

Village Surveys and Field Work Details (From 2021-2022)

As part of the Unnat Bharat Abhiyan (UBA) requirements, detailed village-level and household surveys were carried out in all five adopted villages. The surveys enabled meaningful interaction with the rural community, assessment of basic needs, and collection of socio-economic data.

The survey schedule was as follows:

Village	District	Date of Survey
Yadgar Palli	Medchal	9th & 10th December 2021
Narsapur	Sangareddy	28th April 2022
Cheeryal	Medchal	26th April 2022
Nemuragomla	Yadagirigutta	30th April 2022
Patighanpur	Sangareddy	13th April 2022

All surveys were conducted using the official Unnat Bharat Abhiyan proforma, and the collected data was compiled and submitted to UBA authorities.

Major Findings / Problems Identified in Villages

During the household and village surveys, the following key issues and developmental gaps were identified:

- Lack of **street lights**
- Absence of **public toilets**
- **Poor awareness** of central government schemes
- **Poor maintenance of drainage systems**
- Inadequate **transport facilities**
- Lack of awareness about **government pension schemes**
- **Damaged and incomplete road infrastructure** in various areas
- **Mosquito-related issues** due to water stagnation and sanitation gaps
- Limited access to **clean drinking water** in some pockets (if applicable)
- Need for **solid waste management measures**

These observations highlight the requirement for enhanced infrastructure, sanitation, transportation connectivity, and awareness programs in the adopted villages.
