

ACTIVITIES 2015-16

PSCIFE this year had lot of additions. Its growth as a club and the amount of activities it has to its name is immense. This year we conducted more competitions as compared to the last year. Various activities were conducted like Science Crossword, Word Building, Brain teaser, Learn and share and Connectivity.

Science Crossword was conducted in the month of June for all the II and III year students. There was an overwhelming response from the students, 75 teams participated with great enthusiasm.

Word Building was conducted by PSCIFE for I year students. Students had to build up the word using words from Maths, Computers, Physics and Electronics only. It was completely a fun game and 87 teams participated.

Brain teaser consisted of two activities; one of them was Crossword on discoveries and inventions and the other was "Word Grid". Word Grid is to arrange the same set of words in a row in given time. Students really enjoyed doing it. All together there were around 50 teams participating and it was conducted in 'Bhavanotsav' an Intercollegiate Competition.

Connectivity is a quiz based on pictures. Students had to relate the given picture with a Physical Science word. There were four rounds, the first was the elimination round, in the second round the students were asked to identify the word by seeing a picture. In the third round the students were asked to identify two words by seeing the picture and the final round was to identify a famous scientist by seeing the pictures. The Students thoroughly enjoyed the activity.

This year we aimed at conducting more competitions as compared to last year. Various activities were conducted like Science Crossword, JAM, Group Discussions, Debate, Word Building, Word Art , Tambola and Science Quiz.
