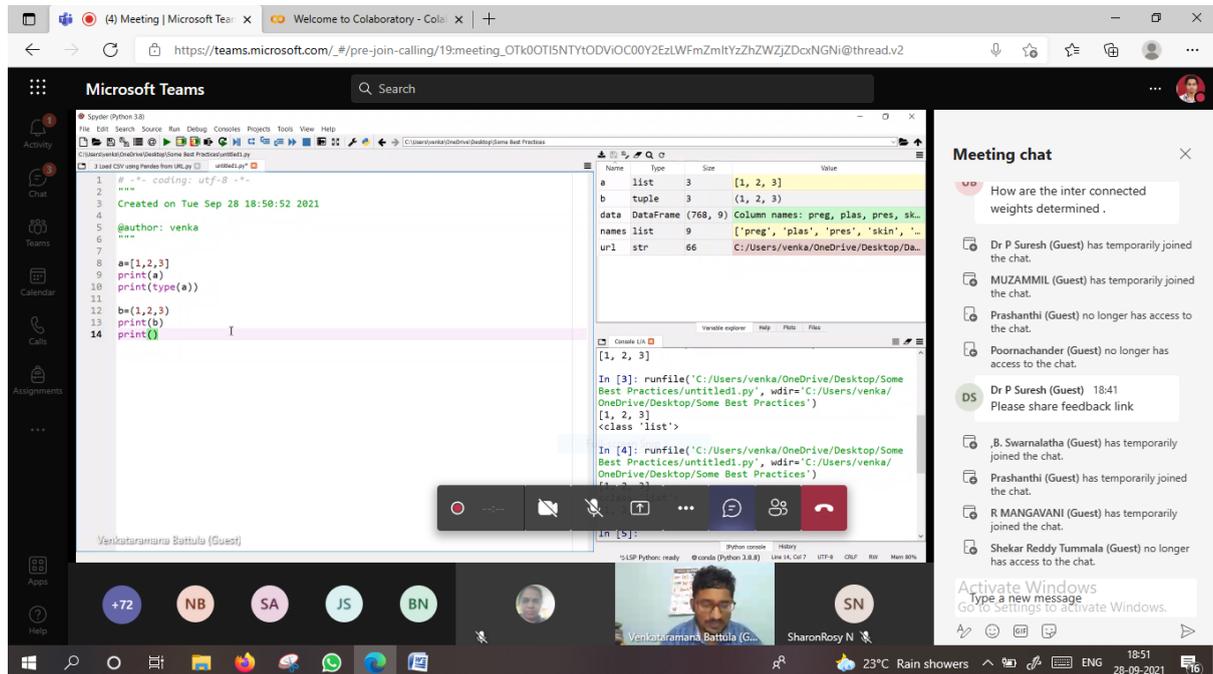

The diagram also includes labels for data types: 'Continuous' is associated with Clustering, and 'Categorical' is associated with Association analysis. The slide is presented in a Teams meeting window with the same interface elements as the first screenshot.

Day 2- Session-II Report

Mrs S Jayalakshmi, then introduced the resource person Mr. B Venkata Ramana, Assistant professor, CSE dept from MVSR Engineering College.

He took a session on Anaconda Introduction—Spyder, difference between list and tuple, Different methods to load datasets, and Preprocessing techniques-

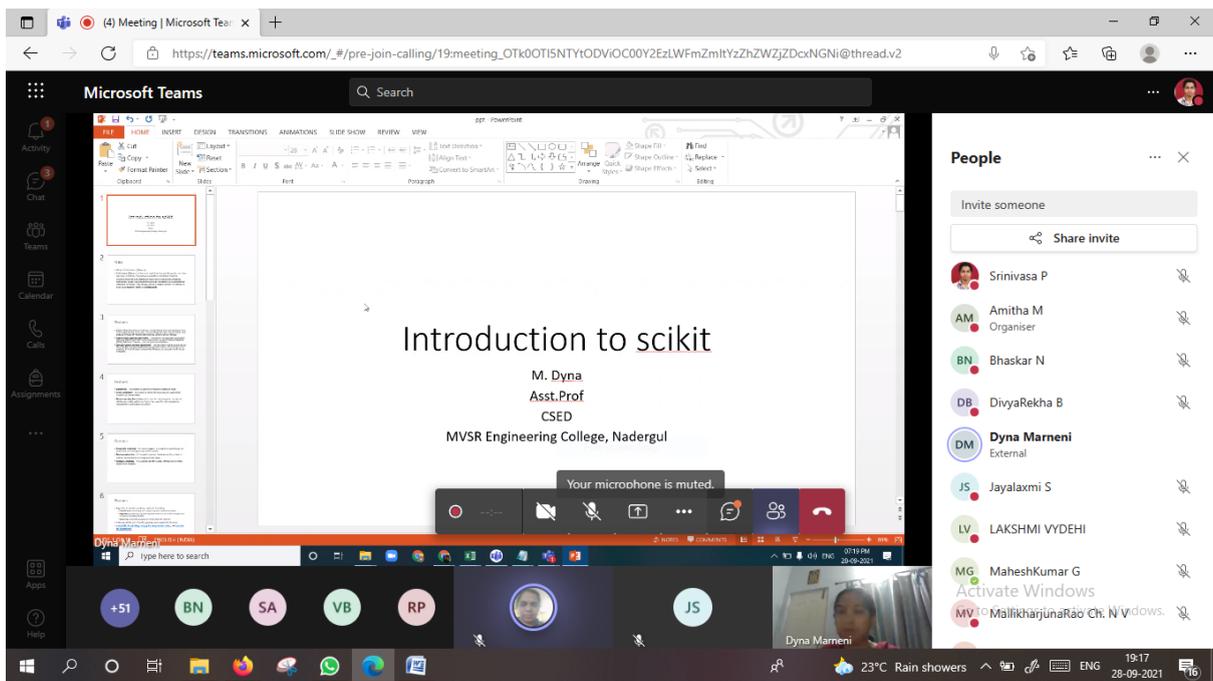

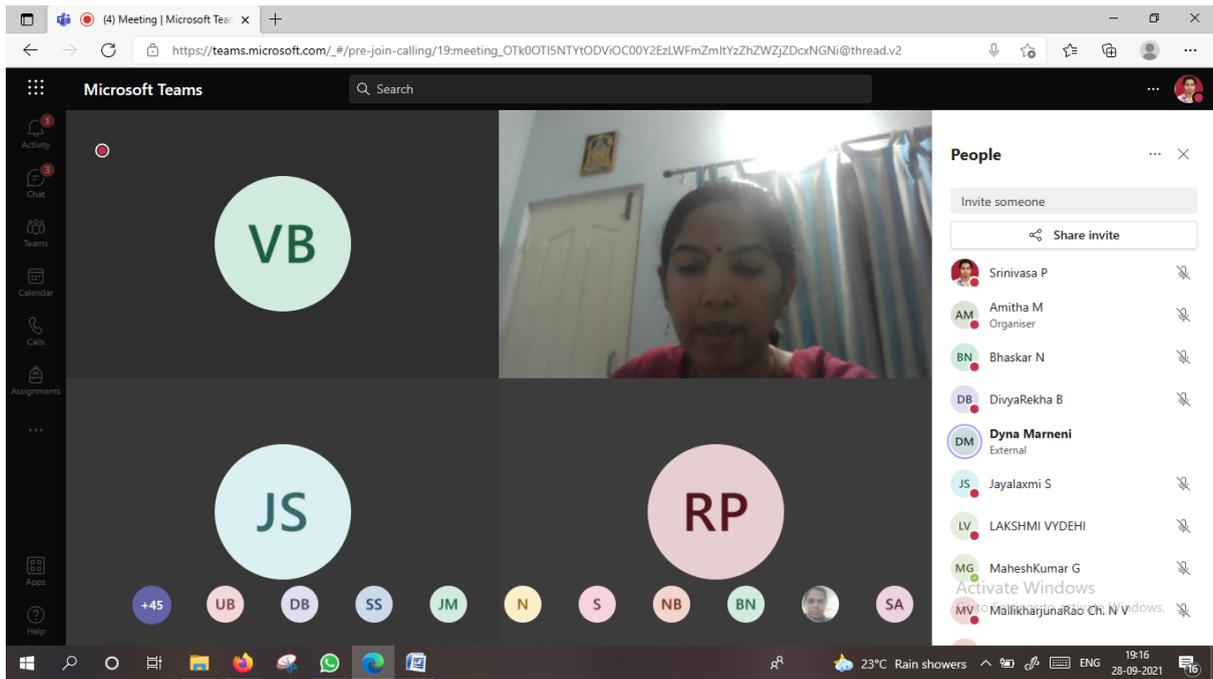

such as normalization(min-max normalization, standard scalar, z-score normalization).

Day - 2: Session III

Mrs S Jayalaxmi, Lecturer, later introduced Ms M Dyna Balaraj, Asst. Professor, Department of CSE from MVSR Engineering College, the resource person for the 3rd session. She took a session on "Introduction to Supervised Learning using Scikit-Learn". She elaborated on

- Classification and regression practical APPLICATIONS
- Introduction to Scikit
- How to measure the performance – absolute error, mean square error, root mean square error
- Basic steps need to be followed when applying any algorithm
- Performance metrics --Confusion matrix, accuracy score calculations—classification algorithm (decision tree)

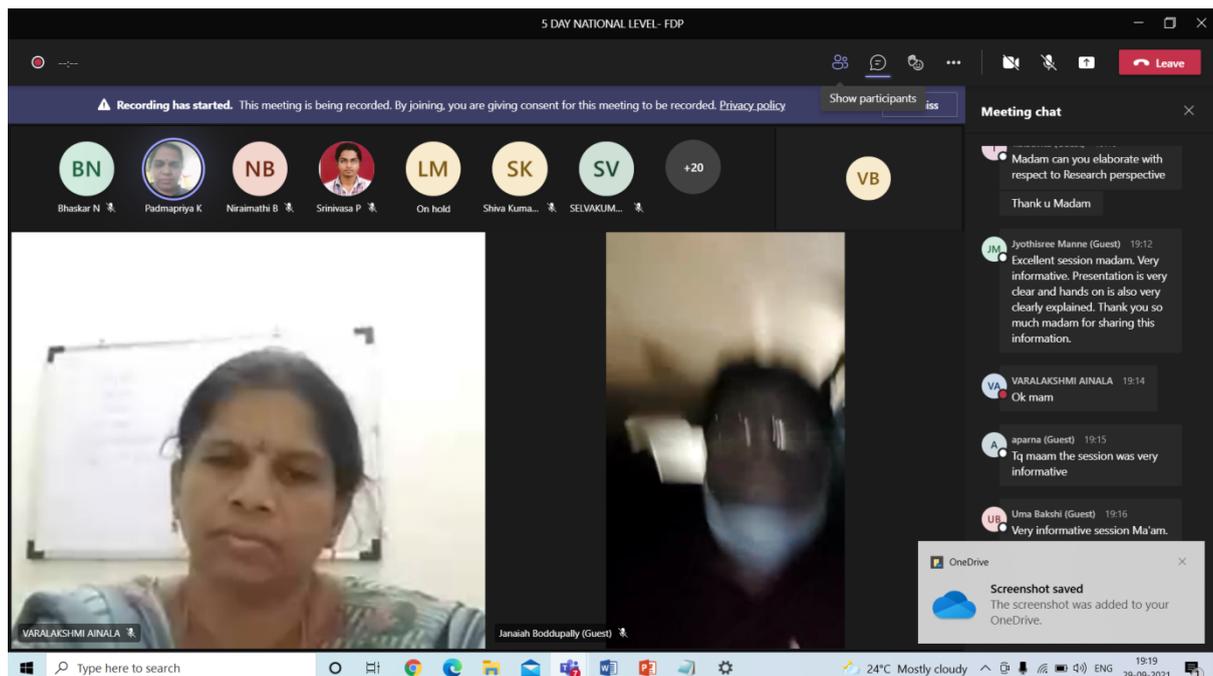

Mrs Padma Priya , wrapped the session by thanking the speakers. Total number of Participants for the day were 76.

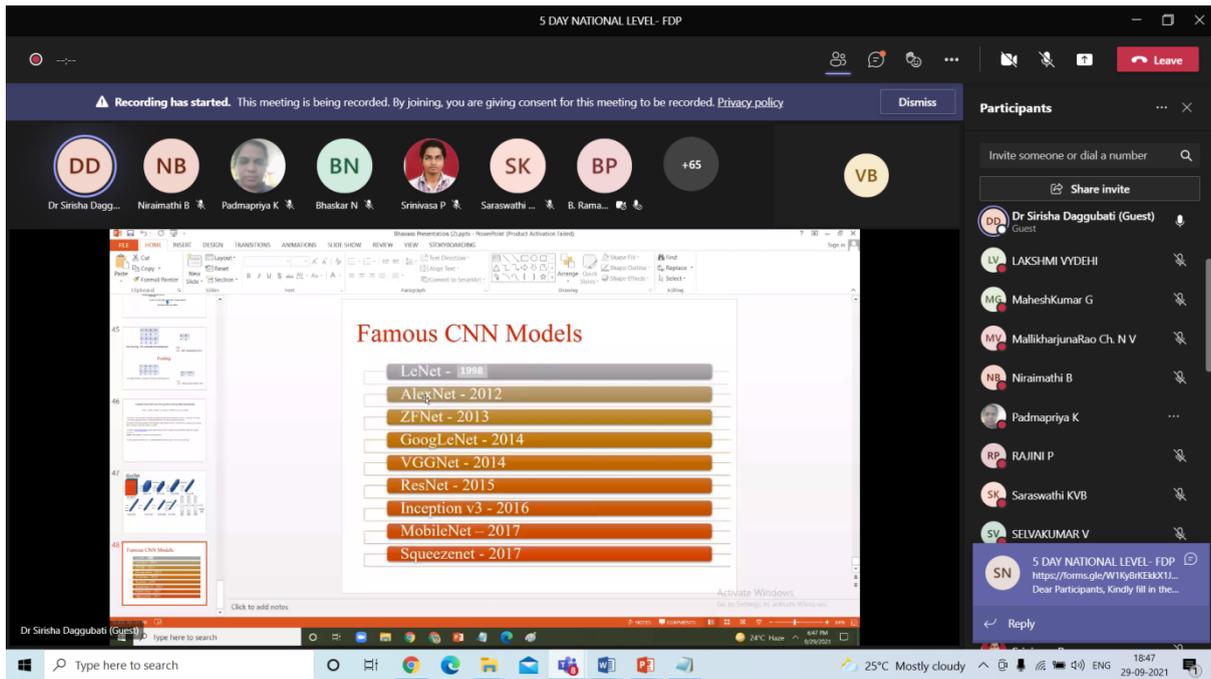

Day 3(29.09.2021)- Report

Mrs K Padma Priya, introduced Dr. Sirisha Daggubati Assistant Professor in the Department of Computer Science Engineering -MVSR Engineering College, resource person for the day. She took a session on **Feature Learning using Convolution Neural Networks (CNNs)” including**

- Traditional ANN--- Disadvantage(Flatten an image)
- Image—definition and types of images and pixel size of each type
- CNN– Definition (Input is an image – apply filters on input image—feature map(output)
- Types of filters
- Operations of CNN---- Stride, Padding, pooling(optional), sub sampling(optional)
- LeNet---- was first CNN, LeNet-5 CNN made up of 7 Layers
- Famous CNN Models– LeNet, AlexNet, ZFNet, GoogleNet.....

She also took a practical session on Print image, resizing image, rewriting an image, generate grayscale image(conversion), Generate Dimensions of an image, Generate Binary image and binary inverse image, Dilation image and Crop image using OPEN CV Module.

Mrs Padma Priya, ended the session by thanking the speakers and participants. Total number of Participants for the day were 81.

Day 4 –(30.10.2021)-Session 1-Report

Mrs K Padma Priya, introduced the resource person- Dr. B. Sandhya Assistant Professor in the Department of Computer Science Engineering -MVSR Engineering College. She took a session on “**Transfer Learning using Deep CNNs**”

She explained Data representation Methods, CNN architecture, Feature Conversions, various learning methods and Examples on CIFAR10 , and OXFORD datasets

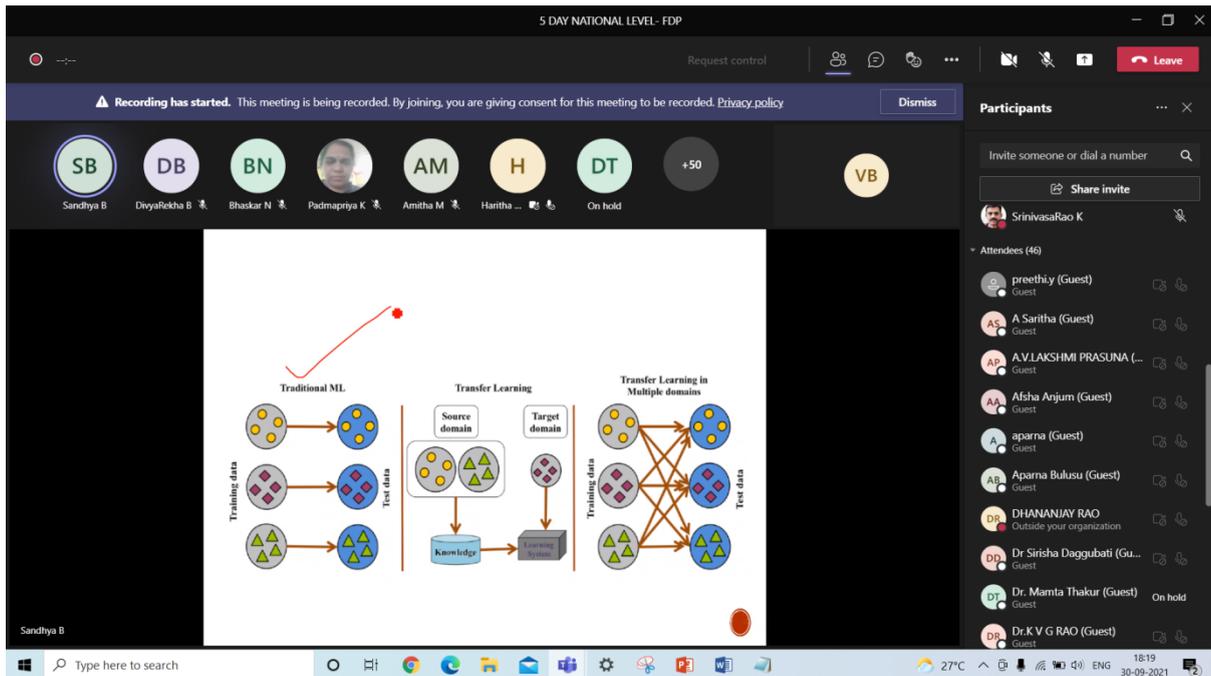

The screenshot displays a Zoom meeting window. At the top, it says "5 DAY NATIONAL LEVEL- FDP". Below that, a notification states "Recording has started. This meeting is being recorded. By joining, you are giving consent for this meeting to be recorded. Privacy policy". The meeting title is "Request control". The participants list on the right includes: SrinivasaRao K, preethi.y (Guest), A Saritha (Guest), A.V.LAKSHMI PRASUNA (...), Alisha Anjum (Guest), aparna (Guest), Aparna Bulusu (Guest), DHANANJAY RAO (Outside your organization), Dr. Sirisha Daggubati (Gu..., Dr. Mamta Thakur (Guest) On hold, and Dr.K.V.G RAO (Guest). The presentation slide in the center is titled "DO DEEP FEATURES GENERALIZE FROM EVERYDAY OBJECTS TO REMOTE SENSING AND AERIAL SCENES DOMAINS, ICPR 2015". It shows a grid of six images: (a) Dense Residential, (b) Medium Residential, (c) Harbor, (d) Freeway, (e) Railway, and (f) Airplane. To the right of the grid is a bar chart titled "Average accuracy of the descriptors for the UCMerced Land-use Dataset". The Windows taskbar at the bottom shows the search bar, taskbar icons, and system tray with the date 30-09-2021 and time 18:21.

Day 4 –(30.10.2021)-Session 2-Report

Mrs K Padma Priya, later introduced the resource person Mrs B. Kalpana Reddy, Assistant Professor in the Department of Computer Science Engineering -MVSR Engineering College. She took a session on **“Introduction to KEROS”** including

- List of compilation techniques available
- Create sequential model and set the parameters
- Various loss function to evaluate the performance of the model
- Procedure to compile the model
- Live execution of CNN model

Mrs. Padma Priya, concluded the session for the day by thanking the speakers and participants. The total number of participants for the day were 69.

Day -5(1.10.2021) Session -I Report

Mrs S Jayalakshmi, introduced Ms. Haritha Damarla Assistant Professor in the Department of Computer Science Engineering -MVSR Engineering College, speaker for the day

She took a ‘Hands on’ session on using Keras with Tensorflow backend on Google colab”,

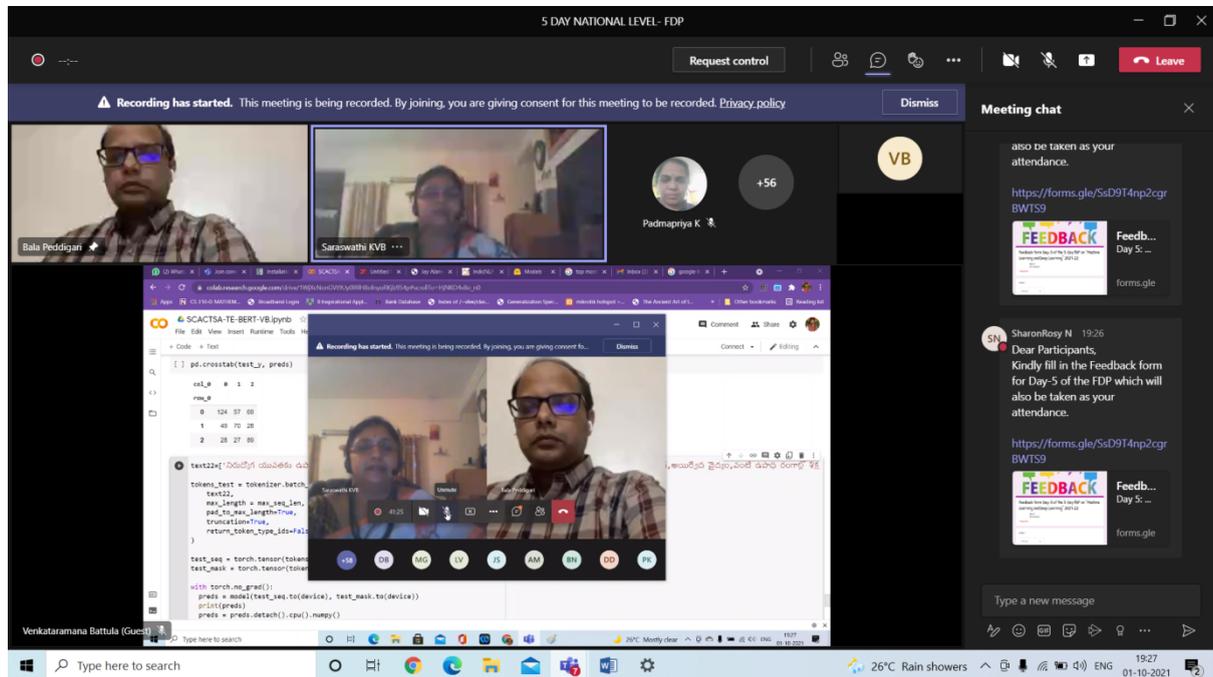

Day -5(1.10.2021) Session -II Report

Mrs S Jayalaxmi later introduced the resource person Mr. B Venkata Ramana, Assistant Professor, CSE dept, MVSR Engineering College. He took a ‘hands on’ session on IndicNLP. The number of participants for the day were 69.

Valedictory Session:

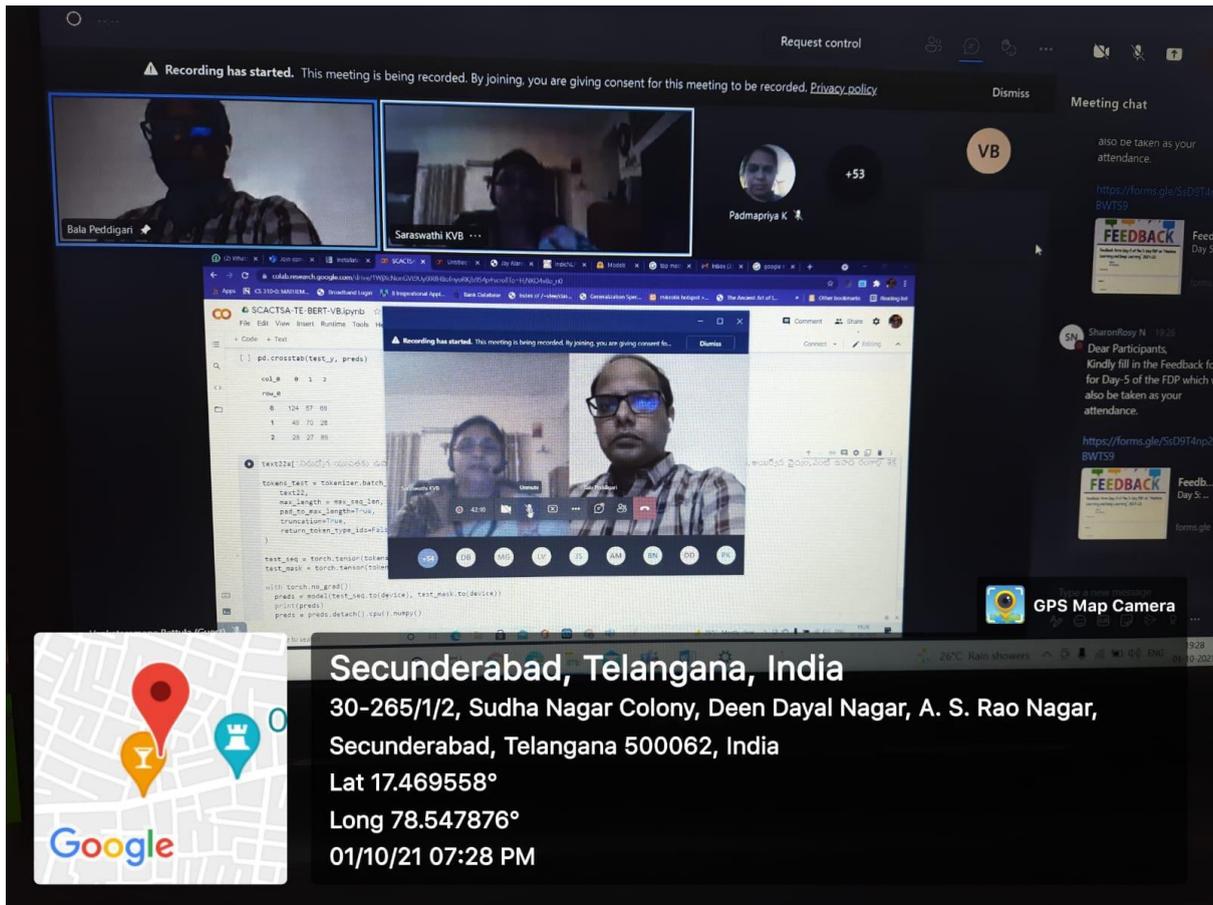

Mrs. K Padma Priya hosted the valedictory session. Mr Bala Prasad P, Chairman –CSI Hyderabad Chapter was guest for the valedictory session.

Mrs. K.V.B Saraswathi Head, Dept. Of Computer Science, presented the report on 5 Day Faculty Development Programme on “Machine learning and Deep learning.”

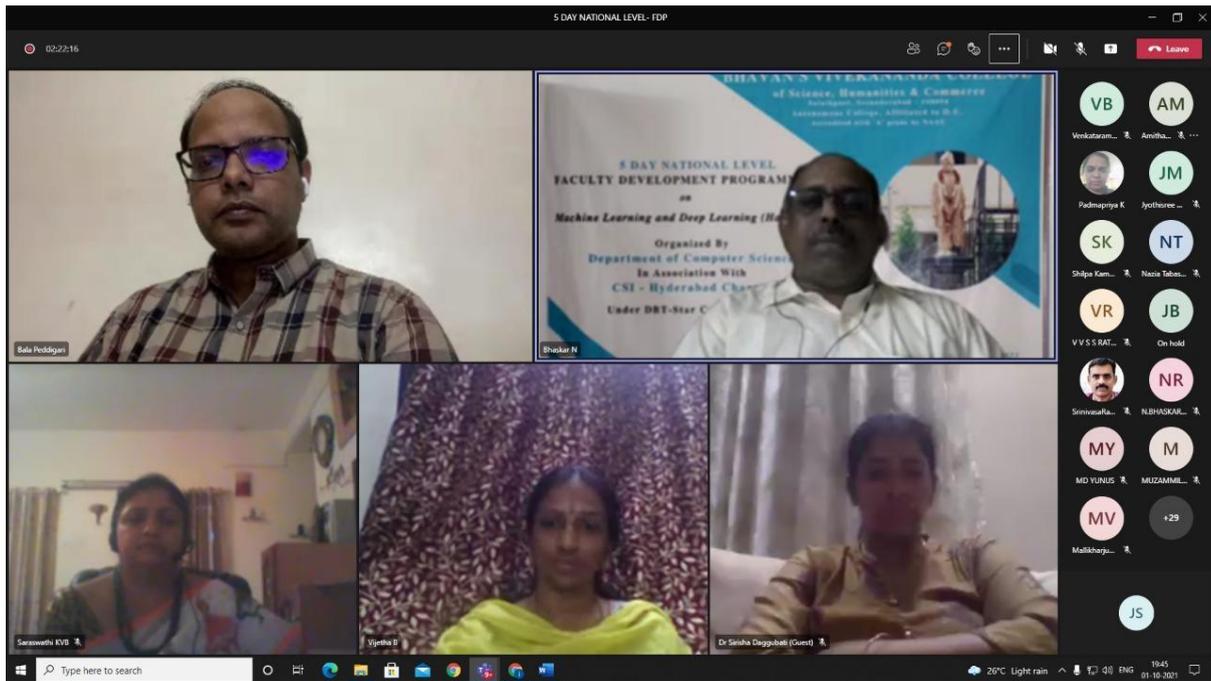

Mrs. K Padma Priya, then introduced V Mr. Bala Prasad P, Chairman –CSI Hyderabad Chapter, who was the chief guest for the valedictory session.

He appreciated the department for organizing an FDP program on “Machine learning and Deep learning”. He stressed on the importance of these topics in the present era of Computers.

Mr. N Bhaskar, Lecturer, Dept of Computer Science BVC proposed vote of thanks for the 5 Day Faculty Development Programme on machine learning and Deep learning.

He thanked Sri Air Cmdr. (Retd) JLN Sastry VSM, Vice Chairman, Bharatiya Vidya Bhavan Sainikpuri Kendra, Prof Y Ashok, Principal BVC, Mrs. B Niraimathi Vice Principal BVC and Mrs. KVB Saraswathi Head Dept of Computer Science.

He expressed his gratitude to all the eminent speakers of the 5 Day Faculty Development Programme.

He also thanked all the Management of various colleges for permitting their faculty to attend in the 5 Day FDP.

Lastly, he thanked Mr. Sridhar, Office Superintendent, BVC, for making all the necessary arrangements.

Organised by
Department of Computer Science

A 5-day Induction programme was conducted by the Department of Computer Science for the I year students of BCA programme, from September 16, 2021 to September 21, 2021. As part of this Induction programme, the first 2 days were a general introduction to students regarding the college, the various cells and different activities taken up as part of these cells within the college.

An exclusive induction programme was organised for the I year students of BCA students on Day-3, i.e 18th September, 2021 at 11:00 a.m. through Microsoft Teams Platform (online mode). The programme began with Bhavan's Prayer.

The Chief Guest for the programme was Prof. Y. Ashok, Principal, Bhavan's Vivekananda College, Sainikpuri. Addressing the students on this occasion, he explained the importance of computer applications in the real world scenarios especially during the COVID-19 pandemic. He alleged that the computer subjects are very dynamic i.e., the new softwares, hardware, programming languages evolve daily and few of them are outdated also. So, he asked the students to upgrade their knowledge and skills accordingly to compete with the real world. He wished the best for students.

Mrs. KVB Saraswathi Devi, Head, Department of Computer Science addressed the students explaining about the college Ranking such as NAAC and NIRF, the industry expectations from the undergraduate students, improvising and upgrading of skills, placement opportunities and wished the students a good luck.

Mr. G Mahesh Kumar, Coordinator, BCA Programme, welcomed the students for joining this programme. He briefed about the departmental activities such as Guest Lectures, Outreach Programmes, Charles Babbage Day Celebrations, Gyan Tarangini Vyakhyaana Mala, National Science Day, National Seminar, International Conference, Value-Added Courses, Workshops, Webinars and Faculty Development Programmes. He highlighted BCA Programme Outcomes and Programme Specific Outcomes. He briefed and motivated the students about the top 10 Osmania University Ranks secured by their seniors earlier. He informed about the staff of the computer science department and wished the students the best.

A Live interview was organized by the BCA III year students with the alumni students Mr. Bharat Jain, Anchor, who completed his BCA from the college in the year 2012 and Mr. S Tarun Raj, Senior Cyber Security Analyst, Stefanini India Pvt. Ltd., in the year 2015. The Host for the event was Mr P Siddharth, from BCA IIIyr. Both alumni shared their college as well as work experiences and motivated the BCA I year students to improve their skills on par with the industry expectations.

BCA I Semester faculty for the academic year 2021-22, Mr. K Srinivasa Rao, Lecturer, Dept. of Computer Science, Mrs. K Padma Priya, Lecturer, Dept. of Computer Science, Mrs. Lakshmi Vydehi, Lecturer, Dept. of Computer Science, Mrs. Krishnaveni, Lecturer, Dept. of Mathematics & Statistics, Mrs. S Usha Rani, Lecturer, Dept. of Languages, introduced themselves on this occasion.

Mrs. S. Jayalaxmi, FusionTech Club Incharge, gave an introduction note about FusionTech Club inception and activities and wished all the best for students. Ms. Rhesa, student of BCA III year has presented Fusiontech Club activities from the inception and motivated the BCA I year students to be a part of it and to carry the legacy of the club for further years.

The image shows two screenshots of a Zoom meeting recording. The top screenshot displays a presentation slide for Principal Prof. Y. Ashok. The slide includes a video thumbnail of the principal and a list of his academic and professional achievements. The bottom screenshot shows a presentation slide for Mrs. KVB Saraswathi, Head of the Department of Computer Science, with a video thumbnail of her speaking at a podium and a list of her academic positions.

Principal Prof. Y. Ashok

Prof. Y. Ashok, is one of the founder staff members of Bhavan's Vivekananda College. He obtained his master's degree in Commerce from Andhra University in 1983. He was awarded Ph. D by Osmania University in Business Management.

Principal Prof. Y Ashok is a member of the following Government / University Bodies :

- +Member, Academic Senate of Osmania University,
- +Member, Council of Affiliated Colleges, Osmania University,
- +Member, Faculty of Commerce , Osmania University (2018-20),
- +Former Member Board of Studies, Department of Commerce, Osmania University (2013-15)
- +Principal Prof. Y Ashok, has been awarded the IPA BEST COMMERCE FACULTY AWARD at IPA SANMAN on 18th December, 2014.
- +Former Member, TS-ICET Committee in 2015.

 Organized by
Department of Computer Science

Day 4 induction program for the I year under Creative Art and culture category was conducted on 20th September 2021.

Online Induction Programme for the BCA and BSc(HDS) 1st year students was organised by the Fusion Tech club under the supervision of Event Incharge Ms. Jayalaxmi lecturer in Department of Computer Science. A total of 90 students participated in the programme on Microsoft Teams platform.

Event was divided into 3 modules with different activities as :

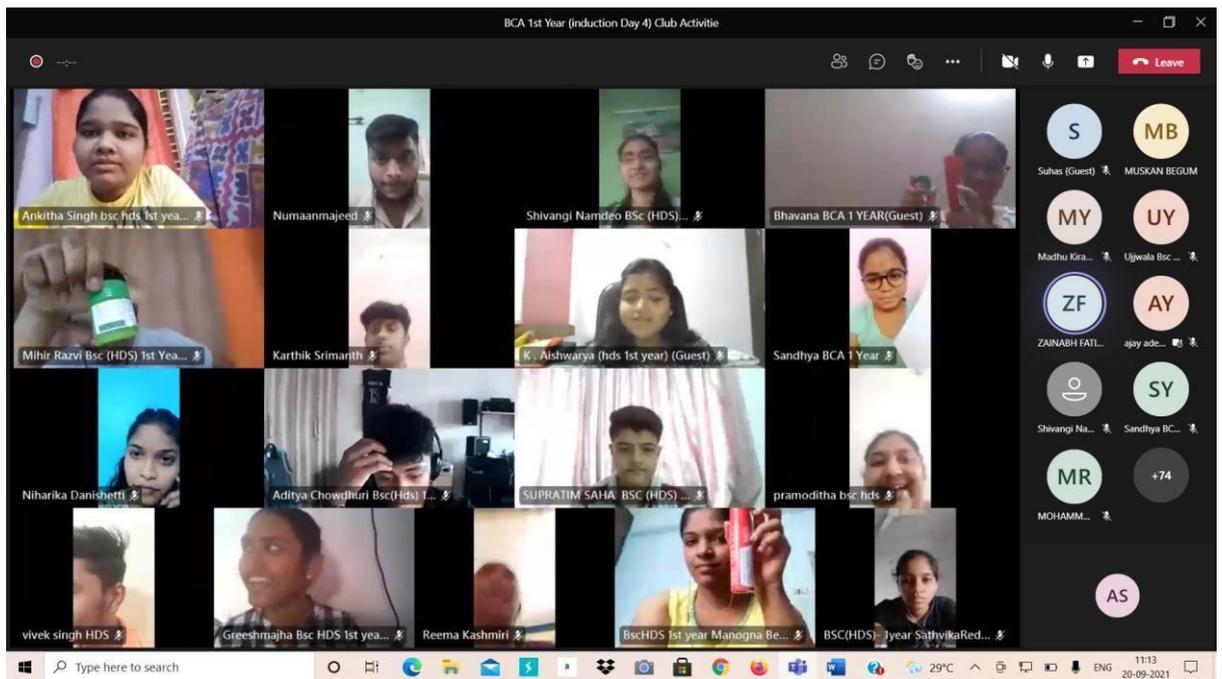

1. Filmy
Dunia
2. Scavenger hunt
3. Grid IT

- The first activity Filmy Dunia was an activity where students had to guess the song or movie by seeing the picture/emoji presented.

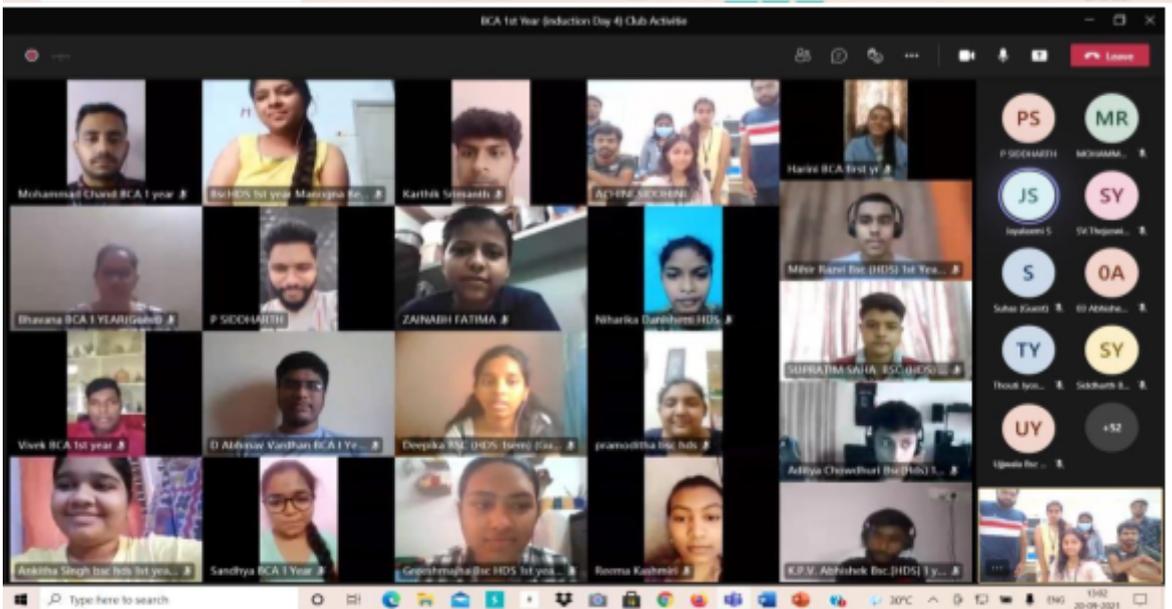

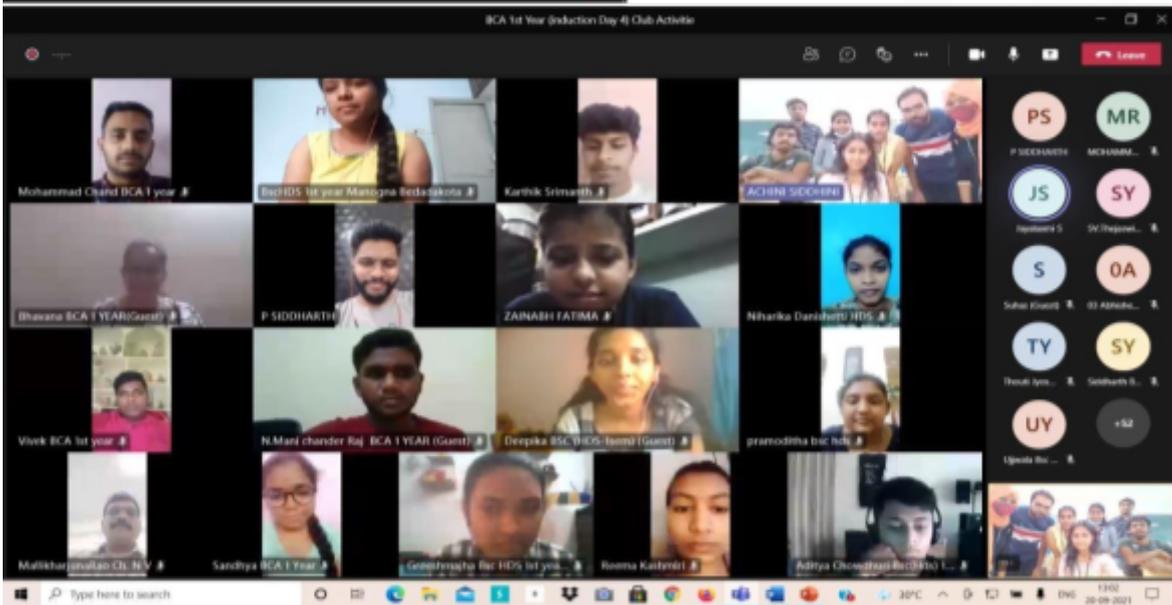

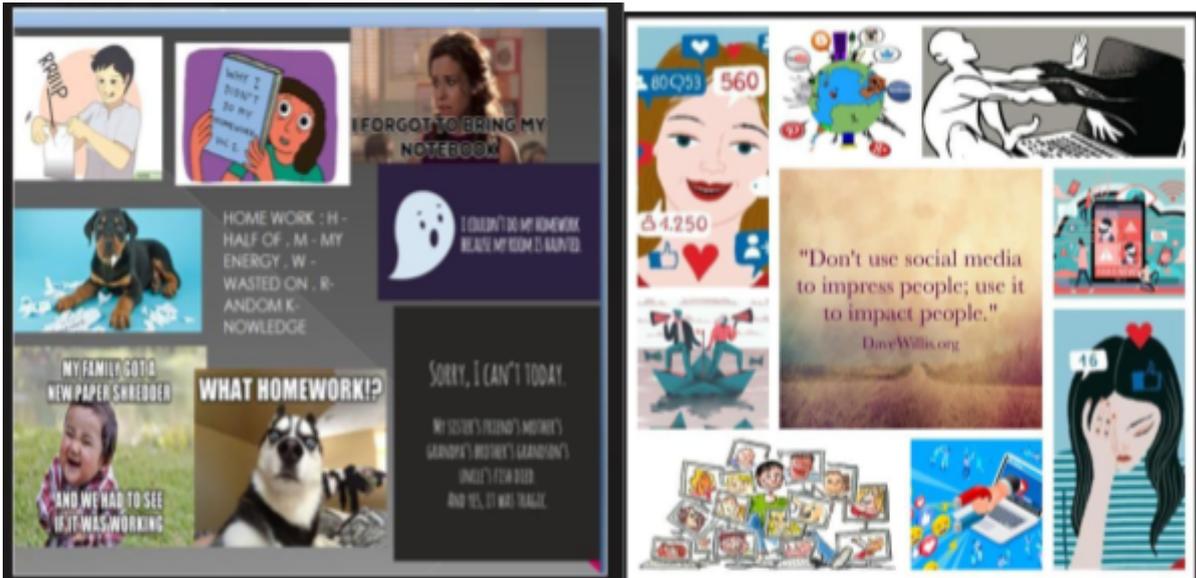

- The second activity was Scavenger Hunt, in this activity students were asked to switch on their video and they were asked to get few items asked by host and show with in a time limit and whoever got the item first were the appreciated.

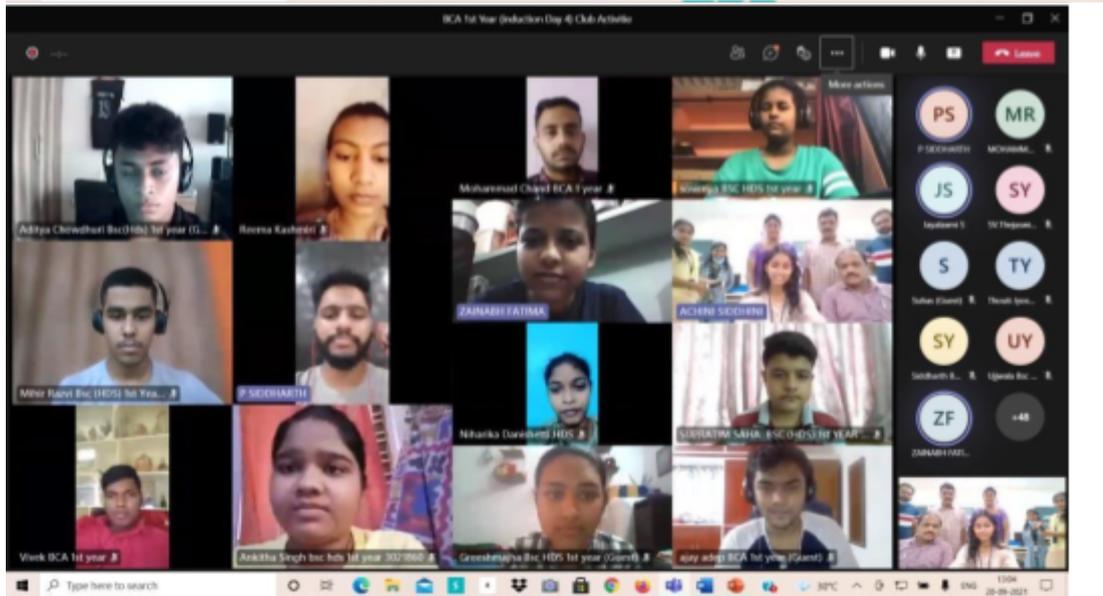

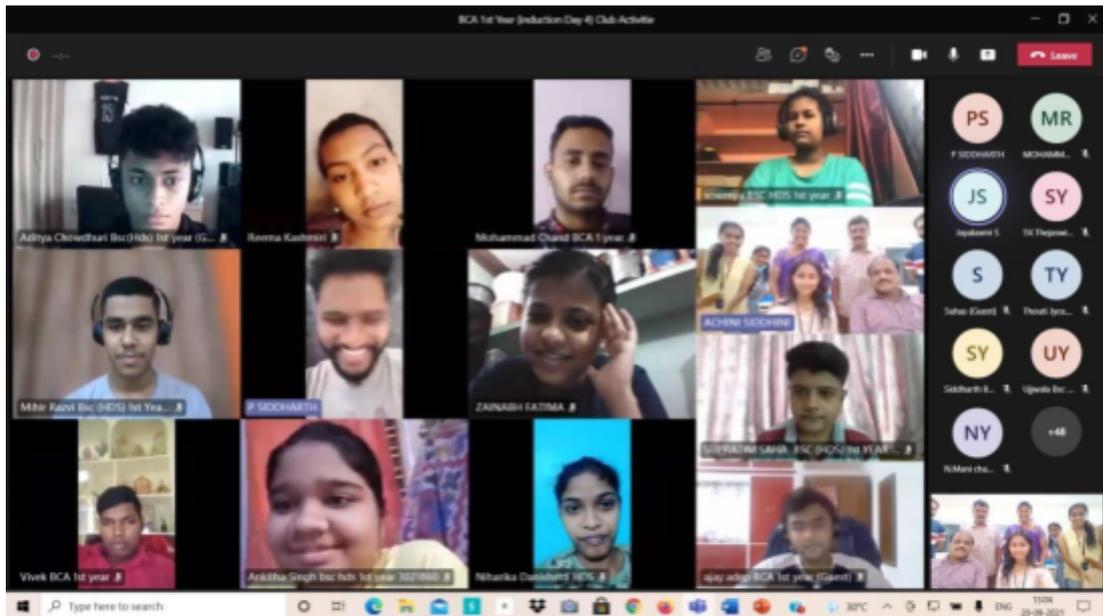

- The last activity was Grid-IT, in this activity they were given few topics from which the students had to select one topic and make a collage/poster relating the topic. Students were divided into rooms, there were 5 rooms. Each room had a fusion tech head for guiding and there were 5 posters in total.
- The winners were declared by polling.

- The event ended with taking the student feedback and reviews given by the students

**Outcome Based Education & Literary activities
conducted during
BCA I year 5- day Induction programme 2021-22:**

As part of the 5-Day Induction programme for the students of I year, a session on Outcome Based Education and Literary activities were scheduled on Day-5 of the Induction programme, i.e., on September 21, 2021.

Induction programme - DAY 5

Outcome Based Education

Time: 10:00 a.m. – 11:30 a.m.

Mr. G Mahesh Kumar, Coordinator, BCA Programme, explained about the BCA Programme Outcomes and BCA Programme Specific Outcomes.

Mr.K Srinivasa Rao, Lecturer, Department of Computer Science, explained the Course Objectives and Outcomes of Digital Principles. Mrs. K Padma Priya, Lecturer, Department of Computer Science, explained the Course Objectives and Outcomes of Programming in 'C'. Mrs. Lakshmi Vydehi, Lecturer, Department of Computer Science, explained the Course Objectives and Outcomes of Introduction to Web Technology. Mrs. Krishnaveni, Lecturer, Department of Computer Science, explained the Course Objectives and Outcomes of Mathematical Foundations of Computer Science. Mrs. S Usha Rani, Lecturer in English, Department of Languages, explained Course Objectives and Outcomes of Effective Communication.

The screenshot displays a meeting recording window titled "BCA | YEAR INDUCTION PROGRAMME - DAY 5-20210921_100623-Meeting Recording". The main content is a PDF document titled "BCA" with the following "Program Outcomes":

- PO1 Knowledge:** Acquire knowledge in computer application theory, algorithm principles, mathematical foundations and statistical analysis in the design and modelling of computer based systems.
- PO2 Problem Solving:** Analyze and apply latest technologies to solve problems in the areas of computer applications.
- PO3 Skills:** Apply programming, technical and professional skills to become a software entrepreneur.
- PO4 Adaptability:** Adapt to the fast changing world of information technology needs.
- PO5 Communication:** Communicate effectively on problems, issues and solutions with community and with society at large, such as being able to comprehend and write effective reports and design documentation, make clear instructions.
- PO6 Ethics & Environment:** Apply ethical principles and commit to

The document is viewed in a browser window with a right-hand sidebar for PDF conversion options. The sidebar includes a search bar, "Export PDF" button, "Adobe Export PDF" section, "Select PDF File" section, "Convert to" dropdown menu (set to "Microsoft Word (*.docx)"), "Document Language" dropdown menu (set to "English (U.S.)"), and a "Convert" button. The bottom of the screen shows a Windows taskbar with various application icons and a system tray with the date "21/09/2021" and time "21:51".

PROGRAM NAME: BCA (w.e.f 2020-21)
COURSE NAME: PROGRAMMING IN C

PAPER CODE: BCA143
YEAR/SEMESTER: I/I

PPW: 4
NO. OF CREDITS: 4

COURSE OBJECTIVE: To enable students with the concepts of C programming to develop simple applications.

UNIT-WISE COURSE OBJECTIVES:

- COB1: To introduce C Language, Data Types, and Variables & Operators.
- COB2: To illustrate different Conditional Control Statements and explanation of Functions and storage classes.
- COB3: To explain the usage of arrays and Preprocessor Commands.
- COB4: To understand the concepts of pointers and strings.
- COB5: To discuss the concepts of Structures, unions, Input and Output using files.

UNIT - I

11:13 21-09-2021

BCA 1 YEAR INDUCTION PROGRAMME - DAY 5-20210921_100623-Meeting Recording

Bhavan's Vivekananda College of Science, Humanities & Commerce
 Sainikpuri, Secunderabad – 500094
 (Accredited with 'A' grade by NAAC)
 Autonomous College - Affiliated to Osmania University
B.C.A SEM 1 DISCRETE MATHEMATICS
 Mathematical Foundations of Computer Science

Course Objectives: Students acquire knowledge of basic Mathematics to their computer related applications.

Objectives :To familiarize the students with concepts of propositions, logic, truth tables and Set theory

Outcomes :The students would learn the concepts of logics and be familiarized with set theory

UNIT- I

Fundamentals of Logic: Basic Connectives and Truth Tables, Logical Equivalence, Logical Implication, Use of Quantifiers, Definitions and the Proof of Theorems.

Set Theory: Set and Subsets, Set Operations, and the Laws of Set theory, Counting and Venn Diagrams.

Properties of the Integers: The well – ordering principle, Recursive Definitions, Division Algorithms, Fundamental theorem of Arithmetic.

Literary activities

Time : 11:30 a.m. – 12:30 a.m.

Organiser : S. Usha Rani, Lecturer in English, Department of Languages

Time: 11:30 a.m. – 11:35 a.m.

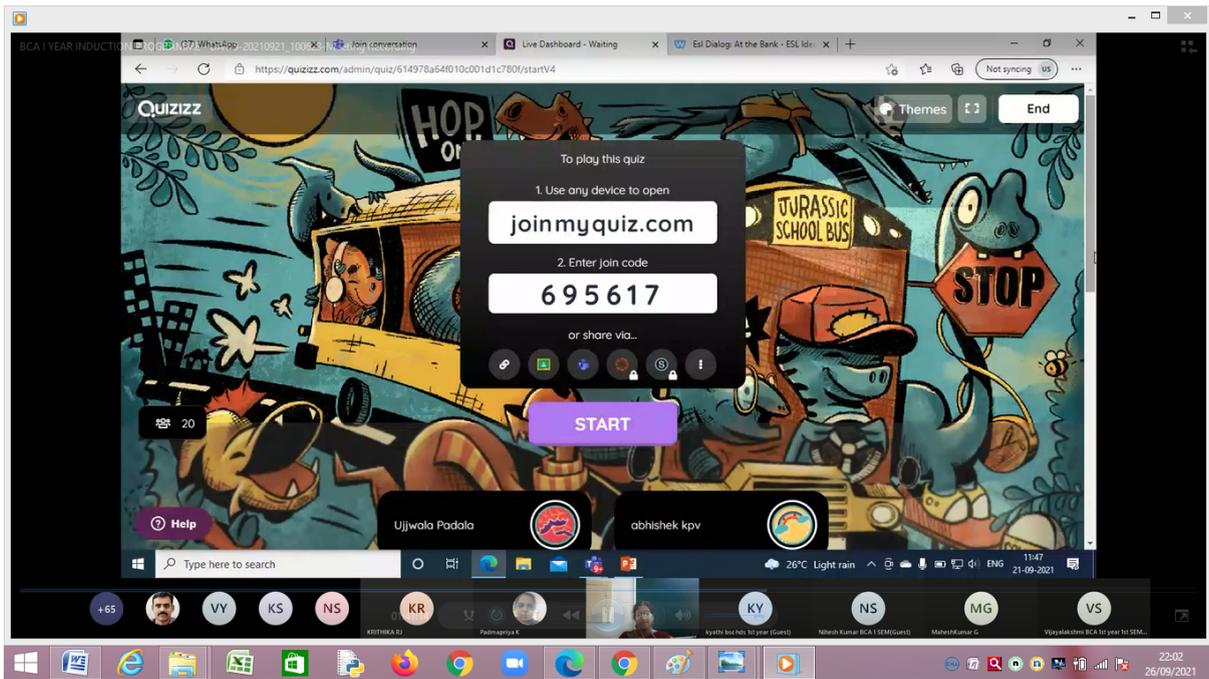

Introduction

The introduction focused on discussing the significance of English language and establishing relevance. Information was provided to the students regarding the opportunities the college offers in the form of Literary Club, Vibha – the college magazine and Languages Day to promote their creativity and flair for the languages.

Time : 11:35 a.m. -11:55 a.m.

Activity 1 : Vocabulary quiz

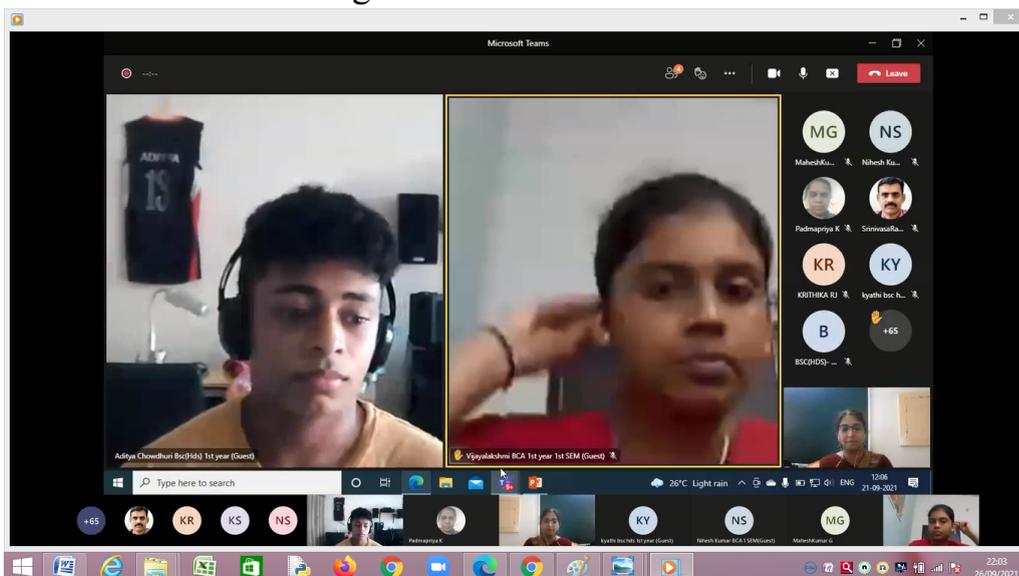

The first activity was a vocabulary quiz conducted using ‘Quizziz’, an education-based platform. It was chosen to ensure maximum participation and also to serve as an ice-breaking activity. Students actively participated in the self-paced quiz. While enjoying the gamified quiz, they could also test their word power.

Time : 11:55 a.m. – 12:15 p.m.

Activity 2 : Role Play

Scripts for some conversations were shared on the screen and students were asked to volunteer to enact the roles in the scripts. Students enthusiastically paired up with their peers and enacted the roles, trying their best to use the right pronunciation and intonation. The idea was to encourage them to practice the correct usage of language through various situational dialogues, and to motivate them for further learning.

Time : 12:15 a.m. – 12:30 p.m.
Activity 3 : Just a Minute (JAM)

Students were challenged to speak for a minute on common topics, without deviation, repetition and hesitation. The challenge was accepted and sincere efforts were made to continue speaking relevantly for 60 seconds. The activity was to build confidence, promote interest towards learning English, demonstrate the importance of spontaneity and prepare them for impromptu speeches.

Skill Enhancement Course

Analyzing Data for Business Growth using Advanced Excel and Power Bi

Under DBT Star College Scheme

The Department of Computer Science has organized Skill Enhancement Course on the topic “**Analyzing Data for Business Growth using Advanced Excel and Power Bi**” under DBT Star College Scheme for BCA II, BCA III, B.SC(HDS) II, B.Sc(Computer Science) III year Students and Faculty of our college, scheduled from 6th September, 2021 to 25th September, 2021(30 hrs).

The resource person was Mr. Alok Singh, Head, Business Development, Impact Education of India. The SEC was conducted through online platform i.e., FCC(Free Conference Call) everyday from 5:30PM under the guidance of Mrs. KVB. Saraswathi Devi (Head, Department of Computer Science) and Course Incharge Mrs. S.Jayalaxmi(Lecturer, Department of Computer Science) for 15days.

A total of 126 students and faculty registered, for the course out of which 100 students, 4 faculty have participated during the course from different locations using online mode.

Platform
Free of cost

Course Incharge: S.jayalaxmi

The session has started with the importance of "**Analyzing Data for Business Growth using Advanced Excel and Power Bi**". The topics which were covered under Advanced Excel for the first six days i.e., from 6th September, 2021 to 15th September, 2021 were: (6,7,8,13,14,15 September)

- Introduction to Data Driven Decision Making
- Fundamental of Excel

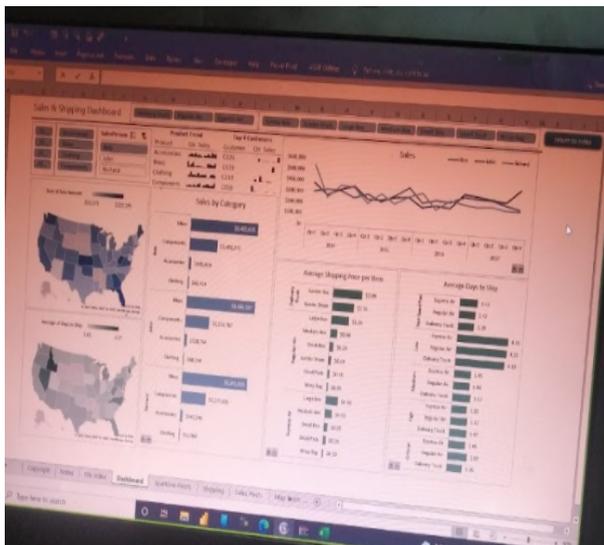

- Mathematical Functions
- Financial Functions- PMT,PPMT,IPMT,PV,FV
- Financial Functions- EMI calculator, Sensitivity Analysis
- Data Validation , Consolidate
- Logical Functions- if, and, or, not, lookup, vlookup, hlookup
- Logical Functions- sumif, sumifs, countif, countifs, identification of GAP & Duplicate
- What-if-Analysis - Goal Seek, Scenario Management, Data Table
- Statistical Functions- Descriptive Statistics, Histogram, Moving Average, Rank & Percentile
- Dashboard Creation with Pivot Table, Pivot Charts

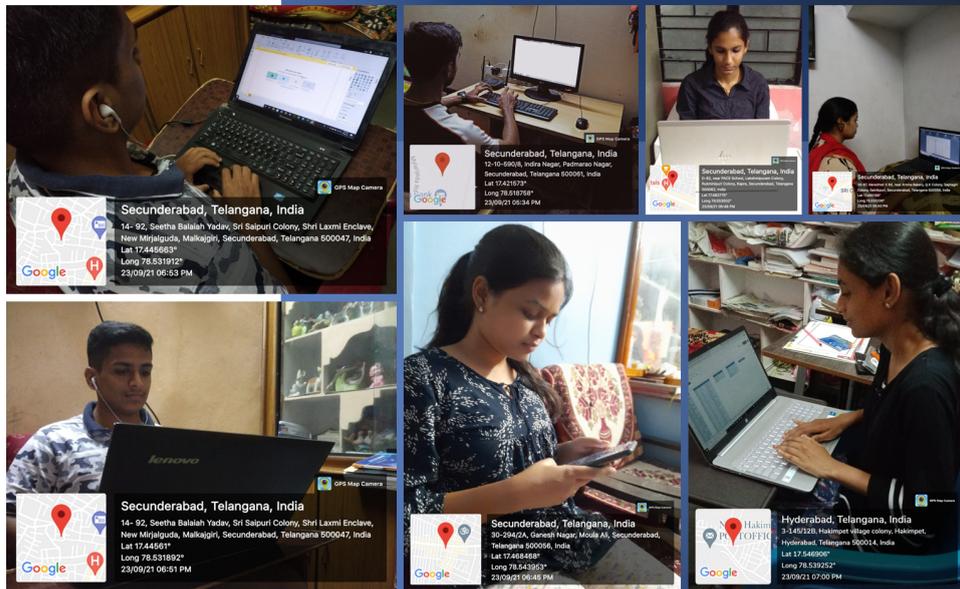

Power Bi course was started from 16th September, 2021 to 22nd September, 2021. The topics which were covered during those five days were: (16,17,20,21,22 September)

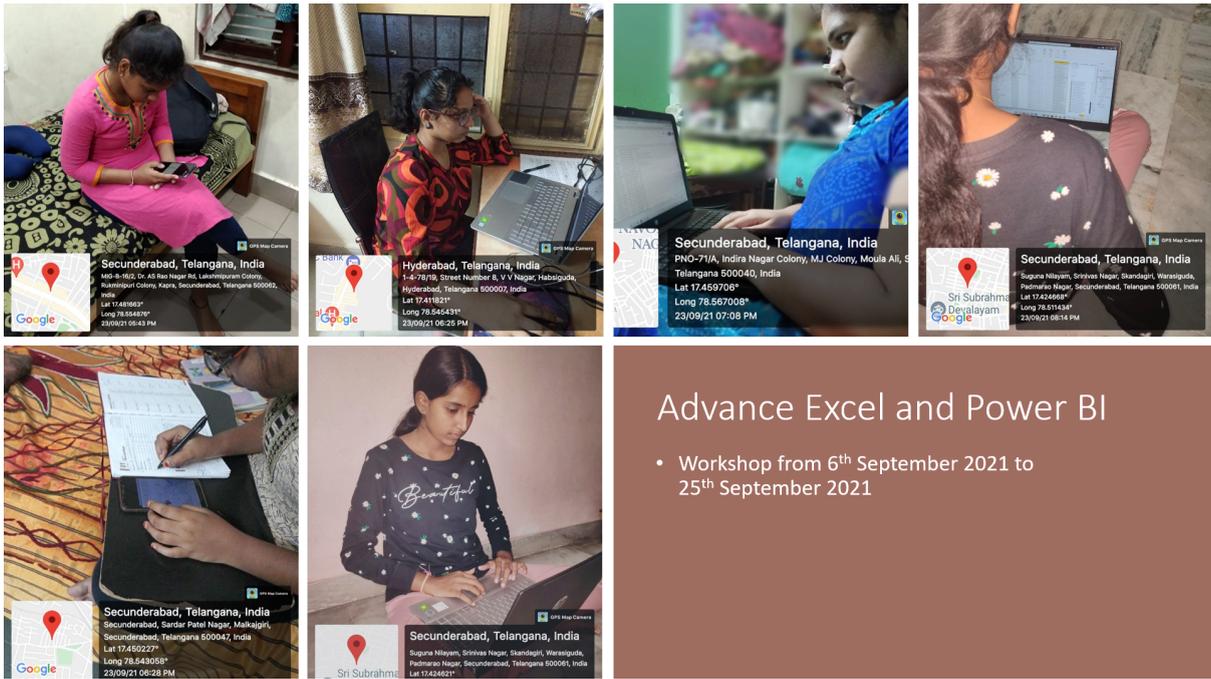

- Power Excel Tool- Power Pivot,Power Query,Power Map
- Into to Business Intelligence Tool- Microsoft Power BI
- Data Visualisation & Analysis- using Power BI

Data Visualization Dashboard and Tableau were taught from 23rd September, 2021 to 25th September, 2021. The topics covered for these three days were:(23,24,25 September)

- Data Visualisation - using Tableau
- Data Analysis- using Tableau

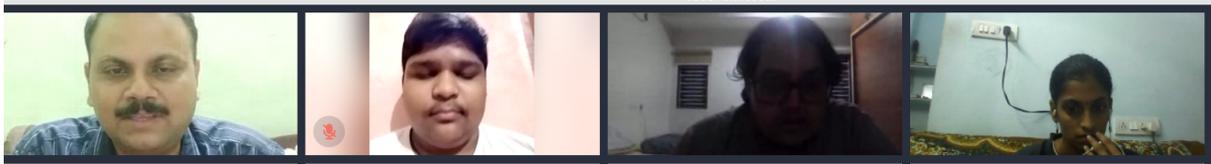

Advance Excel and Power BI

- Workshop from 6th September 2021 to 25th September 2021

The participants were very interactive during the session and all the queries were clarified during the course by Mr. Alok Singh (Resource person). Certificates were issued to all the participants after the completion of the course on “Analyzing Data for Business Growth using Advanced Excel and Power Bi”.

There was a Guest Lecture, by Mr Sourav Yadav, organized for the students learning and developing projects on Android Application. 33 students have attended this lecture.

Mr. Sourav Yadav completed his BSc in MECs from Bhavan's Vivekananda College, and is currently pursuing B.Ed.

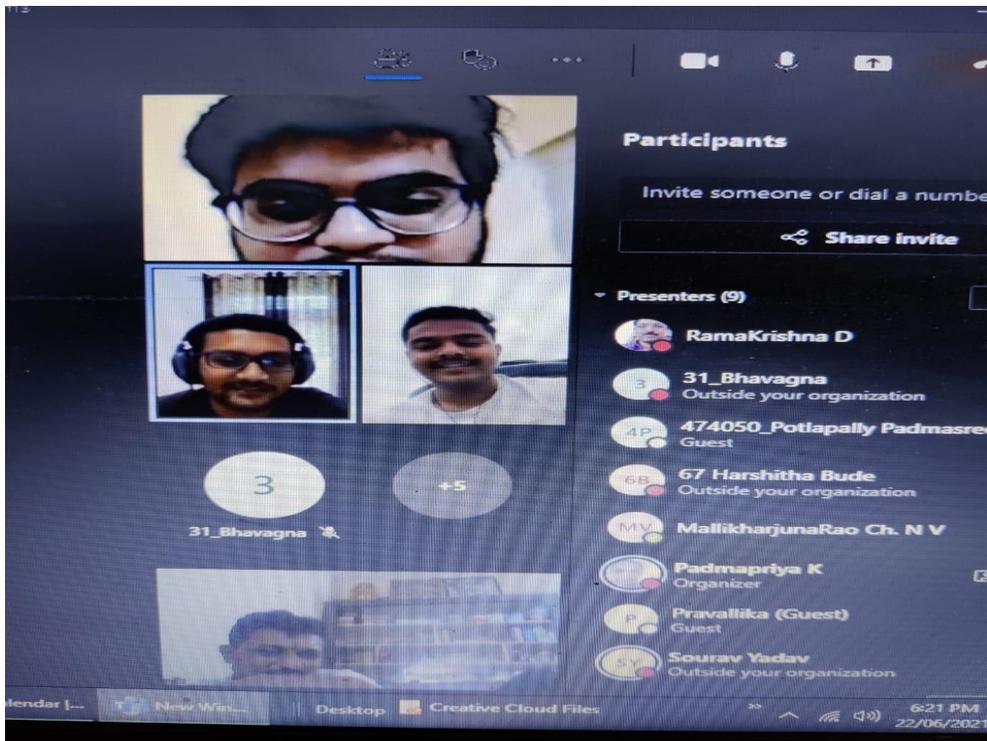

He is good at MS Office, Operating systems, Android and different programming languages such as C, C++, Python, Java. He is also aware of Flutter.

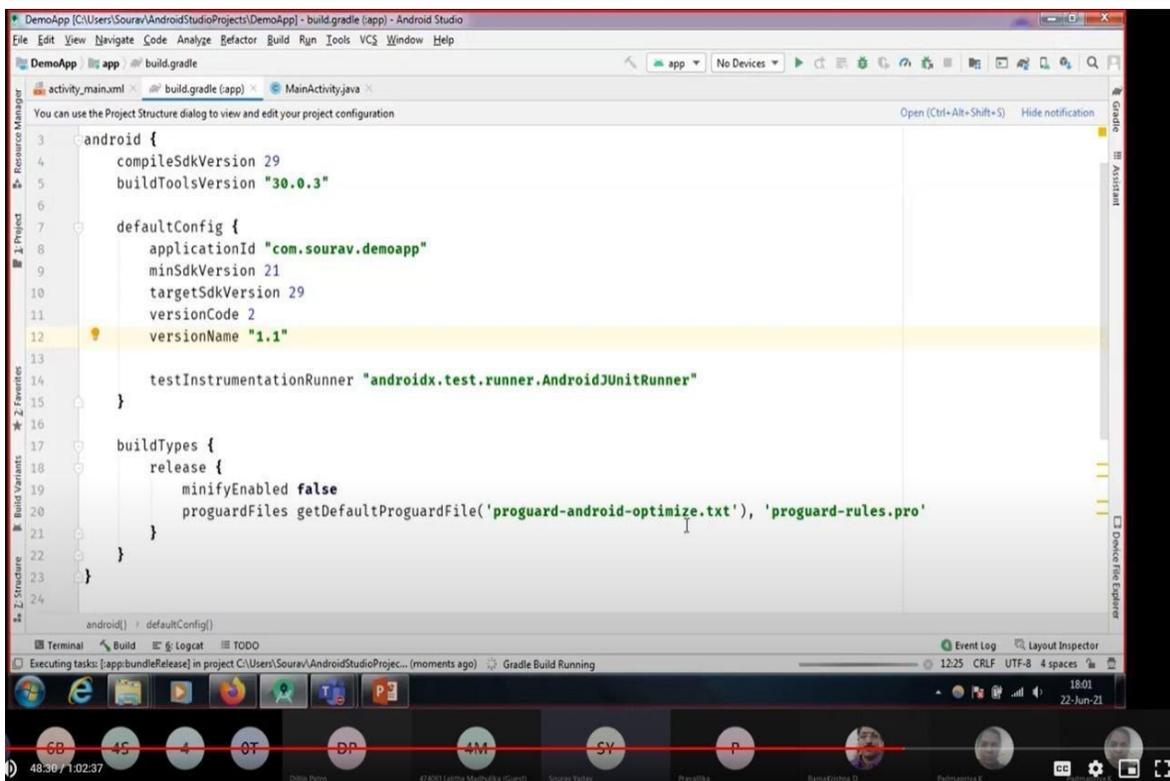

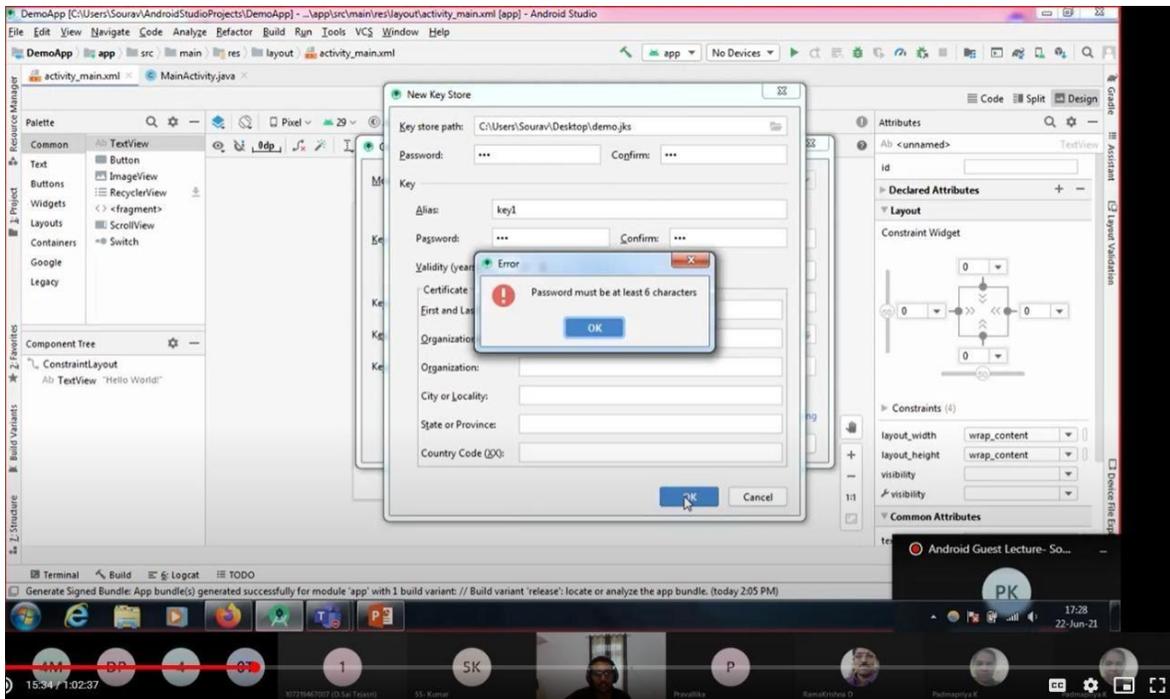

He has developed 2 apps CamIT and CallX while his graduation in the college among which CamIT is an App uploaded on play store.

Cam IT is used to create, edit and modify documents which includes features like pdf encryption - decryption, pdf compress, conversion from Images to pdf, pdf to images, add or remove pages to/from a pdf, change order of pages in a pdf, rotate pages of a pdf, add watermark, merge multiple pdfs, split pdf, extract text from pdf.

His other app, CallX includes features like auto call answering, call recording, and call blocking.

His session focused on how to upload a real-time app into the play store which was very informative and helpful. He also briefed the students the importance of developing such projects and how would they benefit them in the future. He cleared all the questions raised by the students at the end of the session, very patiently.

Arduino with Real Time Examples

There was a Guest Lecture on 8th June and 9th June 2021 (timings:5PM to 6PM), by Mr K.Abhilash and G.Ganesh from M.Sc(CS) IV SEM, organized for the students learning on Arduino with real-time examples. Students are enhancing their knowledge by attending this type of lectures.

129 students have attended this lecture.

They covered topics:

1st day(8th June 2021)

What is Arduino? History of Arduino, what can the Arduino do? Advantages, About Arduino hardware, about sensors, about shields, About Arduino software, Installation and program uploading steps, Different types of Arduino boards? which one is to be used? Simple example

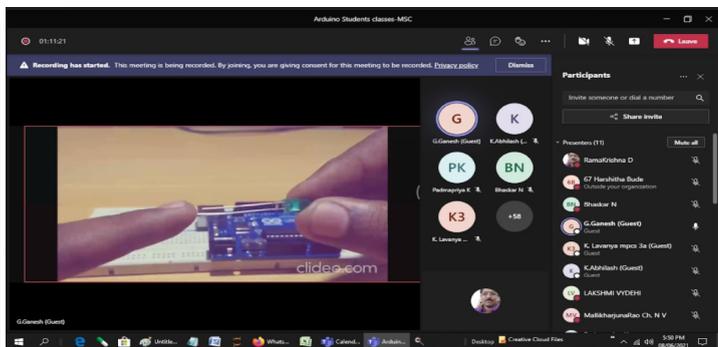

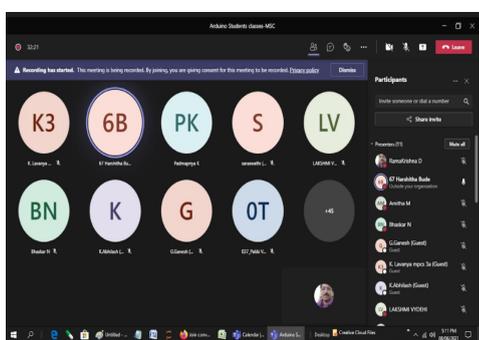

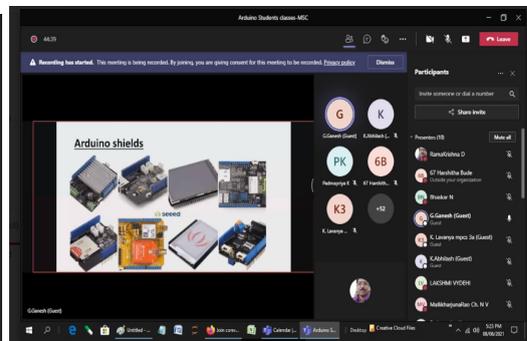

2nd day(9th June 2021)

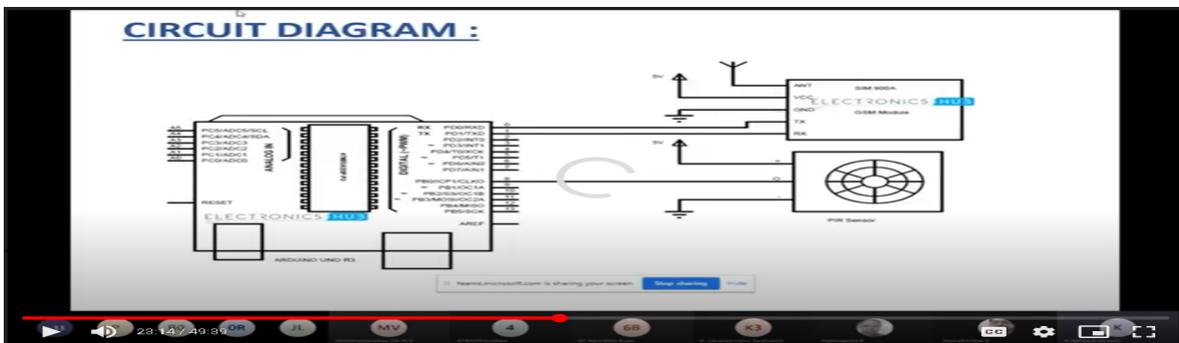

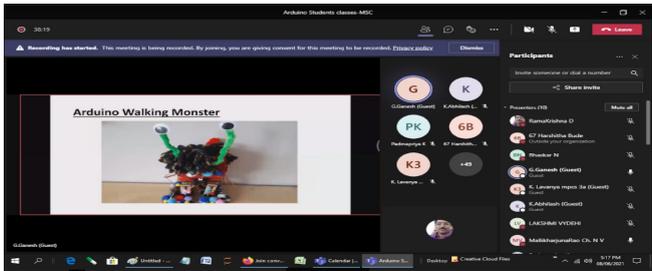

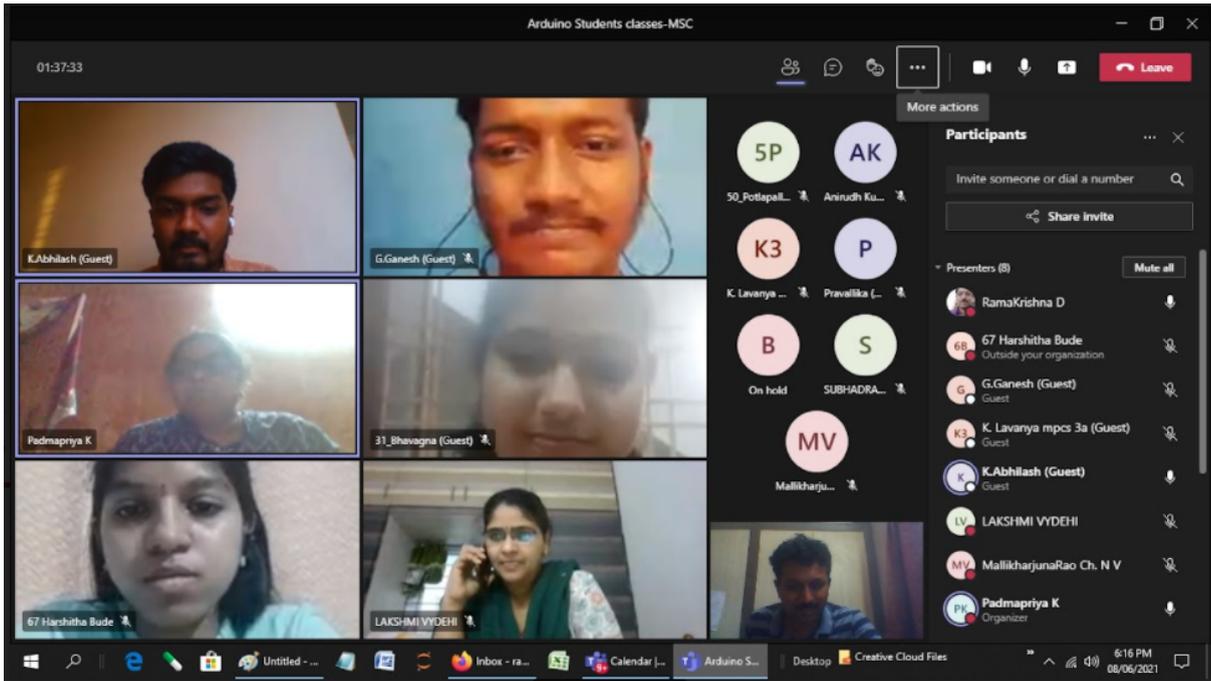

Connection of Bluetooth, sensor HC05 with Arduino and mobile| Voice commands,

Home security by using gsm module, Car locking system using alcohol detector in Arduino

DAY 1(10-05-2021):-The speakers Lavanya and Harshitha from B.Sc(MPCS) III year gave the introduction to android, what is android, versions of android, how to develop an android.

The next speaker C.Valli Vishnu Priya, alumni student of M.Sc(Computer Science) explained about introduction to android, what is android, features of android, versions of android, how to check the android version in the mobile.

The session ended with the activity.

DAY 2(11-05-2021):- The speakers Mr.Santosh and Mr.Krishna from B.Sc(MPCS) III year explained about

How to install android studio, how to setup emulator to run the project, why we use emulator, shows each and every step to install android and discussed about the latest version and best version of android for beginners.

DAY 3(14-05-2021):- Mr.Santosh and Mr.Krishna clarified the doubts of students on how to install the android which explained in previous class.

The speaker Jayalakshmi from B.Sc(MECS IIIB) explained about how to work on android studio, how to create an app in play store, how to start a new project, what are the different activities that android studio provides and what is the project structure in android studio.

DAY 4(15-05-2021):- The session was started with the recollecting of the previous day by Jayalakshmi.

They had a practical session on how to develop an android project in android studio. She explained the third step of the project that is build and run. They created an activity using constraint layout, change the background of the layouts, buttons and also used text views, edit text.

The session ended with the tasks assigned to students.

DAY 5(17-05-2021):- The speaker Jayalakshmi from B.Sc(MECS IIIB) explained about how to include the style, how to use margins, how to run the code in emulator, how to change the background(images), how to build apk, and she also explained about image button, image view, edit text.

The next speaker Bhavagna explained how to run the code in phone.

DAY 6(18-05-2021):- The speaker Jayalakshmi from B.Sc(MECS IIIB) explained about the relative layout, linear layout, radio buttons. They had an interactive session on previous projects.

The next speaker Alekya Sapari demonstrated about the live fit app.

The session ended with task assigned to students.

DAY 7(19-05-2021):- The speaker Jayalakshmi from B.Sc(MECS IIIB) explained about relative layout ,how to use margins in relative layout, how to load the created project in mobile, discussed about java skeleton, concept of package, class and variables.

The next speaker Pravalika started with basic concepts in java related to android, introduction to java, general oops concepts in android studio.

DAY 8(20-05-2021):- The speakers Santosh and Krishna showed students how to develop a project on simple calculator using java and xml.

The session ended with the clarification of the doubts of students.

DAY 9(21-05-2021):- The speaker Jayalakshmi from B.Sc(MECS IIIB) demonstrated about how to pass the values from one activity to another activity and also explained about spinner and java code.

The next speaker Bhavagna explained about 'intent'.

The session ended with task assigned to students to connect two activities.

DAY 10(22-05-2021):- The speakers Tejaswi and Sreeja explained about their project 'pick your path' and discussed each and every module, which stream you have to choose after 10th class, intermediate, Under graduate. this project will let us know all the courses which are available and it also let us know about career and job opportunities.

The next speaker Bhavagna explained about 'intent' part.

One of the student Vyshnavi shared the screen and explained what she learnt from the previous 10 days of android session.

DAY 11(23-05-2021):- The speaker Jayalakshmi from B.Sc(MECS IIIB) explained about the offline login and also the coding part. She also demonstrated how to display the logo on the screen.

The session ended with the clarifications of the doubts of students.

DAY 12(24-05-2021):- The speaker Pravalika explained about firebase authentication and real time database and shows how the interface look.

The next speaker Bhavagna explained her project 'watching a fridge' and shows how to sync real time database.

DAY 13(25-05-2021):- The session started with the clarifications of the doubts of students.

The speaker Pravalika demonstrated the students how to register to the app, how to set the email id and password stored in the firebase database.

The session ended with the interaction between the students.

DAY 14(26-05-2021):- The speaker Bhavagna shows how to create login page, how to access the data from real time database, how to create java objects, explained about the use of 'intent' code, how the data is stored in real time database.

Senior students shared their ideas to the juniors about projects, what are the steps students should follow to do a project.

DAY 15(27-05-2021):- The speaker Pravalika explained about vector asset, setting of date and time, calendar.

The session ended with the discussion on which project to be implemented.

DAY 16(28-05-2021):- The speaker Bhavagna explained about time picker and shows the coding part of time picker.

The next speaker Madhulika from B.Sc (MECS) II year explained about integration of UPI method and conversions.

DAY 17(29-05-2021):- The speaker Tejasri explained about the online payment method.

The next speaker Pravalika explained about the gate pass app.

The next speaker Prathyusha explained about her project Bhavan's Fests.

The session ended with clarification of doubts of students.

DAY 18(31-05-2021):- One of the senior student explained about how to implement google map, how to track the location using map activity by explaining coding.

The session ended with clarification of doubts of students.

DAY 19(11-06-2021):- The speaker Deepika explained about the GPS tracking and she also demonstrated how the GPS tracking works. They discussed about the projects that are to be implemented by the students.

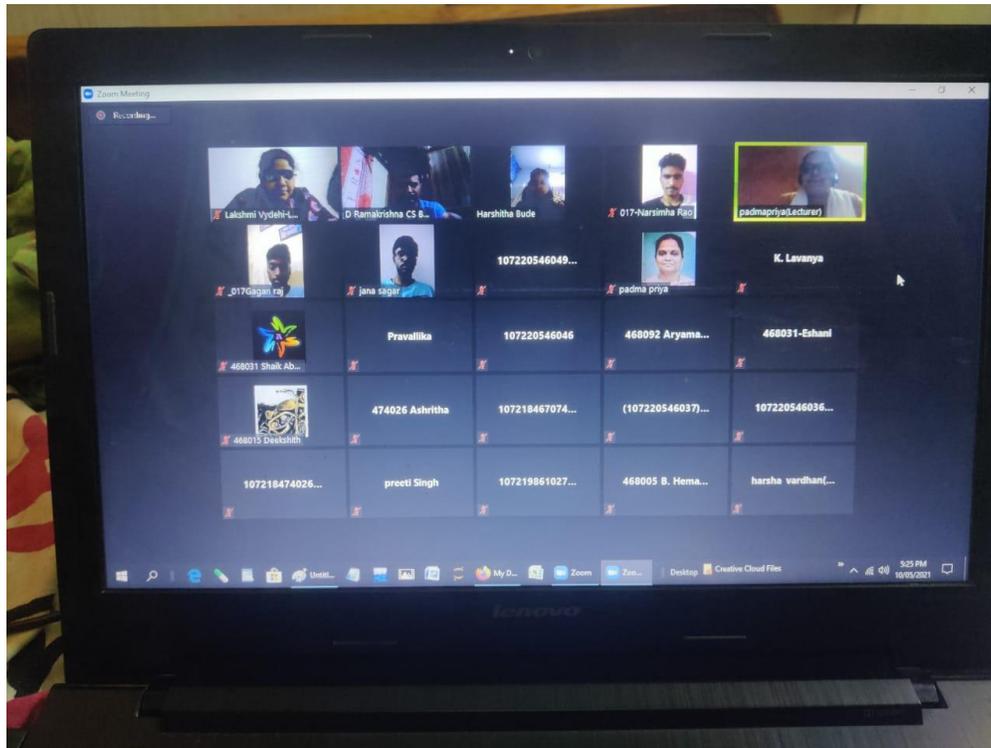

The session ended with the final confirmation of the projects.

DAY 20(14-06-2021):- The speaker Pravalika explained about how to build notifications using java language by explaining coding part.

The session ended with clarification of doubts of students.

DAY 21(22-06-2021):- The speaker Padmasree gave the introduction of the guest lecture Sourav Yadav, who is going to explain on uploading the real time app into play store. He demonstrated on how to upload his CamIt app on play store.

The session ended with vote of thanks. A total of 120 students attended the session.

TIME: 4:00PM-5PM

A Guest lecture on UI UX designing and Android introduction was organized by the Department of Computer Science under DBT - star college scheme. It was started at 4:00PM on 3rdMay 2021.

The event was hosted by Kethu Lavanya (BSc MPCs 3A) and Bude Harshitha(BSc MPCs 3A). The meeting had a strength of 60 students along with the faculty members of the Computer Science department. Further Mr. Mahesh Kumar, BCA in-charge from computer Science department addressed the meeting with his kind words and then it was followed by introducing our guest of honor Mr. Cherukupally Nikhil Kumar who is an alumni (2016-2019) and the man behind the development of the Bhavan's App which is available in the play store and he is now pursuing Post Graduation in Aurora PG College. Nikhil Kumar firstly gave an introduction on Android and also shared his knowledge on UI UX designing. He also discussed about the career options in UI UX which made our session very informative and finally vote of thanks was given by Mr. Rama Krishna, Lecturer in the Computer Science department. He gave a summary of the session and motivated all the participants for happy learning. The guest of honor Mr. Cherukupally Nikhil Kumar shared his journey with all of us and the session was closed at 5.30 PM.

Guest lecture along with Hands-on session on Android, Organised by Department of Computer Science – under DBT-Star College Scheme has been started at 4:00PM on 1st MAY 2021. Around 117 students and lecturers of computer science have attended the meeting. Session started by 3rd Year students G.Pravallika and Bhavagna from BSC MECs. They gave a brief introduction about the Guest Lecture on Android. Then Mrs. K V B Saraswathi mam, Head of the Computer Science department said few valuable words about today's event. Mam welcomed the Guest Lecturers of the event Mr. Shiva Narayan Dey and Mr. Dilip Kumar Patro who are Alumni's of Bhavan's Vivekananda College from 2017-2020 batch. They are working in top MNC, Cognizant. They even taught their juniors and conducted classes for Android course. After giving brief introduction to Guests, they have started their presentation. Both of them shared

their complete knowledge on Android Application Development. They motivated their juniors with their knowledge and experience. Finally, Mrs. Padmapriya, Lecturer in Computer Science department ended the session with Vote of Thanks at 5:30PM.

Report on Lecture-2

The department of computer science of Bhavans Vivekananda College has initiated Computer Science Technology Awareness Programme (CSTAP) in the academic year 2020-21. The motto behind initiating this programme is to provide inputs on the latest trends evolving in the field of Computer Science such that our students might be on par with industry standards and expectations.

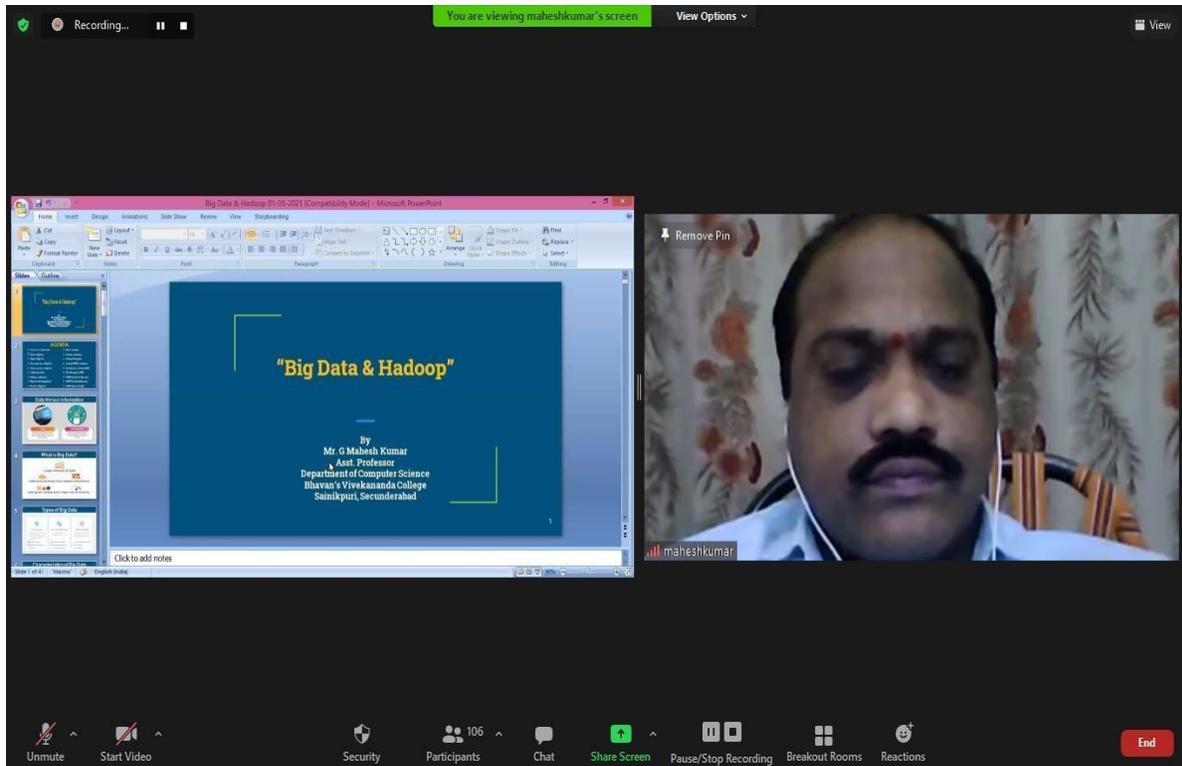

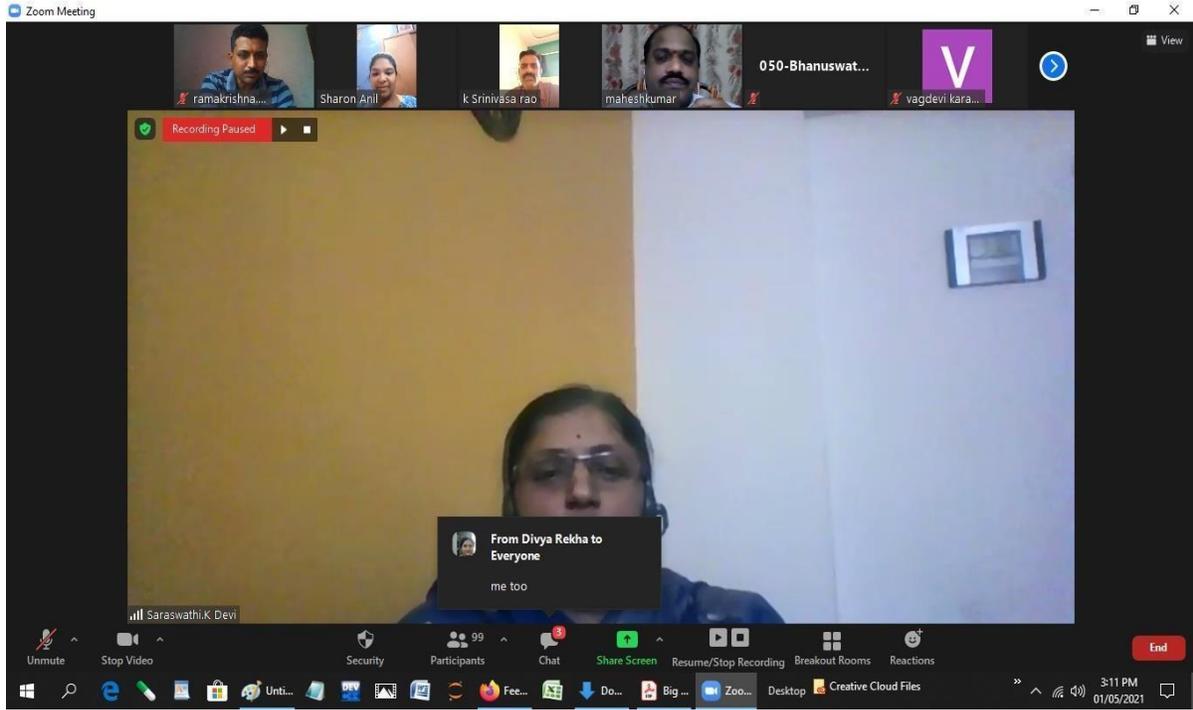

As part of this programme, the department of computer science had organized a lecture on "Big Data & Hadoop" with the resource person for the session being Mr. G Mahesh Kumar, Asst. Professor, BCA Course Coordinator, Department of Computer Science, Bhavan's Vivekananda College, Sainikpuri. The Guest for this session was Mrs. KVB Saraswathi Devi, Head, Department of Computer Science, BVC. The lecture was conducted on 01-05-2021 at 2:00PM through Zoom online platform.

This lecture covered topics such as Data Vs Information, Big Data, Types of Big Data, Characteristics of Big Data, Applications of Big Data, Big Data Technology Stack, Benefits of Big Data, Hadoop, Evolution of Hadoop, Hadoop Ecosystem, Hadoop HDFS Architecture, Data Blocks in Hadoop HDFS, Data Storage in HDFS, HDFS Data Write Operation, HDFS Data Read Operation and HDFS High Availability.

A Total of 189 participants participated in this lecture out of which 10 were faculty members and the remaining 179 members being students.

The lecture had brought the participants, an insight and knowledge of what is Big Data, Its Advantages and the Technology used for working on Big Data, that is Hadoop.

G Mahesh Kumar Asst.
Professor,

Data Versus Information

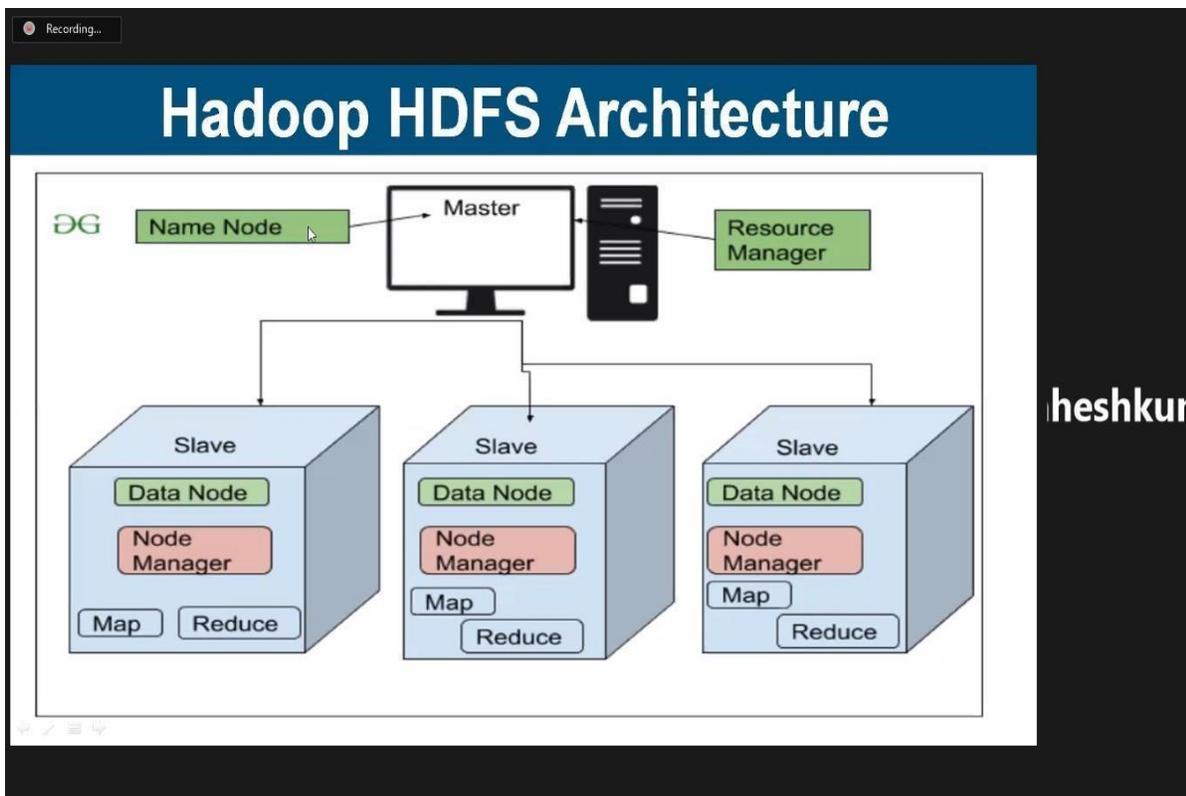

DATA

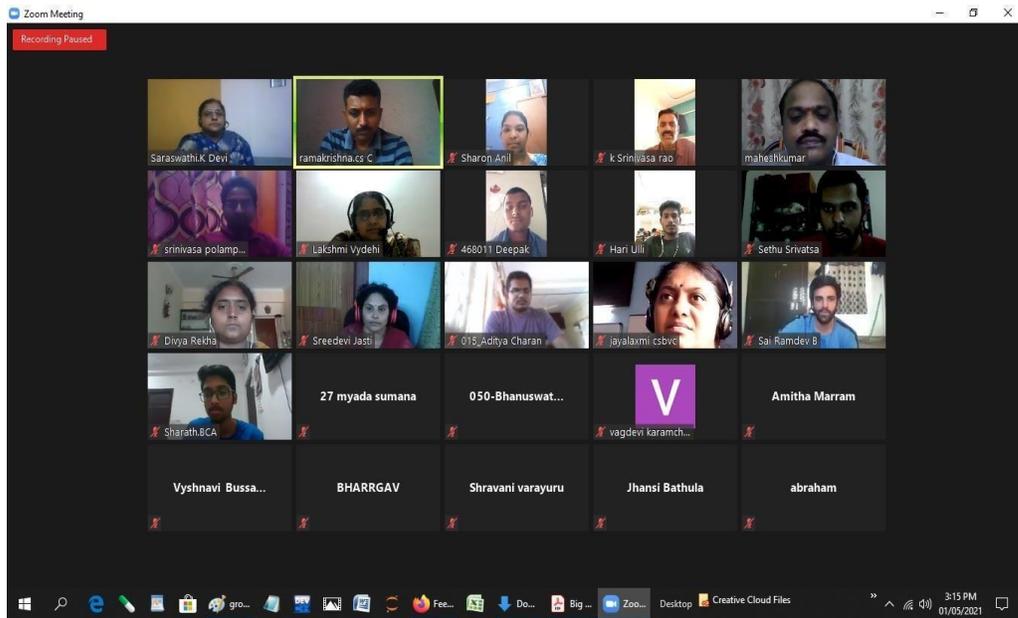

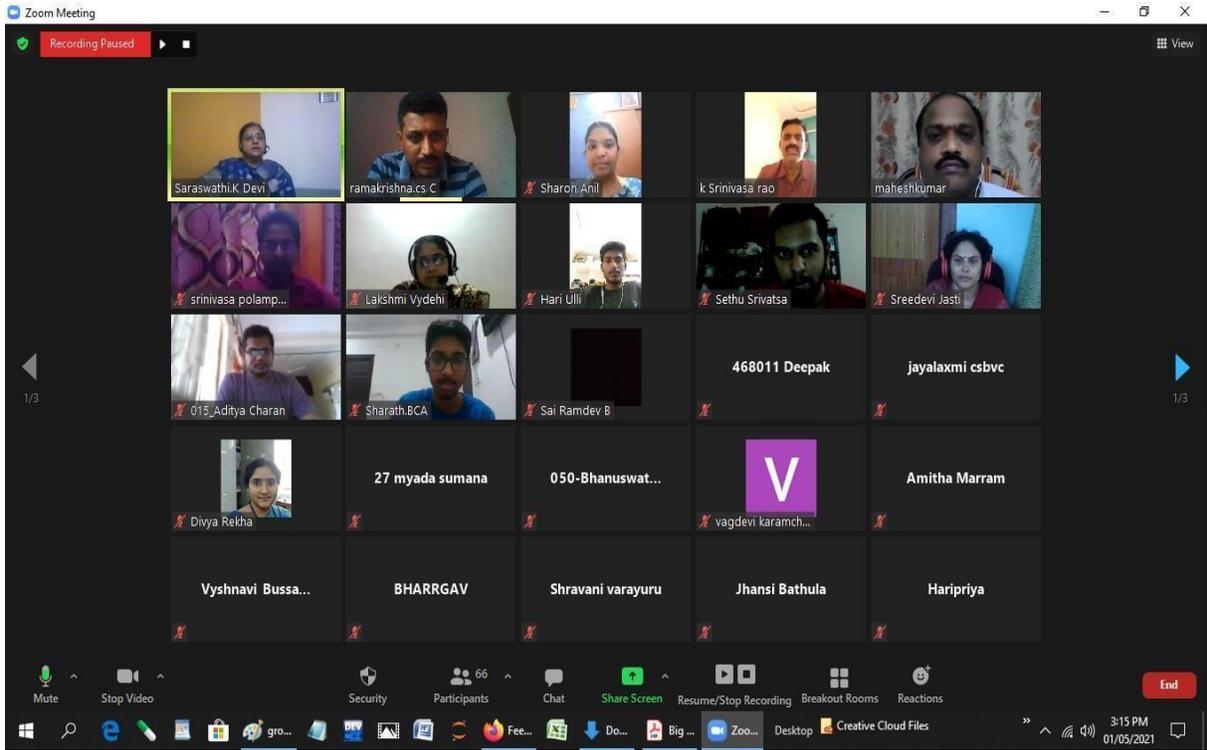

Data is raw, unorganized facts that need to be processed. Data can be something simple and seemingly random and useless until it is organized.

INFORMATION

When data is processed, organized, structured or presented in a given context so as to make it useful, it is called information.

Report on Lecture-1

The department of computer science of Bhavans Vivekananda College has initiated Computer Science Technology Awareness Programme (CSTAP) in the academic year 2020-21. The motto behind initiating this programme is to provide inputs on the latest trends evolving in the field of Computer Science such that our students might be on par with industry standards and expectations.

As part of this programme, The department of computer science had organized a lecture on “Virtual Reality & Augmented Reality” with the resource person for the session being **Ms. B. Divya Rekha, Asst. Professor**, Bhavan’s Vivekananda College, Sainikpuri. The Guest for this session was Mrs. KVB Saraswathi Devi, Head, Department of Computer Science, BVC. The lecture was conducted on **24-04-2021** at 2:00 PM through Microsoft Teams online platform.

This lecture covered topics such as applications of VR / AR, History, Impact of AR &VR in different fields, Industries working on these, Demerits of AR &VR, difference between AR &VR, their improvement in the present scenario, Recent experiments conducted on AR &VR and Future Scope.

A Total of **200** participants participated in this lecture out of which 15 were faculty members and the remaining **185** members being students.

The lecture had brought the participants, an insight and knowledge of what is Augmented and Virtual Reality its impact in education field and Future scope of AR &VR

REPORT ON AI INTERNSHIP

23-April-2021 to 23-May-2021(30 days)

Department of Computer Science under DBT-Star College Scheme had conducted an internship i.e., value added course on Python along with Artificial Intelligence and machine learning.

The course was conducted for final year students of BCA and BSc (2018-2021). The internship was held for **30 days** from **23-April-2021 to 23-May-2021**. A total of 40 students were part of this, all the students were provided with a set of pre-recorded videos and tasks daily.

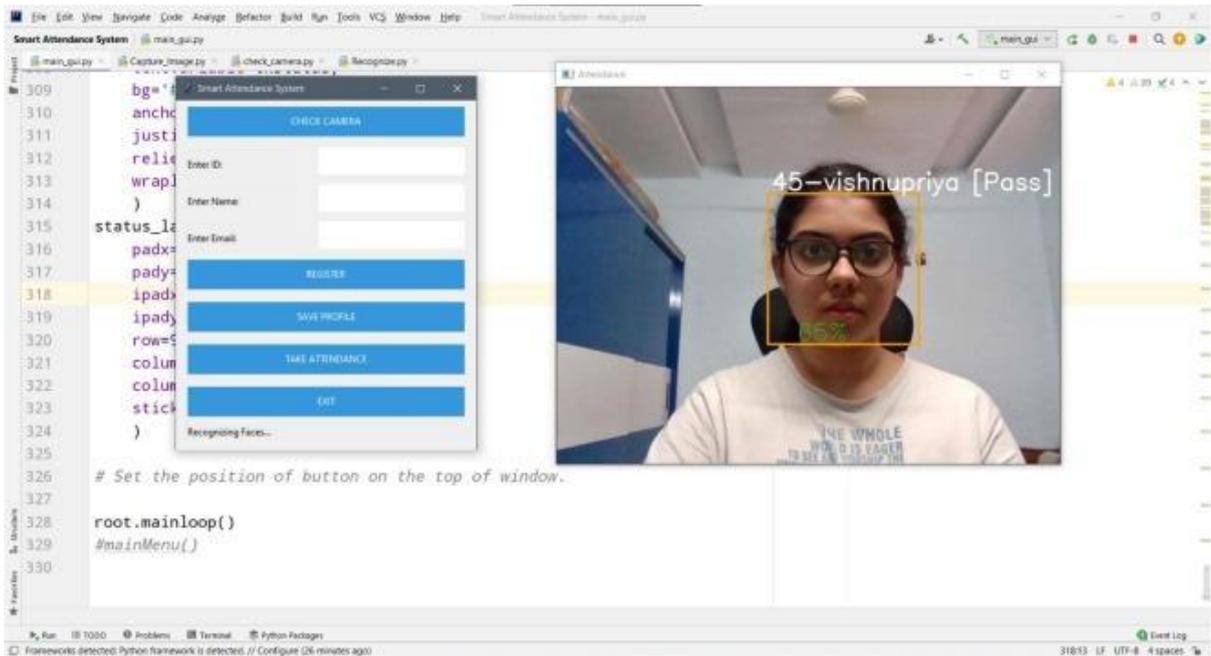

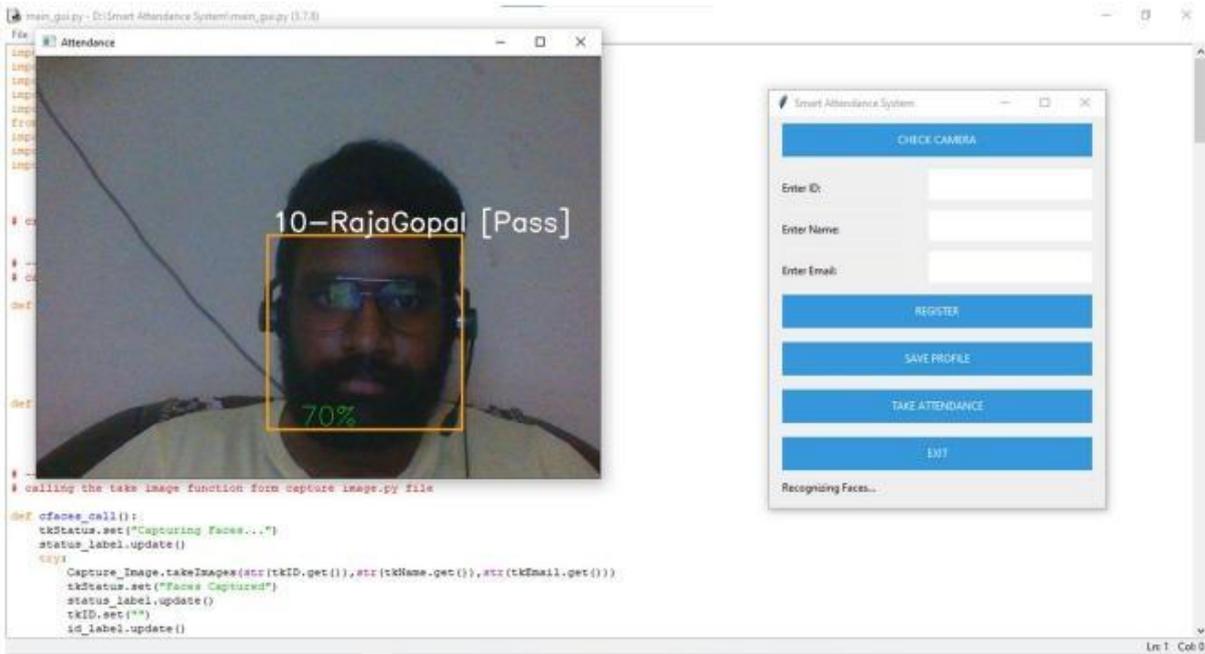

Students learned many new concepts such as.

1. Data model training,
2. Image processing
3. Neural networking
4. Face recognition

Students have also done various projects as a part of Internship on:

1. Face recognition-based attendance systems
2. Optical character recognition systems
3. Motion detection
4. Vehicle detection

Students gave very good feedback about the Internship (value added course). After the completion of this internship, students got their certificate of completion along with enormous knowledge.

The image shows a Visual Studio Code editor window with a Python script named `main_gui.py` open. The script is part of a project named "Smart Attendance System". The code includes imports for `os`, `check_camera`, `Capture_Image`, `Train_Image`, `Recognize`, `tkinter`, `threading`, and `psw`. It defines a `cc_call()` function that updates a status label and calls `check_camera.camer()`. A `checkCamera()` function is also defined, which uses `threading.Thread` to run `cc_call()` in a separate thread. The terminal at the bottom shows the command `python main_gui.py` being executed.

```
1 import os # accessing the os functions
2 import check_camera
3 import Capture_Image
4 import Train_Image
5 import Recognize
6 from tkinter import *
7 import tkinter as tk
8 import threading
9 import psw
10
11
12
13 # creating the title bar function
14
15
16 # .....
17 # calling the camera test function from check camera.py file
18
19 def cc_call():
20     tkStatus.set("Accessing Camera...")
21     status_label.update()
22     check_camera.camer()
23     tkStatus.set("")
24     status_label.update()
25
26 def checkCamera():
27     ti=threading.Thread(target=cc_call,daemon=True)
28     ti.start()
29
```

The terminal output shows the command `python main_gui.py` being executed, and the GUI window is running in the background.

Terminal output:

```
PS C:\Users\danda> & "C:/Program Files (x86)/Microsoft Visual Studio/Shared/Python37_64/python.exe" "d:/Smart Attendance System/main_gui.py"
```

MACHINE LEARNING WORKSHOP (Under DBT-Star College Scheme)

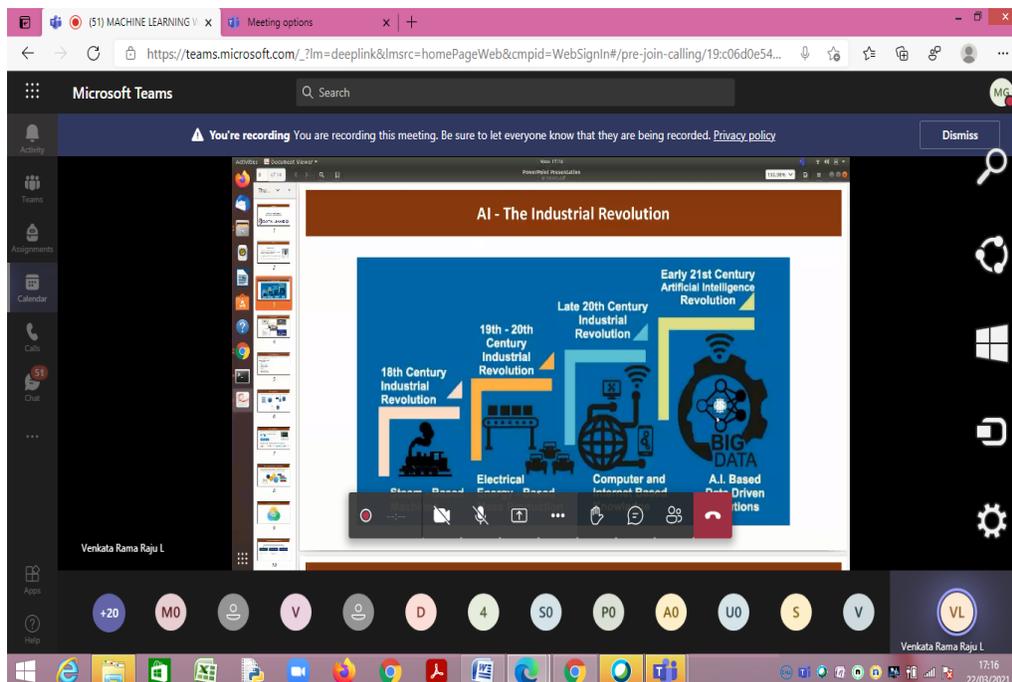

The department of computer science organized the Machine Learning Workshop under DBT-Star College Scheme for BCA III Year students of our college, scheduled from 22nd March 2021 to 27th March 2021. **Mr. L Venkata Rama Raju**, founder of Data Jango Technologies, was the resource person for this workshop. This workshop was conducted through online platform Microsoft Teams under the guidance of **KVB Saraswathi** (Head, Department of Computer Science) and **G Mahesh Kumar** (Course Coordinator of BCA). **38** participants attended the workshop.

Day 1:

The Day-1 Session has started with the Introduction to Data Science and Machine Learning which was very interactive session where students and faculty has participated very actively. At the end of session, Mr. Venkata Rama Raju has clarified student's doubts and explained their queries by some of the Real-World Practical examples.

The topics covered in the session were:

- Introduction to AI
- AI-Industrial Revolution

Why AI is Popular now ?

- Reduction in memory costs, increase in computing power.
- Distributing computing technologies such as Hadoop.
- Availability of pre-built Machine Learning/ Deep Learning / NLP (AI) modules. Some examples of such modules are Scikit-Learn, TensorFlow, NLTK, R, MatLab, etc.,

Venkata Rama Raju L

What is Data Science and How is it related to AI ?

- Informally Data Science can be defined as a field of study that extracts insights hidden in data. Data Science uses Artificial Intelligence (Machine Learning, Deep Learning, NLP, etc.) in extracting insights from DATA.
- The technology is like a powerful statistician/analyst extracting insights from huge volumes of data.

Data Collection
Statistical Data Analysis
Data Processing
AI/ML
Prediction
Classification
Recommendation
And many more ...

Why AI is Popular now ?

- Reduction in memory costs, increase in computing power.
- Distributing computing technologies such as Hadoop.
- Availability of pre-built Machine Learning/ Deep Learning / NLP (AI) modules. Some examples of such modules are Scikit-Learn, TensorFlow, NLTK, R, MatLab, etc.,

Jupyter 2.2 python compound_data_types Last Checkpoint: 091272020 (unsaved changes)

List - Python has a number of compound data types. These data structures are useful in grouping together other values. In the most versatile of the list, which can be written as a list of comma-separated values (items) between square brackets. Lists might contain items of different types, but usually the items all have the same type.

```
In [3]: sample_list = [20, 38, 40]
In [4]: print(sample_list)
[20, 38, 40]
In [5]: type(sample_list)
Out[5]: list
In [6]: squares = [1, 4, 9, 16, 25, 'Kalam', True]
In [7]: type(squares)
Out[7]: list
In [8]: squares[1]
Out[8]: 4
In [9]: squares[5]
Out[9]: 'Kalam'
```

Descriptive Statistics

Variance

Variance: Variability can also be defined in terms of how close the scores in the distribution are to the middle of the distribution. Using the mean as the measure of the middle of the distribution, the variance is defined as the **average squared difference of the scores from the mean.**

$$\sigma^2 = \frac{\sum(X - \mu)^2}{N}$$

Day 4:

The Day-4 session was on Introduction to Pandas and Cleaning data like removing duplicates and clearing data. The topics discussed were:

- Pandas Series
- Types of Data frames in Pandas
- Introduction to Statistics
- Introduction to Exploratory Data Analysis

The screenshot shows a Microsoft Teams meeting interface. The main content is a presentation slide titled "Statistics in Machine Learning – Linear Regression". The slide content includes:

- Simple linear regression on Employee Data**
- A table with columns "Experience (years)" and "Salary":

Experience (years)	Salary
15	85000
10	25000
20	35000
5	20000
3	37000
- Handwritten equations: $y = \beta_0 + \beta_1 x$, $\hat{y} = 7882.09 + 4171.86 \cdot x$, and $\hat{y} = 70978.609184$.
- Labels for "Training Data" and "Test Data" with arrows pointing to the table.
- A box labeled "Learning Algorithm (Linear Regression)" with an arrow pointing to the equation.
- A box labeled "Prediction Salary (y) = 70978.609184".

The Teams interface shows the name "Venkata Rama Raju L" and a recording notification: "You're recording You are recording this meeting. Be sure to let everyone know that they are being recorded. Privacy policy". The bottom of the screen shows a Windows taskbar with various application icons and the system clock showing 17:12 on 25/03/2021.

Venkata Rama Raju L

Statistics in Machine Learning – Linear Regression

Regression – Error Metrics

Error or Residual = Actual – Predicted = $y - \hat{y}$

Squared Error = (Actual – Predicted)² = $(y - \hat{y})^2$

Residual Sum of Squares (RSS) = $\sum_{i=1}^m (y_i - \hat{y}_i)^2$, where m – number of training records present,
 \hat{y}_i - prediction for i_{th} record,
 When model is working good RSS will be close to 0.

Total Sum of Squares (TSS) = $\sum_{i=1}^m (y_i - \bar{y})^2$, where m – number of training records present,
 \bar{y} - mean of all y values

Linear Regression - Gradient Descent (How it works?)

Iteration - 1:

Initial Random $\theta^0 = 100$,

Learning Rate $\alpha = 0.00005$

$next\ \theta^0 = 100 - 0.00005 * 587773.12 = 70.611344$

$gradient\ \frac{\partial J(\theta)}{\partial \theta} = 587773.12$

$next\ \theta^0 = current\ \theta^0 - \alpha \frac{\partial J(\theta)}{\partial \theta}$

Classification

Classification is one of the supervised learning techniques. A machine learning problem is said to be a classification problem, when the output has "finite and discrete values" (two or more categories).

Microsoft Teams Meeting: **You're recording** You are recording this meeting. Be sure to let everyone know that they are being recorded. [Privacy policy](#) Dismiss

Classification – Metrics

Why "Accuracy" is not a Good metric for Imbalanced Dataset ?

Let's take a simple example of an imbalanced dataset and see how "Accuracy" measures performance.

x_0	x_1	x_2	...	x_n	y
...	0	0
...	0	0
...	0	0
...	0	0
...	0	0
...	0	0
...	0	0
...	0	0
...	0	0
...	0	0
...	1	0

Accuracy = Count of Correctly Predicted / Total Records
 = 9/10
 = 90% accuracy

Model predicted all 0's, practically there is no intelligence, still accuracy metric shows 90%.

Participants: Venkata Rama Raju L, +15, DO, HO, PO, SO, MO, BO, 1, H, VL

Microsoft Teams Meeting: **You're recording** You are recording this meeting. Be sure to let everyone know that they are being recorded. [Privacy policy](#) Dismiss

Classification – Metrics

Confusion Matrix

Notation:
 Records belonging to class "1" as POSITIVE Record
 Records belonging to class "0" as NEGATIVE Record

Then A Metric Should investigate:

- How many POSITIVES classified as POSITIVE
- How many NEGATIVES classified as NEGATIVE
- How many POSITIVES wrongly classified as NEGATIVE
- How many NEGATIVES wrongly classified as POSITIVE

		Predicted	
		-Ve	+Ve
Actual	-Ve	-Ve classified as -Ve (TRUE Negatives - TN)	-Ve classified as +Ve (FALSE Positives - FP)
	+Ve	+Ve classified as -Ve	+Ve classified as +Ve

Participants: Venkata Rama Raju L, +15, DO, HO, PO, SO, MO, BO, 1, H, VL

The screenshot shows a Microsoft Teams meeting interface. The main content is a presentation slide titled "Classification - Metrics" with a subtitle "Confusion Matrix for '5'/'NOT-5' dataset". The slide displays a confusion matrix table:

		Predicted	
		Not - 5	5
A c t u a l	NOT - 5	"NOT-5" classified as "NOT-5" (TRUE Negatives - TN) 50444	"NOT-5" classified as "5" (FALSE Positives - FP) 134
	5	"5" classified as "NOT-5" (FALSE Negatives - FN)	"5" classified as "5" (TRUE Positives - TP)

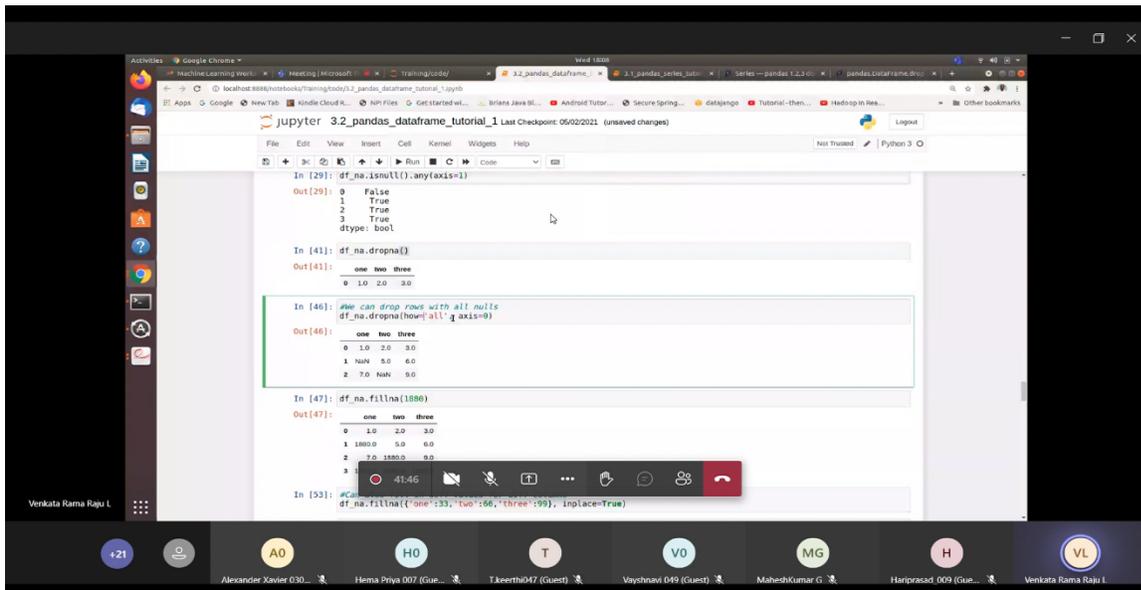

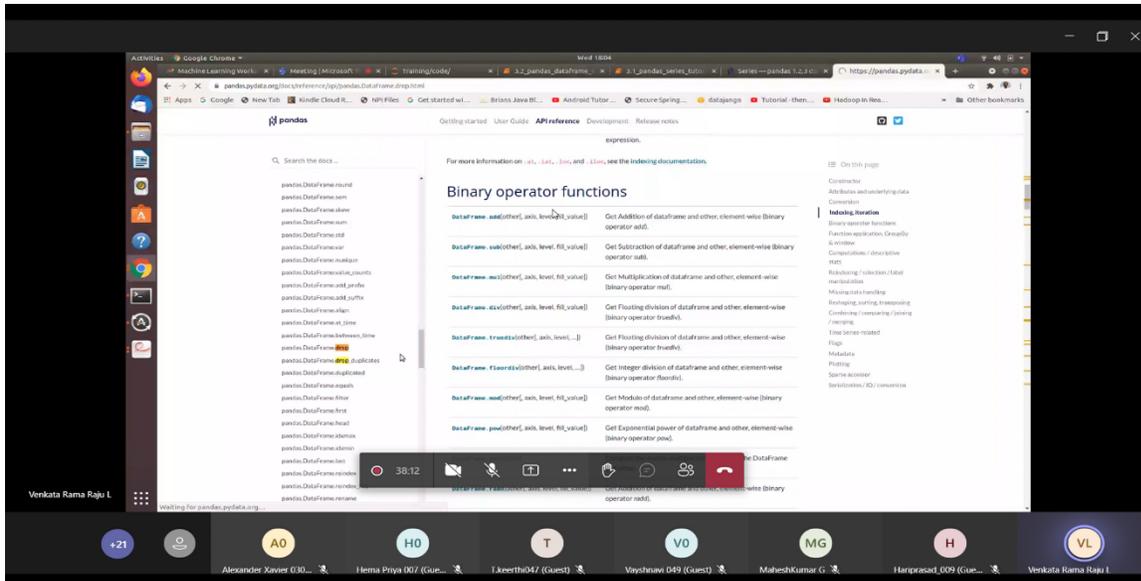

The Teams interface also shows a recording notification at the top, a list of participants on the right, and a taskbar at the bottom with various application icons and the system clock showing 18:26 on 25/03/2021.

Day 5:

The Day-5 session was on Linear Regression. The topics discussed in the session were:

- Linear Regression.
- Types of Calculations performed in Linear Regression.
- Relu

Day 6:

The last day of the session has begun with Introduction to Natural Language Processing (NLP) where various tables, graphs were demonstrated. The topics discussed in the session were:

- Natural Language Processing (NLP)
- Types of NLP
- Normal Equation
- Gradient Descent

Microsoft Teams interface showing a meeting in progress. The top bar displays the URL: https://teams.microsoft.com/_?m=deeplink&lmsrc=homePageWeb&cmid=WebSignIn#/pre-join-calling/19:c06d0e54.... A notification states: "You're recording You are recording this meeting. Be sure to let everyone know that they are being recorded. Privacy policy".

The main content area displays a code editor with Python code for building time series data:

```
[code]syntax lang="python"
TIME_STEPS = 60
def build_time_series_data(x, y):
    row_dim = TIME_STEPS
    col_dim = 1 + row_dim
    third_dim = x.shape[0] - TIME_STEPS
    print(third_dim, row_dim, col_dim)
    x_line_series_data = np.zeros((third_dim, row_dim, col_dim))
    y_line_series_data = np.zeros((third_dim, 1))
    num_date_corresponding_to_y = np.zeros((third_dim))
    for x in range(third_dim):
        x_line_series_data[x] = x*(TIME_STEPS-1)
        x_line_series_data[x] = y*(TIME_STEPS-1)
        num_date_corresponding_to_y[x] = 0
    return x_line_series_data, y_line_series_data, num_date_corresponding_to_y
x_train, time_series_data, y_train, num_date_corresponding_to_y = build
x_line_series_data, y_line_series_data, test_num_date_corresponding_to_y = build
```

The bottom of the screen shows a meeting control bar with a timer at 01:42:53, icons for mute, video, chat, and other controls. A participant list at the bottom includes Venkata Rama Raju L and several other users represented by initials (B0, 4, A0, P0, V0, 2U, S0, V, H, PK, VL).

A grid of six video thumbnails from a Microsoft Teams meeting. The thumbnails show participants in various settings, including a man with a mustache in a white shirt, a man in a blue and white striped shirt, a man in a blue shirt, and a woman in a patterned top. The bottom of the grid shows a control bar with icons for mute, video, chat, and other controls, along with a participant list including H0, 4, A0, 2U, and PK.

This workshop was a very successful and the students of BCA III Year have gained immense knowledge on Machine Learning using Python.

ANDROID WORKSHOP with NSIC

Bhavan's Vivekananda College had conducted the workshop under DBT-Star Scheme, in partnership with NSIC, hosted an Android Development Workshop for 11 days (March 8th to March 31st, 2021). Ten students attended the workshop from B.Sc final year and second year. Mr.Vishal Kumar Putchala was the mentor .Designation: Technical faculty in NSIC.

Timings: 4 pm to 5 pm on a working day.

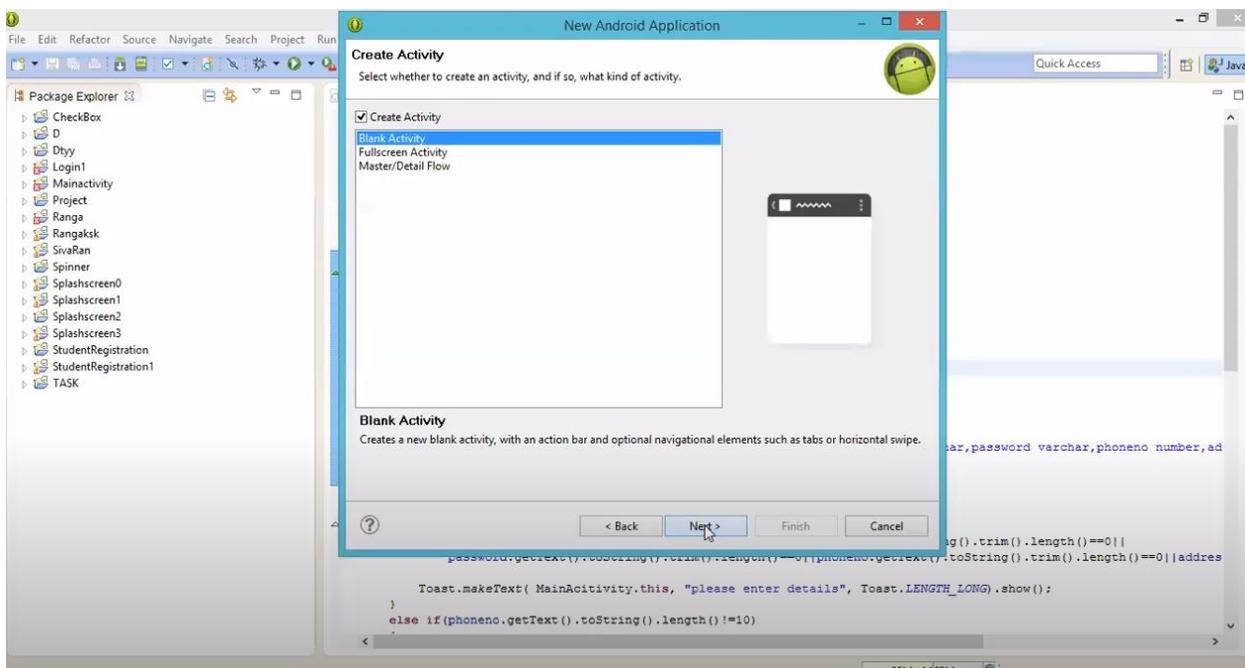

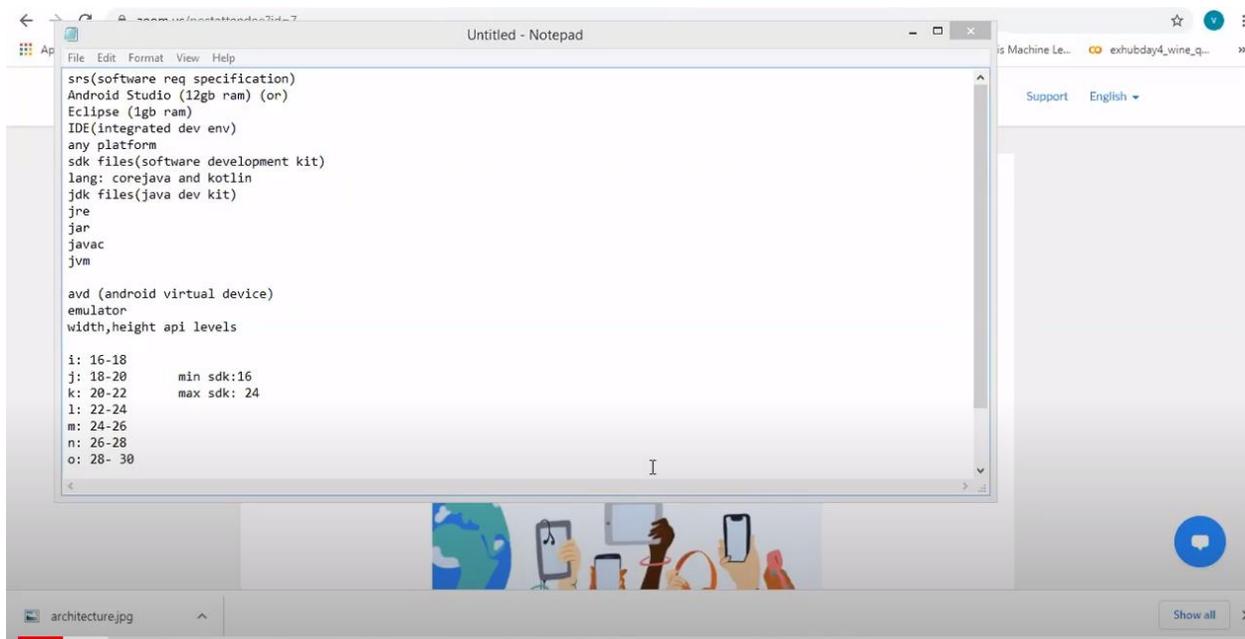

Lecturers attended: Mrs. K.Padmapriya and Mrs.M.Amitha

BSC Students attended: 10 --- 4 Students(BSC-Second years)+ 6 Students(BSC- Third Years).

Day1 (8/3/21)

Mr. Vishal has introduced the SRS-software requirement specifications for the development of Android apps. The design of Android, various API levels of Android versions, and various databases used in Android were discussed. He demonstrated us how to make an Android sample project, how to install the Android virtual device, how to build new activities, how to design (.xml), code (.java), and use palette objects (plain text, text field), and how to operate the application (project) in the emulator.

Day2 (9/3/21)

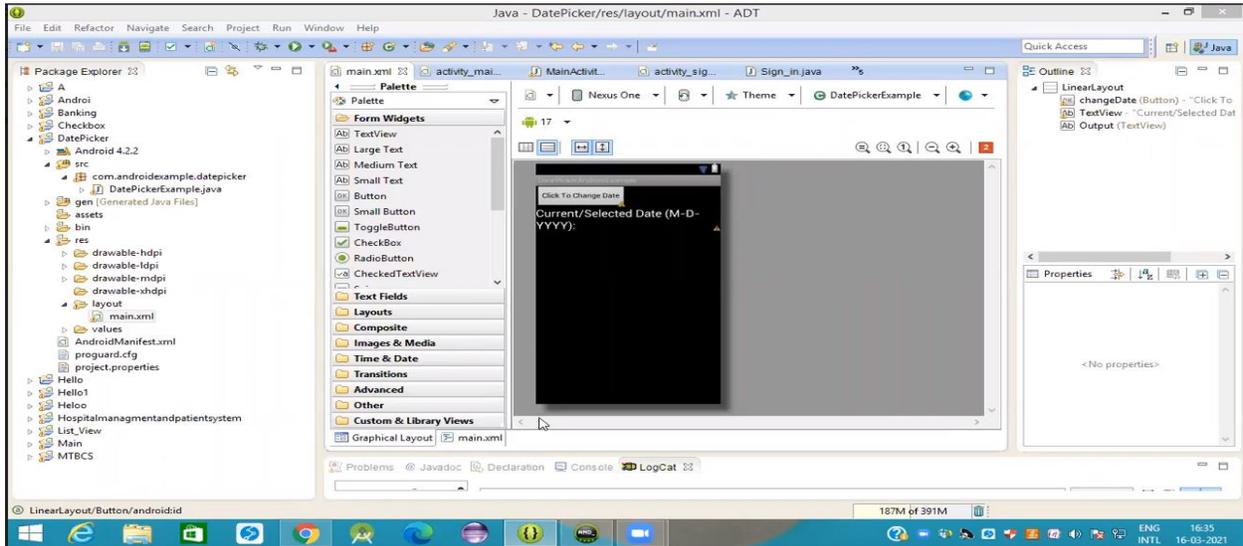

The workshop began with a review of the previous day's topics. Following that, he showed us how to build backgrounds for the activities. Using buttons in the project and changing their colors. Defining the palette objects' variables, assigning actions to the buttons, and connecting the activities to the next activities (Intent). Mr Vishal spoke about splash screen coding, manifest files, and purpose intent filter. He went on to explain a couple of his smaller projects later.

Day3 (16/3/21)

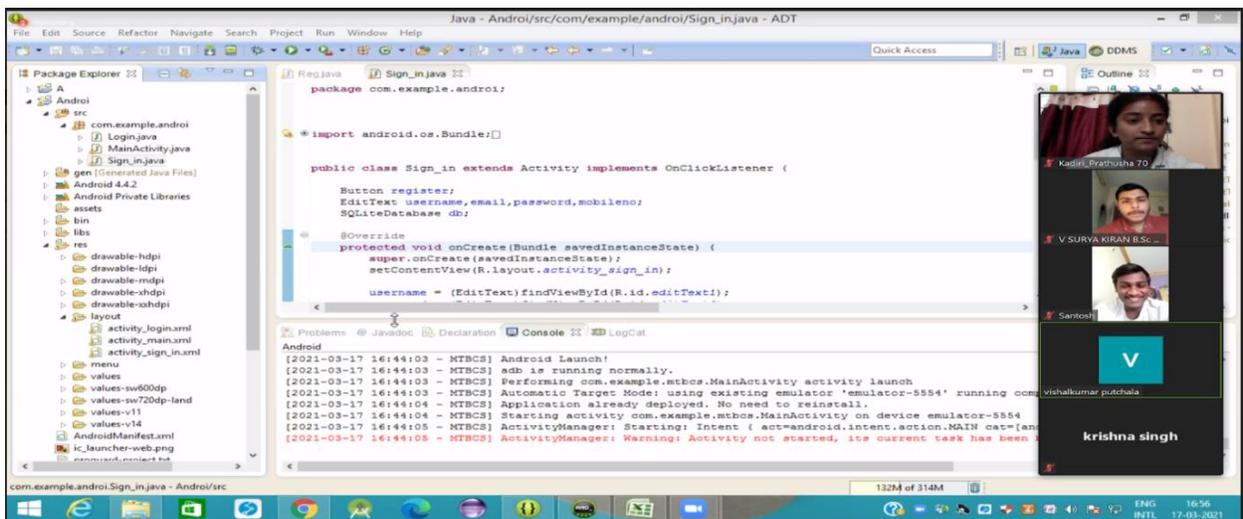

The session began with a review of previous topics and shortcuts. The implementation of login and sign-in pages, as well as the use of text hint in edit text and html color codes, came next. Using a string buffer, he implemented the date picker and checkbox principles. Mr Vishal

clarified the idea of a toast message and the various features (modules- admin feature, user feature, restaurant feature) of the Swiggy, Zomato apps.

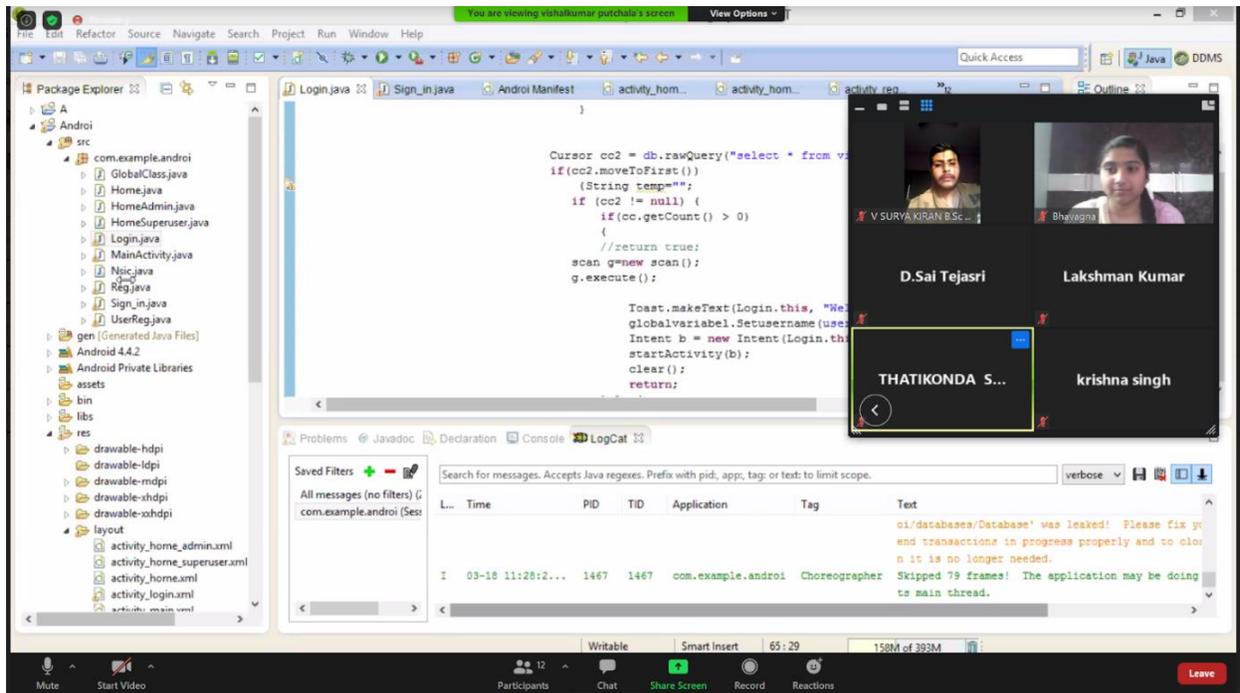

Day4 (17/3/21)

The session began with a description of the database that would be used for the project. How to create a user account on the sign-in page by entering a username, password, email address, and phone number. Creating a database and a table, as well as saving data to the database, using the SQLiteDatabase variable. Mr Vishal then went through the spinner list, the array adapter principle, and how to use it in the sign in page for various modules. Then comes how different tables for different modules can be created on the same page. He then demonstrated the idea of viewing data stored in a database and demonstrated the login page.

Day5 (18/3/21)

The session began with a review of all previously learned concepts. He demonstrated how the sign-in page functions and how a global class was created to validate data stored in the database using the sign-in page.

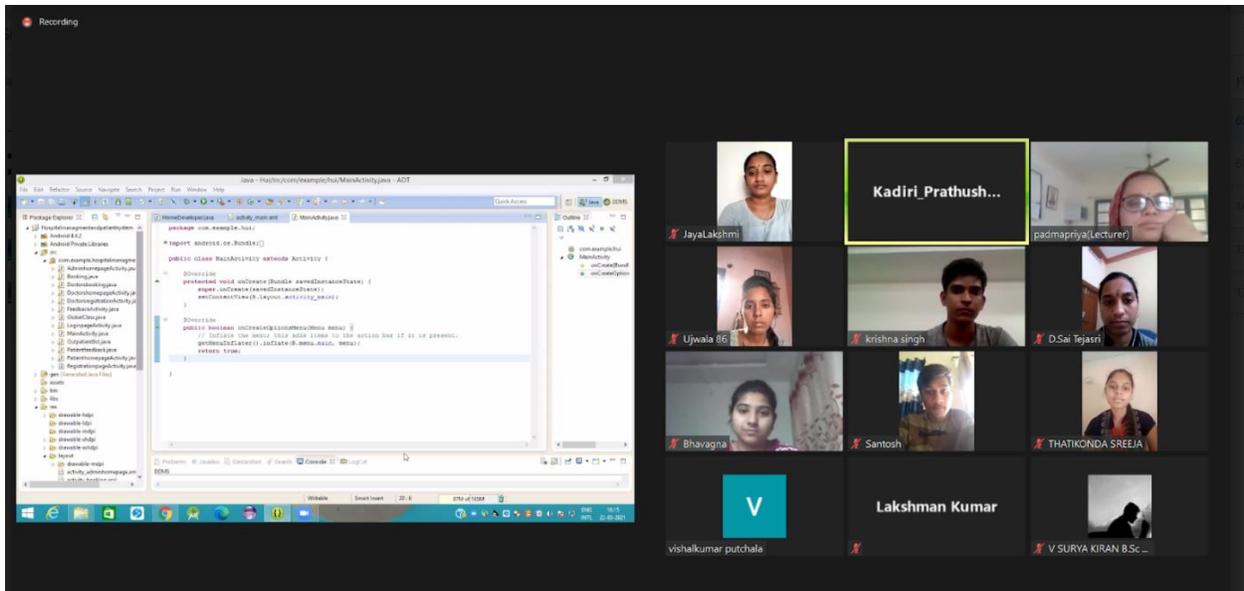

Day6 (19/3/21)

The session started by demonstration on how to use database connectivity to build a profile app (view the logged in user). Through making our own tables, he was able to show the users who signed into the database tables.

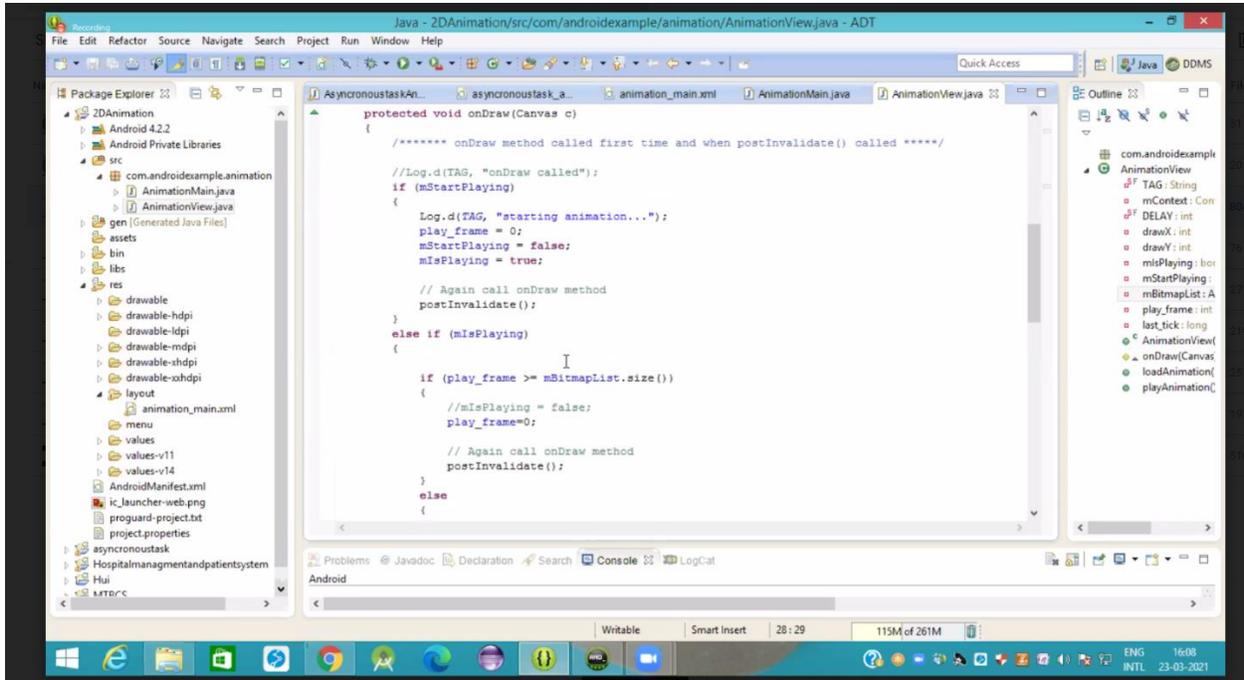

Day7 (22/3/21)

Mr Vishal demonstrated how to install the Java ADT in this session (Android development Tools).

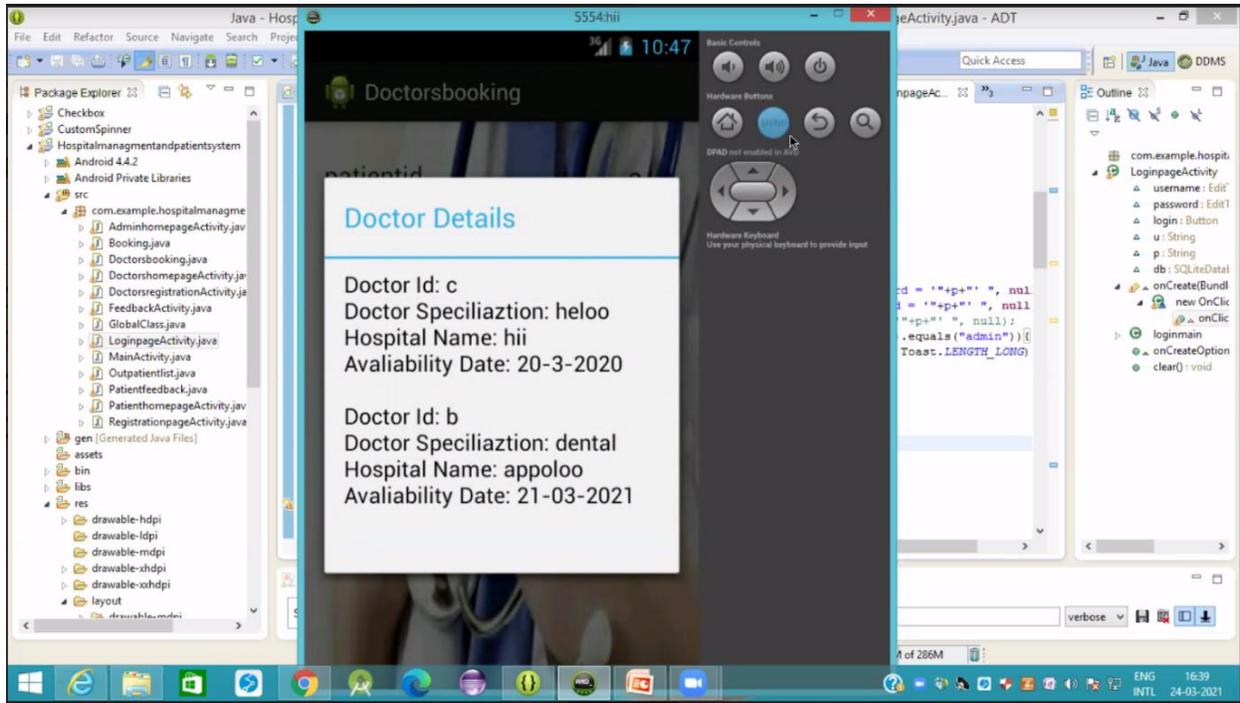

Day8 (23/3/21)

The session began with an overview of how to use URL links in the app and create 2D animations for the splash screen. Mr Vishal also taught us how to work with check boxes and data types. He explained SRS (Software Resource Specification), Android API Levels, Javac, JDK, and databases.

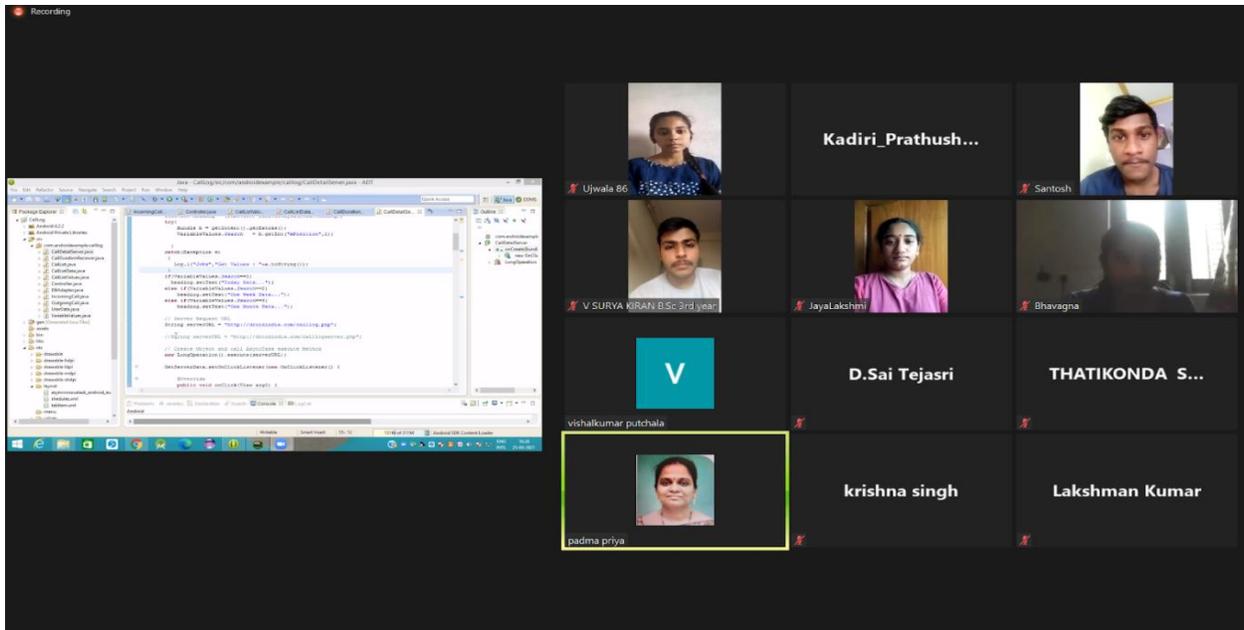

Day9 (24/3/21)

Mr Vishal discussed operators (types of operators) during this session. He demonstrated the custom spinner's service. Mr Vishal Spoke about the applications used in hospital management systems as well as the home super user app (how to place bugs, add projects, student profile).

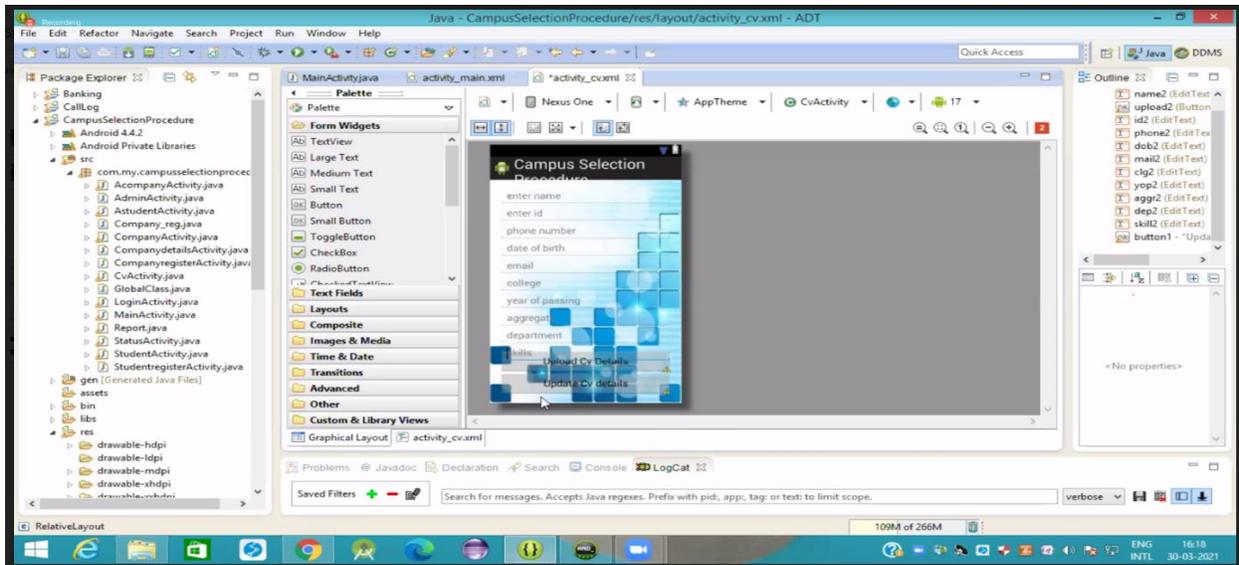

Day10 (25/3/21)

Mr Vishal taught us how to use shared preferences for logging in. He also went over the call logs app and the manifest file in the call log app (how to use permissions).

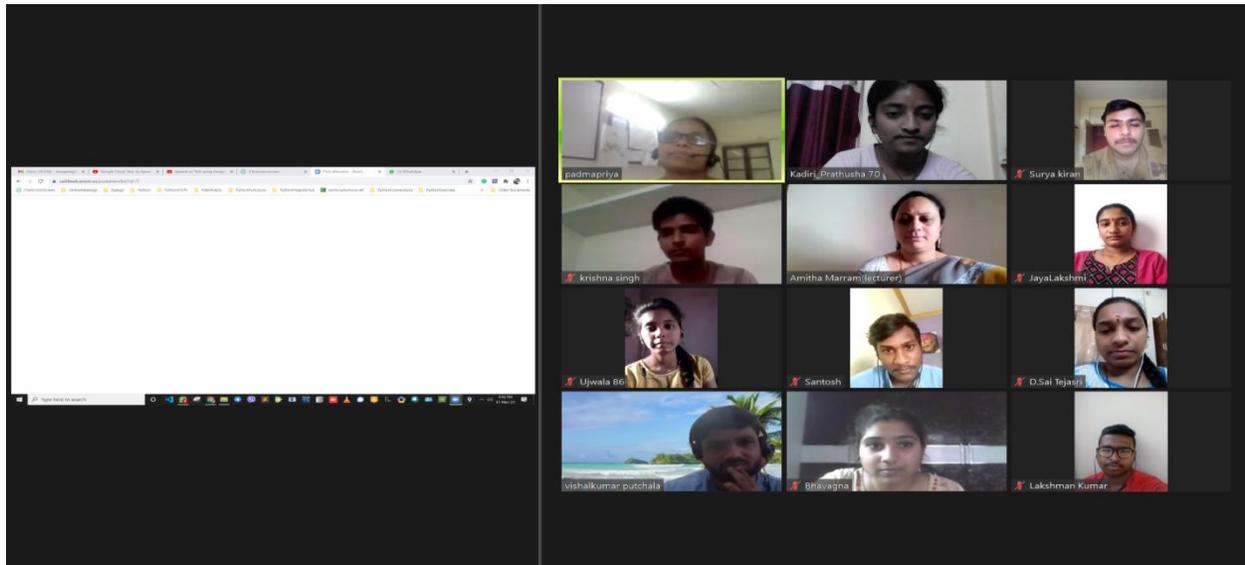

Day11 (30/3/21)

Mr Vishal taught us how to use Android Studio to introduce Google Maps, which allows us to see our current position on the globe. How to use API key for Google Maps. He also went over the app for the campus selection process and the app for the multi banking transaction scheme. He also went over grid view architecture and how to make an adapter in grid view java.

Conclusion:

Overall, the workshop was creative, Knowledgeable, and beneficial to our professional growth. On various platforms, we were able to learn android programming. We are grateful to the college administration for providing us with this opportunity.

Report on Data Science Workshop to BCA students from 4-3-2021 to 23-3-2021 (11 days)

The college collaborated with **NSIC** to conduct a workshop on Data Science to 10 of our BCA students. The lecturers participated from the department are **Mrs. KVB Saraswathi**, HOD, Dept. of CS, BVC and **Mr. N. Bhaskar**, Course coordinator, M.Sc(CS) Program, Dept. of CS, BVC. The details of course as follows:

Institution Name : NSIC, Kamala Nagar , Secunderabad.

Duration of Course : 11 Days

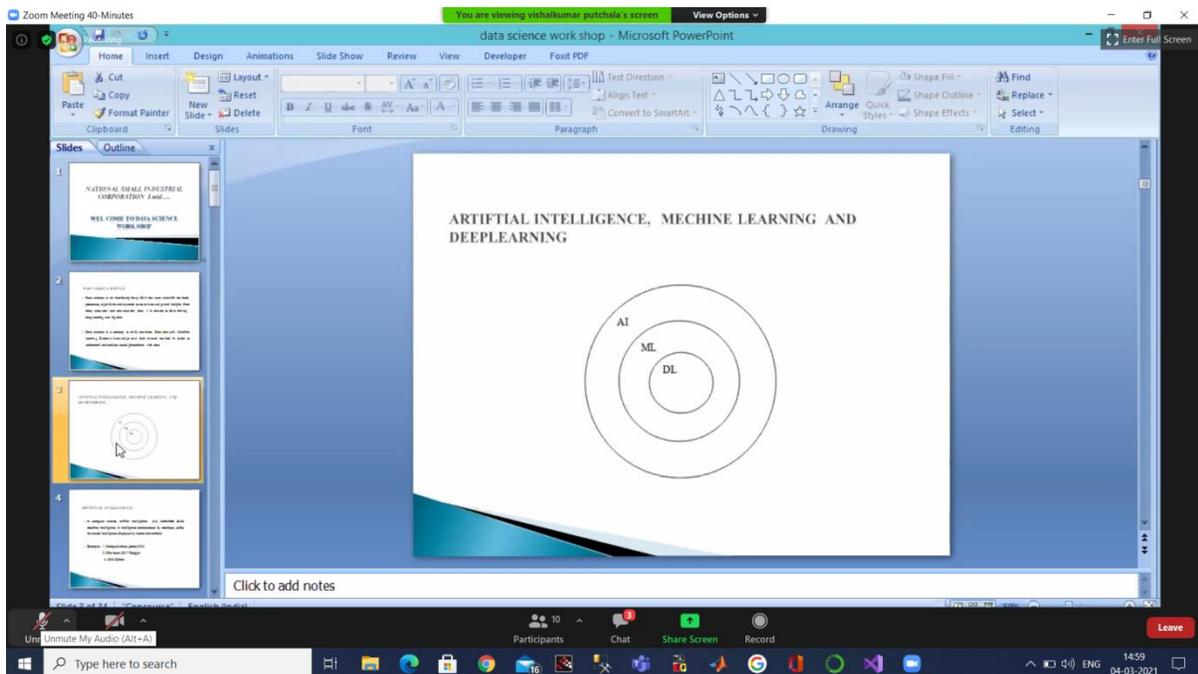

Dates of course : 4-3-2021 to 23-3-2021

Mode of Training: online

Instructor : Mr. Vishal, B.Tech, 5 years experience

The workshop is conducted in online mode with the following concepts covered each day:

4-3-2021 : Introduction to Data Science and its components like AI, Machine Learning, Deep Learning concepts.

WHAT IS MACHINE LEARNING

- Machine learning is an application of artificial intelligence (AI) that provides system the ability to automatically learn and improve from experience without being explicitly programmed , machine learning focuses on the development of computer programs that can access data and use it learn for themselves
- The process of learning begins with observation or data , such as example. Direct experience or instruction in order to look for patterns in data and make better decisions in the future based on the example that we provide ,the primary aim is to allow the computer learn automatically without human interaction or assistance and adjust actions accordingly.

23-3-2021 – Machine Learning Project explanation in detail with data sets and different sources.

24-3-2021 - Machine Learning Project with deep learning analysis and connection with reports.

The students were satisfied with the concepts covered by the instructor and they could able to interact with instructor for doubts clarification. The students have the clear idea different normal application projects and data science projects. The students interacted with instructor for doubts on the topics discussed. It was really interactive workshop.

National Science Day Report- 2021

BHAVAN'S VIVEKANANDA COLLEGE
OF SCIENCE, HUMANITIES & COMMERCE
SAINIKPURI, SECUNDERABAD - 500094
AUTONOMOUS COLLEGE, AFFILIATED TO O.U.
ACCREDITED WITH 'A' GRADE BY NAAC

NATIONAL SCIENCE DAY 2021

FUTURE OF STI:
**IMPACT ON EDUCATION,
SKILLS AND WORK**

UNDER DBT - STAR COLLEGE SCHEME

1ST
MARCH
2021

CHIEF GUEST AND KEYNOTE SPEAKER

Prof. S. Jeelani

Former Scientist NRSC ISRO
Former Head UGC Regional Office
Present Director CDVL
City Campus HCU

Time: 10:30 AM

Online Platform: Zoom
Click here

Student Activities

Physics & Electronics

E-poster on Technology in Health Care
Participants should send the poster on or before 28/02/2021
Click on the link to submit the poster
<https://forms.gle/6STFW4WtFsgjeU4L7>

Mathematics & Statistics

1. Essay of 250 words on 'Future of STI: Impact on learning skills in Mathematical Sciences'
Click on the link to send the essay, <https://forms.gle/SIfiHPP2CKMNF9>
for queries contact Mrs. G Santhipriya, 7330817930

2. National Level E-quiz on 'Scientific Analysis in Statistics'
Click on the link to attempt quiz, <https://forms.gle/CXhXfWAbVqAfDdHb7>
for queries contact Mrs. P. Rajini, 9949021332, Mr. Chandan Babu, 9392252883

(Link will be opened for Mathematics & Statistics from 26/02/2021 12:00 Noon to 01/03/2021 12:00 Noon)

Organized by
Faculty of Physical Sciences

Computer Science, Mathematics & Statistics, Physics & Electronics

e-Certificates will be
provided to participants

National Science Day-2021, was organized by the Faculty of Physical Sciences, Bhavan's Vivekananda College on the 1st of March' 2021 under DBT-Star College Scheme. It was an online event conducted on Zoom platform. The theme for the year 2021 given for the Science Day is "Future of STI(Science, Technology and Innovations): Impacts on Education, Skills and Work".

The guests who graced the occasion were, Prof Y Ashok, Principal, Bhavan's Vivekananda College and Chief Guest and Keynote Speaker for the Day, Prof S. Jilani, Former Scientist, NRSC, ISRO, Former Head, UGC Regional Office, Present Director, CDVL, City Campus, HCU.

The event began with the Welcome address by Mrs K V B Saraswathi, Head, Department of Computer Science.

Prof Y Ashok, spoke on the importance of Science and Technology and also reminded the historic invention by Sir C V Raman, "the Raman Effect", for which he was awarded the Noble Prize.

He also motivated the students to gain hands-on experience in the field of Science and to inculcate scientific reasoning.

Prof S Jilani, the keynote speaker for the occasion focused on various important aspects such as:

- Contribution of Higher Education to the society
- The contribution of some great scientists
- New paradigm in science and education
- Role of Satellites in developing Science and Technology
- Importance of Robotic Technology
- Nano Technology
- Technology in Health and Medical Care
- Technology and Transformation of Society
- Expectations of Society and Students.

Student Activities conducted as part of the National Science Day are:

- i. Student Presentations on the projects developed on Android Platform conducted by the Dept. of Computer Science.
- ii. E-Poster on Technology in Health care, conducted by the Department of Physics and Electronics.
- iii. The Department of Mathematics and Statistics had conducted two activities: Essay writing on "Future of STI (Science, technology and Innovations): Impact on learning skills in Mathematical Science and E-Quiz on "Scientific Analysis in Statistics."

The event concluded by Vote of thanks given by Mrs K Padmapriya, Lecturer, Dept. of Computer Science. There were a total of 150 students who participated.

**DATA SCIENCE USING PYTHON
WITH HANDS-ON SESSION**

8th-17th February, 2021
8 Days

Organized by
Department of Computer Science
(Under DBT - Star College Scheme)

An 8-day National Level Online Faculty Development programme is being organised by Department of Computer Science, Bhavan's Vivekananda College, under DBT-Star college scheme from 8th February 2021 to 17th February 2021.

Day 1:

The day1 began with Mr.P.Srinivasa, incharge of FDP, welcoming the participants. It was followed by the welcome address by Mrs. KVB Saraswathi, HOD Computer Science.

The first session was taken by one of the senior faculties of the Department of Computer Science, Mrs.K.Padma Priya on the installation of Anaconda and the basic concepts of Python. The session was continued by Mr G.Mahesh Kumar, Assistant Professor, Department of Computer Science, where he demonstrated regarding Python Data Structures.

There were 110 participants in the session.

Day 2:

The day 2 began with the inaugural of the programme where Vice Chairman Air Cmde. J.L.N Sastry, VSM and Principal Prof Y.Ashok addressed the participants. Mrs KVB Saraswathi, Head Department of Computer Science welcomed the speaker of the programme, Mr. Shashank Agoyanker. The topics covered for the day include introduction to numpy and pandas, creation and retrieval of data from a file into Jupyter Notebook, downloading a dataset from Kaggle and working with dataset using various functions available in Python.

There were 90 participants in the session.

Day 3:

The day 3 session was on data cleaning methods and graph plots where various graph types were demonstrated. The topics discussed of day that were covered are:

- Exporting Data to various formats
- Cleansing Data with Pandas
- Data Manipulation steps (Sorting, filtering, duplicates, merging, appending, sub setting, derived variables, sampling, Data type conversions, renaming, formatting etc)

There were 82 participants in the session.

Day 4:

The day 4 session was on supervised machine learning. The topics discussed of day that were covered are:

- Supervised Machine Learning algorithms with examples (case studies) using python.

There were 67 participants in the session.

Day 5:

The day 5 session was on unsupervised machine learning. The topics discussed in the session are:

- Unsupervised Machine Learning algorithms with examples (case studies) using Python

There were 82 participants in the session.

Day 6:

The day 6 session was on data analysis. The topics discussed in the session are:

- Introduction exploratory data analysis
- Descriptive statistics, Frequency Tables and summarization
- Univariate Analysis (Distribution of data & Graphical Analysis)
- Bivariate Analysis (Cross Tabs, Distributions & Relationships, Graphical Analysis)
- Creating Graphs- Bar/pie/line chart/histogram/ boxplot/ scatter/ density etc)
- Data Visualization – Seaborn, Matplotlib
- Google Maps Visualization – Plotly, Coronavirus 2019-20 Visualization on World Map

- Time series Plot of Novel Covid19 Data

There were 64 participants in the session.

Day 7:

The day 7 was on Deep Learning. Various deep learning techniques were discussed. The topics covered in the session include:

- Single & Multi-layered Neural Networks
- Perceptron , Concept of Single Neuron , Logic gates , Inputs, weights, biases
- Various activation functions in neural networks – Unit Step, Sigmoid, ReLu, Softmax, and hyperbolic functions , Single Layer Perceptron
- Introduction to Multilayer Neural Network , Concept of Deep neural networks ,Multi-layer perceptron
- Capacity and Overfitting ,Neural network hyperparameters
- Backpropagation convergence , Forward propagation, overfitting, hyperparameters
- Training of neural networks
- The various techniques used in training of artificial neural networks
- Gradient descent rule , Perceptron learning rule

There were 68 participants in the session.

Day 8:

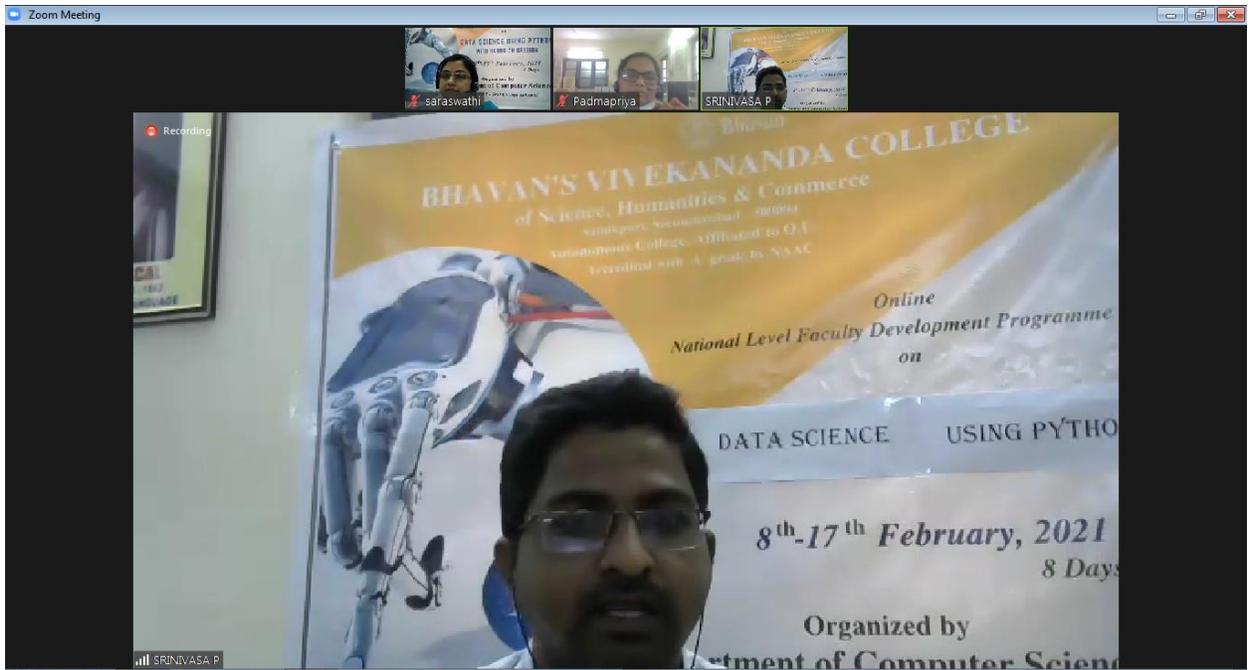

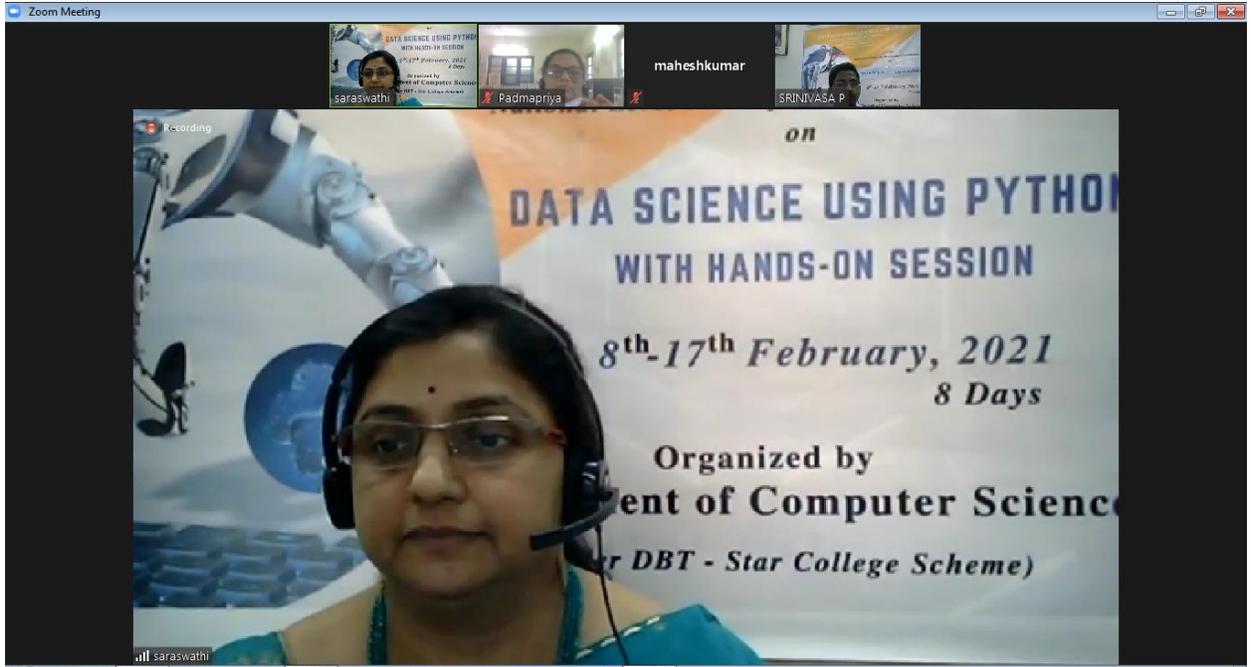

The day 8 session was on Neural Networks. The topics discussed were:

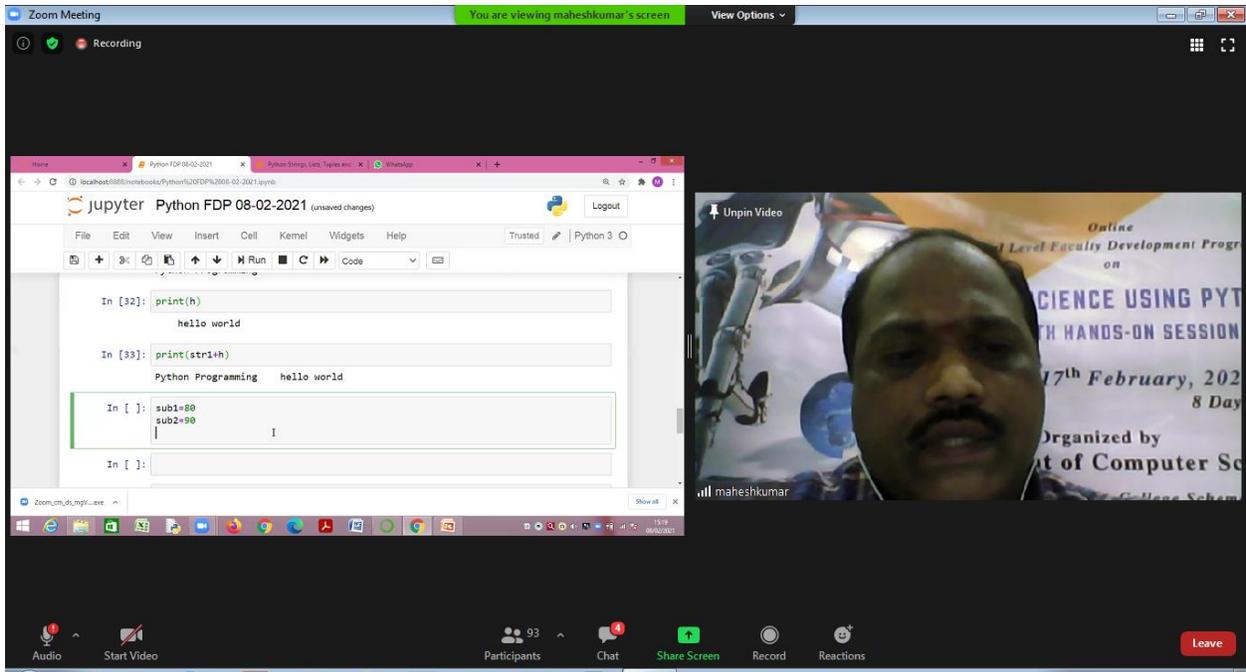

- CNNs (Convolutional Neural Networks)
- Convolutional Neural Network
- Understanding the architecture and use-cases of CNN
- Pooling Layer, how to visualize using CNN?
- How to fine-tune a convolutional neural network
- What is transfer learning, Kernel filter, Feature maps, and pooling
- Deploying convolutional neural networks in TensorFlow.

The 8-Day FDP concluded with the valedictory session. Principal, Prof Y Ashok, Bhavan's Vivekananda College was the Chief Guest for the Valedictory. He had appreciated the efforts of the Department in taking up the FDP and the Speaker for an informative session.

The day wise report was given by Mrs. KVB Saraswathi. The program ended by the vote of thanks of Mr. P. Srinivasa.

There were 89 participants in the session.

GUEST LECTURE- INTERVIEW SKILLS

On 23rd January 2021, the department of Computer Science conducted its guest lecture on “**INTERVIEW SKILLS- by Sushma Uday**”. This lecture was exclusively conducted for all BCA students in online mode with Virtual Platform using **Microsoft teams** under the guidance of Mrs KVB Saraswathi (Head of the Department), Mr G Mahesh Kumar (Course Coordinator of BCA) and Mrs Jayalaxmi (Lecturer in Computer Science department).

BHAVAN'S VIVEKANANDA COLLEGE

Guest Lecture on **Interview Skills**

23 January, 2021
10:00 am

Organized by
Department of Computer Science
Under DBT-Star College Scheme

Speaker

Sushma Uday

Senior Manager,
HR Business Partnering,
Capgemini

Contact:
Mrs. K.V.B.Saraswathi
Head, Dept. of Computer Science

Mr. G. Mahesh Kumar
BCA Course Coordinator,
Assistant Professor,
Dept. of Computer Science,
9849874907

Mrs. S. Jayalaxmi
Assistant Professor,
Dept. of Computer Science
9989440261

Platform: Microsoft Teams

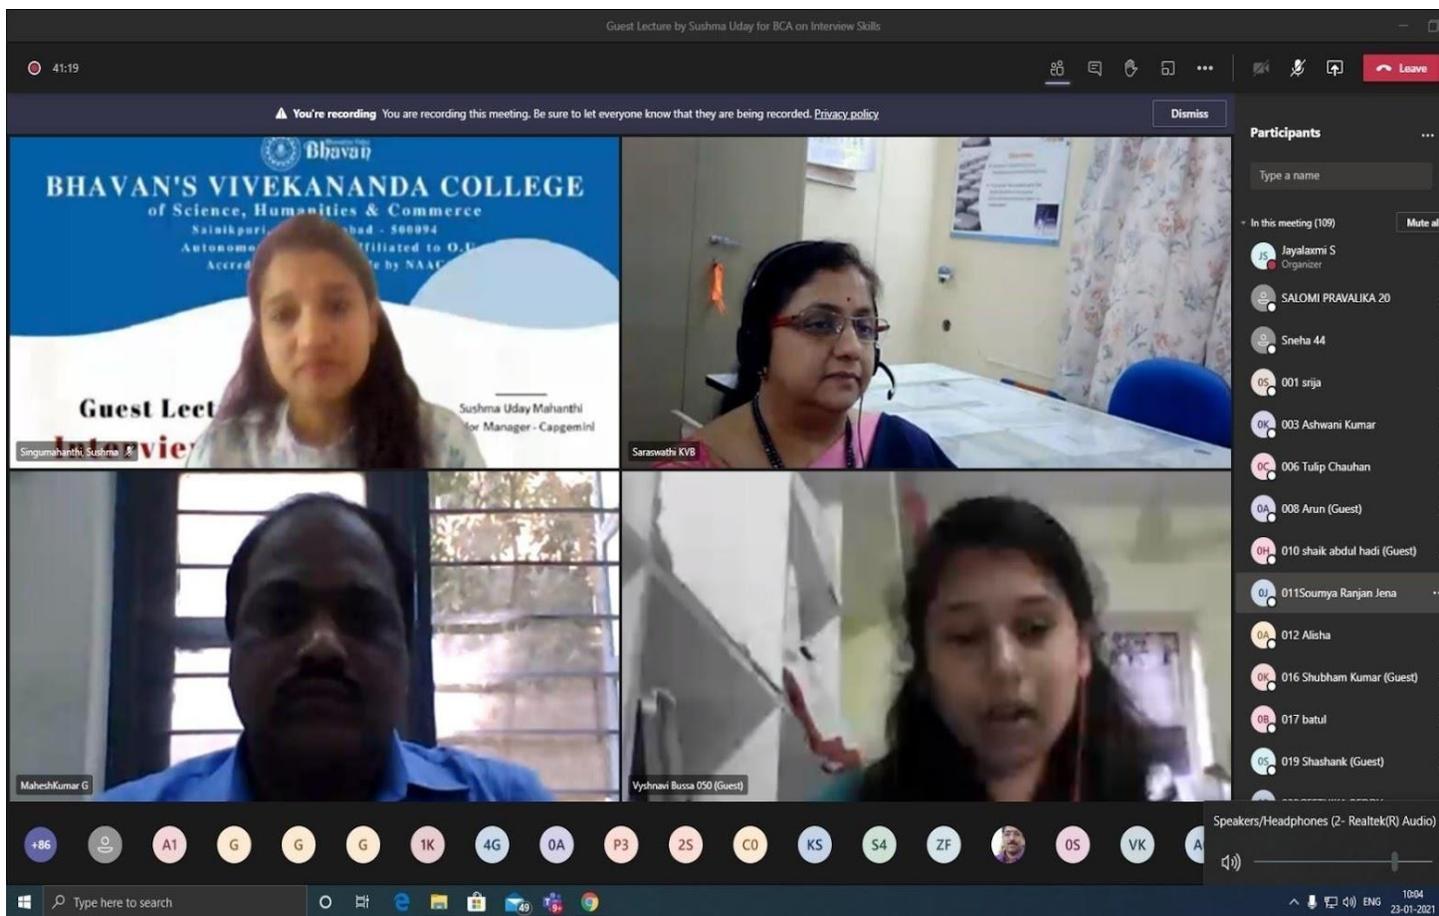

[Click here](#)

Before we started the lecturer Head of the Department, Mrs KVB Saraswathi has welcomed the guest on behalf of the college and addressed the students with some motivational words.

Then the event was followed by inviting Guest Speaker for the day Mrs Sushma Uday who is working as Senior Manager in the field of HR Business Partnering in Capgemini Organisation.

As the session was very interactive, students and the faculty participated in session very actively and it was very informative and interesting. Also, this session has helped each and every student to develop their communication skills, body language and how to attend an interview in a right manner.

There were 43 student participants for the session. On the whole, students gave their responses through the Feedback form which is completely a positive feedback from students and lecturers as well. Students are very well benefited from this guest lecture.

Dismiss

Answering questions Various approaches:

- Top down Start with the main point you want to get across and then expand with some detail.
- Number your points For example 'I have three points to make'

STAR Useful for competency based questions
(Remember the question and what you are trying to demonstrate!)

Structure

- Situation: give a context by describing the situation
- Task: what was your goal?
- Action: tell the interviewer your specific actions - this should be the biggest part of your answer
- Result: shows yourself in a good light, even if the overall project was not a success

STAR INTERVIEW METHOD

S Situation
Describe the context

T Task
Provide details on your responsibilities

A Action
Demonstrate how you responded or took charge

R Result
Explain the impact you made or the lessons you learned

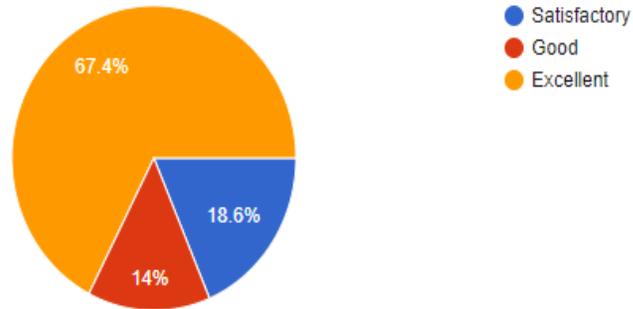

Management Consulted

Singamahanthi, Sushma

Charles Babbage Day

Charles Babbage was considered to be the Father of Computer after his invention and concept of the Analytical Engine in 1837. The Analytical Engine contained an Arithmetic Logic Unit(ALU), basic flow control, and integrated memory; hailed as the first general purpose computer concept.

Department of Computer Science

The Computer Science Department of Bhavan's Vivekananda College is Celebrating its 15th Charles Babbage Day in commemoration of the birth of Charles Babbage. (The Father of Computer)

Program Schedule

- 10.00 A.M.** : Inaugural Session
- 10.30 A.M.** : *“Machine Learning Technology and Applications”*
-Dr.CRK Reddy
Professor & Head,Dept. of CSE,MGIT,Hyderabad
- 11.30 A.M.** : Best Student Project Presentations
- 12.00 Noon** : IT – Quiz Finals and Best Startup Idea
- 01.30 P.M.** : Lunch Break
- 02.00 P.M.** : *“Role of Personality Development & Soft Skills in securing IT Jobs”*
-Mr. Upamanyu Sengupta
Senior Soft Skills Coach, Cognizant Infra Services,
Soft Skills CoE, Pune
- 03.00 P.M.** : Valedictory Session - prize distribution and vote of thanks

Charles Babbage Day was celebrated at Bhavan's Vivekananda College on 8th January, 2021. The Department of Computer Science of the college organised the event in commemoration of the birthday of CHARLES BABBAGE, the Father of Computers. The guest speaker for the day was Dr. C.R.K. Reddy (MGIT). Air Cmde(Retd) J L N Sastry (VSM), Vice Chairman BVB; Principal Prof Y Ashok ; Mrs. KVB Saraswathi Devi, Head, Dept of Computer Science, were the dignitaries for the inaugural session.

Dr. C.R.K. Reddy, the guest speaker of the day spoke on Artificial intelligence, machine learning, deep learning and their real time applications in the present day scenario.

Students presented their projects, and a total of 17 teams (40 Students) participated. The projects were done by I, II, and III year students of B.Sc & BCA on various platforms like Android, PHP, Firebase and MySQL.

Fusion tech conducted the following two events.

The "PICTURE HEIST" in Virtual Platform on 18th & 19th of December 2020. The game was all about finding hidden objects from the given pictures which were followed by 2 rounds. The Picture Heist Event had 14 participants

Second event was "ABHIMANTRAM - The Silicon Valley for Start-up Ideas" held on 05 January 2021 which invited start-up ideas from students. The best three start-up ideas were awarded.

A report on the day's events was given by Mr. Mahesh Kumar, Coordinator, BCA, at the valedictory function of the Fusion tech club. The Vice-Principal, Mrs. B Niraimathi appreciated the students on their performance and declared the new student heads of fusion tech club for the new academic year by presenting badges to them.

The students who have done the projects were felicitated. The winners of two events "PICTURE HEIST" & "ABHIMANTRAM" of the Fusion Tech club were awarded.

The event ended with a vote of thanks proposed by Mr. N. Bhaskar, Asst Prof, Dept. of Computer Science.

Quiz (Online Mode)
Conducted by
FUSION TECH
on
(06/01/2021)
6:00pm - 6:30pm

Rules:
1) Team of 2.
2) 30 Question's.
3) Time: 15min.

fusiontech_ 

On the day of Charles Babbage Day, i.e., on January 8, 2021 the final round of Technical Quiz is conducted on the Virtual Platform using “Microsoft Teams”. There were many rounds like picture quiz, tagline quiz and programming quiz which began with a qualifier round and the round was all about finding taglines of Reputed Companies.

The next round was followed by the Picture Quiz which is based on complete logical thinking. Students had to guess the technical words while the related pictures have been shown. Only 6 teams have qualified for the 3rd round in the final round.

Then the event followed by Programming Quiz, where students have to find the errors or else the output of the given program.

The first place was backed by Rohit and Kanishka from

The second place was backed by Anirudh and Sindhoori from

The third place was backed by Siddharth and Suhas from BCA 2nd Year.

ABHIMANTRANAM EVENT

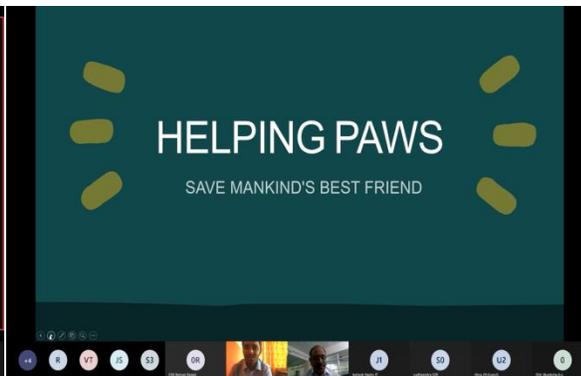

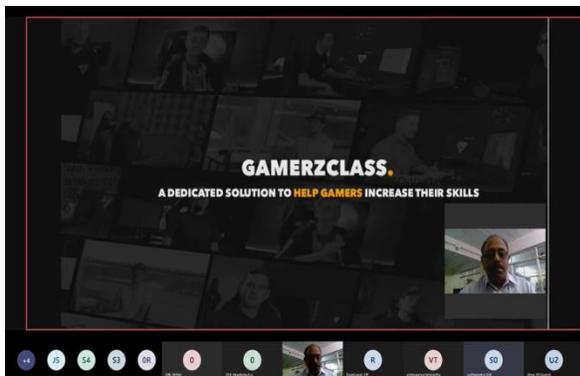

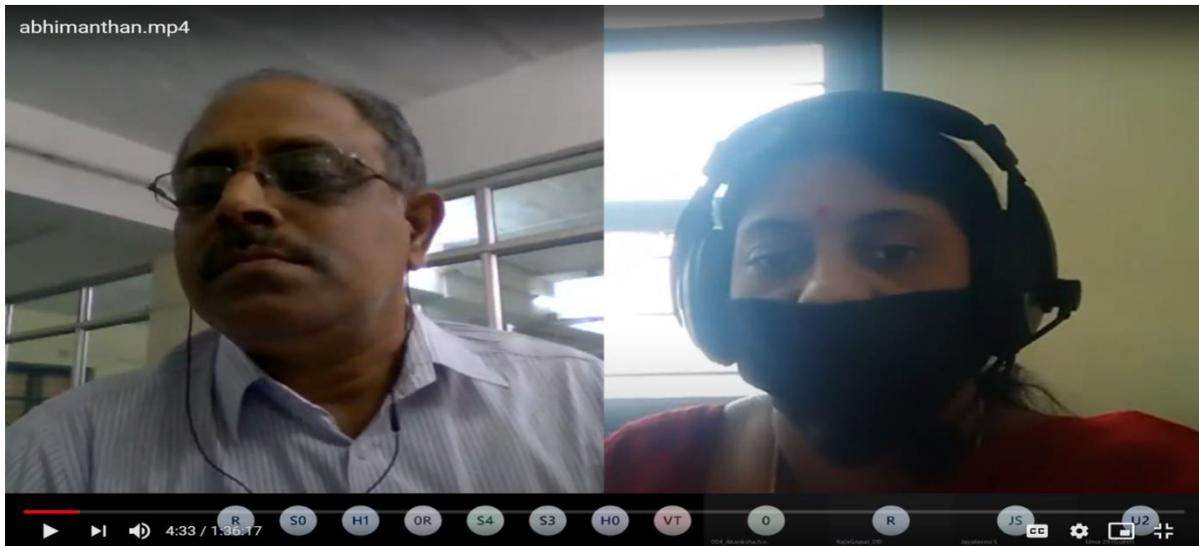

On 05 January 2021, Fusion Tech club has conducted its event “ABHIMANTRAM-The Silicon Valley for Start-up Ideas” for the upcoming event Charles Babbage Day on the Virtual platform TEAMS under the supervision Mrs. Jayalaxmi (Lecturer in Computer Science) and the Mr N Baskar (Lecturer in Computer Science dept.) who was the Judge for the event.

The program “**ABHIMANTRANAM**” was all about presenting their start-up ideas like solutions to the main problems which are faced by everyone in the society. The best idea will be further supported by the Team FusionTech and the lectures of the Computer Science Department.

Each and every team has presented their ideas very effectively in an efficient manner and then questionnaire session for each team who took part. The ideas presented by the students made judges so impressive and motivated them for the further process.

The best ideas are awarded on the day of Charles Babbage Day.

- Third Prize was backed by Vishnupriya and Rajagopal and their Startup ideas was **SKILL-UPGRAD**
- Second Prize was backed by Hareharan and Jagadish and their idea was **Find My Idea/Remote**
- First Prize was backed by Akanksha and NithinSriram and their idea was **HELP MEET**

PICTURE HEIST

On 18th December and 19th December, the Fusion tech club of BCA conducted their first 2 rounds of their first event “**PICTURE HEIST**” for the upcoming Charles Babbage day. It was an intra-college competition held under the guidance of Mrs JayaLaxmi, (Lecturer in Computer Science) and G. Mahesh Kumar (BCA Coordinator and Assistant Professor in Computer Science).

PR's interacted and explained about the game and instructed all the rules clearly. The game was to identify the hidden objects from a picture displayed on the screen and ask them to find answers within the given time, timer was maintained by one of the club heads and the answers was submitted via Google form.

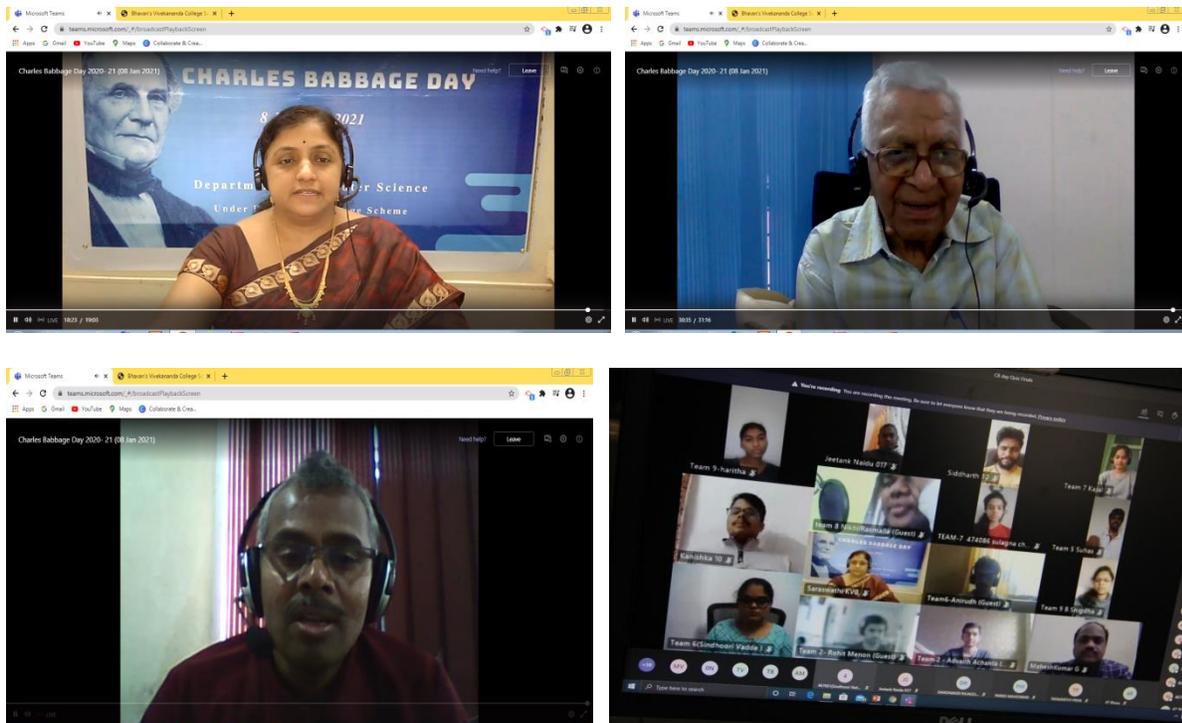

Students from various streams have actively participated with the great enthusiasm. The 1st round of “**PICTURE HEIST**” was conducted successfully and the top members were finalised for the

next round i.e., 2nd Round. Then the round 2 was followed on the next day, the finalists of first round are qualified for the second round and the finalists are participated very actively. Winners are declared based on the correct answers given within a short time.

The Winners of the Picture Heist event are:

- Neha Niranjana from BSc Btgc secured 2nd Place

Arun Thomas from BSc Btgc secured 1st Place

PICTURE HEIST

-FUSION TECH

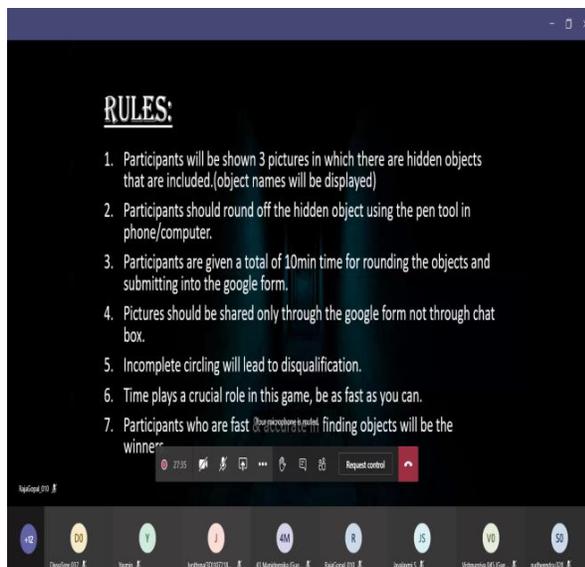

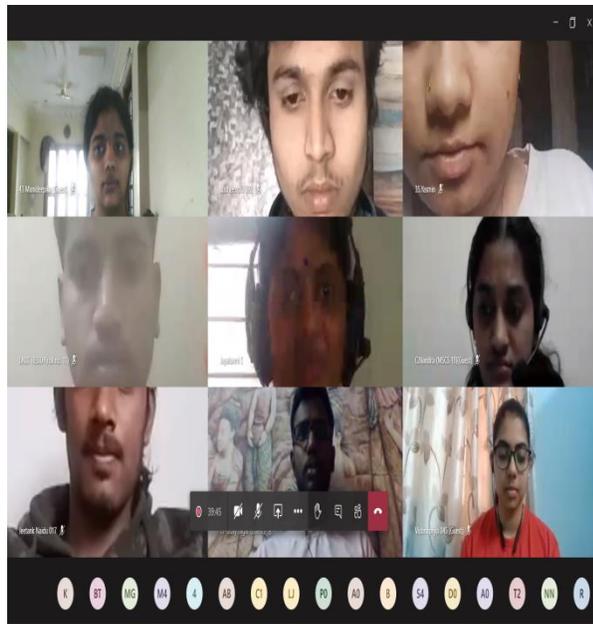

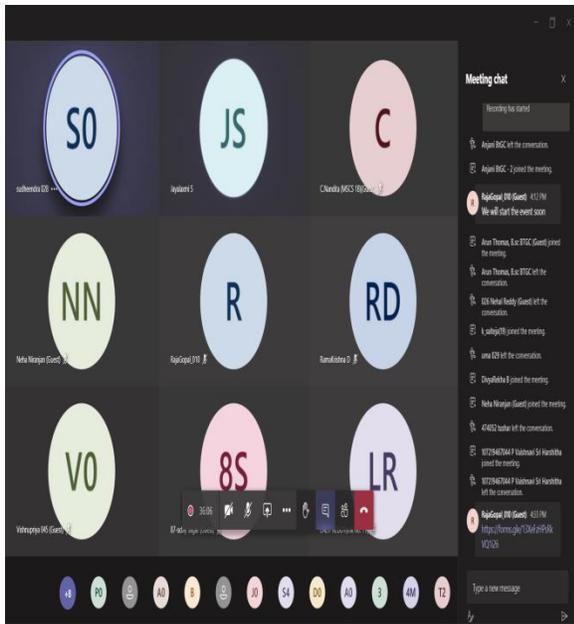

(ROUND-1)

RULES:

1. Participants will be shown 4 pictures in which there are hidden objects that are included. (object names will be displayed)
2. Participants should round off the hidden object using the pen tool in phone/computer.
3. Participants are given a total of 10min time for rounding the objects and submitting into the google form.
4. Pictures should be shared only through the google form not through chat box.
5. Incomplete circling will lead to disqualification.
6. Time plays a crucial role in this game, be as fast as you can.
7. Participants who are accurate in finding objects and are fast will be qualified for the next round.

PICTURE-2

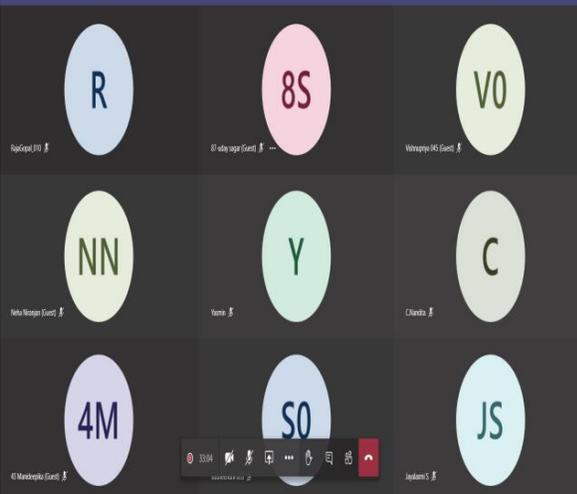

- A key
- A candelabra
- An alarm clock
- A shotgun

PICTURE-1

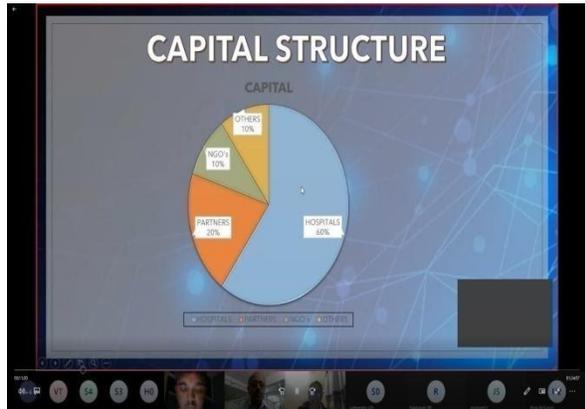

- Duck
- Glass of wine
- Teddy Bear
- Flamingo
- Clothes/laundry basket
- Sword
- Turntable

BHAVAN'S VIVEKANANDA COLLEGE

Bhavan's Vivekananda College of Science, Humanities and Commerce, Sainikpuri, has a long standing record of pursuing a policy of excellence through a holistic approach to education.

Founded in 1993, it has, over a period of 27 years, established itself as an institution of renown. At present the college enjoys the status of being autonomous. Housed in sylvan surroundings, it has a faculty of 127 and over 3,600 smart, vibrant and talented students.

The college focuses on all-round development of students which includes academics, co-curricular & extra-curricular activities and sports with a vision to promote "youth empowerment with culture, knowledge and strength of body and mind."

DEPARTMENT OF COMPUTER SCIENCE

The Computer Science department has been an integral part of the college since its inception. It started with one undergraduate course – B.Sc (Computers). As of now it offers B.Sc, BCA, B.Com (Computers), and M.Sc (Comp.Sci.). The department has a dedicated faculty of 30 members with commendable experience in teaching.

The main objective of Computer Science department is to provide the computer science students a platform to know, learn and bring awareness of the emerging trends in Computer Science and Information Technology.

ABOUT CONFERENCE

The International E-Conference on Advanced Computing Technologies-2020, aims to bring together leading academicians, scientists, researchers, industrialists, students to share their thoughts and ideas on Advanced Computing Technologies.

The basic intention of this conference is to accelerate your knowledge on the existing and upcoming technologies.

Themes for the conference have revolved around the latest Computing Technologies in different domains such as Cloud Computing, Block Chain Technology, Internet of Things, Artificial Intelligence, Robotics, Cyber Security, etc.,

All honorable authors are kindly encouraged to contribute to and help shape the conference through submissions of their research abstracts, full papers on the said topic, with domains of your interest of research. We have eminent and dynamic speakers to motivate the participants towards new computing technologies. The papers that will be published in the reputed publication will be the road-map that paves way towards the future. We expect the audience to access the deliverables of eminent speakers, from across different parts of the world and update their knowledge towards advanced computing technologies.

CONFERENCE TOPICS

- Cloud Computing
- Internet of Things – IoT
- Blockchain Technology
- Artificial Intelligence
- Cyber Security
- Big Data
- Robotics

Note: The Research topics are not limited to the above list and authors can submit their papers in the relevant fields and disciplines which are suitable for the above conference.

REGISTRATION FEES

Registration amount for publishing:

Scopus Indexed Journals:
Faculty/Research Scholars/Industrialists/Students(UG/PG):
Rs. 14000/- (per paper - maximum three authors per paper)
Note: At least one of the registered authors can present paper in the conference.

Web of Science Indexed Journals:
Faculty/Research Scholars/Industrialists/Students(UG/PG):
Rs. 8000/- (per paper - maximum three authors per paper)
Note: At least one of the registered authors can present paper in the conference.

Peer Reviewed Journals:
Faculty/Research Scholars/Industrialists/Students(UG/PG):
Rs. 800/- (per paper - maximum three authors per paper)
Note: At least one of the registered authors can present paper in the conference.

Registration amount for Paper Presentation only:
Faculty/Research Scholars/Industrialists/Students(UG/PG):
Rs. 500/-

Faculty/Research Scholars/Industrialists/Students(UG/PG): Rs.100/-

SUBMISSION GUIDELINES

- Abstract should include 5 keywords and should not exceed 250 words.
- The full paper should be of max 3000 words, typed in Ms- Word with 1.5 line spacing and font Times New Roman, size 12-pt with 1-inch margin on all sides.
- The Abstract/Full Paper should be mailed to : icact2020@bhavansvc.ac.in
- Title of the Paper, Authors Full Name, Designation, E-mail id and Name of the Organization should be mentioned clearly in the abstract and full paper.
- Selected Papers will be published in UGC Care listed Journals/Scopus Indexed Journals/Web of Science Indexed Journals.
- PPT should be presented online for which link will be provided through Whatsapp/Telegram/E-mail.

REGISTRATION DETAILS

Registration is Compulsory for Participation, Presentation and Publication of Papers.

PAPER SUBMISSION SCHEDULE (LAST DATE)

- Paper Abstract Submission: 05-09-2020 (Saturday)
- Abstract Acceptance Notification: 07-09-2020 (Monday)
- Full Paper Submission: 14-09-2020 (Monday)
- Full Paper Acceptance: 18-09-2020 (Friday)
- Paper Registration Fee Payment and camera ready paper submission: 24-09-2020 (Thursday)

PAYMENT DETAILS

Online Payment should be made through NEFT
Name: HDFC
Branch: Kapra - Sainikpuri
Name of the Account: Bhavan's Vivekananda College of Science, Humanities and Commerce
Account No: 6128145000135
RTGS/NEFT IFSC Code: HDFC0000126

Note: A screenshot of the online transfer receipt must be mailed to: icact2020@bhavansvc.ac.in.
The registration process will not be complete unless transaction details are received by us.

INTERNATIONAL E- CONFERENCE

ADVANCED COMPUTING

TECHNOLOGIES-2020

7th to 9th October, 2020

UNDER DBT-STAR COLLEGE SCHEME

Programme Schedule

(as per IST)

7th October, 2020

10.00 AM : Inaugural Session
Chief Guest & Keynote Speaker
Dr. DVLN Somayajulu
Director, IIITDM Kurnool.

Guest of Honour
Dr. K. Shyamala
Professor, Dept. of CSE & Dean, Faculty of Informatics, Osmania University, Hyderabad

12.00 Noon : Paper Presentations - Session Chair

Prof. Poola. R. K. Murti, Formerly with University of Hyderabad and NALSAR University of Law

02.30 PM : "Blockchain Technology Privacy, Security and Applications"
Mr. G. Mahesh Kumar
Asst. Professor, Dept. of Computer Science, Bhavan's Vivekananda College,
Sainikpuri, Secunderabad, Telangana State, India.

8th October, 2020

**10.00 AM : "Deep Learning Architectures for Adverse Drug Event
Extraction from Heterogenous Information Sources"**
Dr. Bharath Dandala
Research Staff Member- Watson EMRA, USA

11.00 AM : Paper Presentations - Session Chair

Dr. N. S. Chakravarty, Head, Dept. of Management Studies,
Bhavan's Vivekananda College

01.00 PM : Paper Presentations - Session Chair

Prof. S. Jeelani, Director, Center for Distance and Virtual Learning, University of Hyderabad

03.00 PM : "IT Service Management, Service Delivery, and Security"
Mr. Clinton Randall IV
Senior Director, IT Service Management at Integral Consulting Services Inc., USA
innovative enterprise IT management professional leading Integral's Ivanti, CA and BMC
Services practices

9th October, 2020

10.00 AM : "Introduction to Deep Learning and Applications"
Dr. Bapi Raju S
Professor, Cognitive Science Lab, IIIT Hyderabad

11.30 AM : Paper Presentations - Session Chair

Prof. M. V. Ramanamurthy, Head, Dept. of M&H, MGIT, Hyderabad

12.30 PM : Valedictory Program
Chief Guest
Dr. C. Goverdhan,
Associate Professor, Department of Mathematics, University College of Science,
Osmania University, Hyderabad

Day-1:(October7,2020)

A 3-Day **International E-Conference on Advanced Computing Technologies- ICACT 2020** was organized by the Department of Computer Science of **Bhavan's Vivekananda College, Sainikpuri Secunderabad.**

The Inaugural Session of the conference began with a prayer invoking the blessings of Almighty. **Prof. Y Ashok, Principal, Bhavan's Vivekananda College,** welcomed all the national and international dignitaries invited for the conference along with the participants who had submitted their research papers to be presented at the conference. **Mrs. KVB Saraswathi, Convener,** gave the report on the Conference. She stated that there was a very good response in the number of papers received, both from National and International forums which would be published in very reputed Indexed journals such as - Scopus or Web of Science after they are subjected to review.

The **Chief Guest** for the Inaugural Session was **Dr. DVLN Somayajulu Garu, Director, Indian Institute of Information Technology, Design and Manufacturing, Kurnool, Andhra Pradesh,** a renowned academician. His session highlighted the importance of Artificial Intelligence, and its impact in the area of industry, education and other fields. He motivated the students towards Innovations in Artificial Intelligence and Machine Learning through RAISE-2020(Responsible Artificial Intelligence for Social Empowerment) initiated by the Ministry of Electronics and Information Technology in association with NITI Aayog. He also focused on the changes that were made towards education through National Policy-2020 to encourage the students towards research.

The **Guest of Honor** for the session was **Dr K Shyamala, Professor, Dept. of CSE, Dean, Faculty of Informatics, Osmania University, Hyderabad.** Her talk was very enlightening as she focused on the challenges being posed in terms of Data Security on Social Media.

The Inaugural session was followed by Paper Presentations in Track-I. Papers were presented on various topics such as Network Security, Wireless Networks, Big Data, Deep Learning, and Artificial Intelligence.

In the afternoon session, **Mr. G Mahesh Kumar, Assistant Professor, Department of Computer Science, and Co-Convener of the International E-Conference,** spoke at length on the topic "Blockchain technology- Security, Privacy and Applications".

The day's events concluded with this session.

Around 390 participants in the form of academicians, teaching faculty, research scholars and Industry Personnel took part on Day 1 of the conference.

Day-2: (October 8,2020)

The Day-2 of the International E-Conference on Advanced Computing Technologies (ICACT-2020) began with a prayer song, and a briefing on the events that were held on Day-1.

The Session-1 began with an eloquent introduction of the Speaker, Dr Bharath Dandala,

Dr. Bharath Dandala is a Research Staff member working for *Watson EMRA, USA*. He delivered an incisive talk on the topic “Deep Learning Architectures on Adverse Drug Event Extraction from Heterogeneous Information Sources”. He discussed in detail about the Clinical Natural Language Processing, the software and the tools used for NLP and the role of Artificial Intelligence in Clinical and Drug Diagnosis.

The morning session was followed by two tracks of Paper presentations on topics related to : Data Mining, Artificial Intelligence, Cloud Computing, Internet of Things and so on.

The afternoon session also had an eminent International Speaker, **Mr. Clinton Randall IV**, *Senior Director, IT Service Management, Integral Consulting Services Inc., USA*. He spoke extensively on his area of expertise- “IT Services Management, Service Delivery and Security”.

Both the sessions of the day were very insightful, bringing in the latest developments in the field of technology to the participants.

The Day2 of the E-Conference saw a participation of around 170 participants .

Day-3:(October 9,2020)

The Day 3 of the International E-Conference began with a lecture by **Dr. S Bapi Raju**, *Professor, Cognitive Science Lab, IIT, Hyderabad on the topic “Introduction to Deep Learning”*.

He focused mainly on Convolutional Neural Networks which could be applied to analyze visual imagery. He also elucidated on the shift invariant or space invariant artificial neural networks, based on their shared-weights architecture and translation invariance characteristics.

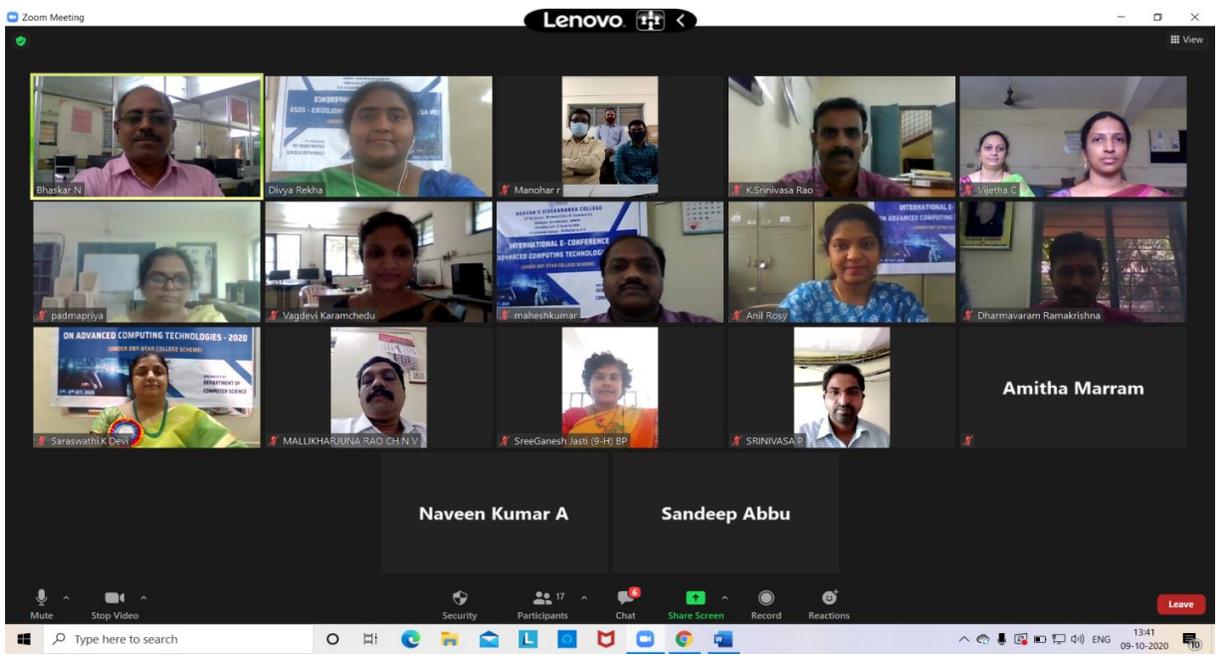

The Chief Guest for the Valedictory session was **Dr. C Goverdhan**, an Associate Professor in Mathematics at University College of Science, Osmania University. Mrs. KVB Saraswathi ,was the Convener of ICACT-2020, Mr. N Bhaskar and Mr. G Mahesh Kumar were the Co-Conveners who were present for the valedictory session.

The Day 3 of the e-conference had 214 participants .There were altogether 4- tracks of paper presentations for all the three days on topics like- Artificial Intelligence, BigT Data, Cloud Computing, Deep Learning, Machine Learning, Internet of Things, Cyber Security, Network Security and other related areas.

The program concluded with Vote of thanks.

Webinar on Android with SQLITE Database

Mr. CH. N. V. Mallikarjuna Rao
Department of Computer Science
9347627325

Computer Science Department has conducted Webinar for students using Platform Android on July 18th 2020. There were around 208 Registrations for Android Webinar and 135 Participants have participated. We had the opportunity of displaying all the previous Years Android Course Visuals at 12.00 Noon. In continuation, we have gone through the Session Rules & Regulations, which are a must to maintain and Observe discipline. Mr. Dillip Kumar Patro has introduced on the ongoing Online Android Course and its snapshot in a short Brief and also Mr. Dillip has given the outcome of the Webinar at 12.30 pm.

Mr. Dillip has requested Ms.SaraswatiMam (HOD-Computer science) to address all the Participants. HOD madam has briefed about the history, Facts of Android and expressed the current scenario of the Present Android Platform. Mr. Dillip has introduced the speaker Profile Mr. Anand Jala –Asst Manager at KFINTECH PVT LTD and shared information about the speaker.

The speaker Mr. Anand Jala began the session by Introducing SQLITE Database with Android Studio to all the participants. Speaker also shared Valuable information on the various methods to be used in Android Studio. The speaker also shared important Information about google Maps activity being used in Android Studio.

Thereafter Mr. Shiva had the opportunity to summarize all the whole session. Mr. Shiva has also collected all the questions from Participants and got them clarified with the speaker and the session was summarized. Mr. Shiva has finally given the Vote of Thanks to The Institute, The Speaker, Department of computer science and all the crew members. The E- Certificates were also sent to all the Participants with the help of their Feedback forms.
