

## **Institutional Distinctiveness**

### **Student empowerment programmes**

The teaching-learning environment of the college resonates its vision and mission. The college strives to empower its students. It makes them strong and confident individuals who are not merely passive recipients but contribute actively to the teaching-learning environment. The students learn and help their peer learn, participate and organise, practice and implement, work independently and collaborate, think and innovate. They do not merely gain knowledge but acquire communication skills, soft skills, entrepreneurship skills and most importantly life skills.

Students are encouraged to take part in various activities conducted by the college and also those organised by other colleges/organisations. The pedagogy and the programmes/activities instil achiever's attitude and transform students into motivated, focused, goal-oriented, skillful, responsible and empowered individuals with the potential to dream, pursue and accomplish. Self-awareness, environmental consciousness, social consciousness and gender sensitivity are instilled through various programmes and activities.

The following are the student empowerment activities/programmes:

- Activities enhancing Language, Communication Skills, Soft Skills and Value Orientation
- Activities promoting entrepreneurship and innovation
- Activities promoting environmental consciousness
- Activities promoting patriotic fervor
- Activities promoting social consciousness
- Knowledge Enhancement Programmes
- Celebration of commemorative days
- Extracurricular and co-curricular activities
- Student feedback
- Student representation
- Student-empowered learning
