

Yuva Mahotsav

Natural dyes: Students of B.Sc. I, Tejaswini (left) and Sai Gayatri show natural dyes prepared from spinach leaves (green), tomato fruits (red), turmeric rhizomes (yellow), and carrots (orange) as alternatives to chemical dyes used in rangoli powders.

Microbes in food: Students of B.Sc.I isolated and stained microbes from idly/dosa batter and explained the role of microbes in spoilage of fruits and vegetables.

Nutrition desk: Sai Priya, G. Lahiri, Navya, and Sujata of B.Sc. II explain the caloric values of various food groups to Dr. Y. Ashok, Principal of our college.

Nutrition desk: Laxmi Bhavani (left) and Akshitha (right) of B.Sc. III used charts to provide information about nutrition and diet (as M. R. Rachana watches (center)).
