Bhavya Cell Orientation Program

08 July 2026

3:52 PM to 4:30 PM

Biochemistry block room number 71.

Bhavya – The Women's Cell organized an induction programme to welcome newly enrolled students and introduce them to the purpose and vision of the cell. The programme highlighted the importance of creating a safe, inclusive, and empowering environment where students can express themselves, develop leadership skills, and actively contribute to meaningful initiatives.

During the session, the objectives, structure, and various departments of the cell were explained in detail. Students were informed about the activities, awareness campaigns, workshops, community outreach programmes, and events conducted by the cell throughout the academic year, enabling them to understand the opportunities available for their personal and professional growth.

The induction programme also encouraged students to actively participate in the cell's initiatives and become responsible contributors to its mission. Through interactive discussions and guidance from the coordinators, participants gained a clear understanding of how their involvement can help promote equality, awareness, and women's empowerment within the college community.

The program was attended by Mrs. P. Ajitha (Coordinator), Siddhartha (Student Coordinator), Muskan (Student Co-Coordinator), department heads, Bhavya Cell members, and students.

The session began with an address by Mrs. P. Ajitha, who explained the purpose of the Bhavya Cell and motivated students to actively contribute to its activities.

The orientation aimed to create awareness about women empowerment, gender equality, women's rights, workshops, awareness drives, and the Communication and Outreach initiatives of the cell.

The session introduced the activities of the Bhavya Cell and the Student Committee members responsible for various departments. The students responded positively and showed enthusiasm to participate in the cell's future activities.

The program concluded with a Vote of Thanks, appreciating the efforts of the faculty member, coordinators, department heads, and participants. The orientation successfully introduced the Bhavya Cell and its objectives.

Mrs. P. Ajitha (Coordinator), Siddhartha (Student Coordinator), Muskan (Student Co-Coordinator), Bhavya Cell members, and students.
