Importance of Meditation by Brahma Kumaries

Meditation is the journey inwards, a journey of self-discovery or, in fact, re-discovery. Meditation is time taken for quiet reflection and silence, away from the hustle and bustle of daily living. Taking time out enables us to come back to a centred place of being. In our modern world, the pace of life is growing ever faster and we are losing touch with our true inner peace and power. When we no longer feel grounded, we can experience ourselves pushed and pulled in many different directions. It is at this point that we start to experience stress and a feeling of being trapped. Gradually, over time, this feeling leads to illness and disease, as our mental, emotional and physical health is thrown out of balance. They explained this with the following steps.

Step 1- Relaxation

Step 2- Concentration

Step 3- Contemplation

Step 4- Realisation

Step 5- Meditation

We thank Mr B Das from Political Science Department for providing this awareness Program

One Day Life of Volunteer- Photo Shoot Program-
