Gp Capt C Suresh- IAF

**Venue:**

Vivekananda Convention  
Centre, CDM, Sainikpuri,  
Secunderabad

Date: 16.11.2024

Time: 10:30 am to 1:00 pm

**Army:** A career in the Army offers opportunities to serve the nation while building skills in leadership, discipline, and resilience. Roles vary from combat positions to engineering, logistics, and medical support. It's a challenging and fulfilling path where you'll develop both physical and mental endurance.

**Air Force:** For those interested in technology, aviation, or advanced engineering, the Air Force provides cutting-edge training and opportunities. Careers in the Air Force require precision and a focus on teamwork, with roles ranging from pilots and aerospace engineers to air traffic controllers and IT specialists.

**Navy:** The Navy opens doors to a life at sea, where you'll work on advanced ships, submarines, and aircraft. Ideal for those interested in maritime service, it includes careers in navigation, engineering, communications, and logistics. The Navy also provides extensive travel opportunities, allowing you to experience global deployments and diverse cultures.

**Organizing Team :**

**Ms. M Prasanna**
