

"SCIENCE AS WE SEE"

On 15th of Sept 2018 Department of Chemistry had organized a drawing competition open to all the students of UG & PG programme in the college.

The competition was titled as "Science as we see", where 40 students took active participation and had put forward their novel thoughts on everyday science as they see through their eyes.

Many innovative ideas were put forward by the students, some relating present science to future, some depicted the boons of science & some addressed the major concerns with development of science on humans. Harshini of MBiC III year won the first prize, second prize was bagged by Manju Mohan of MBiC III year and Shanvanth Doha of BtGC I year won the third prize.

The event was a vibrant, colourful and cheerful one with amazing novel ideas of science put forward by the students.
